MONDAY, OCT 3, 1864.

The Treasury department called for a new loan [illegible] millions. The immediate effect is to tighten the money market, and hasten the decline in stocks and merchandise. Our eastern and western exchanges bring again to hand the stories of over-trading and speculation. We find sentences like the following scattered far too liberally in financial and commercial columns: "The suspension of Messrs. ——— in the coffee trade is more serious than at first supposed." "Messrs. ——— failed to meet their contracts this morning. "No more failures of importance to report this P. M."

The spirit of [illegible] rarely reaches Pittsburgh, and we trust and believe that we will have but few, if any, such statements to make in our daily reports. Pittsburgh has always had and still maintains abroad and at home, for her Merchants and Bankers alike, a reputation for careful trading and fair dealing in advance of any city in the Union. She has always kept it, and now while other cities east and west are panic-stricken at the results of their vicious over-trading, let Pittsburgh show to the country that her prosperity rests upon a solid basis—that she has nothing to fear from coming storms—that her commercial and financial stability is as secured and permanent as the iron be a from which her wealth is drawn.

Should a panic rule the hour in other quarters, there is certainly no reason why it should here. We must accommodate ourselves to the change in affairs, doubtless, but a manufacturing city like ours ought to be able to meet all "changes" with fortitude and without fear.

The business at the Stock Board to-day was quite limited, and we correct our list but slightly. We have to report sales of 5-20's (ex coupons) at 107¾; A. V. R. R. shares at $10; Dalzell Oil, 5½; Columbia, 73; Cherry Run, 1½; Noble & Delamater, 12½; Oil Basin, 15½, bid 13 asked, Acme, $15, freely bid; none offered. Gold, 185 [illegible].

The German Trust Co. have declared a dividend of 8 per cent.

We extract the following paragraphs from an excellent article which recently appeared in the New York Commercial Advertiser, headed "Cash vs. Credit:"

"There are times when traders should purchase to the least possible extent upon credit. In the downward fluctuations of a legal tender currency the party who buys on credit is inevitably a loser, and the merchant who sells on credit a gainer—that is as far as his customers prove able to pay him in full.

Notwithstanding the contraction of credit among wholesale merchants, firms are still found who are willing to sell freely on short time, under a view of raising an extra profit to just the extent that their customers lose. This, however, is a process which tends directly toward the bankruptcy of the buyers, and cannot be long persisted in without incurring heavy losses from bad debts. Some of our fashionable merchants, in expectation of the fall in gold, have been paying cash for all they have bought, and selling to a large extent, on credit. Suppose one of these firms to have sold, during a week about the middle of September, when gold was over 250, goods to the amount of over $100,000, on 30 days' credit. The amounts fall due with gold at 200, and they receive a sum, the purchasing power of which is equal to $125,000 with gold at 250. Thus, while these parties are selling goods now at prices which are purposely supposed to make them a loss of 25 per cent, they are making a gain of 25 per cent upon their credits; and, at the same time, having paid for their goods with gold at 250, the present reduction in prices involves them in no loss, the purchasing power of the currency being increased in the same proportion as their prices are reduced. The only way by which traders can avoid falling a prey to this policy is to conduct their business strictly upon a cash basis.

The New York Herald of Saturday says: The belief is now becoming general that the natural tendency is gold is downwards, and hence many of the speculator in trade and stocks are anticipating the result. The "bears" on the Stock Exchange have been selling "short" [illegible] freely, and in the general merchandise markets there is a strong disposition to press sales at a sacrifice, but buyers are very reluctant to purchase more than enough to supply their immediate necessities. The natural consequence of this state of things is great stagnation in trade and a drooping stock market. Meanwhile the favorable and steady improving aspect of the military situation is operating powerfully to accelerate the fall of gold, which, in its turn, will exercise a corresponding influence upon prices for property of all descriptions.

