CONDITION OF TURKEY.

Public affairs in Turkey were greatly improved by the late Sultan Mahmoud, a monarch of no ordinary ability and decision of character. By his extermination of the Janisaries, he rid the empire of an infamous prætorian cohort that had always regarded the imperial purple as a vestment of their own and had ever used its wearer as a slave of their own base purposes. He introduced many reforms in the civil administration, and by his foreign policy, he broke down the barrier of imperious bigotry and hatred that had so long held Turkey aloof from the other nations of the world. The same liberal tendencies are manifested by the present Sultan, under his enlightened Grand Vizier, Reschid Pasha; and aided and sustained as they are by foreign influence and especially by that of the admirable English Ambassador, Sir Stratford Canning they will, doubtless, result in much substantial improvement. But public corruption and oppression still remain in the ascendant throughout the Turkish empire. The administration of justice is extremely defective. There are no lawyers, no jurors, no legal precedents, and no written common law, except that contained in the Koran. Everything depends on the conscience and will of the judge. Full scope consequently is given to bribery and intimidation, and in important cases these agencies are generally employed without stint or scruple. I have been told that the present Vizier contemplates the substitution of civil code for the canonical law. But such a measure would go so far towards dissolving the present identity of the church with that state, and is so inconsistent with the whole genius of Mahometan government, that I cannot believe that it is seriously designed; or if designed, that it is practicable. The Pashas of the different provinces practice a vast deal of exaction and oppression They first acquire their offices by purchase, and afterwards idemnify themselves a dozen times over by farming the revenues, and by unjust levies on their subjects.

Physical power rather than social amelioration is the prime end of the present Government. The army and navy are its great pride and constant attention. The regular army consists of about 100,000 men, but it is now rapidly increasing by large conscriptions made all over the country to resist the threatened aggressions of Russia. The pay of the soldiers is about ninety cents a month; their uniform is no longer Turkish, but consists of a red Fez cap, blue jacket, and blue or white pantaloons. The men are generally older than other European soldiers, but yet appear like stout hardy fellows. Though they have many European officers, their field discipline is very imperfect, and their march anything but soldierly. They are well clothed, well equipped, and particularly well lodged; better barracks I have seen nowhere. The artillery is exceedingly well appointed; its stock of field pieces is immense and constantly increasing. The very day of my arrival, every shore was ringing with the first trials of 150 new brass cannon. The Turkish navy contains the finest and largest three-deckers in the world; and its strength is at every short interval reinforced by the launching of some splendid war steamer. But all the vessels are poorly manned; their crews are made up chiefly of raw conscripts from the country, who hardly know a rudder from a plough-tail.

After all, these efforts of Turkey to get up a "martial and swashing outside" remind one of an impotent old dotard creeping into fine armor and strutting under borrowed plumes. The Ottoman Empire has lost its vitality, and does not contain within itself a single element of National greatness nor a solitary germ of social regeneration. Its carcass is only upheld by the rival jealousies of the three great powers of Europe; when that sustaining force ceases to act, in consequence of open war or secret compromise, the earthly tabernacle of the Ottoman Sultans will fall to the ground forever. The Turks themselves have a presentiement that their days are well nigh numbered; and on account of this they bury their dead on the Asiatic side of the Bosphorus. A book which they regard as canonical and holy, predicts the downfall of the Western Empire 400 years after its establishment, which period, reckoning in lunar years, the Mahomedan mode of computing time, will expire in 1858.

Abdel Merschid, the present Sultan, is 26 years of age; dresses, with the exception of a Fez cap, in the European style; and, save that his face is unusually pale and deeply pitted by the small pox, has nothing very noticeable in his personal appearance. He inherits little of the intellectual vigor of his father, Mahmoud, but his heart is amiable to a degree bordering on weakness. His sensibilities are such that he never signs death warrants except in cases of the most urgent necessity. He takes scarcely any personal part in the administration of the government, choosing to leave everything to the control of his Vizier and Divan. He has five or six wives and a large Harem. The latter is regularly increased by the annual presentation of two beautiful and accomplished Circassian virgins, one by his mother, the Sultana Valede, the other by his Grand Vizier.

