Important to Travelers Going East. THE early hour, three o'clock in the morning, at which the EXPRESS TRAIN starts for the East, from Pittsburgh, had made it very inconvenient for travelers going by that train, compelling them to be aroused at a most uncomfortable time, (say 2 o'clock A. M.) or else to remain up all night. This inconvenience is now obviated by a late arrangement. That Express Train now breakfasts regularly at LATROBE, instead of Hollidaysburg—so that travelers East can leave Pittsburgh at 5 o'clock P. M., by the Accommodation, which arrives at Latrobe at 7½ o'clock P. M., have pleasant quarters there over night at the large and elegant Hotel of Mr. ELDER, breakfast comfortably with the other passengers in the morning, and pass on East by the Express, having DAY TRAVEL ALL THE WAY from Pittsburgh to Philadelphia or Baltimore. Every provision is made at the Hotel for the accommodation of guests and visitors by these trains. fal7:tf

WOOL.—The *Baltimore Sun* says:—The sales of wool this week have been small, at 25a27c for unwashed; tub-washed 35a38c; pulled 33a37c; fine fleece 38a50c, as to quality. Some new clip has been coming in. The price of wool at present is from 6 to 8 cents higher than it was this time last year. The impression among the dealers is, that although the present figures are lower than they were some months ago, still the article must continue to demand a fair price.

The *Philadelphia Commercial List* says:—The market has been very quiet during the past week, but prices are fully maintained. Sales of 40,000 lbs in lots within the range of our quotations. Among them was a lot of 5,000 lbs ¾ blood at 58a60c cash, and 25,000 lbs Buenos Ayres at 17c ℔ lb, 6 mos.

The *New York Economist*, in regard to the late public sale, says:—The American fleece brought from 44 to 68c, though not one lot each at the extreme prices, ranging generally from 45 to 58c. The prices obtained were about the same as those obtained by the trade generally, when the speculation commenced in February, rather less than current asking prices, though over those obtained in January and early in February.

The English pulled brought 22½a24½c. The style differs from American, and is not adapted for general use here. The American pulled did not sell as high in proportion as the fleece, prices ranging from 39 to 58c. Holders are willing to duplicate at the prices of the sale.

We look upon this sale as important in many respects. We think it establishes the prices that manufacturers will have to give for the incoming clip, and must have a tendency to keep goods at least at current prices. There can be no decline, except such as are incident to styles, and the necessity of holders to sell. As much of the growing clip has been contracted for, at prices too high for contractors to save themselves, at those obtained previous to the sale, we do not look for any decline, at least before the new clip is fully and fairly exhibited on the market. There is still a fair supply, of both fleece and pulled, in first hands.

It will strike every one that the mass of the lots was of pulled wool.

The sales of Fleece Wool did not extend beyond 265,000 lbs.

Considering the pertinacity with which false reports of the stock of Fleece Wool were spread abroad, with a view to depress prices, the market shows itself remarkably strong. The extreme desire which dealers and large manufacturers exhibit to secure the new clip of Wool ere it is shorn, shows the true estimate placed upon the stock of Wool.

The greater extension of railroads enables farmers to send their sheep to market in a more favorable condition and at less expense; and the present prices in Mutton pay the farmer better for the sheep than by keeping the sheep for the sake of the Wool; and while this is the case, we must expect a short supply of Fleece Wool and a constantly rising market. The greater stock of Pulled Wool offered for sale has been from recent arrivals.

A Liverpool paper of the 9th ult says:—The demand for Wool throughout the week has continued very active, especially for low Wools. Public sales of about 1000 bales of East India have been announced for the 29th inst., which are sure to meet with ready sale, as it is quite clear that the stocks in the hands of consumers and dealers are very limited, while there is exceedingly little in the market to supply them from. Scotch and Irish Wools sell readily at improved rates.

