WILLIAM DOUGLAS, Elizabeth.
ALEXANDER H. BURNS, Findley.

Clerk of the Courts,
WILLIAM A. HERRON, Pitt.

Register,
WILLIAM J. RICHARDSON, Temperanceville.

Recorder,
JONATHAN P. ROSS, Allegheny.

Commissioner,
GEORGE HAMILTON, Pittsburgh.

Auditor,
BENNETT LAKE, Elizabeth.

Surveyor,
O. McGOWAN, Pittsburgh.

Director of the Poor,
HENRY CHALFANT, Wilkins.

THE FUTURE, COMMERCIALLY.—"All is not gold that glitters;" nor does seeming, always indicate real, prosperity.

For some five years past, the South has been commercially exalted, while the North has been correspondingly depressed. With low prices of breadstuffs prevailing in Europe, cotton has been in active demand, and the cotton-producing capacities of the South have been taxed to their utmost to keep pace with it. Commencing with a crop of 3,800,000 bales in 1857, that of 1858 was run up to 3,800,000 bales, that of 1859 to 4,600,000, and the prospect now is that that of 1860 will be 5,000,000 bales. All this time cotton has been high, and money has flowed like a river into the coffers of the cotton States, creating no little exultation among the planters and their newspaper satellites, inducing in them the hallucination that they were riding upon the waves of an ever-flowing, never-ebbing tide of prosperity.

But there is an end of all dreams, and so of this. Cotton has been accumulating at Liverpool for months, until now there are over a million of bales lying there unsold, amounting to one-fourth of last year's crop. All of this was bought at the tiptop prices of an inflated market; and as it is certain that the current year's crop will largely exceed that of last year, the prospect of realizing fortunes out of that million of unsold bales is not very flattering—about on a par, we may say, with the prospects of Douglas and Breckinridge.

In the meantime, the intelligence grows upon us that the crops in England are not promising. The weather is backward, cold, rainy and dismal, and the prospect for a good crop is bad, both in Great Britain and on the Continent. Prices of breadstuffs, consequently, look up; and as breadstuffs go up cotton goes down. The look ahead is encouraging to northern and western agriculturists, who have had their three years of reverses, but not very flattering to the cotton growers, who have had their three years of riotous plenty. If of the 4,600,000 bales of last year's crop only 3,500,000 have been used, what will the price of cotton be with a 5,000,000 crop in 1860 thrown into the market with the million left over? We leave the sum to be figured out at leisure by those who are familiar with commercial arithmetic.

That a reverse is coming for the South is plain. Is she prepared to meet it? We fear not. Instead of treasuring the surplus of the three fat years, she has not only squandered it but gone deeply into debt. New plantations have been bought, more niggers purchased at enormous prices, and a general extravagant style of living indulged in, just as if this thing were to last forever. During all these years Southern merchants have been favored buyers in all our Northern cities. They paid much better than usual, and have been trusted much more largely. If anything like a heavy decline in cotton takes place, Northern merchants will undoubtedly find their hands full of Southern paper, much of which it will be found inconvenient to meet at maturity. The scene of trouble, for the holders, will be transferred from the Northwest to the South.

Upon this subject we quote the following from the money article of the N. Y. *World*:

"The European intelligence by the Persia is ominous of a change in the European money markets, which will inevitably enforce on the Anglo American banking firms large shipments of specie. A bad harvest in England, which our grain producers are hailing as a benefit to the United States, would at once cause the Bank of England to put the "screws on," tighten money, limit the lines of American banking firms' paper, (that is, those firms that draw on themselves, with a varied signature in England,) and them to curtail their paper issues, and ship gold to cover the bills already issued. Cotton would also fall in price, from the inability of the Liverpool houses to carry in the face of a stringent money market. The gain to the United States on advanced prices and increased shipments of grain, would thus be more than counterbalanced by the losses on cotton. Cheap bread is the foundation of prosperity in British manufactures. Prosperity in British manufactures is the foundation of good prices, and large consumption of American cotton. The transactions of the South are based upon a cotton crop of 4,500,000 bales, at high prices; even, with this unlooked for, and enormous addition to her wealth, and active capital, the South, to day, July 5th, 1860, is *overstocked. The South has over-traded these last two seasons,* she has bought more goods than she could consume, more goods than even her enormous crop would warrant. In Houston, Texas, some failures have taken place, in which some of our dry goods jobbers are heavily interested; the same has taken place in Memphis, Natchez, Nashville, Louisville, &c. Several A1, or rather reputed A1 Southern houses, have obtained extensions, *privately*, from their heaviest creditors, this spring; other have paid their notes, but borrowed money from their creditors to pay them with. The South has had about five years of good crops; considerably more than the usual average of good fortune. We may now prudently calculate upon some change for the worse, and the calculation is no idle fancy, but a regular business preparation for what we may reasonably expect. Prudence bases its estimates of the future on the lowest, not the highest rates of profit. *Another crop of 4,500,000 bales of cotton, to be sold at present prices, is not a prudent calculation.*

