Auditor's Notice.

Walter G. Sterling, vs. Wm. Hartley. } In Susquehanna County Common Pleas No. 216, April Term, 1862.

THE subscriber, an Auditor appointed by the Court to make distribution of the proceeds of the Sheriffs sale in the above entitled case, among the lien creditors, hereby gives notice that he will attend to the duties of his appointment at his office in Montrose, on Tuesday, August 5th, 1862, at 1 o'clock, p. m., at which time all persons interested will present their claims or be debarred from coming in upon said fund.

jy15 4w WM. J. TURRELL, Auditor.

Caution!

THE public are hereby cautioned against purchasing a Judgment Note given by the undersigned to Albright Dunham, about two years ago, for Ten Dollars, said note having been paid by me.

D. W. HUNTSMAN.

Rush, June 27th, 1862.—3w.

$40 Wages Paid $100

TO sell goods for the ADAMS SEWING MACHINE COMPANY. We will give a commission on all goods sold by our Agents, or pay wages at from $40 to $100 per month, and pay all necessary expenses. A child can learn to operate it by half an hour's instruction. It is equal to any Family Sewing Machine in use, and we have *reduced* the price to Fifteen Dollars.

Each Machine is warranted for three years.

Address C. RUGGLES, Gen. Agent,
July 8, '62] Detroit, Michigan.

THE OFFICIAL WAR MAP.

Hazards Rail Road and Military Map of the Southern States.

FROM the most authentic sources, and the Coast Survey, engraved in the Finest Style of Map Making. It gives so recent and such valuable facts concerning all the Railroads, that the War Department immediately authorized its publication, and distributed 1000 copies among the Generals and Colonels of the Army.

As it is the ONLY MAP that is authorized as Official, it is the most Reliable and Authentic, and from its large size—32 by 55 inches—shows at a glance the Principle Places and all Strategic Points. Gen. McClellan has acknowledged the great importance of it to his movements.

Beautifully COLORED, Price only $1, to compete with inferior maps. In cloth case $1.50. Dissected and mounted on muslin, $2.50. Mounted on Muslin, with Rollers and Varnished, $2.50. Sent free by mail on *receipt of price*.

WILLIS P. HAZARD,
No. 724 Chestnut Street, Philadelphia.

☞ As every intelligent man wants the BEST and only OFFICIAL MAP, Agents can make money rapidly by selling this. my3 3m

"Unquestionably the best Sustained Work of the kind in the World."

HARPER'S NEW MONTHLY MAGAZINE.

The volumes bound constitute of themselves a library of miscellaneous reading such as cannot be found in the same compass in any other publication that has come under our notice.—[Boston Courier.

The most popular Monthly in the world.—[N. Y. Observer.

We must refer in terms of eulogy to the high tone and varied excellences of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has a great power in the dissemination of a love of pure literature.—TRUBNER'S Guide to American Literature.

No Magazine in Europe or America is so well known; none has half as many readers; and we may safely say, none has received so large a tribute of admiration from the cultivated classes, that delight in a healthy, diversified, elevating periodical literature. It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant.*

TERMS.

The Magazine may be obtained of Booksellers, Periodical agents, or from the Publishers, at THREE DOLLARS a year, or TWENTY-FIVE CENTS a Number. The semi-annual Volumes, as completed, neatly bound in cloth, are sold at Two Dollars each; and muslin covers are furnished to those who wish their back numbers uniformly bound, at 25 cents each. Twenty-three Volumes are now ready, bound in cloth, and also in half calf.

The Publishers will supply Specimen Numbers gratuitously to Agents and Postmasters, and will make liberal arrangements with them for circulating the Magazine.—They will also supply Clubs of Two Persons at Five Dollars a year, or Five Persons at Ten Dollars. Clergymen and Teachers supplied at Two Dollars a year.

Harper's Magazine and Harper's Weekly, one year, $4.

