TAKING CARE OF FARM IMPLEMENTS.

Every farmer should have a house for his implements. It should be light and dry; and adapted for repairing, altering; cleaning and sharpening them. Every implement, when not required for use, should have its proper place, and before it is laid past for winter, all the bright metal belonging to it should be carefully dried and well greased to prevent rusting. Rust is a viper which poisons the farmers' purse; many farmers allow their plows, harrows and cultivators to rust and rot in the corners of open, damp sheds, during six months of the year, and they seem surprised that their implements do not last longer. All farm implements, after having been used during spring, summer and fall, should have their wood work painted, and also their coarse metal work, and every bolt and nut should be oiled. The loss of an ounce of iron by rust, is equal to the loss of an ounce of gold. Carefulness in all things is economy, and a little extra trouble saves extra expense.

IMPORTANT TO DAGUERREOTYPISTS, MARBLE DEALERS and others.—MONUMENTAL DAGUERREOTYPE CASES.
A method has long been sought for, to insert in a durable manner, daguerreotype likenesses to Head Stones and Monuments. I have been manufacturing these cases for the last two years, and can warrant them to secure the picture for a long number of years.
The outside case is made of Parician Marble, and the box which encloses the picture and keeps it in a state of great preservation for a long number of years, is made of brass—a sense box. It makes a very neat job on a Head Stone or Monument. They are used in Greenwood Cemetery, Mount Auburn, Laurel Hill, and many other Cemeteries in the United States.
A liberal discount made to Marble Dealers and Daguerreotypists. Price from $2 25 each to $9.50. A circular of engravings will be sent to any address, free, with price list. Address,

WE ARE RESPONSIBLE FOR WHAT WE SAY! if we fail to furnish every description of Marble Work in a superior style of workmanship, and twenty-five per cent less than can be had in Bellefonte, Milesburg, or Jersey Shore, we ask no pay and will require no one to take the work when delivered. We despise boasting and humbuggery in all its forms, and especially in a matter of this kind. We are too well known in this community to suffer by misrepresentations. We allow our work to recommend itself, and ask only to be sustained according to its merits.
We are thankful for the very liberal patronage we have received, and respectfully solicit a continuance of the same. All orders filled with punctuality, and delivered to any part of the country, free of freight.

SINGER'S SEWING MACHINES.—Price $130 and upwards. This unrivalled machine is the most important and useful invention of the age; and it has been worked a sufficient length of time to be thoroughly tested upon a great variety of manufactures, and in all cases has been fully approved. It will continue to attract and surprise the people of the whole world with the wonderful simplicity, durability, rapidity, strength and beauty with which it executes its work. Nearly 10,000 are now in daily operation. Such is the demand that, with all the facilities of new and improved machinery, with the help of 200 men, it is impossible for SINGER & Co. to fill their orders. These machines, always far superior to every other, have just received several more
IMPORTANT IMPROVEMENTS,
the effect of which is—1st, To make them run without noise. 2d, To require only half the exertion of the operator, formerly necessary; and 3d, To make them run one-half faster than before, so that with the same labor, TWICE THE QUANTITY OF WORK CAN BE DONE IN A DAY.
This one fact, that Singer's machines run so much faster, and accomplish so much more work, renders all other machines before the public valueless, in comparison, even could they be had for the asking.
Another peculiarity of Singer's machines is, that by simply changing needle and thread, the same machine will execute perfectly every variety of work, coarse or fine, on cloth or leather.
The best machine for family as well as public use. From $200 to $500 a year can be cleared by an individual using this machine, more than can be cleared by hand.
Purchasers, look well to your titles; as to the title of Singer's machine, I will refer you to the following paragraph:
In regard to Singer's machines, there is no adverse patent claim; but all other machines before the public infringe two or more of our patents. On the 27th of May last, we recovered a verdict in a suit for infringement, against the Excelsior Sewing Machine Company, thus establishing our Patents judicially. We have suits now pending in the United States Circuit Court in Philadelphia, and also in other Circuits, against Grover & Baker, and the Wheeler & Wilson machines, which infringe several of our patents. He who buys any of these inferior infringing machines, will buy a lawsuit.
I. M. SINGER & CO.
CARLISLE, April 21st, 1854.
I hereby certify that I was doing a moderate business prior to Feb 16, 1851, at which time I bought one of I. M. Singer & Co's Sewing Machines, and have used the same in my business. Since that time my business has increased to that extent, owing to the superior manner in which it does the work, that I was compelled on the 18th inst. to purchase another machine, so as to meet the demands of my customers. My wife runs the machine, and, with the aid of five girls, will make twelve fine coats and twenty pair of pants a week, in a manner far superior to what can be done by hand. The nett proceeds per week, after paying off the hands, will be from $18 to $20. The machine is easy to manage, and not apt to get out of repair.
WM. L. HALLER, *Merchant Tailor.*
READING, Apr. 24, 1854.
This is to certify that we purchased one of Mr I. M. Singer & Co's Sewing Machines two years ago, which has been in use constantly in stout leather work without getting out of repair. We are confident that one machine does as much work as twelve active females could perform, and much better in every respect. We find it very convenient to have two machines, to avoid the delay of shifting thread and needle from coarse to fine work. In short, we are perfectly satisfied that there is no a more useful machine in existence to expedite work.
H. F. FELIX & Co.,
Boot and Shoe Manufacturers.
The undersigned, having purchased the right to use, and I vend to others to be used, of I. M Singer & Co, in the following territory: State of Wisconsin, Northern Indiana, Pennsylvania, (excepting the counties of Philadelphia, Erie, Allegheny and Northampton,) and being therefore, the sole proprietor, is now prepared to sell machines of Singer & Co.'s manufacture, of the various sizes, descriptions and prices. ☞ N. B. All persons purchasing or using Grover, Baker & Co.'s, or any other infringing and inferior machine, will be prosecuted for using the same. It is evident that the agents of these infringing machines have no confidence in their titles of machines from the fact that they will hardly trust a note taken from the purchasers to lay in their pocket over night, for fear of trouble, and often disposing of them at 50 to 70 per cent. loss, adopting the old adage that "A bird in hand is worth two in the bush.

