FOR SAN FRANCISCO,
On Saturday, July 10, at 3 o'clock, P. M.
FROM the foot of North Moore street, North River, the new and splendid double engine steamship CITY OF PITTSBURGH, 2,100 tons burden, Wm. C. Stoddard, Commander, will positively sail for San Francisco, touching at Rio, Valparaiso and Panama, on SATURDAY, July 10, at 3 o'clock, P. M.
This steamer has superior accommodations, is well ventilated, and otherwise fitted for the trade. It is confidently expected that she will make the passage in the shortest time on record, thus affording a rare chance to families and others, who wish to avoid the crowded ships, via the Isthmus, as only a limited number of passengers will be taken. A small quantity of freight will also be taken—Arrangements have been made with the owners of the new steamship, Uncle Sam, 1800 tons—now building—to make a through connection, and she will soon take her place in the line.
For freight or passage apply to

To Glass Manufacturers.
THE subscriber takes pleasure in informing his friends in the Glass Business, that having made some improvement in his machinery, and secured a good supply of raw material of the very best quality, he is enabled to REDUCE THE PRICE of his Pot Clay to $16 per ton.
A large manufacturing firm in Philadelphia, who have tried this Clay, offer $17,50 per ton for it, which is the price of German Clay in that city; but owing to the expense of freight it cannot be delivered there at that price; here, however, it is cheaper than German Clay, from $10 to $12.
This Clay is found in the form of a flinty rock of exceedingly fine texture. It is one of the most infusible substances known. After being carefully cleaned from all earthy matter, it is ground again and again until it all passes through a No. 24 screen. It is then barrelled up for market. In using it, two thirds of this Clay is mixed with one third of German Clay; or one third of this, one third of Pot Shells, and one third of German Clay. Messrs. J. Schoonmaker & Co., 24 Wood street, are my sole agents.

RAWLE ON COVENANTS FOR TITLE.—A practical treatise on the Law of Covenants for title. By William Henry Rawle.
This work is devoted to the consideration of the liabilities and Rights of Vendors of Real Estate, arising from their Covenant for Title. As such covenants are, in some shape or other, introduced into nearly every conveyance of real estate on both sides of the Atlantic, it is hoped the profession will not deem unnecessary a work which has for its object their analysis and practical effect. In English treatises on the law of Vendor and Purchaser, the subject of Covenants for Title has allotted to it only a limited space, but there is a vast body of American authorities which have not hitherto received the classification and analysis which the importance of the subject demands. PITTSBURGH GAZETTE.

FRIDAY MORNING, JULY 2, 1852.

GENERAL LARIMER.

The Clarion Register of the 26th ult., proposes the name of our gallant townsman, General Wm. Larrimer, jr., as the next Whig candidate for Governor. Here is the Register's article.

CANDIDATE FOR GOVERNOR.—We have been looking all over the Commonwealth to find a suitable candidate for Governor, and have at length come to the inevitable conclusion, that Gen. Wm. Larimer, Jr., of Pittsburgh, is above all others, THE MAN. We have long known the General and it is only necessary to know him, to love and admire, not merely for his disinterested friendship, but for the bigness of his soul, and that enterprising spirit, equalled but by few and surpassed by none, in Western Pennsylvania.

He is a native of Westmoreland county in this State, and was raised a practical farmer, and brought with him to Pittsburgh the kindest regard of the citizens of his native county; and by his own untiring exertions has arisen to eminence and distinction. A few days before the late Whig Convention in Allegheny county, he was urged by a large number of his friends to become a candidate for Congress from his District, which nomination he might easily have obtained had he made the least exertion. We find him first and foremost in all important public improvements in the west. His purse is always open and his strong intellect ever ready, and willing to bring its powerful influence to bear on every great and useful improvement. We know him to be one of the best Tariff men in the State, and as a proof of his devotedness to that important interest of Pennsylvania, it will be remembered, that he paid the entire expenses of a Tariff Convention, held by the Iron-masters in Pittsburgh, in 1849, and in which a great number of the States were represented. The General commands a fine appearance—always affable and kind, and ever ready to assist a friend in need. While he is willing to administer and abide by the Laws as they are, and sustain the Constitution of our common country, he is ever ready to resist any unreasonable aggression of the South, and sustain the dignity and honor of the North. We feel assured, with General Larimer, Jr., at our head we could command the entire vote of all the different parties in the State, and would march to a great and glorious victory.

