The Republicans of Hopewell township held a meeting at Scottsville on last Wednesday evening. After the speaking was over they made some arrangements for the holding of a Mass Convention at New Sheffield on the 18th. Among other resolutions passed was one inviting all the Grant and Colfax clubs on the south side of the river, the Grant and Colfax club of Beaver and all other Republican organizations in the county to meet with them on that day. They expect to have a good time on the day named. The Republicans of Hopewell township are in good fighting trim, and will come to time on the second Tuesday of October without fail.

Grant Club and Boys in Blue—Meeting at Beaver Falls.—Pursuant to public notice given, the above named organizations met at their stand on Wednesday evening last, having first escorted the several clubs from New Brighton. The procession was lead by the New Brighton Brass Band. After the meeting was called to order by the President of the Club, James Patterson, Esq., presented a flag to the Boys in Blue of Beaver Falls, which was prepared by the ladies of the town, in a neat and appropriate speech which was received by Col. Quay, of Beaver, on behalf of the Boys in Blue, in a manner that elicited the applause of the "Boys" as well as all present. All honor to the ladies for this beautiful flag, may it never be dishonored, in peace or in war by the patriotic, loyal young men. After the ceremonies of the presentation, the meeting was addressed by Mr. Sam'l. Riddle of Pittsburgh, S. A. Dickey, Capt. Eberhart and Hon. Thos. Nicholson of our County. All the speakers urged the necessity of a combined effort on the part of the loyal people of the land, to stand up for right, and resist the wrong, that we should beware of false security, and abate not our efforts, to beat back the enemies of our country, and preserve it unsullied from the hands of its enemies.

*During the progress of the meeting, several wagon loads of Boys in Blue from Bridgewater arrived, who were received with cheers.

A Common Social Evil.

Editor of The Beaver Argus:

We would be pleased to know that your columns, replete with the news of the stirring events of the times, would be, for a moment, open to a few remarks of a social character. Although we cannot be justly numbered among the faithful adherents of what is termed "woman's rights," or by any means a great philanthropist, yet we are in favor of equal dispensation of justice. Woman, to attain her rights, *must* strive herself. She must bring into requisition the powers that as a woman she is gifted with; use them with discretion and earnestness, and by this means gain for herself what she depends on others to acquire for her.

Why is it that a man receives two or three times as much as a woman for performing the same amount of labor? Celery is celery, said the learned and eminent Dr. Ollipod; and labor is labor, we say, *utterly* regardless of who performs it. If we have a coat well made, what matters it to us *who* made it? The requisite amount of time and labor was bestowed upon the fabric, and is it necessary to inquire who executed it—whether it was done by male or female? It was done well, and is satisfactory. But there are a great difference between the compensation of women and the compensation of men for performing the same amount of labor. "The present condition of things" allows a man half—perhaps two-thirds—as much again as a woman for performing *the same* labor. Now is this proper? Is it consistent with our boasted principles of equal suffrage? We say, *not at all.* Women are entitled to the same amount of wages as men, for the same quantum of service, and should by all means recieve it. But while they are careless and indifferent about themselves, probably but very little will be done to improve their condition. They should, as a class, look into the question; examine its workings, and resolve unitedly to better their present circumstances.—And thus they would, beyond a single doubt, be enabled to diminish their excessive toil and increase their paltry wages.

VERITY.

Meeting of the Hopewell Grant and Colfax Club.—The Grant and Colfax Club of Hopewell Tp., met at the school-room, in New-Sheffield, Aug. 31st, at 7 P. M.; for the purpose of completing their organization. G. K. Shannon, temporary President, in the chair.

The committee on permanent organization reported the following officers and committees, which were unanimously adopted: Pres., Wm. M. Reed; Vice-Pres'ts., Thos. McKee, R. C. Scott, G. K. Shannon, Dan'l. McCallister; Recording Sec'y., W. H. Bruce; Corresponding Sec'y., J. W. Scott; Treas., W. M. Calvert; Committee on membership, Sam. Shroades, John White, Joseph Irons, Alex. Young; Committee on Speakers, Jas. Irons, Esq., Jas. Warnock, J. R. McCune, Wm. Irons; Vigilant committee, Valentine Sohn, H. Temple, Chas. Johnston, David McCallister, Johnston White, Dr. Bryan; Committee on Music, C. Mowery, John Boyd, Edie Nevin, Math Patterson, O. R. Shannon; Committee on Printing, Chas. Bruce, G. S. Davis, Robt. W. Scott, G. M. Spalding. After other business of the Club, Capt. G. L. Eberhart of New-Brighton being present, was called upon and responded in an eloquent and pleasing address, discussing at length, the great and important issues involved in the present political contest.