The old custom of sacking the unfaithful and throwing them into the Bosphorus, has become totally obsolete; but it is generally supposed that State policy still makes way with some at least of the Sultan's male offspring, for the number of his sons is always very disproportionate to that of his daughters. The Sultan is not only extremely effeminate and licentious, but the very frequently indulges in the use of spirituous liquors, and it is by no means improbable that he will meet the fate of his father, who died in the prime of his life of *delerium tremens*.

Abdel Medschid has dispensed with much of the glittering pomp that used to attend the Sultan's appearance in public, but yet he goes to the Mosque every Friday in great state. His splendid barge of 28 oars, escorted by numerous beautiful pinnaces, and gliding with swallow-like swiftness up the Golden Horn to the Mosque of Eyoub, near the valley of the Sweet Waters, amid the roaring of cannon from each side, and the cheers of the sailors and soldiers from the decks of the magnificent seventy-fours, has been one of the most stirring sights I have ever witnessed in Constantinople.—*Corres. N. Y. Cour*

M. BRENTANO, member of the provisional government of Baden, was lately at Colmar, *en route* for Havre, when he purposes sailing for America. His intention is to pass the winter at St. Louis or at Belleville, and afterwards to join his friend Hecker at his farm in Ohio, which Hecker has, it is said, purchased in that State. He is accompanied by several of his companions in misfortune.

BABIES.—The Portsmouth (Va.) Pilot publishes the births as they occur in that place, under the line from Tupper:—"A babe in a house is a well-spring of pleasure."

WISCONSIN ELECTION.—It is stated by Wisconsin papers that there can be no legal election of county officers in any county in the State. The difficulty arises from an omission in the election law.

FARMERS COMPANY
Over 70,000 Members
GUARANTY CAPITAL OVER $500,000

THE Washington County Mutual Insurance Company of Granville, N. Y., through their Agent, is now taking risks in this County and vicinity, on dwelling Houses, Churches, Taverns, Boarding Houses, Hay, Grain and Farmers produce generally. This Company takes no risks in exposed parts of villages or on Stores, Mills, Shops or Machinery, nor insures exceeding $2000 in one locality. The rates are exceedingly low, averaging less than $8 per thousand for Policies running 5 years or $1 per year. A small premium note is required, but the prosperous condition of the Company and the large accumulated cash fund, precludes all probability of there ever being an assessment. The Policies of this Company are free from objectionable conditions often found in policies of other Companies: the Company being also responsible for the correctness of business done by its Agents. It is now the most extensive Mutual Company in the United States, and universally popular among the farmers of N. Y. Mass., and Conn. All losses, however, SMALL after due notice will be promptly paid either at the place of loss or the Branch Office at Harrisburg. The Company is now under the direction of the following gentlemen: Hon David Russell late member of Congress. Hon. Solomon S. Cowen, Cornelius L. Allen, Joseph M. Bishop, H. N. Graves, Henry Holmes, Geo. Clements, Joseph U. Orvis, Arch Bishop, Geo. Young, jr., Nathan Doane.

DAVID RUSSELL, President.

Persons desiring Insurance in the above Company by informing the subscriber by letter or otherwise will receive prompt attention.

ROSE OINTMENT, FOR TETTER

READ the following certificate from Capt. Devoe, the well known and popular Shad Boat Captain of the Traveler.)

PHILADELPHIA, October 31, 1846.

Several years since I was attacked with a breaking out on my neck in the form of Tetter, which I am sorry was suffered to the Barber's Shop. It gradually extended over my face until it reached the upper part of the cheeks. During the several months that it continued spreading, I used different applications, some of which had the effect, apparently at least, of increasing the disease, but from none of them did I perceive the least benefit until I applied the ROSE OINTMENT. By the use of one jar of it, I was perfectly cured and have remained free of the affection.

I have since used the Ointment, lightly applied for roughness of the face, blotches, chapped hands, &c. With perfect success. I have no hesitation in recommending it in the strongest manner to the public.

WINSLOW'S BALSAM of HOREHOUND.