These are prudent speculations from a merely commercial stand point. The conclusion drawn from them by the writer is, that New York merchants should be very careful how they trust Southern buyers. Very good advice; but the facts warrant other conclusions, some of which we have hinted at; and careful men, whether prepared to adopt the conclusions or not, will at least lay the facts to heart.

Another matter, in this connection, is worthy of note. The shipments of specie to Europe have been largely increased of late. The receipts from California to date foot up $17,595,818, while the shipments to Europe are already $22,687,164, and are increasing every week.—An advance in breadstuffs may partially check, but cannot stop these shipments; for as breadstuffs advance cotton falls. The advance in one cannot equal the decline in the other; as cotton forms the great basis on which foreign exchange is drawn, the supply of bills drawn against produce must fall off, and specie be shipped as largely as ever to supply the demand for exchange. We may therefore reasonably anticipate a tightening up of the money market here as well as in Europe.

We might very properly make these facts the text of a discourse upon the necessity of a revision of the Tariff; but of that again.

A NOVEL POSITION FOR THE DEMOCRATS.—One of the inconveniences which attend the presentation of two sets of democratic candidates for the Presidency and Vice Presidency, is, that it compels the party's principal followers to exercise no little judgment on a private account.—Hitherto the selection of candidates and platforms was by common consent delegated to conventions, the decisions of which were regarded as infallible by the pliable and submissive democrats. This year matters will not go on so smoothly, for the reason that the managers of the party have departed from the beaten track, presenting to their followers the sorry spectacle of "a house divided against itself." The novelty of this position has been the cause of serious embarrassment, not only to the wirepullers, but to the more honest and unsophisticated rank and file. Some are disposed to wait for "further expressions from the people" before they will consent to announce under which King they are willing to risk their political fortunes—others (and these are generally editors of small party organs) adopt both sets of candidates, ready at the same time to deplore the disastrous dissensions which have crept into their organization. In many of the States electoral tickets were formed previous to the dissolution of the party, and these are all to be remodelled by such of the factions as think they will be benefitted by the movement. The respective wings of the party will have a fine time of it before they get through with the campaign. As matters now stand, the belligerent factions seem more anxious to defeat each other than to prevent the success of the Republicans—a feeling which springs from the knowledge that their cause is already lost. The New York *Journal of Commerce*, which has, for the last four years, stood high in the Councils of the party, confesses itself puzzled at what it terms the "unlooked for conjunction of events," and in despair of bringing order out of the confusion which now holds supreme sway, very graciously permits the Democracy to exercise their private judgment, promising them that they can do so without fear of incurring the odium of treason. But the question which in this place suggests itself, is—are the Democrats prepared for such a sudden enjoyment of political freedom? We should take into consideration their long subjection to severe discipline, amidst political darkness and error, before we precipitate what might prove to them a great calamity. In this case gradual emancipation is decidedly the more prudent course.

FERNANDO WOOD writes a long and strong letter in favor of Douglas, urging the Breckinridge men in the North to unite upon him, and let the Douglas men in the South, in return, support Breckinridge. As to his own views, he says:

"I am, and have been from the start, in favor of the interference of the Federal Executive for the protection of all the Constitutional rights of the Slave States in the Territories; and I recognize slaves as property to be one of those rights, and fully entitled to this protection. I was also in favor of an open declaration of this principle by the late Democratic National Convention—and if myself and friends had been awarded seats in that Convention, we should have voted unanimously for such a platform. We should have also voted for a candidate who entertained the same opinions."

These being the views of one who, from his position, will become the right hand man of Douglas, the fact that he entertains them ought to be of great service to the little giant among those who believe in "Popular Sovereignty."