There were rumors afloat to day of several large failures, but they were not traceable to any authentic source. That of Wright, Maxwell & Co., a branch of the Rio Janeiro house of that name, engaged in the coffee trade, is the only one of consequence vouched for. The suspension is said to be attributed to losses on foreign exchange operations, and the heavy decline in merchandise and gold. It is well known by those best informed that many houses are in a shaky condition, through their speculation in foreign exchange having gone against them, but this, in addition to their heavy losses on their ordinary importations, is likely to prove fatal to the solvency of not a few of their number, among whom are parties generally supposed to be entirely exempt of risks of speculation in foreign bills or gold. The anxiety among the commercial community relative to the solvency of houses hitherto in good credit, is increasing, and the sense of insecurity which this breeds, is becoming very general, and credits are being rapidly curtailed. The banks and private capitalists are pursuing a strictly close, vigilant and defensive policy with regard to discounts, and even prime paper is declined at nine per cent. The volume of commercial paper offering is very limited, and from twelve to fifteen per cent is willingly paid for discounts at short dates on good names.

The speculators in produce are still making strong efforts to keep up prices in the face of the decline of the gold premium, and this is specially observable in the article of pork, which [illegible] for newly four dollars and forty cents [illegible] gold should [illegible].

The Boston [illegible] of Saturday says: Mining stocks have been only [illegible], although there have been as many buyers as sellers, at the decline. They were about the first to feel the effect of the late panic, and it is thought that they may be the first to be brought up by a speculative revival. There were not any sales of Quincy, Pittsburgh, or Central, which are mainly held for permanent investment; but there was more disposition both to sell and buy Pewabic, Franklin, National Paconia, Isle Royale, Minnesota, Copper Falls, Bay State, Minnesota, and Albany and Boston.

The copper mines which bear the above mentioned names are bullion to be so genuine, and so possess more or less intrinsic value, beyond the prices at which their respective shares are being sold in the market. In times of great speculative excitement they may be run up to high and fancy valuations, to come down again to lower figures, as they lately have done; but a good deal of money has been made heretofore by those operators who have had the foresight and courage to buy them in times of depression, and then move to hold on.

PITTSBURGH MARKETS.

MONDAY, OCT. 3, 1864.

Business generally continues extremely dull and depressed, and there are but few new features in the general markets worthy of notice. The impression almost universally prevails, now, that there must be a still further depreciation in values, and while this continues buyers will hold back, and no improvement in trade can reasonably be looked for.

GRAIN—With the exception of a few small sales of wheat from wagon, at previous prices, there is no movement in the article. Barley is steady with regular sales from first hands at $1,75. Oats quiet but unchanged; small sales from store at 83a90c. Corn is dull and nominal at $1,50 by the car load, and $1,52a1,60 for small lots from store.

FLOUR—There is no improvement to note in this article, either as regards prices or demand. The receipts continue fair and the supply on hand, although by no means very large, is nevertheless somewhat in excess of the demand. The only sale we have to report is 75 bbls "Monongahela"—at the trade—at $9,25 for extra and $9,75 for extra family.

BACON—Is dull and neglected, but without quotable change. We report some few small sales at 19 cents for shoulders, 20 for ribbed sides and plain hams; 22 for plain canvassed and 25a26 for sugar cured.

BUTTER—Continues extremely dull and the tendency is toward lower rates. Packed cannot be quoted at over 35a37, while prime roll is dull at 38.

EGGS—Less active and a shade lower, ranging from 22a23 cents.

CRANBERRIES—Firm with some few small sales at 14,50a16 per bbl. Stock light.

SWEET POTATOES—More active, and a shade firmer, but unchanged—$5 per bbl.

LARD—Is dull and lower, with small sales at from 22 to 24c.

SEEDS—Quiet and nominally unchanged. Timothy is quoted at $5,50 per bush, and clover at 14,75a15. Nothing doing in flax.

CHEESE—Is steady with a fair jobbing demand at previous rates.

APPLES—In fair demand and steady at from 2,75 to $3 per bbl.

MILL FEED—Sales of 4 tons of bran from store at $32 per ton.

HAY—We note a small sale of baled on wharf at $35 per ton.

SALT—Unchanged; sale of 50 bbls from depot, at $3 per barrel.

Pittsburgh Petroleum Market.

OCT. 3—There was considerable activity in the market to-day for Crude, not that there was any improvement in the demand, but owing to the fact that holders, in order to effect sales, made a material concession in prices. We notice a sale of 2000 bbls at 26, bbls returned; 600 do do at 25; 200 do do at 27; and 150 do at from 21½ to 23, bbls included. The market closed dull at 25, bbls returned, and this may now be regarded as the ruling rate. So far as Refined is concerned, either bond or free, there is so little said about it, that the trade appears to have almost forgotten that there is such an article in existence. There appears to be no demand from any source whatever, and as there have been no sales for some time, it is impossible to give quotations. Naptha and Residuum, also, are quiet and dull—especially the former.

