GREAT RACE IN NEW YORK FOR A PURSE OF $20,000.

Planet against Congaree.

FOUR MILES IN 7.39.

The New York *Express* of Tuesday evening says: For a time this (Tuesday) morning the sporting fraternity were very much in the dumps from the prospect of rain, the sky becoming dark and cloudy at about eleven o'clock, and a slight shower taking place shortly after, and continuing for half an hour, with every prospect of continuance; but about one it broke away somewhat, and the crowd arrived at, and fast gathering at the race course, resumed their cheerful looks, feeling assured that though they might have to undergo a little sprinkling, the great event of the day would come off in due time and according to announcement, and in this they were not disappointed.

The prospects of the betting men on Sunday and Monday were sadly blighted at the news that Daniel Boone had cut himself severely on Saturday, while taking his usual gallop round the Fashion course. Previous to this accident he was the favorite against the field, not on account of any performance which could give any certain result approaching a four-mile race, as he had never appeared in any race over two and a half miles; but from his superiority in height and strength, and from the fact that he had generally made good time in his races, and beat Planet in two mile heats last spring in three minutes thirty-eight and a half seconds and three minutes thirty-six and three-quarter seconds. His being out of the race has completely upset the anticipations of the speculators in pools, as no pools are sold unless three or more horses are run in a race.

Daniel Boone has been returned to his Southern stables, where he will doubtless in a short time recover from his lameness. In the meantime, the race was narrowed down to Planet and Congaree, the former the horse of several four mile victories in very good time, the shortest being done in 7 min. 26¾; and it was considered that his known lasting powers would carry him through in front of Boone, notwithstanding his extra year involved a penalty of ten pounds more than his younger opponent, who would only carry one hundred and four pounds.

Congaree did not stand so high in the betting last night, the betting being two to one against his winning, yet why that should be so is not so well explained. At all events, his friends and brokers were pretty confident that his chance of getting a heat at least, and thus outlasting the favorite, was very good. His body is large and limbs muscular, so that there is plenty of propelling machinery, and enough bellows to support it, and in a heavy track he has made some very good running, and will have the advantage, in this race, of the ten pounds for Planet's extra weight. The betting since the rain set in was more in his favor, and the result was looked forward to with increased interest on that account, as making it a more even thing.

We have only time, at this late hour, to give the result of the race, and the time in which it was run, to accomplish which, at the earliest moment, we have run a special pony express, and have the satisfaction of laying the same before our readers, in the short space of about an hour from the finish of the race—in advance of all our contemporaries.

THE RESULT.

The horses started shortly before 3 o'clock, both being in splendid condition.

Planet was ridden by a negro boy, and Congaree by a white boy.

There was no false start, and Congaree took the lead.

Planet passed his opponent in a moment, and kept the lead to the end.

On the fourth mile, the distance between the two horses was very great.

Congaree was distanced.

Planet won the race in seven minutes and thirty-nine seconds!

During the last two miles of the race the rain fell in torrents, and the track was very heavy.

Nearly ten thousand people were present, and it is estimated by sporting men that $1,000,000 have changed hands.

PARTICULARS OF THE RACE.

Notwithstanding the withdrawal of Daniel Boone, and the threatening appearance of the weather, the furore which had been worked up to fever heat in anticipation of three horses running, had the effect of bringing together an attendance of over fourteen thousand persons, among whom, on the grand stand, and occupying numerous carriages, were great numbers of ladies. From six to seven hundred vehicles of all descriptions were inside the course, and no disturbance took place except the arrest of one of a numerous body of pickpockets, who commenced their avocations with considerable success at Hunter's Point, and who, with the gamblers who frequent race courses with thimble-rigs, sweat-cloths, lotteries, Roulette tables, three card monte, &c., made numerous levies on the purses of the uninitiated by their sporting trip. The captain of the Mattano deserves credit for at length putting a stop to the low kind of gambling which has heretofore accompanied the sporting trips of the Hunter's Point steamer, and the Commissioner of Police should order a squad of officers to attend at that locality on race-days, to prevent the bare-faced robberies practised there with impunity. To give all the various incidents on the road would fill a column; but it was one continued stream of vehicles; and two extra trains of cars were run on the Flushing road for special accommodation. A former cause of complaint was also corrected on this occasion, by starting a return train soon after the race was concluded.