The Magazine weighs over seven, and not over eight ounces. The postage on each number, which must be paid quarterly, in advance at the office where the Magazine is received, is Three Cents.

Montrose, January 1st, 1862.

ABEL TURRELL

Now offers for sale one of the largest and best selections of

GOODS!

Ever offered in Susquehanna County, and probably comprising the greatest VARIETY or most different articles of any Store in the Northern part of Pennsylvania, and perhaps of the entire State. An assortment is kept in about thirty different branches of trade, and the selections are made from about forty of the best Houses in New York, and more than fifty Dealers and Manufacturers out of New York. A large proportion of the Goods are brought direct from the Manufacturers, thus insuring genuine articles. Customers on entering the Store must not expect to find everything in sight, but nearly every article wanted will be produced by inquiry. Some idea of the Stock may be formed by the following general outline, but enumeration is impracticable.

DRUGS AND MEDICINES,
PAINTS AND OILS,
DYE STUFFS.
GROCERIES,
LIQUORS,
CROCKERY.
GLASS-WARE,

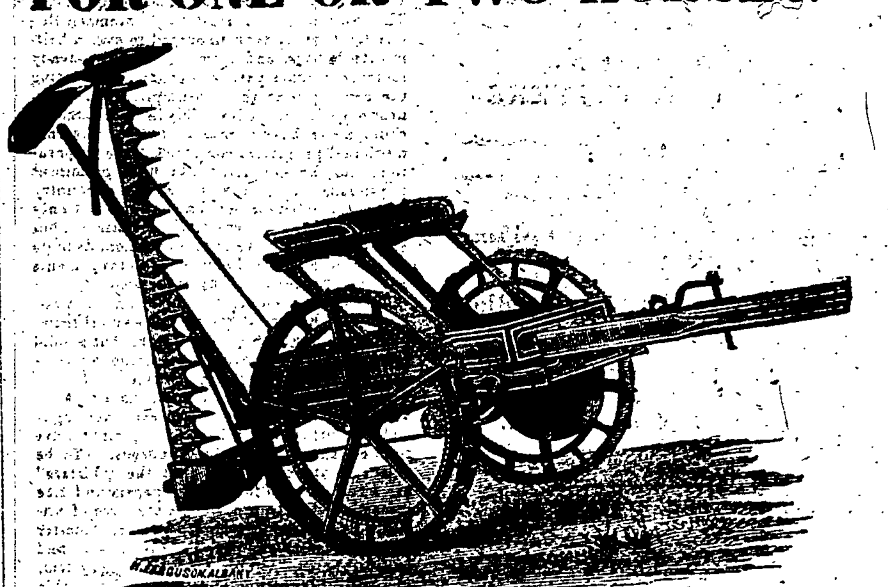
I have received from the Auditor of the Treasury Department, at Washington, the printed instructions and forms necessary for the business.

Montrose, June 9th, 1862. L. M. BUNNELL.

HUBBARD'S MOWER
FOR ONE OR TWO HORSES.



We are now manufacturing this Celebrated MOWER, and offer them at reasonable prices to the Farmers of Susquehanna County. We do not hesitate in saying that for use in this UNEVEN country, they are

THE BEST MACHINE NOW MADE,

They being so arranged as to cut smoothly in uneven, as well as even ground.

S. H. SAYRE & Bro's, Montrose, Pa.

REPORT OF SOLON ROBINSON,
OF THE NEW YORK TRIBUNE,
UPON THE
VINELAND SETTLEMENT.

☞ The following is an extract from the report of Solon Robinson, Esq., published in the New York *Tribune*, in reference to Vineland. All persons can read this report with interest.

Advantages of Farming near Home—Vineland—Remarks upon Marl—Soil, its great Fertility—The Cause of Fertility—Amount of Crops. Produced—Practical Evidence.

It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition, for pleasant farming that we know of this side of the western prairies. We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells, of the tertiary formation; and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated by such plants as the farmer desires to cultivate.