NO FUSION.—The Douglas National Democratic Committee has issued an address remonstrating against all attempts at fusion with the Breckinridge men. They say:

"In the view of the committee, there is no room for doubt in the mind of any National Democrat, as to the path of duty in the present crisis.—The 'Seceders,' by withdrawing from the National Convention and setting up their candidates, have arrayed themselves in opposition to the principle of Congressional non intervention. National Democrats should everywhere meet the issue now tendered them, by nominating and supporting electoral tickets in their respective States, pledged, if elected, to vote for Stephen A. Douglas for President, and Herschel V. Johnson for Vice President of the United States. If the Seceders and their friends choose to separate permanently from the Democratic party, and run a ticket in opposition to the regular nominations, let them do so. Upon them be the responsibility of the result."

THE Buffalo *Commercial Advertiser* comes to us arrayed in a new dress and looking very neat and trim. It is an excellent paper and we are glad to note its success.

THE WHEAT HARVEST—OTHER CROPS.—Fears have been entertained that the late rains in the central portions of the State would cause the wheat kernels to sprout, but the Columbus Journal of the 4th learns from an intelligent farmer who had been in the grain fields for the past eight days that he had seen nothing like sprouting wheat so far. He also stated that there never has yet, so far as his knowledge extends, been such a splendid and bountiful crop of wheat. Corn is looking up, and all kinds of grain and vegetable give promise of a bountiful yield.

The Mt. Gilead Sentinel speaks of the wheat harvest in Morrow county as the very best known, and the Coshocton Democrat says the crops in that county never looked better. The farmers are harvesting their wheat, which promises an abundant yield. The reflector gives a glowing report of the wheat fields in Huron county. We do not see reports of the failure of the wheat crop in any part of Ohio, or damage of serious character by insects. Grass, corn, potatoes, &c., will be abundant and to spare. The late rains have been general and reasonable. —*Clev. Leader.*

THE WOOL CROP OF OHIO.—Most of the clip of wool in this State and those West is already sold. The clip in Ohio alone will amount to about 9,000,000 pounds, and will bring into our State over four millions of dollars. Wool has become an important staple with us; and so long as there is no surplus of wool in the world—the clip being used up closely every year—farmers can be sure of remunerating prices.

Mr. F. C. Sessions of this city, has bought about 150,000 pounds, at prices varying from 30 to 60 cents per pound. Dealers commenced buying from 3 to 5 cents less than last year; but in some sections it has been sold at an advance of last year. Probably the clip in this State has been sold at about the average of last year.—*Columbus (O.) Jour.*

BRECK. AND LANE TICKET IN MISSOURI.—By referring to our report of the Breckinridge ratification meeting last night, it will be seen that another Richmond has entered the field, in the person of Hancock Jackson, who was nominated by acclamation for Governor. Hancock Jackson is a much stronger man than his Douglas competitor, Caleb Jackson, and will undoubtedly beat him before the people. Parsons, of Cole, the author of the "free nigger bill," was nominated for Lieutenant Governor. This is not as good a nomination as the other, but under the circumstances will do very well. The ticket is as strongly pro-slavery as it could be made, if this be any recommendation. The bridge is broken, and the chasm which separates the two factions is henceforth and forever impassable.—*St. Louis Democrat, 4th inst.*

ONE of the most terrible accidents that has ever happened, through the agency of crinoline, occurred lately in one of the English ports on board of the Royal Albert, a vessel of the British Navy. One afternoon, while the decks were thronged with visitors, the dress of a lady, in passing one of the signal guns, caught the percussion hammer and brought it over upon the fuse. The gun, which was loaded with blank cartridge, went off, and one of the crew, who unfortunately was either standing in front of the gun or had been working about it, had his arm blown off close to the shoulder. The sad event caused much consternation as well as regret among the visitors, and the lady who had unwittingly been its cause fainted.

THE Baltimore correspondent of the New York *World*, gives the following as the electoral ticket of the Republicans for the State of Maryland. State at large. Hon. Judge Wm. L. Marshall, Dr. Hicks Harris. First District—D. W. Orem. Second District—Wm. Pinkney Ewing. Third District, Francis S. Corkran. Fourth District, Dr. W. A. Weiss. Fifth District, Wm. Amour. Sixth District, Hon. Montgomery Blair.