J. R. Harrah, Esq., of Beaver, was then called, who delivered a brief address, which could not fail to convince, the weak and wavering, that loyal men, who came to the aid of their country in the time of her need, should rule and not those who sought to destroy her, or those who sympathized with traitors. At the close of Mr. Harrah's address, a vote of thanks was given to the speakers for their able addresses.

On motion the meeting adjourned to meet at New-Scottsville, Sept. 9, at 7 P. M.

By order of Club.

CORRESPONDING SECRETARY.

Found Drowned.—On last Monday morning the body of a young man, name unknown, was found dead in the Ohio river near Vanport this county. He was about 5 ½ feet high, and had auburn hair. His age was about 25 years. When found he had on him a pair of black pantaloons, and a heavy, dark, cotton shirt, blue gray stockings with white tops, and heavy sewed shoes, with hob nails in bottom. An inquest, presided over by Justice Imbrie, was held over the body of the deceased, who rendered a verdict of death from unknown causes. A heavy wound on the left temple, and what appeared to be a hole made by a knife near the left eye, suggested the probability of death by foul means.

Business Progress.—Business of a personal nature took us to Industry, this county, one day last week, and while there we could not help being pleased with the indications of prosperity everywhere around us. Quite a number of new buildings have been erected since we tarried there before, and others will soon be commenced. Business generally is brisk, and the merchants (we believe there are five in the place), have a good run of custom. The Messrs. Bakur are a valuable acquisition to the place. They originally belonged to Freedom. They have erected a fine grist and saw mill at Industry and in a short time will build themselves up a good business. In connection with their saw mill they have a planing machine which enables them to fill all orders in the lumber line that may be left with them. They are very attentive to business, and are already almost indispensable to the growth of the place. We found our old friend J. J. Noss, Esq., deeply engaged in the fire clay brick business. He has an extensive establishment at the mouth of Wolf Run, and is turning off some three thousand brick per day. Those who are competent judges say that his brick are a No. 1 article. He intends making some additional improvements in the future. Clay and coal are very convenient, and the means of getting his brick to market are almost unsurpassed, as his establishment is only a few rods from both railroad and river. We trust that his fondest hopes may be more than realized in his business. While at Industry we took a stroll over a portion of the farm, (adjoining Industry), owned by Dr. Cummins of Beaver. It embraces 487 acres, and is regarded as being rich in mineral deposits. A stone quarry, about a mile in length and from 50 to 150 feet in depth from the upper one from the southern boundary of the farm. Quite a force of hands are now employed in quarrying stone there, and these, as fast as they are "rough dressed," are taken to Pittsburgh and elsewhere for house building purposes. One or two of the Bank buildings in that city are constructed of stone taken from this quarry. Grind stones are also manufactured from stone obtained here. On this farm, too, we were also shown two large veins of fire clay, which, sooner or later, will be opened and brought into use. The clay here referred to is said to be of a superior quality, and appears to be inexhaustable. The clay of one of the veins is deeply tinted with red and is a wonder to those having some experience in the fire clay business. If not already, these veins of fire clay will, in a short time, be very valuable to the owner. Several veins of coal, ranging from three to four feet in thickness, have been opened on the Cummins farm and promise well. Developement is needed there, and capital, we take it, would unearth a mine of wealth now imbedded in the hills overlooking Industry and the river a short distance below.