THE ALLEGED STORE OF ARMS &C., IN KOSSUTH'S HOUSE.—The *Times* of the 15th ult. contains a long editorial founded upon the following alleged facts:

The British Government has not waited long for an opportunity of proving to all the world the sincerity of its resolution to put the law rigorously in force against such foreign refugees residing in this country as have abused the tolerant hospitality of England by carrying on conspiracies against other States. We believe that we are correctly informed when we state that upon intelligence received by the Secretary of State for the Home Department and the Commissioners of Police for the metropolis, active measures have been taken to substantiate the charges which have long been vaguely preferred against M. Kossuth and his adherents. Upon the legal information a house in the occupation of M. Kossuth was searched yesterday morning at an early hour by the competent authorities, acting, we presume, under the Secretary of State's warrant, and the result of this investigation was the discovery of a large store of arms, ammunition, and materials of war, which may be the stock in trade of a political incendiary, but certainly form no part of the household goods of a private gentleman living in pacific retirement.

The matter was alluded to in Parliament and led to a debate in which Kossuth was entirely exculpated. We give the following telegraphic sketch of the debate from *Wilmer & Smith*, no full report having reached us:

Sir J. Walmsley referred to a statement in one of the morning papers of Friday, and asked whether there was any and what foundation for the report that a large quantity of warlike implements had been seized, supposed to belong to M. Kossuth; and he inquired also whether Government had given any assurance to Austria, or any other foreign power, that political refugees should be placed under surveillance?

Lord Palmerston said that information had been received that there was a house near Rotherhithe, but not occupied by M. Kossuth, a quantity of warlike stores and gunpowder. A search warrant was consequently issued; the house was entered, and several cases, containing several thousands of war rockets, were found There were also found a number of rockets in various stages of preparation, 2,000 shells unloaded, and 500 lbs. of gunpowder. These were seized. Who they belonged to the House would not expect him to say. No assurances respecting the political refugees had been given to any foreign power beyond that which had already been stated in Parliament, that they would not be allowed to abuse the hospitality of this country by hostile proceedings against foreign powers.

Mr. T. Duncombe said the place where these things were found was a rocket manufactory, and that the whole statement with regard to M. Kossuth was a fabrication. The noble Lord well knew that the rockets had been offered for sale to Government.

Mr. Bright asked the noble Lord whether M. Kossuth was in any way more compromised than any member of the Orleans party by this transaction. Lord Palmerston said he cast no imputation upon M. Kossuth; it would be a subject of future inquiry to whom the arms belonged.

Lord D. Stuart charged the Government with having laid an allegation, and declined to substantiate it. M. Kossuth denied all knowledge of the transaction.

Mr. Aglionby complained that the charge had been brought forward by *The Times* as if it had been satisfactorily proved, whereas it appeared, from the statement of the noble lord, that such was not the case.

PITTSBURGH AND ERIE RAILROAD.

The Board of Directors of this road met in New Castle, on Monday last. They were in session two days deliberating upon the best plan for constructing the road. The following resolutions were handed to us for publication:

Resolved, That active measures be immediately taken to construct the main line from Erie to the Ohio river and simultaneously therewith, such lateral roads or branches as after careful surveys, may be deemed advisable, advantageous and suitable to promote the convenience of the inhabitants of the respective counties, and the interests of the Company.

Resolved, That the proposition this day made by Jos. Chamberlin & Co., for the construction of the entire main line and lateral roads, and furnishing the same, be accepted.

From the above it will be seen that this important work will go on, and that the construction of the main line from the mouth of the Beaver to Erie, and the branches have been allotted to Messrs Chamberlin & Co., who are well known as gentlemen competent to perform the undertaking.

The road has been located from New Castle to Beaver Point. From this place the road will pass down the east side of the river until it reaches a point near Hardscrabble, when it crosses, and keeps down the west side until it reaches the Ohio river at the mouth of the Beaver. This, in our opinion, is a very important point as it will there connect with the Pittsburgh and Wellsville road, and all the roads running south and west of the Ohio and Pennsylvania railroad. This company has also surveyed the route, and taken the ground from the mouth of the Beaver to Pittsburgh, which will lengthen the road and make it more profitable to the stockholders, by which means they may secure the entire trade and travel of the Wellsville road. Much difficulty has been thrown in the way to impede the construction of this road; but, the committee of investigation, in the Legislature have reported that their charter is good, and the gauge law having been repealed, we can see no cause for any further delay. We are told that the work will be commenced on this road within sixty days.—*New Castle Journal.*

GREAT RAILROAD CONVENTION.