MONEY! MONEY! MONEY!—Why be without money? when it is just as easy for any one to be around with a pocket full as not, if they only think so. I have got a new article, from which from five to twenty dollars a day can be made, either by male or female. It is highly respectable business, and an article which is wanted in every family in the United States. Enclose me two dollars by mail, at my risk, and I will forward by return mail a circular, with full instructions in the art. The business is very easy. Try it, if you are out of employment, and you will never regret it; for it will be better for you to pay the money, and insure a good business, than to pay twenty-five cents for a spurious advertisement. This is no humbug. Try it! Try it! Try it! Address your letters to
DWIGHT MONROE, New York.

I sent one of my Circulars to an editor in Georgia, and he gave me a notice in his paper like the following:
"Mr. Monroe sent me one of his circulars, and I will just say to my readers, that whoever of you are out of employment, that Mr. Monroe's business is a good business, and money can be made out of it by any one who engages in it, for it is no humbug." dec3-3m

☞ The most liberal remuneration will be allowed to all persons who may be pleased to procure subscribers to the above. From 50 to 100 copies may easily be circulated and sold in each of the principal cities and in the Union. It will be sold by subscription only.

SAINT LAWRENCE HOTEL,
CHESTNUT STREET, PHILADA
This new Hotel is located in Chestnut street, between Tenth and Eleventh, running back to George street, an entire square, with ample room and accommodations for 250 persons
This Hotel has much to render it attractive to the Traveller, Sojourner and Citizen, being directly opposite the Academy of Fine Arts, Parkinson's Garden and Saloons, and in one of the most pleasant and fashionable places on Chestnut Street; also, in the immediate neighborhood of the Theatres, and other places of amusement.
The Rooms are large, airy, and well ventilated—many of them have commodious doors suitable for Families and Parties travelling together. The Furniture is entirely new, and of the most improved style, embracing all the late modern Hotel improvements.
Its close proximity to the different Railroads diverging from the city, being only one square distant from the great Pennsylvania Railroad Depot, and its central and pleasant location, renders it as desirable for the Merchant, as the Traveller for pleasure. Coaches will always be in readiness to convey passengers to and from the Hotel.
The proprietor would also beg leave to give notice, that he will be assisted in the management of this New Establishment, by Mrs M. L. Neofe, the late popular Proprietress of the Yellow Springs, Penn., who will have the whole and entire charge of the Ladies' Department, and by Mr George W. Mullen, late Superintendent of the St. Charles Hotel Pittsburg, Penna.
Under this arrangement, the Proprietor flatters himself that he will be able to provide for every want, and establish the character and reputation of the *House as strictly a first class hotel.*

ENCOURAGE HOME INDUSTRY.
The undersigned would respectfully intimate to the Farmers of Centre county, that they have purchased the right of
DIETZ & DUNHAM'S
CAM POWER REAPER AND MOWER,
and are now engaged in their manufacture, and are prepared to furnish an article which will not get the back-ache. From those who have used the machine we can produce abundant evidence as to its superiority over any other machine now built, for the following reasons:
1st. On account of its simplicity of construction, and the fact that the sickle is worked direct from the driving wheel, with a simple lever instead of a multiplication of cog wheels, journals, cranks, &c. which makes it work lighter for the team.
2d. It is more compact, and is therefore easier handled.
3d. Its perfect adaptation to uneven grounds without hanging on the horses' necks; the tongue being limber and turning on caster-wheels, which makes it turn easy.
4th. The perfect manner in which it does its work, in both grain and grass; the reaping apparatus being so arranged as to put the raker in a convenient position to deliver the sheaves at the side of the machine; and *for mowing it has the* reaping apparatus all off, so as to enable it to cut tangled clover.
This machine is warranted to cut all kinds of grain and grass, as well, if not better, than can be done with cycle or cradle, and all its parts warranted perfect.
TERMS—For Mower and Reaper combined, $180; $50 to be paid on the delivery of machine, or, as soon as it is put up and in operation; $50 on the 1st of October, and $50 on the 1st of January, 1857.
For Single Mower $100, $25 on receipt of machine; $35 on the 1st October, and $40 on the 1st of January, 1857.
With each machine there will be furnished an extra knife, one knife section, three guards, wrench, oil-can and neck-yoke.
As only a limited number can be built this season, those who are in want of the article will do well to send in their orders soon. Address,

SPECIMEN OF LYTHOTYPING.—In press, and will be ready soon, GRAINS OF GOLD, or a collection of social, moral, and intellectual maxims. By Samuel M. Smucker, A. M. Author of the "Court and Reign of Catherine II. of Russia," "History of Emperor Nicholas I.," &c., &c.
This, undoubtedly, will be the most interesting work of the kind ever published in America. It will cont in Twenty Caskets, richly laden with the finest gold, wrought into over seven hundred separate original maxims, and independent reflections, with wise saws, and profound aphorisms, which refer to everybody and everything worth referring to, and especially adapted to the present time. It will be printed from plates formed by the NEW LITHOTYPING PROCESS, spoken of in the last number of the Monthly Rainbow.
It will, without doubt, be the handsomest book in typographical appearance ever before published; and it will be printed and bound in the best style, and its contents will make it attractive and pleasing to all classes of readers. Price 50 cents a copy, for which it will be sent, post paid. Address
