This Company, National in its character, offers, by reason of its Large Capital, Low Rates of Premium and New Tables, the most desirable means of insuring life yet presented to the public.

The rates of premium, being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complication and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy-Holders.

Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as the Income-Producing Policy and Return Premium Policy. In the former the policy-holder not only secures a life insurance, payable at death, but will receive, if living, after a period of a few years, an annual income equal to ten per cent. (10 per cent.) of the par of his policy. In the latter, the Company agrees to return to the assured the total amount of money he has paid in, in addition to the amount of his policy.

The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Company.

Circulars, Pamphlets and full particulars given on application to the Branch Office of the Company in Philadelphia, or to its General Agents.

☞ Local Agents are Wanted in every City and Town; and applications from competent parties for such agencies, with suitable endorsement, should be addressed to the Company's General Agents only, in their respective districts.

The Chinese Government having (through the Hon Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following parts; viz

	POPULATION.
Canton,	1,000,000
Macao,	60,000
Hong-Kong,	250,000
Swatow,	200,000
Amoy,	250,000
Foo-Chow,	1,250,000
Wan-Chu,	300,000
Ningpo,	400,000
Hang Chean,	1,200,000
Shanghai,	1,000,000
Total,	6,910,000

These ports have a foreign commerce of $600,000,000, and an enormous domestic trade, beside which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers

The cable being laid, this Company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life, especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race.—The latest returns made to her central authorities for taxing purposes by the local magistrates make her population FOUR HUNDRED AND FOURTEEN MILLIONS, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in Ere gish abuse. To day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose, connecting all their great seaports, were now in existance, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree remunerative to capitalists, and to our whole people. It is of a vast national importance commercially, politically, and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York Herald, Tribune, World, Times, Post, Express, Independent, and in the Philadelphia North American, Press, Ledger, Inquirer, Age, Bulletin and Telegraph.

Shares of this Company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

DREXEL & CO.,

34 South Third Street,

PHILADELPHIA.

Shares can be obtained in Sunbury by application to S J. PACKER, Banker, who is authorized to receive subscriptions, and can give all necessary information on the subject.

NATURE'S GREAT RESTORER.

SCHEETZ'S

CELEBRATED

Bitter Cordial.

This medical preperation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt and speedy remedy for Diarrhœa, Dysentery, Bowel Complaint, Dyspepsia, Lowness of Spirits, Faintings, Sick-Headache, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.