Marl, in all its forms has been used to fertilize crops in England, from the time it was occupied by the Romans; and in France and Germany a marl bed is counted on as a valuable bed of manure, that can be dug and carted and spread over the field. How much more valuable then it must be when found already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth.

Having then satisfied our minds with the cause; they will not be excited with wonder at seeing indubitable evidence of fertility of a soil which in our situations, having the same general characteristics or at least appearances, is entirely unremunerative except as its productiveness is promoted by artificial fertilization.

A few words about the quality and value of this land for cultivation, of which we have some strong proof.

Our first visit was to William D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Milville, about three years ago, for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new railroad, as well as the firewood and coal, for which he built a track a mile and a half long. He also furnished sixteen miles of the road with ties, and had no doubt made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of his crops prove. For instance, the second time of cropping, 306 bushels of potatoes on one acre, worth 60 cents a bushel in the field. This year, seven acres, without manure, produced 856 bushels of oats. In one field, the first crop was potatoes, planted among the roots, and yielded 75 bushels. The potatoes were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buckwheat which yielded 33 bushels; and then the ground was sown to clover and timothy, which gave as a first crop 2½ tons per acre.

The fertilizers applied to these crops were first, ashes from clearings; second, 225 pounds of superphosphate of lime; third, 200 pounds Peruvian guano; then 50 bushels of slacked lime has been spread upon the clover since it was mowed, and turned in for wheat.

Mr. Wilson's growing crops, and the wheat stubble of the present season, all indicate his land as productive as any part of the State.

At Mary Barrow's, an old style Jersey woman farmer, several miles south of Mr. Wilson's, we were so particularly struck with the fine appearance of a field of corn, that we stopped to inquire of the hired man how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this cut one season, and last spring plowed once, with one "poor old nag," and planted with corn.

"Yes, but you manured high, we suppose?" we said interrogatively, and got his reply:—

"Waal, you see, we couldn't done that, 'cause we hadn't but forty-one horse loads altogether, for 23 acres, and we wanted the most on't for the truck."

The truck consisted of beets, carrots, cabbage, cucumbers, mellons, &c., and a very productive patch of Lima beans, grown for marketing. Saw were satisfied that the soil was not infertile, even unaided by clover, which had fed the corn, because the "truck patch" had not been clovered, and had been in cultivation long enough to obliterate all signs of the forest.

Our next visit was to the large farm of Andrew Sharp, five miles north of Millville, from half to a mile east of the railroad, and just about in the centre of Vineland.—Mr. Sharp commenced work here in December, 1858, upon 270 acres. In less than three years he has got 234 acres cleared and in crops this season, all well inclosed and divided into several fields, with cedar rail or pole fence; has built a two-story dwelling, about thirty-six or forty feet, and a smaller house for farm laborers, and a stable and granary and some other outbuildings.

Considerable part of the land was cleared for the plow at $9 dollars an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre.—This crop may be put in from July 4th to 20th, and yields from twenty to thirty bushels per acre, harvested in November; when the land being sowed with 150 pounds of Peruvian guano and seeded with rye, yielded 12 to 15 bushels per acre and ten dollars worth of straw. The rye stubble turned, after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more, of a very plump grain, and the straw is very heavy.

We went over the stubble and found the clover and timothy, from seed sowed last spring, on the wheat without harrowing, looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, we will be able to cut the crop next year with a mowing machine and we will guarantee two tons per acre, if he will give the overplus if it overruns the estimate.

Part of the land was planted with potatoes for a first crop, which yielded one hundred and twenty bushels per acre. It was then limed with fifty bushels per acre, and seeded with wheat and clover, yielding an average of over 15 bushels per acre, and the clover now looks beautiful.

Other portions have been planted with corn as a first crop, which yielded thirty bushels of yellow flint corn, and the second crop forty bushels, and the third crop, treated 150 pounds of guano, we are sure no one would estimate below forty bushels per acre.