THE Jefferson Democratic county Convention met on the 5th inst., and nominated the following ticket: Congress, W. P. Jenks; Assembly, E. R. Brady; Prothonotary, R. R. Means; Sheriff, Nathan Carrier, jr.; Associate Judge, Henry Fresse; Commissioner, John D. Phillippi; Auditor, ——Croks; Trustees of Academy, Joel Spyker, John E. Carroll, S. M. Tintheff.

WHILE hundreds and thousands of our people, to say nothing of our government, have been making fools and asses of themselves to flatter and compliment a set of half-niggers from Japan, a guard of troops around the house of our Minister in Japan has been necessary to protect him from assassination.—*Lou. Jour.*

THE Democratic politicians have abandoned all hope of effecting any accomodation whatever between their respective candidates, by joint electoral ticket or otherwise.—*Newark Mercury.*

THE HARVEST.—Grain cutting has commenced in this section of the country and "the work goes bravely on." Large numbers of improved Reaping Machinery have been purchased in this market within the last month. Our farmers feel encouraged and highly elated at the present year's prospects of so large and magnificent a harvest. They all unite in reporting the quantity of cereals to be unusually large; and as to quality, that is said to be superior—so much so, that the wheat grains have generally burst the husks in which they are contained. All kinds of grain are in equally good condition. Owing to recent rains, Oats and Corn are doing exceedingly well. The fruit, with some local exceptions, will be, also, pretty abundant, and judging from present appearance, of good quality. Most persons think there will be, however, only about a half crop.—*Steub Herald.*

FEROCIOUS FEMALE FIGHTER.—The Iron Valley (Ohio) *Express* contains the following advertisement:

"Notice is hereby given to all gentlemen, (and those who are not,) not to insult me, by word, look or action, on the streets and elsewhere. If they do I will kill them as I always go armed. MRS. A. C. TILTON."

"Thrice is she armed who has her quarrel just." Go it, Mrs. Tilton. If the men insult you, perforate 'em.

HARVEST.—Our farmers are now in the midst of their wheat harvest. The wheat in this county is reported to be good—a better crop than we have had for several years past. The grass and oat crops were never better, and the corn is doing well. We shall also have plenty of fruit. —*Cadiz Rep.*

THE Newark *Evening Journal* comes out for Breckinridge and Lane, who, it says, are preferred by a large majority of the Democrats of New Jersey. The *Journal* thinks the Douglas men in the State ought to support the Seceders' candidates, under pain of seeing both factions beaten by Lincoln.

Dyspepsia! Dyspepsia!! Dyspepsia!!!
What is it? How Cured?

DYSPEPSIA is our National Disease—weak stomach, feeble digestion, distress after eating, costive habit, bilious condition. How many suffer with it and its attendant symptoms of low spirits, bad taste, coated tongue, obstupefied head and attacks of headache! Yet how few know how to cure it! Generally, because the bowels are constipated, resort is had to cathartics, or laxatives. But such a condition was never cured by cathartics, whose only office is to weaken the digestion and impair the integrity of the entire assimilative system.

But HUMPHREY'S HOMEOPATHIC DYSPEPSIA PILLS—a simple medicated sugar pill—have cured hundreds of the worst and most obstinate cases. This is done simply by improving the tone and restoring the integrity of the digestive organs, from which result good appetite, regular habits, a clear head and buoyant spirits. Such a medicine is a gem, and only requires to be known to be appreciated.

Price, 25 cents per box, with directions. Six boxes, $1.

N. B.—A full set of HUMPHREY'S HOMOEOPATHIC SPECIFICS, with Book of Directions, and twenty different Remedies, in large vials, morocco case, $5; do, in plain case, $4. Family case of fifteen boxes and book, $2.

These remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address DR. F. HUMPHREY & CO., No. 562 Broadway, New York.

Sold in Pittsburgh by J. LANGE, JOHN PETTY; Allegheny City, C. P. FLEMING and J. J. HAST. je15:1mcodawT

MRS. WINSLOW, an experienced Nurse and Female Physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves and relief and health to your infants. Perfectly safe in all cases.—See advertisement in another column. fa18:dawlyT

A CARD TO YOUNG LADIES AND GENTLEMEN.—The subscriber will send (*free of charge*) to all who desire it, the Recipe and Directions for making a simple *Vegetable Balm*, that will, in from two to eight days remove Pimples, Blotches, Tan, Freckles, Sallowness, and all impurities and roughness of the Skin, leaving the same—as Nature intended it should be—*soft, clear, smooth and beautiful*. Those desiring the Recipe, with full instructions, directions, and advice, will please call on or address (with return postage.) JAS. T. MARSHALL, Practical Chemist, No. 32 City buildings, New York. jy5:3mdawT

Phrenology.

