GENERAL DIRECTIONS.

The Judges will report themselves at 10 o'clock, A M., of each day, at the Secretary's office on the ground.

Judges of animals will have regard to symmetry, early maturity, size and general qualities characteristic of the breeds which they inspect. They will make due allowance for age, feeding and other circumstances, on the character and condition of the animals. They will not award premiums for Bulls, Cows or Heifers which were fattened for the butcher; the object being to have superior animals of this kind for breeding.

Judges of fat cattle will give particular attention to animals submitted for examination—these are the best cattle having the greatest weight in the smallest superfices, all other things being equal.

Judges will in all cases withhold premiums where the animal is not worthy, though there be no competition.

Exhibitors must become members of the Society, and have their articles and animals entered on the Secretary's books, on or before Wednesday evening, (the 6th of October) and all articles (except horses) must be brought within the enclosure by Wednesday at 4 o'clock, P. M., so that they may be suitably arranged for examination on Thursday morning.

Animals and articles entered for exhibition, must have cards attached, with the number as entered at the Secretary's office. The Executive Committee will not insure any exhibitor who neglects these requirements that his or her articles will be examined by the Judges; while it is intended to secure proper notice to all who have articles placed on exhibition, justice will first be meted out to those who comply with the instructions.

"A Casket of Gems of Wit and Wisdom."

A THOUSAND AND ONE STORIES

Of Fact and Fancy, Wit and Humor, Rhyme, Reason and Romance. Edited by S. G. Goodrich—(Peter Parley.) One volume, large octavo, handsomely bound in red morocco, with gilt side and back; containing 750 pages, and illustrated by 300 beautiful Engravings.

The design of this book is to bring whole libraries into a single volume—to furnish a mental meal for every day and every hour—for every taste, humor, age, caprice—a book for the grave and gay, the old and young; we have, therefore Science and Philosophy, Rhyme and Reason, Wit and Wisdom, Fact and Fancy, which, put together as they come, produce, a sort of intellectual plum pudding, inasmuch as the whole is peppered and spiced with puns, conundrums, and dit-bitteries, to say nothing of a garnish of three hundred engravings.

In these pages are given the essences of thought and sentiment from Goethe, Sydney Smith, Sam Johnson, and many others; clerical anecdotes, Hibernian eccentricities, Western extravaganzas, gathered from the four winds of the Press; outlines of the tales of Don Quixote and Gil Blas; of the fables of Flavian and Lafontaine; of the epic poems of Jerusalem Delivered, Telemachus, Orland Furioso, and others; of the Life and Sayings of Mrs Partington and the Widow Bedott; of the Bumby Papers and the Green Mountain Girls; of the Life of Sam Houston, Gerard the lion-killer, Cummings the elephant-destroyer, destroyer, and Livingston the gnoo-destroyer; of Stevens' Travels in Egypt and Palestine, Paul and Virginia, Alexander Dumas, the Swiss Family Robinson, Mr Gliddon and Sam Patch; with spicy selections of prose and poetry, from the most eminent of the days. Lowe fellow, Bryant, Bayard Taylor, Dr. Hane, Commodore Perry, etc. It furnishes also, a fund of information for the serious—the Natural History of the Bible, which is a subject of exhaustless interest; striking facts in Astronomy, Chemistry, and Natural History; remarkable Biographies, interesting Travels and Wonderful Discoveries in Art and Science.

Peter Parley, the editor of the book, has a world-wide reputation, as an author—his writings having become familiar as household words wherever the English language is spoken. THIS IS HIS LAST WORK, and we predict for it a popularity equal, if not superior, to that acquired by any of his former publications.

This work will be sold exclusively by subscription, at the low price of $2 50. Agents wanted in all parts of the country to obtain subscribers for it.

Specimen copies will be sent by mail, prepaid, to any address on receipt of the price. For full particulars address

Scientific American.

PROSPECTUS.

VOLUME FOURTEEN.

BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

The Scientific American has now reached its Fourteenth year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it is dealt with the great events going on in the scientific, mechanical and industrial worlds, so as to please and instruct everyone. If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recip for making a good color, &c—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times and to employ the best facilities in this business—off the Men of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other machines and implements, he will find what he seeks in this department. Terms can be found in the Scientific American, and nowhere else. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS:—One Copy, One Year, $2; One Copy, Six Months, $1; Five Copies, Six Months, $4; Ten Copies, Six Months, $8; Ten Copies, Twelve Months, $15; Fifteen Copies, Twelve Months, $22; Twenty Copies, Twelve Months, $28, in advance.

Specimen copies sent gratuitously for information. Southern and Western money, or Postage Stamps, taken for subscriptions.

☞ Letters should be directed to

MUNN & CO., 128 Fulton Street, N. Y.

☞ Messrs. Munn & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, in regard to the novelty of their improvements.

A Card from Dr. James M. Jarrett,

OF THE NEW-YORK LUNG INFIRMARY.—My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivaled opportunities and advantages in pathological research—aided not a little by a peculiar system of Medical Inhalation—has enabled me to derive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs and Air-Passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the ulcerated surfaces. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of the dreadful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic and the above charity has been long and liberally supported, and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office—Hoping therefore that the arrangement will give entire satisfaction both to my professional brethren and the public, I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case, Inhaling Vapors, Medical Inhalers, &c. &c., will be forwarded by express to any part of the United States or the Canadas. Terms—My terms of treatment by letter are as follows, viz: $3 per month for each patient, which include medicine sufficient for one month's use, also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: $5 to be paid to express Agent on receipt of the box of Medicine, and the balance $6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address

JAMES M. JARRETT, M. D.

No. [illegible] Broadway, cor. Twelfth St., N. Y.

P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our improved apparatus for the inhalation of medicated vapor can be seen and inspected.

TO INVALIDS.

DR. HARDMAN,

ANALYTICAL PHYSICIAN

AND

Physician for Diseases of the Lungs.

Formerly Physician to Cincinnati Marine Hospital and Invalids's Retreat, Corresponding Member of the London Medical Society of Observation Author of

"Letters to Invalids," and Editor of the "Medical Stethoscope," may be consulted at

SUNBURY, "Washington House," 31 nday, August 31, 1858

DANVILLE, "Montour House," August 18.

BLOOMSBURG, August 11.

DR. HARDMAN treats Consumption, Bronchitis, Laryngitis, Asthma and disease of the Throat and Lungs by Medical Inhalation.

Dr. Hardman's claims to public confidence are founded upon the following facts:

1. His thorough and complete acquaintance with the practice of the most celebrated physicians of Europe as well as America.

2. The Peculiarities of his system of medication—differing from every other system adopted—do not make sick from the start, but tone down to health again—the patient gaining strength and flesh from the outset.

3. His unprecedented success in Hospital practice where every case of disease was presented for his treatment and in cases of death, an examination of the dead body made, and the appearance of the affected organs described by his medical friends in future references. These records, which he has in his office, when completed, will form a large volume, and will be published, when it will be published, for the benefit of the Medical profession.

4. In addition to this, his vast experience, acquired by traversing nearly five years, treating thousands annually, in order that every application for observation and the study of all diseases incident to the lungs fully, in this period of time, he has treated a distance nearly equal to five times the circumference of the globe, and has seen prescribed for and been consulted by nearly ten thousand invalids.

ALL DISEASES TREATED!

Including in the following diseases either when complicated with Lung Affections, or existing alone, I can produce a complete cure, in a few prompt months:

Dyspepsia and all forms of Female Complaints, Irregularities and Weakness.

Palpitation and other forms of Heart Diseases Liver Complaint, Dyspepsia, and all other Diseases of Stomach and Bowels. Piles, &c.

☞ All diseases of the Eye and Ear; Neuralgia, Epilepsy and all forms of Nervous Disease.

☞ No charge for Consultation.