The horses were soon up and made their appearance on the track; Planet being in exceedingly fine condition, and mounted by a colored jockey—"Jesse." One of a white hue, Louis Stuart, waited upon Congaree, who did not show as favorably as Planet, having, as was stated, refused his feed. This difference in the horses rendered the backers of Planet more confident, and some bets were made at the odds of four to one, three to one being the current odds. As they came up to the score, Congaree led about a length, but the word was given, and off they went. Planet taking a position in advance, in consequence of Congaree's jockey pulling in. At the quarter pole there was a clear length between them, but as they went down the back stretch Congaree drew nearer, and again fell back as they approached the half, and as they rounded the turn and swung into the straight heat again, he gained, having lapped Planet at the gate; but Planet shook him off and shot by the stand just clear of him, making the mile in 1 minute 54 seconds. As they entered the second mile Congaree made another brush and caught the Virginian as they entered the turn, but at the quarter, Planet was again two lengths in the lead, and Congaree having made an unsuccessful endeavor to reach him, he determined to quit the company of the Carolina colt, and at the upper turn was four lengths clear in advance; a lead which was increased to five as he crossed the score at the end of the second mile in 3 minutes 48½ seconds. Congaree making another game struggle for the lead as they passed the quarter and entered the back stretch. At the half-mile pole Congaree was six lengths behind, double this distance at the end of the third mile, which was finished in 5 minutes 39½ seconds, and tailing off rapidly throughout, the fourth mile was pulled up far outside the distance stand, Planet coming over the score in 7 minutes 39 seconds, the winner of the heat and race.

TIME.

1st mile. 2d mile. 3d mile. 4th mile. Total.
1 m. 54 s. 1 m. 54½ s. 1 m. 51 s. 2 m. 0 s. 7.39

The rain during the morning, and cloudy sky which threatened more, undoubtedly deterred hundreds from witnessing the race; and for three hours previous to the start, the clouds threatened a heavy storm, which commenced as the horses started, and was at its utmost height when the two miles had been completed. The remaining two miles were run with the rain overhead and mud under foot; at the same time, the rush of the people, in every direction, for shelter—which they [illegible] under the stand—was ludicrous in many instances. The result of the contest has proved Planet to be a horse of enduring powers in a four-mile race; and Congaree made but little better time for three miles in the rain than he has ever done before.

Important from Cuba.

EXPEDITION OF TWENTY THOUSAND MEN FITTING OUT FOR MEXICO.

[From the New Orleans Picayune, Sept. 21.]

We understand that letters of the highest authority were received in this city, by the *Cahawba*, from Havana, which leave no room to doubt that something serious is pending between Spain and Mexico. *They assert positively, indeed, that an expedition of not less than 20,000 men is actually being fitted out in that city for Vera Cruz.* And of this no secret is made. Even the troops comprising the expedition, their regiments and companies, are mentioned. They are for the most part the acclimated troop of the island. Their places will be filled by recruits at home; and reinforcements from the Peninsula, the vanguard of which were daily expected.

The ostensible grounds of quarrel between Spain and Mexico have already been stated. The real object of the present expedition, however, if ever it should proceed to the Mexican coast, is armed intervention, looking to a permanent protection over the country, if not its ultimate acquisition.

