BRANT'S INDIAN PULMONARY BALSAM,

The Great COUGH REMEDY

Many years of experience, and more than a **Hundred Thousand Cures** of **Consumptive** Complaints, have proved to the proprietor the efficacy of all persons who have become acquainted with this *wonderful remedy*, that it **is greatly superior,** because it is *soothing* and *healing*, and *more certain* to **cure Consumption** of the **Lungs,** than any other Remedy in the world. We know, however, that it is said by some that Consumption can not be cured. Be that the opinion of the many or the few, we shall not attempt to argue with such, but this we will say, and do *insert* as a fact, which can be proved to **thousands** of cases, that this medicine **has cured** Coughs and *diseases which are the cause of what is called* **Consumption,** and which were attended with *symptoms* that resembled, and were in **all** *respects like* the symptoms of those who did, and who now are said to have died with that fatal disease, **Consumption.** This Balsam has cured thousands of persons who were said to be hopelessly afflicted—who had *hectic, dry, rending* **Coughs**—Fever in the **Breast,** *Night, and Day* **Difficulty** in **Breathing**—*Pleurisy, Expectoration—Hectic Fever—Night-Sweats*—and **wasting away** of the **Flesh** and **Blood.** Persons having such complaints have tried every remedy they could hear of, if they were sick or weak a week longer. This Medicine has cured some who were supposed to be in a **dying state,** but, by the use of this remedy, they **now live,** and enjoy good health.

This Balsam is *purely a vegetable compound.* It is pleasant to take, and never does harm in any stage of disease to the most delicate constitution. It effects the **wonderful** and almost **miraculous Cures** by **Purifying,** *Strengthening,* and **Invigorating** the whole system—by *quieting the circulation,* and producing a *healthy action* thus *allaying* **Cough**—*healing the* **Nerves**—and *oiling and facilitating* **Expectoration.** It Cures the following diseases, viz:—

Consumption,

COUGHS and *Colds, Bronchitis, Influenza, Spitting of Blood, Bleeding at the Lungs, Pain in the Breast, Side, and Chest; Nervousness, Night Sweats, Palpitation of the Heart,* and all **FEMALE WEAKNESSES** and *Complaints* arising therefrom, Children's Infantine, &c.

☞ For Prices and particulars of Cures, see our **Pamphlets** and *Handbills*—all our Agents have them to give away.

Valuable FARM FOR SALE.

THE subscriber will sell at public sale, at the House of Theodore Weiler, in the borough of Muncy, Lycoming county,

On WEDNESDAY, the 12th day of NOVEMBER, 1851,

A Valuable Farm,

situate in Muncy township, Lycoming county, containing

200 ACRES,

more or less—adjoining lands of Benjamin Wagner, Jacob Haines, James Robb, Samuel Wallis, and others. To be sold as the estate of Edward Gobin, dec'd.

It is within three miles of the Borough of Muncy, and a half mile from a limestone bank, now worked, and that vein of limestone extends into this tract. About 9000 bushels of lime have been spread on the farm within three years past. There are never failing springs in nearly all the fields, and Wolf Run passes through the middle of the tract. The spring at the house is remarkably large and fine. The situation is healthy and every way desirable. The improvements are a large sized two story

DWELLING HOUSE,

a one and a half story frame DWELLING HOUSE, lately finished, a large BANK BARN, very well finished, and provided with extensive stabling for horses, cattle and sheep, a Wagon House and corn crib, with grainaries above, a Smoke House, a two story Spring House, plastered, and other out buildings.—There is a large

APPLE ORCHARD

of fine fruit, and a large number of Peach, Pair, Plum, and other fruit trees, of a fine quality on the premises.

About 150 Acres are cleared and under fence, and the fences are mostly in good repair. The balance of the land is well timbered.

The place has been carefully farmed, and is now in a fine state of cultivation.

Sale to commence at 11 o'clock, of said day, when the conditions will be made known by

CHARLES GOBIN,
Executor of EDWARD GOBIN, dec'd.

PROCLAMATION.

NOTICE is hereby given that the several Courts of Common Pleas, General Quarter Sessions of the peace, and Orphans' Court, Court of Oyer and Terminer and General Jail Delivery, in and for the county of Northumberland, to commence at the Court House, in the borough of Sunbury, at 10 o'clock, A. M. on Monday, the 3d day of November next, and will continue TWO WEEKS.

The coroner, Justices of the Peace and constables in and for the county of Northumberland, are requested to be then and there in their proper persons, with their rolls, records, inquisitions, and other remembrances, to do those things to their several offices appertaining to be done. And all witnesses prosecuting in behalf of the Commonwealth against any prisoner are also requested and commanded to be then and there attending in their proper persons to prosecute against him, as shall be just—and not to depart without leave at their peril. Jurors are requested to be punctual in their attendance, at the time appointed agreeable to their notices.

Given under my hand at Sunbury, the 11th day of October, in the year of our Lord one thousand eight hundred and fifty-one—and the Independence of the United States of America the 76th.

JAMES COVERT, SH'F.

God save the Commonwealth.

LIGHTNING RODS.

THE subscriber has constructed a LIGHTNING ROD on true Philosophical principles, by which buildings supplied with them are rendered perfectly secure against destruction by lightning. The connection and insulation of the rod, as well as the preparation of the ground rod, is on an entirely new plan, making a more perfect conductor than any heretofore in use.

Measures have been taken to secure Letters Patent for the improvement.

Persons desirous of securing their lives and property from destruction by lightning, can have conductors put up to their buildings in the most perfect and substantial manner, by applying either personally or by letter, to the undersigned, at the following prices:

For 40 ft. with a good *silver* plated point $10,00
For 40 ft. with *gold* plated point, *platina tip,* 12,50
And twenty cents for every additional foot over forty.