Ingratitude is the basest crime of man

WE are not among that class of Editors who for a few dollars will (at the expense of truth and honesty) "crack up" an article and bring it into rapid sale; neither are we willing to remain silent, after having tested the utility of an improvement or discovery in science or art. Our readers will recollect we told them we were unwell with a sore throat and violent cold some few weeks ago. Well, we purchased two bottles of WINSLOW'S BALSAM OF HOREHOUND and so sudden was the cure, that we forgot we ever had a cold. Those who are afflicted, may try it upon our recommendation.—*Lewiston Telegraph.*

SCROFULA

Thousands of Cures of Scrofula, Cancers, Syphilis and other impure diseases of the Blood—and if the very SMALL QUANTITY which was used of a Medicine to effect Cures of such Diseases be any proof of the purifying medical power in the Medicine will it not satisfied and conquered such Diseases—then there is unquestionable evidence that—

BRANT'S INDIAN PURIFYING EXTRACT

is such a Medicine in every respect, and there is abundant proof in *great Cures* effected, that ONE BOTTLE of it contains more purifying, healing virtue and *medical power* than there is contained in *Four Bottles of any Sarsaparilla, or any other* of the *Blood Medicines* for sale. There is undoubted proof in our pamphlets that by the use of this great *Indian Purifier* they that were DYING yet LIVE—they that were LAME and CRIPPLED CANNOT WALK—the blind were SICK, SCROFULOUS, and many in the grave, have been HEALED and CURED.

Hundreds—Thousands—

who have used BRANT'S PURIFIER, after having used and tested ALL the *sarsaparillas* and other medicines recommended to cure blood diseases, have *decided* that—

Brant's is the Cheapest,

because *One Bottle* of it has more medical curative matter in it and, in consequence, cures *more diseases* in much *less time*, than *one bottle* of any other medicine.

If, then, *ONE Bottle* of BRANT'S PURIFIER will cure *FOUR TIMES* more disease than *one bottle of sarsaparilla*—BRANT'S PURIFIER will be as *cheap at four dollars* a bottle, as *sarsaparilla at one dollar*. But BRANT'S PURIFIER is sold for only ONE DOLLAR a bottle; and as a bottle of it *has cured*, and is *capable* of curing, *Four Times* as much disease as *one bottle of sarsaparilla*, therefore, sarsaparilla, in consequence of its *less* power and *less* medical efficacy, should be sold at *no more* than *Twenty Five Cents* per bottle, to be as *cheap* as the PURIFIER at *One Dollar*.

One Dollar's Worth!

How much CASTOR—how much SPUNG is—how much SCROFULA—will *One Dollar's worth of Brant's PURIFIER* cure! Read the following statement, which is a specimen of its power.

CANCEROUS SCROFULA!

This is the case of a Dying man who yet lives. He was cured of a worse case of Scrofula, by only Twelve Bottles of Brant's Purifier, than ever was cured by the use of Twelve Gallons of any Sarsaparilla that was ever made, sarsaparilla has not the medical power to effect the cure of such a case as this is stated to be.

Mr. J. B. HASKIN, of *Rome, Oneida Co., N. Y.*, had *Scrofula four years*—was confined to his bed the *last year*—he was so much diseased and debilitated as to be unable to raise his head to his bench. He had the *best medical advice*—had used *all of the best sarsaparillas*—to no good effect—got *worse and worse*, and was considered to be in a *Dying State*, and could not live *twenty four hours* longer, who is now cured using BRANT'S PURIFIER. His neck was *seven nearly off*, from *ear to ear*—a *hole* was eaten through his *windpipe* under his chin, so that he breathed through the hole—his *ear* was so eaten around that it could be *lifted* up out of its place, it only holding by a *small* piece—the use of *one arm* was *destroyed* by two Ulcers—an *Ulcer* under the arm, as large as a man's *hand*, and nearly *eaten* through his *side into his body*. This, he was afflicted with *Twenty* such *putrid, acrid, offensive Ulcers*, on various parts of his person. For further and full particulars, see our *Pamphlets*.

Doct. THOMAS WILLIAMS, one of the most skilful physicians of Rome, was called to *see* Haskin the *day before* he commenced using *Brant's Purifier*. Doct. W. examined him, and then told him that *all the medicines in the world could not cure* him—that his case was

Worse than Hopeless!