We, of course, look upon the whole scheme as Quixotic, and its ultimate accomplishment an impossibility. By the confession of all, it is destiny that the flag of the United States shall ultimately be extended over Mexico. In the meantime, however, Spain may take advantage of our distractions and indifference, and do much that we should regret to see done. She has it in her power at least to crush for the moment the party which is favorably disposed to us, and give to the opposing party a new lease of authority, which she will not be slow to profit by. She already has thirty-six vessels of war in the Gulf, whose employment in such an enterprise would, of all things, be most agreeable to them and to her people. Others are on the way, and whatever be its object, whether to wage open war with the Republic, or to intervene therein in the name of peace, or to lend moral, if not armed, support to the reactionary faction, it is certain a formidable expedition will be sent from Havana the coming winter to the Mexican coast.

A Paris telegram to the London *Post*, dated Wednesday night, says the Piedmontese forces are marching rapidly on Lamoriciere's army, and an engagement is expected to take place to-morrow. The Emperor and the French Government have used every exertion to prevent an invasion of the Roman States. The relations of France and Piedmont are critical.

The *Times* says that Victor Emmanuel finds a formidable competitor in Garibaldi, whose success appears sufficient to overcome any resistance that can be made by the States of the Church, and which brings him into collision with the Austrian power in Venice. Piedmont must make herself mistress of the revolution, or be content to give up the lead and follow. There is reason to believe that the Emperor Napoleon sees things from this point of view, and that no danger need be apprehended from France.

SPECIAL NOTICES.

ANOTHER SIGNIFICANT TRIBUTE TO THE SUPERIORITY OF MESSRS. EVANS & WATSON'S SAFES.—*Banking Office of McCann & Metcalf, Nebraska City, N. T., September*, 1859.—MESSRS. EVANS & WATSON—Dear Sirs:—Our Office Building was destroyed by the great fire of May 12th, 1860, which consumed over $100,000 worth of property in our city. We had in use one of your Salamander Fire Proofs, which contained our Books and other property valued at over $50,000. The fire occurred at 1 o'clock, on Saturday, the 12th, and our safe was not taken from the ruins until Tuesday the 15th, after 75 hours' exposure. The back of the safe was then at a red heat, and on opening it the books and contents were found in a good state of preservation, so much so that we still continue to use the journal and ledger, then taken from it. We most cordially recommend your Fire Proofs to those who are in need of such safe-guards in the event of fire. ☞ You will please get ready for us another safe, the same size, as soon as possible. Very truly yours, McCANN & METCALF. se25-wmf3t

BRONCHITIS.—This sure forerunner of Consumption can be instantly relieved and permanently cured by the use of Dr. J. R. STAFFORD'S OLIVE TAR and IRON and SULPHUR POWDERS. The Olive Tar allays pains, and heals soreness and inflammation, and the Iron and Sulphur Powders converts the waste or worn-out particles of the Blood into gases, which are ejected from the body by the pores instead of being deposited as Phlegm. The testimonials of many prominent and well-known persons are contained in a pamphlet, which will be sent *free by mail* to any address. See advertisement in this paper. Sold by all druggists, and by DYOTT & CO., No. 232 North SECOND Street. se22-tf

SAVING FUND—NATIONAL SAFETY TRUST COMPANY.—Chartered by the State of Pennsylvania.

RULES.

1. Money is received every day, and in any amount, large or small.

2. FIVE PER CENT. interest is paid for money from the day it is put in.

By order of the President, WM. R. FISHER, Treasurer and Secretary.

PHILADA., Sept. 21, 1860. se25 tuths3t

COAL-OIL LAMPS.

KEROSENE OR COAL OIL LAMPS.—The immense success of WITTERS & CO., No. 35 North EIGHTH Street, in the *manufacture and sale of Kerosene, or Coal Oil, Lamps*, and the extraordinary quantity of the justly-celebrated *Kerosene Oil* sold by them, has excited the jealousy of certain parties claiming to be the "only manufacturers" of Coal Oil Lamps. We have heretofore and do now claim to sell a *better article*, and at as *low a price*, and, in *many cases much lower* than any house in the trade. Whether we have kept our word we think is fully proven by the fact of the immense sales made to all sections of the Union. Knowing no South, no North, no East no West, but giving to *all sections* an article of *superior workmanship*, gotten up with the best taste, and *warranted*, in all cases, to give *satisfaction* and we now reassert that we can, and do, and will continue to, sell a superior article of *Lamps, Chandeliers, &c.*, together with everything appertaining to the business, as *low* as can be bought either in *Philadelphia* or *elsewhere*, for proof of which we invite *country merchants* and dealers to examine our stock, and satisfy themselves that this is no idle boasting, but *simple facts*, which cannot be controverted by mere assertions.