The receipts of Crude by the Allegheny river since our last report are as follows:

M'Kelvy & Miller	814	B Asworth	114
Maxwell & Palmer	60	D Bushnell	123
Fisher & Bro	236	Peacock & Ball	312
J Gillespie	235	O G Brown	37

NEW YORK, October 3—Crude continues dull and prices are still receding—35½a37 on the spot. Refined, in bond as well as free, is very dull and the nominal quotations are 63 for the former, and 73 for the latter. The market for Naptha is dull and 43 is the nominal quotation.

Philadelphia Stock Market.

Special Dispatch to the Pittsburgh Gazette.

PHILADELPHIA, October 3.—The market for Oil Stocks continues very dull and prices are still receding. The following are the closing quotations: McElhany, 5; M'Clintock, 6; Densmore, 8¾; Dalzell, 6½; Union Petroleum Co, 3½; Story Farm, 3¼; Bull Creek, 4½; Union Planter, 5; Big Tank, 31-10.

Government Securities—U S Sixes, 1881, 105a106; One Year Certificates, 93½; Seven Thirties, 107½; Five Twenties, 106½. Weekly Review of the New York Petroleum Market.

Reported for the Pittsburgh Gazette.

NEW YORK, SATURDAY 1, 1864.

The gold panic has kept the market for Petroleum, as well as for all other commodities in an unsettled state during the entire week past, but all kinds are very much lower. Crude has receded 5a6c per gallon, but Refined in bond and free, is fully 10c lower than it was a week ago, this A. M. There was a wide difference in the views of buyers and sellers of Refined until yesterday, when holders met purchasers freely. The failure of one of the largest speculators is reported, and if true, it will cause heavy losses among the trade, as a good deal of oil has been kept to tender on contracts, which might have been sold at from 10 to 20c more per gallon for export before the fall of gold, than can now be obtained. Though the market has been called dull and heavy all through the week, the sales for shipment have been fair.

Of Crude the sales comprise about 15,000 bbls Crude all on the spot, at from 38a38½c, but nearly all at 39a40, and the bulk at 39a39½, closing dull and nominal at 37a38—no sales.

Of Refined in bond the sales for the week comprise 16400 barrels (mainly for export) at 63a65, at from 67 to 62½, and 20,000 gallons in tins at 85 to 82c; closing dull and nominal at 63a65; very small sales made to-day at 63a64.

Of free the sales are only 5,900 barrels at 77a72, on the spot 78a80 for October, at which about 2000 barrels have been sold. Also 4,000 gallons in tins at 77a90, and 1500 do in one gallon cans at $1,10. The market closed dull and nominal at 72a73.

Naptha is dull and nominal at 45c for Refined 60a63 gravity. About 5,000 barrels sold at 45a50, and 9000 gallons in tins at from 60 to 64c.

New York Dry Goods Market.

NEW YORK, Oct. 1—The permanent effect upon the dry goods trade of the general decline of prices is not yet precisely indicated. Many of the largest dealers in this and other cities have made no decided calculations for the future. In regard to the prospects of their business, the merchants are "at sea." They neither know nor profess to know the actual value of goods. There are no standard prices, except those obtained in the auction room, which are for the most part deemed forced; yet sales are temporarily made in view of them by some of our merchants, who propose to meet the fall in this manner, though the goods sold at auction comprise only a small part of the trade catalogue. On other goods a reduction equal to the fall in the premium on gold is made by the few dealers who uniformly fix their prices according to the market value of what they sell.

All prices are nominal. Sales are made more frequently upon the terms buyers are willing to offer, than upon the terms of holders, and nearly all purchases are for immediate wants, though it is understood that some men having a reputation for shrewdness are taking goods that are offered at very low figures.

The general market is in an unsettled and feverish state, and while there is less panic than existed a week ago, but little confidence is felt, particularly among the merchants of other cities, who come here for the purpose of observation.

The retail trade in some of the houses of the highest reputation has increased of late, many persons taking advantage of the present low prices in some lines of standard goods. Fine mus lins, which sold a fortnight ago at retail for seventy-six cents, have fallen ten cents a yard.—Post.