MECHANICSBURG INSTITUTE.

A Select School for Young Ladies.

THE Mechanicsburg Institute is pleasantly located in the healthy village of Mechanicsburg, Cumberland county, nine miles west of Harrisburg; a village noted throughout the surrounding Counties for the morality of its citizens. It is accessible by railroad, the Cumberland Valley Railroad passing through the place.

The course of instruction is such as is pursued in the best Seminaries in the country.

It is the design of the Principal to instruct the intellectual powers, to cultivate becoming manners, and to educate in such a manner, as may prove practically useful.

Sessions.

The school year is divided into two semi-annual sessions, each of five calendar months.

The summer session commences the first week in April, and closes during the last week of August. The winter session commences the 1st week in October, and terminates the last week of February.

At the close of each session there will be public examinations.

VEGETABLE CATTLE POWDER

PREPARED BY

BREINIG, FRONEFIELD & CO.

No. 187 North Third Street, Philadelphia.

THIS powder is entitled by the united testimony of all who have used it to the first rank of all these CATTLE MEDICINES, which have been thought praiseworthy for many years. Indeed we challenge any person to make a superior, or any powder that acts in the same manner. If the animal be perfectly healthy it will either increase the amount of milk or cream and butter; or the animal will improve rapidly in fat. It will therefore in time be considered we have no doubt one of the staple articles of every Farmer, who keeps a dairy; and of every person owning a horse. It is a class of those kind of MIXTURES that merely swell an animal up for a short time, but it will by the capacity which it has of converting HIPPURIC ACID (which is an effete matter) into LACTIC ACID or OLEINE; cause a greater amount of nutritious matter to be extracted from the same amount of food, than possibly could be, were the active principles of nutrition to pass out of the system in the form of Hippuric Acid.—We have received a multitude of evidence to prove what we have told above. Suffice to say:

We have mixed the active agent, with a great number of VEGETABLE plants and herbs, which time and use have proved to be useful, improving the appetite and promoting digestion of the food; thus securing a healthy condition of the blood, from which the MILK and FAT must be formed. It may be used for Horses, Cows and Hogs for the following complaints and diseases.

HORSES.

YELLOW WATER, a dangerous sickness, which destroys many valuable horses every year, is very often entirely cured by the free use of this powder, in all cases it will prevent the disease from coming on.

This disease is owing to a foul and impoverished state of the blood which becomes thin, watery and of an yellow color.

This powder by improving the stomach and giving to the blood a greater quantity of red particles, affords the best and only possible chance of recovery. If the horse is fat or not, give morning and night a tablespoonful in wet feed, it is the beginning once a day at a time, it only to prevent the disease twice a week.

SLABBERING.—This is the retention of many valuable Horses by exhaustion; by a constant discharge of saliva which ought to assist the stomach to assist digestion. It is a species of salivation often produced by Indian Tobacco growing in the pastures generally. A Tablespoonful three times a week will frequently arrest the flow, it it does not depend on the Tobacco in the grass, under such circumstances the animal must be kept in the stable.

DISTEMPER.—If the powder be early and freely used, no other remedy need be used, it has already cured hundreds of Horses of this troublesome disease to the surprise of those who used it. If not used early, but no matter how formed in the neck it cannot resist the mild powder until the matter is discharged, use it early and prevent such a result. A Tablespoonful once or twice a day is enough.

GLANDERS.—This disease has baffled all Farriers.—Give the powder a fair trial and it will do wonders in this terrible and hitherto incurable malady. It is a disease of the glandular system and kept up by imperfect nutrition, the best cure is a Tablespoonful every day for a month or if very bad, two months, will cure. Many cases out of a dozen effect a cure, it has been fairly tested.

Coughs and shortness of Breath depending on weak lungs, a Tablespoonful every morning; or it abates once or twice a week.

POOR LOW-SPIRITED HORSES, or where there is any tendency to Founder or stiffness in the joints, and the Horse will not fatten, or where the hair does not stand straight out, the food seems to do no good, the Powder produces almost immediate improvement of the animal; the digestion improves and quickly all the energies of the animal are improved, becoming lively and spirited, and the hair soon shows a change.

COWS.

For Milking Cows, we are fully convinced that it not only improves the quality, but that it increases the quantity of Milk, Cream and Butter; some who have tried the experiment say a Pound a Week, others say half a pound while one person insisted upon it that he made two pounds in a week from each Cows. We think it will be found it is worth from a half to a pound per week on each Cow, if the Cows are perfectly healthy. This additional quantity is made by the conversion of the Hippuric Acid into Nitrogenous and Fatty compounds; also by supplying the oxygen taken in by the lungs, with the elements of reaction; without taking away from the Nitrogenous portion of the food.

HOLLOW HORN or WOLF; HOOF DISEASE, and all other diseases of neat cattle depending upon a bad state of the fluids, are tried specifically and effectually.—Cows, whose milk is thin, thin and watery and where it does not yield much cream, or where Cows give heavy milk, or which are hard to stand long dry, it will be found an almost infallible remedy, by improving the condition of the blood and creating a healthy digestion; a Tablespoonful every day or every other day as it may be necessary.

HOGS.

Fire in the summer often overheat themselves, get swelled necks, coughs, obstructions in the Lungs and Liver, which cause them to die very suddenly, these may be prevented entirely by putting a powder in a feed, or a Barrel of swill; and it will at the same time considerably hasten the fattening process.

N. B.—In an animal which is giving milk and you are desirous to fatten at the same time, you should not give more than a tablespoonful once a week in a good nourishing potation or feed by increasing the am ount of Milk.

Let each person try its effects for himself and he will also be satisfied of its excellent qualities, and that no Farmer should be without it.