PHRENOLOGICAL EXAMINATIONS, Charts and Written Descriptions are given by PROF. BILES, at 21 Fifth street, Room No. 2. Office Hours: 11 a. m. to 1 p. m.; 2 to 4 p. m. A full description is given, if desired, without chart, etc. This includes observations relative to Studies, Business, Marriage, Health, Self Improvement, Education, &c. The Professor tells Diseases by examining the head, and advises. An 50 cents is charged for Phrenologic Examinations, nothing extra is charged for this, when given in connection with such examination. jy10:2tw

PROPOSALS will be received by the Committee on Monongahela Wharf, until TUESDAY, July 17th, 1860, for grading and paving about 1200 square yards of said wharf, extending westwardly from the mouth of Ferry street. Proposals to state the price per cubic yard for grading, and per superficial yard for paving, payable in cash upon completion of the work to the satisfaction of the Committee. Proposals can be left with S. MORROW, Chairman, No. 8 Market street, Pittsburgh. jy9:5td

ADMINISTRATOR'S SALE.

BY VIRTUE OF AN ORDER OF THE ORPHAN'S COURT OF FAYETTE COUNTY, there will be offered for sale, at public outcry, on the premises, the following valuable Real Estate, viz:

A TRACT OF LAND situate on the east side of the Monongahela River, immediately below Fayette City, in Washington township, Fayette county, Pa., containing

193 Acres and 112 Perches,

strict measure; adjoining lands of Andrew Lynn's heirs, William S. Cook and others, on which are erected a commodious two story brick mansion house, a large frame barn, wagon house, corn crib, and other out-buildings.

A large part of said tract consists of first rate river bottom, unsurpassed for fertility. The upland abounds in mineral wealth, being underlined with inexhaustible strata of limestone and bituminous coal. Not only is the upland a mass of incalculable mineral wealth, but it is nearly all susceptible of pleasant and profitable cultivation.

TERMS OF PAYMENT:

One-third of purchase money in hand at confirmation of the sale, one-third in one year thereafter, and the remainder in two years thereafter, with interest on two thirds of said purchase money from the first of April, 1861, when possession will be given, subject to the tenant's rights, if any, to way going crops, subject to one-third of the last amount of sale, after deducting debts, costs, &c, of sale, which is to remain a charge upon the land during the lifetime of the widow, and the interest thereof to be paid to her annually, and at her death, the principal to be paid to the heirs entitled. Deed to be made when all the purchase money except the widow's third, as aforesaid, is paid, subject to the lien for the widow's dower, &c.

Sale to be on the premises, on the 30th of August, 1860, at 2 o'clock p. m.

ELECTROPATHY,
ELECTRICITY
AND
WATER COMBINED.

DR. KARSHNER'S POSITIVE AND NEGATIVE ELECTRO-THERAPEUTIC BATHS, are now fitted up and in successful operation, relieving many of the afflicted daily, at No. 21 Fifth Street, Pittsburgh, Pa.

All persons afflicted with any of the following named diseases, are respectfully solicited to call and examine for themselves. This new and wonderful discovery in Therapeutic Electricity is applied on purely scientific principles, and in a manner that is perfectly harmless and pleasant to the most delicate patient. The following are some of the diseases which readily yield to this most popular remedy: Palsy, or Paralysis, Incipient Consumption, both Acute and Chronic Neuralgia, Headache, Torpid Liver, Bronchitis, Catarrh, Asthma, Weakness and Curvature of the Spine, Scrofula, Dyspepsia, Deafness by Paralysis, Ringing in the Ears, Amaurosis, Cataracts, Weak Eyes, Erysipelas, Spasmodic Retention of the Urine, St. Vitus' Dance, Salt Rheum, Mercurial Diseases, Female Weakness and Irregularities, General Debility, Derangements of the Nervous System, Stiff Joints, Fever and Ague. Calomel, and all other Mineral Poisons, entirely removed from the system.

Seminal Weakness—which engenders premature pains in the head, back and limbs, nervous cough, general bodily lassitude, morbid despondency, aversion to society, loss of memory and degeneracy of intellect.