We claim to *manufacture* (notwithstanding the "shoe string" business) and *sell* our lamps as *low* as any other house in the trade.

The only question is: Can we do it? We answer, emphatically, Yes, and are ready to *prove it* in the most satisfactory manner, viz: by selling at such prices as will challenge any one to produce the *same articles at a lower price*.

Our motto, "LIVE AND LET LIVE"—there is room for all.

Honesty, industry, and integrity must and will thrive, in spite of the boast of beaten parties!

WITTERS & CO. are located at No. 35 North EIGHTH Street, N. E. corner Filbert street, First floor, Retail Rooms.

Wholesale Rooms, in the upper stories of Nos. 35 and 37 North EIGHTH Street. se27-tf

AGRICULTURAL FAIR, POWELTON.—PROGRAMME OF THURSDAY, SEPT. 27.

FREELAND INSTITUTE.—A BOARDING SCHOOL FOR YOUNG MEN.—This institution is located in a delightful, healthy, and retired part of the country, twenty four miles northwest of Philadelphia, two hours' ride from the city; accessible by Norristown railroad and stages, twice a day.

Next session opens October 22d.

For circulars address H. A. HUNSICKER, Principal, se27-toc22* Perkiomen Bridge, Montgomery co, Pa.

MONSIEUR ALEXANDER DE WOLOWSKI, PIANIST COMPOSER, and VOCALIST, informs his friends and the public that he has commenced his course of instruction on the Piano, and in singing, in Philadelphia. By Mons. Wolowski's method a person having a slight knowledge of music will speedily be enabled to read it with great facility, and execute operatic and classical music with ease and brilliancy. As to the Vocal part, by his way of vocalization he arrives at most extraordinary results, renders the voice powerful as well as flexible, and the singer is enabled to vocalize the most difficult passages with ease, grace, facility, and perfection of tone. Mons. Wolowski has already proved, by his numerous pupils, last season, what could be done by his new mode of instruction, which has made the greatest sensation in Europe. Those who wish to avail themselves of this rare method should apply at once, at his residence, No. 721 SANSOM Street, between 10 and 12 A. M., every day, Sundays excepted. se25 6t*

EVERY CONVENIENCE IS AFFORDED and every pains taken to warrant to the customer a good picture and a pleasing likeness, at REIMER'S Gallery, SECOND Street, above Green. It*

ATLAS OF PHILADELPHIA.

NOTICE TO THE PUBLIC.

Now in press, and will soon be issued a new Map of the *Whole Consolidated City*, in twenty five sections, on a larger scale than any heretofore published, exhibiting accurately the size of all blocks, streets, Courts, Alleys, Roads, &c., with the location of public and other buildings, &c., together with a line engraved *Index Map, complete in itself*, showing the boundaries of Wards, and names of all streets and Roads to various Acts of Assembly and Ordinances, &c. Also valuable Historical and Statistical Tables, alphabetical list of Streets, and references to various Acts of Assembly and Ordinances, &c.

The work will be printed on superior paper, and substantially bound in a form fourteen by twenty-four inches. This will make it convenient to every citizen, and particularly valuable to professional gentlemen.

As the intention has been to make this a standard Map, no pains or expense has been spared in its preparation. The subscribers having secured the valuable assistance of the District Surveyors throughout the City, and having for several years been engaged in making accurate surveys and plans for the work.
