Photography! Daguerreotypes!!

A NEW ERA IN ART!

J. E. McCLEES.

(Successor to McClees & German,)

WOULD call the attention of the public, not only to the superiority of the Daguerreotypes, the Hyalograph, (by some called Ambrotype,) and the various styles of Photography on paper; but to the fact, that parties at a distance possessing a small daguerreotype, may, by sending it to No. 160 Chestnut st., have made from it by the means of Photography, and the talents of the best Artists, a portrait of ANY SIZE, from a small Locket to the full size of life.

A small book containing description, prices, &c., &c., will be sent gratis to any person making the request.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of the bowels, lasts; but it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They will tend to become or produce the deep seated and formidable distempers which infest the human race all over the land. Hence a reliable purgative is of the first importance to the public health, and this pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing authentic known of any medicine. Cures have been effected here and in Europe, which have not established by testimony of such exalted position and character as to leave no doubt of its truth, and the reports of the most distinguished gentlemen who have testified to the public in the Press, we may mention:

Dr. A. S. Hayward, Professor of Chemistry, of Boston, recently appointed by Governor of Massachusetts, whose high reputation is a guarantee that it is endorsed by the

Hon. Rufus Choate, Senator of the U. S.

Hon. Robert C. Winthrop, Ex-Speaker of the House of Representatives.

Hon. Rufus Ashmun, Minister Plen. to England.

Hon. B. Fitzpatrick, Coth. Bishop of Boston.

Hon. Jas. T. B. Curtis, Practical Chemist, of New York City, endorsed by

Hon. W. L. Marcy, Secretary of State.

Hon. B. Anthon, the ablest man in America.

S. Leakes & Co., Prop'rs of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the testimony of eminent public men is found in their effects upon trial.

These Pills are the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded out of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a purer, safer and more efficient form than in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. With pills by the old mode of composition, every medicine is burdened with more or less of extraneous and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he would not properly judge of a remedy without knowing its composition, I have supplied the accurate formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their box contains in their mystery. I have no mystery.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their healthy action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.

DR. A. B. MADDOCK'S

CELEBRATED WORK ON INHALATION

In the Treatment and Cure of

Consumption, Asthma, Bronchitis, and other Diseases of the Respiratory Organs, by Medical Inhalation.

WITH NOTES AND ADDITIONS

BY DR. CHAS. GREENE.

First American edition, from fifth London edition, which it has had an unprecedented sale.

This is a valuable work and should be in the hands of all invalids, and the Medical Profession generally. Forwarded free of charge, by mail, on receipt of FIFTY CENTS; (cash, gold and silver.)

ADDRESS, W. VAN BUREN & CO.

No. 32 North Ninth St., Philadelphia.

We subjoin a few, from many commendatory notices and reviews from the English and American Medical and other Journals:—

"Dr. M. is one of the sons of the late Henry Maddock, Esq., M. P., the well known barrister, and produces evidence in his own profession, to be entitled to a share in his parent. . . . The system (inhalation) proposed in the work, is a method of application of medicine to the lungs, which effects results of no ordinary character, and which the system whose name is prefixed to the work has proved itself a medical benefactor. . . . We recommend our readers to purchase the Work."—Worcester Chronicle, London, Feb. 19, 1845.

"We recommend the Work to our readers, as it appears to be fully matured, clearly written, and evidently directed of any mandatory or proselyting tendency. The Work will deserve perusal, and the practitioner, so far as our knowledge and experience extends, will repay not only a serious consideration, but a careful trial of its merits."—London Medical Journal, December 14, 1845.

"We think that we can see no reason for its proscription, without being unfaithful to a powerful and experienced ally, and that it might, for the sake of the sufferers, be adopted with advantage, not only by the profession, but be brought into extensive circulation. It is, in the strictest sense of the term, a valuable Work."—Oxford Currently Hours, November 7, 1846.