According to previous notice, the convention for the purpose of furthering the project of a great through railroad from Cincinnati, by way of Columbus, to some suitable point on the New York and Erie Railroad, assembled yesterday afternoon at 3 o'clock, in Tremont Hall, and is still in session. It is perhaps the largest convention of the kind ever held in the State of Ohio. The principal points of the proposed route, from Cincinnati to the State line, have delegates in attendance to represent and talk of their interests. Upon organizing yesterday, Gen. Neil, of Columbus, being chairman of several committees, was excused from acting as President of the Convention, and Gen. Joseph Ankeny, of Holmes, was chosen. The Convention having been fully organized, Gen. Neil read a report from the Committee appointed to visit New York, and confer with the New York and Erie Railroad Company. Mr. Neil also offered the report from the Committee appointed to superintend the surveys of the route and with it the report of Mr. Seymour, Chief Engineer. Both these reports were highly satisfactory and showed that the respective committees had faithfully performed their duties. Not having possession of these reports we are unable to present a fair abstract of them, and we prefer to wait until our next issue, when we hope to be able to lay them before our readers entire. We may say, however, that the Engineer reports that he has found a practicable route from Columbus to Warren, which is but 6 per cent. increase over an air line and which he estimates can be constructed and fully equipped with rolling stock at $27,000 per mile.

Dr. McCook, of Columbiana, offered the following resolution:

Resolved, That the report of the Committee on Surveys be recommitted, with instructions to prosecute the surveys according to the true intention and meaning of the Fifth Resolution, adopted at the former meeting of this Convention.

Which resolution was debated at length by the mover and Messrs. Lehm, Cartter, Jarvis and Harris, of Stark; Messrs. Hartshorn and Upham, of Columbiana, and Mr. Neil, of Franklin, when on motion of Hon. D. K. Cartter, the resolution was laid on the table by a large majority.

Mr. Dennison moved the adoption of the following resolution:

Resolved, That the Committee of Surveys, with Mr. Seymour, Engineer, be requested to examine the surveys of the Southern or New Lisbon route, understood to be in the possession of the Columbiana Delegation representing that interest, and report tomorrow morning.

On motion of Mr. Upham, of Columbiana Co., the Convention adjourned until 8 o'clock, Thursday morning.

LATER.—This morning the convention appointed Messrs. William Neil, Samuel Medary, John K. Miller, Bartlett and Gill, of Columbus, a committee to organize a company under the general law for the prosecution of the great enterprize.

JAMES W. WOODWELL, CABINET FURNITURE MANUFACTURER, Nos. 97 and 99 Third street, PITTSBURGH. J. W. W. IMPORTANT TO HOUSEKEEPERS. SOMETHING better and more economical than Soda, Cream Tartar, or any other preparation in existence, for Baking—DURKEE'S CHEMICAL YEAST, or BAKING POWDER, for raising Bread, Biscuit, Fried, Griddle and Jonny Cakes, Puddings, Pot-Pies, Corn Bread, Sweet Cake, Apple Dumplings, Pastry, &c. &c. This article is one that every Family, Hotel, Boarding House, Eating Saloon, Ship, Steamboat, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the very thing they have wanted since the days of their existence. Its most important advantages over the old system, are: 1. It saves the expense of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast—water only being necessary. 2. No time is required for the dough to rise before baking; consequently bread may be made in a few minutes. 3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not. 4. Bread made by this process is much more nutritious, easier of digestion, better fitted for a week stomach, sweeter, whiter and lighter, than when made with yeast. 5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this compound; because the rising acid contained in the process of fermenting, it is done by a part only goes to nourish the body, while the remainder is produced by destroying all attendant evils. This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted to suit. Be careful to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 139 Water street, New York. Sold by all the best grocers and druggists generally.