Office hours from 8 to 12, A. M. and 2 to 9 P. M.

Patients desiring immediate relief will please call early. Dr. K's Baths will be fitted up in Residences, Infirmaries, Asylums, &c., and the right to use them, on reasonable terms.

Ministers, Physicians and all others interested in the welfare of their suffering fellow man, are respectfully invited to call and see for themselves, the wonderful cures that are performed daily with these Baths.

State, County or Individual Rights for sale. For further particulars, call at 21 Fifth street, or address Box 1123, Post Office, Pittsburgh, Pa. my18:1ydawT

FAYETTE SPRINGS.

THE SUBSCRIBER, having taken a permanent lease of this popular SUMMER RESORT, Has had the buildings thoroughly refitted, with important additions, and the whole newly furnished. Being just over Laurel Hill Mountain, in Fayette county, Pa., amid a cluster of scenes of natural and historic interest, near the National Road, only eighty miles from Pittsburgh and eight from Uniontown—the present terminus of the Pittsburgh & Connellsville Railroad, on which two daily through trains are run—it is an easy and attractive transition from the toils and heat of summer in town and city, to the healthy surroundings of a

MOUNTAIN RETREAT.

The waters are strongly Chalybeate—a pure and powerful tonic. Warm and Cold Baths are attached. Also, a Bowling Alley and other appliances for healthful exercise and amusement. No gnats or musquitos.

Horses and carriages well cared for, with which guests can be furnished for excursions to the interesting contiguous localities. A post office is near the Springs, supplied by daily mails during the season.

The long experience of the subscriber in catering to the comforts of his friends, emboldens him to promise entire satisfaction in all respects, as well to abiding guests as transient visitors. Charges moderate. All is now ready. Come. Address ALFRED McCLELLAND, Fayette Springs, Pa. June 28, 1860—jy6:3wd

MOTHERS!

READ the following testimony to the success of DR. EATON'S INFANTILE CORDIAL:

Morganville, July 25th 1859.

DR. EATON—Dear Sir: I have much pleasure in certifying to the perfect harmlessness and efficacy of your Infantile Cordial, and cheerfully recommend it to those who have children teething. I have used it in my own family, and have sold over two hundred bottles the past year. All those who have ever used it unite in its praise for all diseases for which you recommend it. Yours, &c, E. S. LATHROP.

BLOOD FOOD! BLOOD FOOD!!

DR. BRONSON—Sir: It may not be valueless to you, to know that I have used the different Preparations of Blood Food in several cases, and uniformly with success; and that I am convinced they are a nearer approximation to the means of a RADICAL CURE of those cases of *Chronic Disease* for which they are prepared, than *any other* Medicinal Agencies known to the Pharmacopoeia.

I recommend these Preparations, as I am naturally desirous that they should be most widely tested and adopted. R. K. BROWN, M. D., New York, Sept. 15th, 1859. 110 West Broadway.

Brotopoian,

A Substitute for Cream of Tartar,

A NEW, HEALTHY AND CHEAP ARTICLE for making BREAD, CAKES and all articles of food requiring the use of YEAST.

This new and valuable article is not a *drug* but an *article of food*, containing nothing but what gives nourishment to the body. It is *guaranteed* equal in strength to pure Cream of Tartar—is used in the same way in cooking—*is cheaper* in price, and makes bread and cakes of superior quality, which remain *fresh* and *palatable much longer* than when Cream of Tartar is used.

This article is approved and recommended by Messrs. BOOTH, GARRETT & REESE, Analytic Chemists, of Philadelphia; Dr. SAMUEL JACKSON, Prof. in the University of Penna.; Prof. HORSFORD, of Harvard College, Mass.; Dr. JACKSON, State Assayer of Mass.; Dr. NICHOLS of Boston; Dr. CHILTON and all other scientific men whose attention has been called to it, and all *housekeepers* who have used it, recommend it in the highest terms.

DR. SCHENCK, of Philadelphia, will be in Pittsburgh to examine patients with

CONSUMPTION,
LIVER COMPLAINT AND DYSPEPSIA,
ON
MONDAY AND TUESDAY,

June 11th and 12th, at the Drug Store of his agent, DR. GEO. H. KEYSER, No. 140 Wood street.

DR. SCHENCK'S MEDICINES.
PITTSBURGH CERTIFICATES.

