Winter Management of Sheep.

In the Patent Office Report for 1854, there is a valuable article on the "History and Management of the Merino sheep," by Geo. Campbell, Esq., of West Westminster, Vt., from which we extract the following remarks on the winter management of sheep, which will be read with interest:

"Much of the success of the wool-grower depends upon the winter management of his flock. Sheep are animals which pay their owners better for good care and keeping than any other stock usually kept on a farm; but if fed with a stingy hand, or neglected, if suitable conveniences are wanting, they pay perhaps as poorly as any. The annual loss to the United States, resulting from a want of suitable sheds and other conveniences for the winter accommodation of sheep, is immense. The promptings of self-interest would seem sufficient to induce our farmers to adopt a better system of winter management. No intelligent farmer at this day will attempt to deny the principle that warm enclosures are equivalent, to a certain extent, for food; a variety of well-conducted experiments have conclusively demonstrated the fact. A large proportion of food consumed in winter is required for keeping up the animal heat, and consequently, in proportion as the apartments are warm, within certain limits, the less amount of food will be required. The other extreme, too close apartments, would be objectionable from the impurity of the air, and should be avoided. Sheep have very little reason to fear injury from this cause. The majority of those in our State suffer for the want of shelter and a suitable quantity and variety in their winter food. Many flocks are brought to their quarters in fair condition, but are fed so sparingly that the growth of their wool is almost wholly arrested during the winter season, the fodder given them being only sufficient to sustain the vital functions. Under such circumstances the food consumed by them is in fact nearly lost.— The owner has received no return in the increase of wool nor in bodily weight; and he will suffer farther from a large per cent. of actual deaths before the time of shearing.

With such a course of management the profits of wool-growing will necessarily be small. If neither self-interest nor the feelings of humanity will induce the farmer to provide properly for his dependent flock, he will find it for his advantage to keep some other domestic animal, and I know of nothing more suitable for such men than a hardy goat. While I protest against the starving system, it would seem hardly necessary to caution farmers against the opposite extreme, too high feeding, which is also detrimental to the health and long life of the animal.— While preparing sheep for the butcher, high feeding is necessary and proper, but for store sheep and breeding ewes, an over amount of fat, produced by high keeping, is decidedly injurious; and, aside from the attending expense to produce this state of things, it has a tendency to shorten the lives of the sheep and enfeeble the offspring. The forcing system of feeding brings animals to maturity early, but is productive of premature death.

The proper and the most profitable mode of feeding, for breeding and store sheep, is that which will develope in them the highest degree of bodily vigor. Sheep fed in this manner would endure the fatigue of a long journey, while those high fed would fail from excess of fat, and the scantily fed, from muscular debility. Every wool-grower will find it for his interest to provide warm, capacious, and well ventilated sheds for his flocks, with a convenient access to pure water. The feeding racks should be made with good tight bottoms, in order that the chaff and seed, the most valuable part of the hay, may not be lost. Such racks will also answer for feeding out roots and grain, and will avoid the necessity of having an extra lot of troughs for that purpose.

The different ages and classes of sheep should be properly assorted. This classification, however, must be left to the judgment of the breeder. The size of his flock, and his conveniencies for keeping will determine the extent of the classification. It will be necessary, in all flocks of considerable size, to place the strong and feeble, in seperate flocks. The breeding ewes should constitute another division, and so on with the lambs, keeping each class, and age by themselves.

In regard to the question, how often should sheep be fed, a difference of opinion among good managers exists. While one believes that twice a day is sufficient, another thinks it desirable to feed three or four times; but the most important point, I apprehend, is to feed regularly, whether twice, three or four times a day. The writer feeds, at present, hay twice, one day; the next, hay in the morning and straw at night, and so on, giving hay and straw alternately, instead of hay alone; and beside, a feed of roots and grain is allowed at mid-day, allowing a half bushel of corn and cob, or oat-meal, mixed with two bushels of roots, to the one hundred head. As sheep are fond of a variety of food it is desirable to make as many changes as practicable. If allowed constant access to pine or hemlock boughs through the winter, it will be conducive to their health. Salt is equally as essential in winter as in summer, and should be kept constantly by them.— Rock-salt, which is imported in large lumps, weighing from 20 to 50 pounds each, is the cheapest and best. Sheep are not liable to eat it in sufficient quantities as to ever injure them, as they can only get it by licking.

☞ A Vermont farmer says: I wintered last season about two hundred sheep on wheat straw, with one bushel oil cake meal to the one hundred sheep per day, and now they are fat, although thin when I bought them.