Wool Markets

PHILA. Oct. 1—Has been dull and we reduce our quotations 5c per lb. The fall generally may be attributed to the decline in gold, the stoppage of factories for the want of water, the low prices and general stagnation of the goods market, and the prospect of a continuation of good news from the army. The speculation of wool depends very much on the course of gold, which regulates the feeling of buyers to a great extent. One argument used in favor of high prices is, that nine months must come before the next clip can be offered in the market, during which time a very large quantity of wool must be wanted. The future course of the market, however, is all speculative. The sales comprise—

15,000 lbs tub at	$1 16a1,25
20,000 lbs medium	1,03a1,10
25,000 lbs low	1 04
30,000 lbs common, and ¾ blood	90a1,05

The San Francisco Price Current of the 24 of Sept. says:—There has been rather more doing in this staple than the early part of the month, though the demand is still small and prices continue to rule low. The sales since last steamer day aggregate nearly 130,000 lbs of all grades, viz: about 40,000 lbs medium to good at 15a20c; 17,000 lbs fall clip at 15½a16c; 20,000 lbs extra fine, private—but quotable at 22c; 30,000 the wool selected at 16a20c; and 30,000 lbs private. The receipts for the period in review have been 306 bales; previously this month 1231; total for month 1537; the same period last year, 1161. Shipments have been as follows: For Coast [illegible] 118 bales; per Golden Age 784; total 902 bales. The Eagle Wing, for Boston, has completed her loading, and carries a large amount of this staple, but at this writing we have not the details.

NEW YORK, Oct. 1—The market for wool remains inactive and quotations are wholly nominal. Holders are offering their supplies at 85a95 cents, but without any response. Some 15,000 lbs have changed hands at private terms. In Foreign we have only to note sales of 350,000 lbs Valparaiso, to an Eastern manufacturer, on private terms. The woolen manufacturers have issued a call for a convention, at Springfield, Mass., on the 4th instant, to take into consideration a revision of the Tariff at the next session of Congress.

PRESIDENT—JOHN GRAFF. SECRETARY—CAPT. JAMES GORDON. TREASURER—J. R. McCUNE.

DIRECTORS:

JOHN GRAFF, WM. McKEE, J. H. LYDAY. J. R. McCUNE, J. FAWCETT, (Phila.) JEHU SMITH, Superit'nd.

This Company owns the property known as the "Mingo Coal Works," together with the "Keenan Farm" adjoining, and containing in all about 71 acres. The property is situated on the west bank of the Monongahela river, about one and a half miles above Monongahela City, in the "third pool," on which are situated 45 miners' dwelling houses, store houses, &c., together with a railway running to the river with tipple abutment and all necessary arrangements for loading coal.

The mines are already opened, drained and ventilated and in good working order, with entries driven, rooms turned, and all necessary facilities for working eighty to one hundred men; and the coal is well known to be of the very best quality. The "Mingo" is believed to be one of the most valuable coal properties in the Monongahela Valley.

The Company now proposes to increase their facilities for mining by the construction of an additional railway, and have set apart $30,000 in cash for the purpose of making contemplated improvements and providing a working capital for the new organization.

With facilities which the Company will possess, the Directors confidently believe that the "Mingo" will prove to be one of the most substantial and remunerative stocks in the country.

A limited portion of the stock is now offered to the public at $10 per share. Books will be opened at the UNION BANKING COMPANY, on September 7th, 1864. se7:tf

PITTSBURGH COAL COMPANY,

Capital............$150,000

3,000 SHARES AT $50 EACH.

DIRECTORS AND TRUSTEES:

Wm. Bagaley, John Watt, Joshua Rhodes, Chas. W. Rickstson, Wm. Phillips.

This company holds the fee simple of 1007 acres of best quality Coal Land, situate on the Monongahela river. The cost of said land at $115 per acre amounts to $115,705. The remaining $37,295 of the capital stock will be used in building a short railroad, erecting Coal Tipples and other necessary improvements, to develope the mineral of the company. This distance from the river bank to the coal already opened is but fifty feet. At a low stage of the river there are twenty feet water at the Companies Coal Mines.

From these facts the Trustees and Directors have no doubt that with proper energy the stock of the company can be very soon made highly remunerative. Thirty per cent of the subscriptions will be called in, payable on or before the 15th of September, 1864; balance of instalments as may be ordered by the Trustees and Directors, and as the company requires.