I have been sick now for nearly two years with a cough and liver complaint, and the whole of my breast inside was completely raw. I first took ill with a bad inflammation of the lungs, and I was attended by one of the best Doctors in Pittsburgh, who told me I had inflammation of the lungs. Some time in the early part of March last I called on Dr. Schenck, who was examining patients at Dr. Keyser's Drug Store, 140 Wood street. After he examined me carefully he told me that I had liver complaint, which had settled upon my lungs. My doctor, before I called on Dr. Schenck, told me that my lungs were badly affected. I was wasted very much in flesh, and very little left me. My appetite was entirely gone, and I had very little hopes of recovery when he examined me. The Doctor told me I would get well if I took his medicines and followed his directions, which I did faithfully until I had taken four bottles of "Pulmonic Syrup," two of "Seaweed Tonic," and a box of "Mandrake Pills," and now I am better than ever I was in my life, and weigh ten pounds more than ever I did in my life before, and I can now carry as much weight as any man of my weight and size anywhere. I am entirely recovered from the disease which in a broke down my constitution, and threatened my life, and I feel under a debt of gratitude to Dr. Schenck for his treatment. I know, besides, quite a number of my acquaintances, who have been cured by Dr. Schenck's medicines, whom I recommended to take them. I always keep the "Mandrake Pills" in my house. They cured my wife of liver complaint when nothing else could help her. Her skin was sallow and she suffered much—she tried various other kinds of pills, but they all did no good, until she took your Mandrake Pills, which have made her a well woman. I am sure that I owe my life and present first rate health to Dr. Schenck and his medicines; and I take pleasure in bearing my testimony to their efficacy. I have sent a great many persons for Dr. Schenck's medicines, and they have all been benefited. I am well known and there are numbers of my neighbors can bear testimony to my statement. GEORGE WOOD.

Two miles above Pittsburgh, at Hussey's Copper Works. Signed in the presence of Geo. H. Keyser, 140 Wood street, Pittsburgh, Pa.; Chas. P. Amet, 443 North Seventh st., Philadelphia, Pa. PITTSBURGH, May 25th, 1860.

ANOTHER CERTIFICATE.

ZANESVILLE, Ohio, March 31, 1860.

DR. KEYSER:—I write these lines to inform you that I was in Pittsburgh on February 16th, and bought a bottle of Dr. Schenck's Seaweed Tonic, and when I arrived in Zanesville I commenced using the medicine according to directions, and it has improved my health more than I expected it would in so short a time. I am so well pleased with the "Seaweed Tonic" and "Pulmonic Syrup," that I want you to send me two bottles of "Seaweed Tonic" and one bottle of "Pulmonic Syrup" by express, and I will settle for the carriage of it at the office in Zanesville. W. ROBERTS, Zanesville, O.

DR. GEO H. KEYSER, 140 Wood street, sole agent for Pittsburgh.

ANOTHER CURE BY DR. SCHENCK.

I took last August—now nearly a year ago—a violent attack of cold, which I contracted by lying on the damp ground on a hunting excursion. I had a dreadful cough and constant pain in my breast, and I expectorated a great deal of tough matter from my lungs and bronchial tubes. I thought it had consumption. I judged it the disease from the fact that I had such a hard cough and night-sweats very bad. I suffered a great deal with pain and distress in my breast. I called on Dr. Schenck in October last, and he examined my lungs with his respirometer. He told me my bronchial tubes were very much affected, and he prescribed for me his Mandrake Pills, Pulmonic Syrup and Seaweed Tonic. I took one box of the Pills and two of the Tonic, and four bottles of the Pulmonic Syrup. At this time I am entirely well, and weigh more and am stronger than I was before I took the disease. JAMES D. WILSON, At Singer, Nimick & Co's, Steel Works. West Pittsburgh, May 30, 1860.

Such has been the demand for my Syrup, that I have been compelled to resort to the most perfect steam machinery for the displacing of the herbs and boiling down the syrup, by which the substance can be more readily and perfectly extracted. This process gives a different color to it, rendering it lighter, but stronger in substance. The difference in color may cause many to doubt its genuineness; but my signature always accompanies each bottle, and my agents are publicly announced which renders imposition impossible.

DR. GEO. H. KEYSER is Sole Agent for my Medicine in Pittsburgh. jel:daw7

CONTROLLER'S OFFICE, July 23, 1860.