☞ It is said that there were estimated, two years ago, to be within the United States more than twenty millions of horned cattle, more than twenty millions of sheep, and more than thirty millions of swine.

AYER'S PILLS

Are curing the Sick to an extent never before known of any Medicine.

INVALIDS, READ AND JUDGE FOR YOURSELVES.

JULES HAUEL, Esq., the well known perfumer, of Chestnut Street, Philadelphia, whose choice products are found at almost every toilet, says:

"I am happy to say of your CATHARTIC PILLS, that I have found them a better family medicine, for common use, than any other within my knowledge. Many of my friends have realized marked benefits from them, and coincide with me in believing that they possess extraordinary virtues for driving out diseases and curing the sick. They are not only effectual, but safe and pleasant to be taken,— qualities which must make them valued by the public, when they are known."

The venerable Chancellor WARDLAW writes from Baltimore, 15th April, 1854:

"DR. J. C. AYER—Sir: I have taken your Pills with great benefit, for the listlessness, languor, loss of appetite, and Bilious headache, which has of late years overtaken me in the spring. A few doses of your Pills cured me. I have used your Cherry Pectoral many years in my family for coughs and colds with unfailing success. You make medicines which cure; and I feel it a pleasure to commend you for the good you have done and are doing."

JOHN F. BEATTY, Esq., Sec. of the Penn. Railroad Co., says:

"Pa. R. R. Office, Philadelphia, Dec. 13, 1853.

"Sir: I take pleasure in adding my testimony to the efficacy of your medicines, having derived very material benefit from the use of both your Pectoral and Cathartic Pills. I am never without them in my family, nor shall I ever consent to be, while my means will procure them."

The widely renowned S. S. STEVENS, M.D., of Wentworth, N. H., writes:

"Having used your CATHARTIC PILLS in my practice, I certify from experience that they are an invaluable purgative. In cases of disordered functions of the liver, causing headache, indigestion, costiveness, and the great variety of diseases that follow, they are a surer remedy than any other. In all cases where a purgative remedy is required, I confidently recommend these Pills to the public, as superior to any other I have ever found. They are sure in their operation, and perfectly safe—qualities which make them an invaluable article for public use. I have for many years known your Cherry Pectoral as the best Cough medicine in the world; and these Pills are in no wise inferior to that admirable preparation for the treatment of diseases."

"Acton, Me., Nov. 25, 1853.

"DR. J. C. AYER—Dear Sir: I have been afflicted from my birth with scrofula in its worst form, and now, after twenty years' trial, and an untold of amount of suffering, have been completely cured in a few weeks by your Pills. With what feelings of rejoicing I write can only be imagined when you realize what I have suffered, and how long.

"Never until now have I been free from this loathsome disease in some shape. At times it attacked my eyes, and made me almost blind, besides the unendurable pain; at others it settled in the scalp of my head, and destroyed my hair, and has kept me partly bald all my days; sometimes it came out in my face, and kept it for months a raw sore.

"About nine weeks ago I commenced taking your Cathartic Pills, and now am entirely free from the complaint. My eyes are well, my skin is fair, and my hair has commenced a healthy growth; all of which makes me feel already a new person.

"Hoping this statement may be the means of conveying information that shall do good to others, I am, with every sentiment of gratitude, Yours, &c.,

MARIA RICKER."

"I have known the above named Maria Ricker from her childhood, and her statement is strictly true.

ANDREW J. MESERVE,

Overseer of the Portsmouth Manufacturing Co."

CAPT. JOEL PRATT, of the ship Marion, writes from Boston, 20th April, 1854:

"Your Pills have cured me from a bilious attack which arose from derangement of the Liver, which had become very serious. I had failed of any relief by my Physician, and from every remedy I could try; but a few doses of your Pills have completely restored me to health. I have given them to my children for worms, with the best effects. They were promptly cured. I recommended them to a friend for costiveness, which had troubled him for months; he told me in a few days they had cured him. You make the best medicine in the world; and I am free to say so."

Read this from the distinguished Solicitor of the Supreme Court, whose brilliant abilities have made him well known, not only in this but the neighboring States.

"New Orleans, 5th April, 1854.