It is important for the Whigs of this section of the country to present their strongest candidate, as they are suffering and have been suffering, severely, from the direful effects of Free Trade. We want a practical man for Governor—one who has had experience and knows the wants of the people. Such a man is Gen. Wm. Larimer, Jr., of Pittsburgh.

FURTHER BY THE CRESCENT CITY.

The Crescent City brings San Francisco dates to the first ult.

The Tennessee, brought down from San Francisco, nearly two millions of gold.

MINING INTELLIGENCE.—The mining intelligence continues to be very favorable.

Another solid lump of gold weighing sixty-nine ounces, four dwts. and six grains, has been dug up in the main street of Sonora, by a party of miners. It is of an irregular shape, about the size of the palm of a man's hand, and is solid gold. The market value of gold dust has been offered and refused for it. The lucky ones are Messrs. Robert McCalf & Co., a party of four who have been for some time past making excellent wages off their claim. Short time since they took out a twenty ounce piece. These things, however, are so common in Sonora, says the Herald, that we have ceased to notice them of late. The claim from which the above pieces were taken is in the very heart of Sonora, on a lot which fronts upon the main street.

In all the gulches around Sonora the miners are still actively engaged in sluice washing.—Those who have persevered alike through good and bad luck, have generally been successful. One party of four men, with two small sluices, have been taking out from 12 to 18 ounces per day. The miners now do not confine their operations to the beds of creeks ar gulches, but cut into the banks and hill sides, and into flats beyond all precedent. Woods' Creek probably affords employment to a greater number of miners than any stream in our county.

Another rich quartz vein has lately been discovered in French gulch, the rock from which is said to yield 20 cents to the pound. The Shasta Courier says that if the working of these quartz leads should be properly superintended, handsome fortunes will be realized from them in a short time.

During a single day the Gold Run and Merrimack Quartz Mill crushed 15 tons of rocks, from which they took out 214 ounces of amalgam, worth about $1,000, or $66 per ton. This was exclusive of what remained in the mortars.

The Slate Creek Company, consisting of six men, have been for some time past engaged in working a sluice about half a mile from Rough and Ready. They realized $400, $675 and $2,030, on three successive days of the last week.

Gold bearing quartz has been discovered in Queen Charlotte's Island, and a number of men are now engaged in working the mines in that country.

A mine of quicksilver has recently been discovered about one mile from Winter's Bar, in Calaveras county, which is believed by its owners to be superior in extent, and in the quality of its ore, to the famous mines of New Almaden. They are about procuring extensive machinery for the purpose of working it.

A company who are at work on a creek near Eden, took out a piece of gold weighing thirteen pounds.

The excitement prevailing two weeks since in some of the mining districts against the Chinese population has subsided, and there is no longer any apprehensions of trouble.

A revolution broke out recently in Lower California. It is said the revolutionary party had been successful, and had taken the town of San Tomas. Several were killed on both sides. The rumors as to the intentions or objects had in view by the revolutionists vary much in their tenor. Some say they intend to set up as an independent republic, declaring that they can never prosper under the Mexican Government; others say that they intend to hoist the American flag, and ask protection from the American government.

The crops are ripe and abundant. The wheat crop is limited the present year, and will not perhaps be more than sufficient to supply the demand. The barley crop in California is excellent.

The government is to be immediately transferred to the embryo village of Vallejo.

Two new whig papers have been started in San Francisco.

OREGON.—The latest news is to the 27th of May.

The Oregonian of May 15, says:—During the past few days there have been several persons in from the mines, some of whom were residents of this city formerly, and upon whom we can rely. They all agree in the statement that the miners are doing remarkably well, generally averaging about one ounce per day. New discoveries, still nearer us, are constantly being made. Thus it will be seen that the Willamette valley is fast approximating into the centre of a rich mining country.

The Fremont reports that two vessels which have recently arrived from Queen Charlotte's Island, confirm the favorable reports from the gold mines.

GREAT HAIL STORM.—A correspondent writing from Eden, Vt., gives us an account of a severe storm of hail which passed over that place on the 22d inst. The hail stones measured three inches in circumference, and covered the ground to the depth of six inches, completely destroying the crops of corn and grain, breaking and beating it into the ground, and doing much other damage. The hail demolished all glass exposed to its severity. Its extent was two miles in width and three miles in length, and ran East and West. The cattle were much bruised by the hail, and were left covered with bunches from the force of its blows. The forest trees were stripped of their leaves, and present a remarkable ragged appearance. The hail laid in heaps upon the ground for more than twenty-four hours.—Worcester Transcript.