[The reader will recollect that the writer is now speaking of lands perfectly new, and which can scarcely be considered in good arable condition.—ED.]

In other cases the corn crop of last year was followed with oats this season, not yet threshed, but will average, probably forty to fifty bushels. Sweet potatoes, beans, mellons, and in fact, all vegetables, as well as young peach and other fruit trees planted this year, show very plainly that this long neglected tract of land should remain so no longer, and there is now a strong probability that it will not; for under the auspices of Mr. Landis, it will be divided into small lots, with roads located to accommodate all—the surveyor is now busy at this work—and all purchasers will be required to build neat comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secured who will establish churches, schools, stores, mills, machine shops and homes—homes of American farmers, surrounded by gardens, orchards, fields and comforts of civilized life.

If any one, from any derangement of business, is desirous of changing his pursuits for life, or who is from any cause desirous to find a new location and cheap home in the country, and who may read and believe what we have truly stated, he will do well to go and see for himself what may be seen within a two hours ride of Philadelphia.

SOLON ROBINSON.

ABEL TURRELL

IS now prepared to cure every case of SCROFULA in the Country, and he has a Remedy for nearly every ill to which flesh is heir. Call at the

GREAT MEDICINE EMPORIUM

of ABEL TURRELL, and be availed of the benefits dispensed. Montrose, July 17, 1861.

KEROSENE LAMPS

A splendid assortment just received. Chimnies, shades burners, wicks, etc., at Turrell's.

RICH AND PRODUCTIVE FARM LANDS FOR SALE, twenty-two miles South of Philadelphia, in the Garden State of the East. Best climate and location for markets in the Union.

[See advertisement of Vineland.]

PERSONS WANTING A CHANGE OF CLIMATE FOR HEALTH, see advertisement of Vineland farms.

CRITTENDEN'S
PHILADELPHIA COMMERCIAL COLLEGE,

N.E. corner of 7th & Chestnut Sts.,

PHILADELPHIA.

This Institution, which was established in 1844, and is now consequently in the eighteenth year of its existence, numbers among its graduates hundreds of the most successful Merchants and Business Men of our Country.

The object of the Institution is solely to afford young men facilities for thorough preparation for business.

The branches taught are, Book-keeping, as applicable to the various departments of trade; Penmanship, both plain and ornamental; Commercial Law, Mathematics, Navigation, Civil Engineering, Drawing, Phonography, and Modern Languages.

The system of instruction is peculiar; no classes or set lessons are made use of, but each student is taught individually, so that he may commence at any time, and attend at whatever hours are most convenient.

Catalogues are issued annually after the 15th of April, containing names of the students for the year, and full particulars of terms, &c., and may be obtained at any time by addressing the Principal.

In extensive accommodation, wide-spread reputation, and the lengthy experience of the Principal, this Institution offers facilities superior to any other in the country, for young men wishing to prepare for business, and to obtain at the same time a Diploma, which will prove a recommendation for them to any Mercantile House.

☞ Crittenden's Series of Treatises on Book-keeping, now more widely circulated than any other work on the subject, are for sale at the College.

S. HODGES CRITTENDEN,
Attorney-at-Law,
PRINCIPAL.

VINELAND.
TO ALL WANTING FARMS.

New Settlement of Vineland,

A REMEDY FOR HARD ITMES.

A Rare Opportunity in the Best Market, and Delightful and Healthful Climate in the Union. Only thirty miles south of Philadelphia, on a railroad; being a rich, heavy soil, and highly productive wheat land; Amongst the best in the Garden State of New Jersey.

IT CONSISTS of 20,000 acres of GOOD land, divided into farms of different sizes to suit the purchaser—from 20 acres and upwards—and is sold at the rate of from fifteen to twenty dollars per acre for the farm land, payable one-fourth cash, and the balance by quarter-yearly instalments, with legal interest, within the term of four years.