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefited by your medicines. My wife was cured, two years since, of a severe and dangerous cough, by your CHERRY PECTORAL, and since then has enjoyed perfect health. My children have several times been cured from attacks of the Influenza and Croup by it. It is an invaluable remedy for these complaints. Your CATHARTIC PILLS have entirely cured me from a dyspepsia and costiveness, which has grown upon me for some years,—indeed, this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Doctor, like a providential blessing to our family, and you may well suppose we are not unmindful of it. Yours respectfully,

LEAVITT THAXTER."

"Senate Chamber, Ohio, April 5th, 1854.

"DR. J. C. AYER—Honored Sir: I have made a thorough trial of the CATHARTIC PILLS, left me by your agent, and have been cured by them of the dreadful Rheumatism under which he found me suffering. The first dose relieved me, and a few subsequent doses have entirely removed the disease. I feel in better health now than for some years before, which I attribute entirely to the effects of your CATHARTIC PILLS. Yours with great respect,

LUCIUS B. METCALF."

The above are all from persons who are publicly known where they reside, and who would not make these statements without a thorough conviction that they were true.

Terrible Accident,

HAPPENED to Mr. Green the other day.— He had bought a suit of ready-made clothes at the Store, and the first day's wearing the accident occurred. First, off drapt his coat-tail by the mere force of specific gravity, giving to an unfortunate man the apperance of a badly trimmed craft with the flying jib in the stern, and on stooping over to pick up the remnant, the dreadful casualty took place—the fountains of the great deep were broken up—Green's pants were sundered from ankle to waist, and Green himself seemed to be. The only way to prevent such deplorable accidents is to patronize a skillful tailor, who makes up his work with a determination that it shall not only fit neatly, but wear well. Green buys at the clothing store because he thinks he can get his gearing a little cheaper. In all probability the pants that served him so treacherously had passed through a fever hospital, been striped from a cholera patient, carried home eight nights in the week in a shutter, and finally bleached and carried by an ingenious Frenchman for a market in the country. Take warning by poor Green's mishap, and go to a tailor shop like that in the basment of Searle's Hotel if you want to be suited.

☞ Cutting done as usual, and all work warranted. JOHN GROVES.

GREAT FIRE. CHESTNUT & FIFTH Sts., Friday morning, December 15th, 1854. Evans & Watson's Salamander Safes triumphant, as they always are when put to the test.

PHILADELPHIA, Dec 15, 1854.

Messrs Evans & Watson, No. 26 South Fourth St, Philadelphia.

GENTLEMEN:—We take much pleasure in recommending your Salamander Safes to Merchants and others in want of a secure means of preserving their books, papers, &c., from fire, as the one we purchased from you about seven months since has preserved our books, and cash in as good a condition as they were when put into it, before the great fire this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth streets. The above was in use in our office, on the second floor of our building, from which place it fell into the cellar and remained there until the fire was out. The Safe was then removed and opened in the presence, of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and Locks repaired as we intend to put it in use again, having perfect confidence in its fire-proof qualities.

Yours, Respectfully,

LACEY & PHILLIPS.

Evans and Watson take pleasure in referring to the following, among the many hundreds who have their safes in use:—U. S. Mint, Philad.; Farmers and Mechanics' Bank, Philada; Samuel Allen, Esq., High Sheriff Phila; John N. "Man, Know Thyself."

An Invaluable Book for 25 cents—Every family should have a copy.

100,000 COPIES SOLD IN LESS THAN A YEAR. A new edition, revised and improved, just issued.

Dr. Hunter's Medical Manual and hand Book for the afflicted— Containing an outline of the origin, progress, treatment and cure of every form of disease contracted by promiscuous sexual intercourse, by self abuse or by sexual excess, with advice for their prevention, written in a familiar style, avoiding all medical technicalities and everything that would offend the ear of decency; with an outline of complaints incident to Females, from the result of some twenty years successful practice exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added receipts for the cure of the above diseases, and a treatise on the causes, symptoms and cure of the Fever and Ague.

Testimony of a Professor of Obstetrics in Penn College, Philadelphia—"DR. HUNTER'S MEDICAL MANUAL." —The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats, is a graduate of one of the best colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JOS. S. LONGSHORE, M. D.

From A. Woodward, M. D. of Penn. University, Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the Author of the "MEDICAL MANUAL." Numerous cases of Disease of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some cases where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by self abuse or Excess of venery, I do not know his *superior* in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves. ALFRED WOODWARD, M. D.