The Manufacture of Salt in Beaver County.—We were pleased a year or so ago, to visit the salt works of Messrs. McDonald and French, on Raccoon creek, in this county, and to give our readers a detailed description of these works and the quantity of salt turned out by them daily. It affords us pleasure now again to be able to state that another establishment of this kind is at the present time in successful operation in the village of Industry, Beaver county. This one is owned by Messrs. S. B. Briggs, E Blunt, William Briggs and Joseph Ewing. These gentlemen own about twenty acres of land along the mouth of Wolf Run. In partnership with a number of others, they sank a well on this property for oil in 1864. Reaching a depth of 843 feet and finding but little oil, they gave it up, but in the meantime they were not unconscious of the fact of having passed through a heavy vein of salt water. In August 1867, and after having bought their partners in boring for oil out, the four gentlemen above named, tubed the well and tested the amount and strength of the salt water. They found it sufficiently strong and amply abundant to warrant them in erecting works for the manufacture of salt. In February of this year they began the construction of their buildings, and by the middle of June they made their first run of this staple. From that time until the present, they have averaged from 30 to 35 barrels per day. The water is raised from the well by means of a sixteen horse power engine, and appears to be abundant enough to produce three times as much salt as they are now manufacturing. In the course of time their machinery will be so arranged and their works so extended as to enable the company to use much more water than they are using at the present time. When this is done they will have built up a fine, lucrative business, and their product will add considerable to the permanent wealth of the county besides. The salt which they manufacture is an excellent article and sells at from $2.25 to $2.50 per barrel. But a few rods from where these works stand, is a coal bank, seven or more feet in thickness, and from which a superior article of coal is taken. The salt works are supplied with coal from this bank, at a very low figure. The railroad and river being within a couple of hundred feet of the works give the company transportation facilities that are very convenient and satisfactory. The management of these works is entrusted to our esteemed friend S. B. Briggs, Esq., who is in every way qualified to discharge the duties devolving upon him in a satisfactory manner. There is no discount on his energy, capacity, and business tact. On the whole, therefore, we feel like congratulating our Industry friends on having a "good thing" in the salt works of which they are the owners.

THE CAMPAIGN.

A Tanner's Club has been organized, and is at work at Atchison, Kansas.

A Grant Club was organized in New-Orleans on the 2d, at which 300 white men enrolled.

Mr. A. P. Dudley of Calaveras, Cal., has left the Rebel Democracy and is now speaking in behalf of Grant and peace.

The French Canadians of Plattsburgh, N. Y., have organized a Grant and Colfax Club. In Mooers and Champlain, also, Clubs have been formed.

New-Albany, Indiana, has a company of Fighting Boys in Blue in each ward of the city. They have sworn never to lay down their torches till New-Albany is redeemed from Democratic rule.

The loyal men of Lee County, Illinois, are making extensive preparations for a mass meeting at Dixon on Saturday, 12th inst. Senator Yates and Gov. Oglesby have both positively promised to be present.

The people are awakened in West Virginia. From Laurel Point, Waitstown, Clinton, Stewartstown, Morgan Township, and a score of other places come reports of pole raisings, mass meetings, &c. The people are enthusiastic everywhere.

Among the names of Democrats who have been chosen to officer the forthcoming Seymour and Blair torchlight procession in this city, are those of several known thieves. Proof ready in the District-Attorney's office.—*N. Y. Tribune.*

There is *one* Democrat in Goshen, Addison Co., Vermont. He was on the doubtful list this year, but finally voted for Edwards, saying, "I guess I'll do so this time, but all h—l can't keep me from voting for Grant and Colfax in November."

Col. W. [illegible], late of *The Lebanon* (Ohio) *Patriot*, and Gen. Vanderveer, both prominent Democrats, have repudiated Vallandigham, the former giving up his connection with *The Patriot* because of Vallandigham's nomination.

The campaign in Burlington County, New Jersey, is waxing warm. Nineteen meetings, to be addressed by Gen. Rusling, the Republican candidate for Congress, and others, are announced to take place before the 25th inst.

The Union men of New-Orleans are to have a grand torch-light procession on the 25th. They expect to have 20,000 men in procession. The news from Vermont gives them new courage, and they will repudiate their old tyrants in November by a large vote.

Southern Democratic papers, as well as their Northern brethren are alarmed at the speeches of Hampton and his tribe. *The Charleston Courier* says *think* the truth but speak it softly. It can't be done gentlemen. You've shown the dagger in your sleeve and you can't recall the picture.

Judge Dalrymple ordered the notice, "Headquarters of the Democratic party," that he found over the Court-House door, at Newton, N. J., last week, to be removed before he would open court. The notice would look well if posted on the Tombs, and probably would be allowed to remain there.

Vallandigham and Sam Cary having been posted to speak from the same platform recently in Ohio, each of the gentlemen indignantly disclaimed all knowledge of the announcement, and would not fill the appointment. Vallandigham is ashamed of Cary, and Cary is ashamed of Vallandigham.

A tremendous large and enthusiastic Republican meeting was held at Omaha on Thursday. The leading feature in the grand torchlight procession was a car beautifully decorated, in which 37 young ladies represented the States of the Union. The procession, exclusively of young men, was a very creditable affair.
