Dense Chopped Bale Simplifies Feeding

COLUMBUS, Ind. — The Claas® Rollant® 46 Round Baler with Roto Cut cutting device produces a dense, evenly distributed bale that better retains hay quality and breaks apart easily, simplifying feeding.

Equipped with a 6½' pickup, the 46 Roto Cut Baler provides clean, efficient pickup of the widest, most uneven windrows of hay.

The Roto Cut cutting device features a durable rotor (Helix 4) consisting of four rows of star shaped tines that feed crop evenly into 14 knives. The result is increased throughout, reduced peak loads, and a denser bale.

For more information, contact Claas of America, Inc., 3030 Norcross Drive, Woodside Business Center, Columbus, IN 47202, (814) 342-4441.