"This is, without exception, the most comprehensive and intelligible work published on the class of disease of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent however fastidious, can object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and with too little breath to puff, and too little presumption to impose, he has offered to the world, at the merely nominal price of 25 cents, the fruit of some twenty years' most successful practice."— *Herald*

"No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge."—*People's Advocate.*

A Presbyterian clergyman in Ohio, writing of "Hunter's Medical Manual" says—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self pollution without realizing the sin and fearful consequences upon themselves and their posterity. The constitutions of thousands who are raising families have been enfeebled, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generation. Intemperance (or the use of intoxicating drinks) though it has slain thousands upon thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and believe me, your co-worker in the good work you are so actively engaged in."

One copy (securely enveloped) will be forwarded free of postage to any part of the United States for 25 cents, or six copies for $1. Address, (post paid) COSDEN & CO., Publishers or Box 196 Philadelphia.

Helmbold's Genuine Preparations.

Helmbold's Highly Concentrated Compound Fluid Extract Buchu,

For Diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weaknesses, and all Diseases of the Sexual Organs,

Whether in Male or Female,

from whatever cause they may have originated and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this and fill the papers with glaring falsehoods, too well calculated to deceive the young and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

The Fluid Extract Buchu has been pronounced by eminent Physicians *the greatest remedy ever known.* It is a medicine perfectly pleasant in its taste and very innocent in its action, and yet so thorough that it *annihilates* every particle of the rank and poisonous virus of this dreadful disease; and unlike other remedies, it does not dry up the disease in the blood.

CONSTITUTIONAL DEBILITY,

brought on by self abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this *infallible remedy.* And as a medicine which must benefit every body, from the simply delicate to the confined and despairing invalid, no equal is to be found, acting both as a cure and preventive.

Helmbold's Highly Concentrated

Compound Fluid Extract Sarsaparilla,

For purifying the Blood, removing all Diseases arising from excesses of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the face, and all Scaly Eruptions of the Skin.

This article is now prescribed by some of the most distinguished Physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary Syphilis, Mercurial and Scrofulous diseases have entirely recovered in the incurable wards of our Public Institutions which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the glands were destroyed and the bones already affected.

NOTICE.—Letters from responsible Physicians and Professors of several Medical Colleges, and certificates of cures from patients will be found accompanying both Preparations.

PRICES. Fluid Extract of Buchu, $1 per bottle, or 6 Bottles for $5; Sarsaparilla, same price, equal in strength to one gallon Syrup of Sarsaparilla.

Prepared and sold by H. T. HELMBOLD, Chemist, 263 Chestnut St., near the Girard House, Philadelphia.

To be had of Abel Turrell, Montrose, Pa., and of Druggists and dealers everywhere.

All Letters directed to the Proprietor or Agent receive immediate attention. 23y1

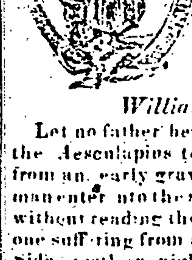
Doctor Yourself: THE POCKET ÆSCULAPIUS:

Or, Every one his own Physician.



THE FIFTIETH Edition, containing One hundred Engravings, showing Diseases and Malformations of the Human system in every shape and form. To which is added a Treatise on the Diseases of Females, being of the highest importance to married people, or those contemplating marriage. By

William Young, M. D.

Let no father be ashamed to present a copy of the Aesculapius to his child. It may save him from an early grave. Let no young man or woman enter into the secret obligations of married life without reading the Pocket Aesculapius. Let no one suffering from a hacknied cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations and given up by their physician, be another moment without consulting the AESCULAPIUS. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞ Any person sending *twenty five cents* enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for One Dollar. Address (post paid.)

HOWARD ASSOCIATION,

PHILADELPHIA.

Important Announcement.

TO all persons afflicted with sexual diseases, such as Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, &c. &c. The Howard Association of Philadelphia, in view of the awful destruction of human life and health, caused by sexual diseases, and the deceptions which are practiced upon the unfortunate victims of such diseases by Quacks, have directed their consulting surgeon as a charitable Act worthy of their name, to give Medical Advice Gratis, to all persons thus afflicted, (Male or Female) &c., and in cases of extreme poverty and suffering to Furnish Medicines Free of Charge.

The Howard Association is a benevolent Institution, established by special endowment, for the relief of the sick and distressed, afflicted with "Virulent and Epidemic Diseases," and its funds can be used for no other purpose.— It has now a surplus of means, which the Directors have voted to advertise the above notice. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment. Valuable advice given to sick and nervous females afflicted with abdominal weakness, Womb Complaint, Costiveness, Leucorrhœa, &c.