Now hear Mr. HASKIN'S statement of cure. He says: My wife procured one bottle of *BRANT'S PURIFYING EXTRACT* of *Russell & Leonard*, Druggists, of Rome. I commenced using that and *began* to get *better*—THAT BOTTLE enabled me *to get off my bed*, where I had been confined one year—the SECOND bottle enabled me *to get out of the house*—the THIRD bottle enabled me to *Walk Two Miles* to Rome Centre, where I procured *Six Bottles* more; and when I had finished using them, *Seventeen out of Twenty* Ulcers HAD HEALED UP—and *three bottles* more effected a PERFECT CURE of all the Ulcers, and restored me to *good health*.

FOURTEEN WITNESSES!

Mr. HASKIN has sworn to the above facts, and the facts are witnessed and certified to by DOCT. T. WILLIAMS—Mr. G. H. BROWN, proprietor of the *West Rome Hotel*—Messrs. RUSSELL & LEONARD, Wholesale and retail Druggists—and ELEVEN other *respectable witnesses*.

We Challenge the World

To PROVE a Cure of as *recalcitrating* and *utterly hopeless* a case of scrofula, by the use of TEN TIMES as much *sarsaparilla*, or any other medicine, as was used of *Brant's Purifier* to effect the above cure—which cure shall be proved by as *many well-known, respectable witnesses*, as is the above cure.

Caution Extra.

A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and saw his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsparilla denominating it GENUINE Original, etc. This Townsend is no doctor, and never was; but was formerly a worker on the railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the Genuine Original Old Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's. likeness, his family coat of arms, and his signature across the coat of arms.

OLD DOCTOR JACOB TOWNSEND,
THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla!

OLD Dr. Townsend is now about 70 years of age, and has long been known as the author and discoverer of the Genuine Original "Townsend Sarsaparilla." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who have proved its worth and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing, many years ago, that he had, by his skill, science, and experience, devised an article which would be of incalculable advantage to mankind, when once known and extensively used, he labored and persevered, expecting the time to arrive when the people would be furnished to bless it into universal notice, when its inestimable virtues would be known and appreciated. This time has come, the means are supplied; this

GRAND AND UNEQUELLED PREPARATION,

Is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found invariable of deterioration or deterioration.

Let every man ring throughout the land, that Old Dr. Jacob Townsend is now manufacturing the real Townsend Sarsaparilla, which never sours, never ferments, and never changes its character.

From this day forth the people shall have the Pure Genuine Townsend Sarsaparilla, which shall never sour in the bottle, or in the stomach, and it shall yet banish from the land all Fermenting, Souring, Exploding, Vinegary Sarsaparillas, now in use. A good Sarsaparilla, pure and genuine, ought to live; a poor souring, slip-slop Sarsaparilla ought to drown and die.

The Old Dr's. Sarsaparilla will keep pure and perfect 100 years.

Unlike young S. P. Townsend's it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the Art have all been brought into requisition in the manufacture of the OLD DR'S. SARSAPARILLA. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which, if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in the manufacture. Moreover, these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all its value.

Why person can boil or stew the root till they get a dark colored liquid, which is more like the exploding mixture in the root than from anything else; they can then strain this insipid or rapid liquid sweeten with sour molasses, and then call it "Sarsaparilla Extract or Syrup!" But such is not the article known as the

GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

CURE OF INNUMERABLE DISEASES.

Hence the reason why we hear commendations on every side, in favor by men, women, and children. We find it doing wonders in the cure of Consumption, Dyspepsia, and Liver Complaint, and in Rheumatism, Scrofula, Piles, Costiveness, all Cutaneous Eruptions, Pimples, Blotches, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a universal efficacy, in all complaints arising from indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and cold hands, cold chills and hot flashes over the body. It has not its equal in Coldness Coughs; and promotes easy expectoration, and gentle perspiration relaxing stricture of the lungs, throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of Female Complaints.

It works wonders in cases of Floor Albus or Whites, Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregularity of the menstrual periods, and the like; and is effectual in curing all the forms of Kidney Disease. By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of