THE SOIL

Is, in great part, a rich clay loam, suitable for *Wheat, Grass and Potatoes*—also a dark and rich sandy loam, suitable for corn, sweet-potatoes, tobacco, all kinds of vegetables and root crops, and the great variety of fruit, such as grapes, pears, peaches, apricots, Nectarines, blackberries, melons and other fruits, best adapted to the Philadelphia and New York markets. In respect to the soil and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing, and finding these statements correct—under these circumstances, unless these statements were correct, there would be no use in their being made. It is considered

The Best Fruit Soil in the Union.

[See report of Solon Robinson, Esq., of the New York *Tribune*, and the well known agriculturist, William Parry, of Cinnaminson, New Jersey, which will be furnished inquirers.]

THE MARKET.

By looking over a map the reader will perceive that it enjoys the *best market in the Union*, and has direct communication with New York and Philadelphia *twice a day*, being only thirty-two miles from the latter. Produce in this market brings double the price that it does in locations distant from the cities. In this location it can be put into the market the same morning it is gathered, and for what the farmer sells he gets the highest price; whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad, of all the great cities of New England and the Middle States. He is near his old friends and associations. He has school for his children, divine service, and all the advantages of civilization, and he is near a large city.

THE CLIMATE

Is delightful; the winters being salubrious and open, whilst the summers are no warmer than in the North.—The location is upon the line of latitude with northern Virginia.

PERSONS WANTING A CHANGE OF CLIMATE FOR HEALTH, would be much benefitted in Vineland. The mildness of the climate and its bracing influence, makes it excellent for all *pulmonary affections, dyspepsia, or general debility*. Visitors will notice a difference in a few days. *Chills and fevers are unknown.*

Conveniences at Hand.

Building material is plenty. Fish and oysters are plentiful and cheap.

Visitors must expect, however, to see a new place.

Why the Property has not Been Settled Before.

This question the reader naturally asks. It is because it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The railroad has just been opened thro' the property this season, for the first time.

Visitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure their purchases, as locations are not held upon refusal.

THE SAFEST THING IN HARD TIMES, where people have been thrown out of employment or business, and possess some little means or small incomes, is to *start themselves a home*. They can buy a piece of land at a small price, and earn more than wages in improving it, and when it is done it is a certain independence and no loss.

A few acres in fruit trees will insure a comfortable living. The land is put down to hard-time prices, and all improvements can be made at a cheaper rate than most any other time.

The whole tract, with six miles front on the railroad, is being laid out with fine and spacious avenues, with a town in the centre—five acre lots in the town sell at from $150 to $200; two and a-half acre lots, at from $80 to $120 and town lots 50 feet front by 150 feet deep, at $100—payable one-half cash and the balance within a year. It is only upon farms of twenty acres, or more, that four years time is given.

TO MANUFACTURERS, the town affords a fine opening for the SHOE manufacturing business, and other articles, being near Philadelphia, and the surrounding country has a large population, which affords a good market.

This settlement, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence.

It is intended to make it a Vine and Fruit growing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for the settlers will be introduced which will insure the prosperity of the place. The hard times throughout the country will be an advantage to the settlement, as it compels people to resort to agriculture for a living.

Large numbers of people are purchasing, and people who desire the best location should visit the place at once.

Improved Land is also for sale.

TIMBER.—Land can be bought with or without timber. The Timber at market valuation.

The Title is indisputable. Warrantee deeds given, clear of all incumbrance, when the money is paid.

Boarding conveniences at hand.

Letters promptly answered, and reports of Solon Robinson and Wm. Parry sent, together with the "Vineland Rural."

Route to the land:—Leave Walnut street wharf, Philadelphia, at 9 o'clock, A. M., and 4 P. M., (unless there should be a change of hour,) for Vineland, on the Glassboro' and Millville Railroad. When you leave the cars at Vineland Station, just opened, inquire for

CHAS. K. LANDIS, Postmaster,
Founder of the Colony,
VINELAND P. O., Cumberland County N. J.