At Allentown, Pa, on the 28 ult, an omnibus running between that place and the "Spring," about a mile from here, was, by the backing of the horses, precipitated down a deep gully, while ascending a steep hill, instantly killing Lewellyn Shantz and Henry Heft. A lad son of Mr. Reinsmith, had both of his legs broken. Eli Steckel, E H. Long, G. L. Ruhe, Mr Samson, Mr. Ettiger, and several others, were more or less injured.

Last evening, an affray took place at the Quarantine Staten Island, between some boatmen belonging to the government, and a picnic party, in which, it seems, the boatmen got very severely handled. One of the boatmen has since died, and three others are in the Hospital, not expected to recover.

The number of steamboats which left Louisville, for Nashville, Tennessee river, St. Louis, and ports below the mouth of the Ohio, from June 1st, 1851, to June 1st, 1852, was 1105. The arrivals for the same period were 1124.

The troubles on the Rio Grande continues. The Brownsville American Flag states that hardly a day goes by, without news of some high handed outrage. Murder and robbery threaten the traveller, and the property of the settler is carried off before his eyes, in broad daylight, with the greatest impunity, the population being too small for a citizen force to arrest the evil, and the troops on the border being unable to render the assistance required at every point. The enemy are either well mounted Indians, who sweep down from the mountain fastnesses murdering, destroying and taking captive, and retreating again with almost the swiftness of the wind, or they are lawless men from the Mexican side of the river, who cross, commit their depredations, and re-cross again within twenty-four hours. These Indian and Mexican guerillas, the Flag says, now hold undisputed possession of the country between Brownsville and Rio Grande City.

The same paper of the 5th says:

"Just as our paper was going to press, we learn from Dr. Sutherland, who arrived to-day from a rancho some forty miles above this place that an American by the name of Remington, we believe from the interior of Texas, had been murdered by a mixed band of Indians and Mexicans. After the murder, the ruffians rode boldly up to the rancho—one of them wearing the clothes of their victim—and boasted to an American there, Mr. T. Rhodes, that they had just killed one of his brothers, and warned him that he would share the same fate if he did not guard well the nature of his intercourse with the Americans. Mr. Rhodes informed Dr. Sutherland that several other men had been killed by the same party, and rumor has it that seven men had within the last few days, been murdered, their bodies thrown into the lake and the river, and their property taken into Mexico. Public feeling, on the receipt of the above intelligence, has become greatly excited."

A letter from Brownsville, under the date of the 14th, says that a person can not go above ten miles by land, without a risk of life, and there is no security of property. The writer adds:

"Avalos this morning barbarously shot the four filibusters whom he had pledged his word to save, and a war of extermination between the race appears about to begin. It is openly proclaimed that the steamer Camanche will be again fired into if certain persons go passengers on her."

Another letter under date of the 13th says:

"Judge Bigelow and Capt. Porter, and some eight others, were fired upon from Mexico, by a party numbering about seventy, while on their way up the river to bury some of our murdered countrymen, and it was by a mere accident they saved their lives. Byrns had his horse shot, and one of the men was shot through the neck. Lieut. Whiting is willing to furnish aid, but he can mount only six men. He has sent to General Smyth for more troops. The citizens have applied to Bell for some rangers. What the result will be, no one can say. Brownsville is in danger. The Mexicans on both sides of the river believe that Avalos desires a war."

These things must be checked speedily, or a border war of the worst kind will be inevitable.

A convention of the editors and publishers of Western New York, is called at Rochester for the 2d of August next.

Portable Thrashing Machines and Separators.
WARRANTED to be thoroughly built, and to work well; made and sold by C. W. CARROL, opposite Shoenberger's Rolling Mill, 568 Penn street, Pittsburgh. The Thrashing Machines are beautiful, simple and compact, are easily removed from place to place, and may be used with equal convenience in barn or field. No machine runs lighter, thrashes faster or makes better work. More than 6,000 of them are now in use in the Western States, and as many East of the Mountains. Many of them have thrashed from 50 to 100,000 bushels each, and, on thorough trial, they have been recommended by those who use them, to be as complete, and to work as well as any in the world.
The Separator is Root's Patent, and is attached to the Thrasher, and completely separates the straw and chaff from the grain, and has given entire satisfaction wherever tried. my21:d&w1y