"A Review of the Second London Edition of Mr. Maddock's Work on Consumption, Bronchitis, Asthma, &c.; with Notes, &c., by Dr. Chas. Greene.—This Work will be found worthy the attention of our readers, for they may learn from it what may be expected from this mode of treating Consumption and other affections of the respiratory organs. Dr. M. is evidently a man of considerable intelligence and whatever there is of good in inhalations of medicated vapours, he seems to have ability to extract, and we, for our part, feel very much obliged to him for the freedom he has evidently given sufficient attention to this mode of alleviating the sufferings of those labouring under this class of diseases."—New Jersey Medical Reporter, June, 1855.

(From Professor Jas. Bryce, Editor of the Philadelphia Medical and Surgical Journal.)

"Dr. Maddock's book of information is one of the few which have been issued from the English press on this subject. It is republished in this country, with the addition Notes, by Dr. Greene, with all the recent medical literature of the United States, and it is hopeful, excite some interest in the medical Profession on the subject of inhalation as a means of treating pulmonary affections. With the addition of modern discoveries in Physiology, this method treating these diseases should have a fair trial and some atonement made for the long neglect which inhalation has suffered at the hands of medical men.

JAMES DUNAN, M. D.,

Prof. of Surgery in Philadelphia College of Medicine

A CARD.

DR. GREENE will treat DISEASES OF THE LUNGS and AIR-PASSAGES, according to the mode so successfully adopted by the proprietor of Dr. A. B. Maddock, and other eminent physicians of Europe. By this mode of treatment the diseased surface of the Bronchi and Lungs are directly acted upon, the various medicated vapors being inspired by every inhalation, minute particles of the Lungs, producing healthy action, where a complete disorganization has not taken place the best results always attend this method of Practice; in fact, with suitable subjects, it is the only reliable form of treating diseases of the Respiratory Organs. He intends Persons who may wish his attention to this particular branch of his profession. Those desirous of consulting him can do so by letter addressed to

SALAMANDER SAFES.

EVANS & WATSON.

No. 26 South Fourth St., Philadelphia.

GREAT FIRE, Chestnut & Fifth Streets, Friday morning, December 30th, 1854. Evans & Watson's Salamander Safes Triumphant, as they always are when put to the test.

PHILADELPHIA, Dec. 15, 1854.

Messrs. EVANS & WATSON, No. 29 South Fourth St., Philadelphia.

Gentlemen:—We take much pleasure in recommending your Salamander Safes to Merchants and others in want of a secure means of preserving their books, papers, etc., from fire, as the one we purchased from you about seven months since has preserved our books, papers and cash in as good a condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth streets. The above safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out. The Safe was then removed and opened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and Locks repaired, as we intend to put it in use again, having perfect confidence in its fire-proof qualities.

Yours, Respectfully,

LACY & PHILIPS.

Evans & Watson take pleasure in referring to the following, among the many hundreds who have their Safes in use:—U. S. Mint, Philada; Farmers' and Mechanics' Bank, Phila; Samuel Allen, Esq., High Sheriff, Phila; John H. Hourjesen, City Controller; Colch Cope & Co., No. 143 Market St.; Richard Norris & Son, Locomotive builders, Philada; Bancroft & Sellers, Machinists, corner 10th and James Sts; Franklin Fire Insurance Co., Phila; Pennsylvania Railroad Co., Phila; Lacy & Philips, corner 5th and Minor Sts; Sharpless Bro., No. 32 South Second St.; James Kent & Santee, No. 147 North Third St; W. H. Horstman & Sons, No. 51 North Third St; Smith, Williams & Co., No. 87 Market St; J. & B. One, No. 184 Chestnut St.

A large assortment of the above Safes always on hand (warranted to stand at least 10 per cent more fire than any Herring's Safe now in use.) EVANS & WATSON, also manufacture and keep for sale, Iron Shutters, Iron Doors and Iron Dash, for making fire-proof Vaults for Banks stores, public and private buildings. Steel and Letter Copying Presses; Patent Slate Lined Refrigerators, etc. Please give us a call, at No. 26 South Fourth St., Philadelphia.
