THE ILLUMINATION!

The Republicans of the Borough of Gettysburg and vicinity will meet

THIS (FRIDAY) EVENING,

at the Eagle Hotel, at 7 o'clock, to make arrangements for the Illumination of Monday Evening next.

By order of the Borough Committee.

A. J. COVER, Ch'n.

THANKS.—We are indebted to HENRY NOEL, of Mountjoy township, for a basket of Redstreak Apples and Wine Grapes—both very fine.

☞ The insurance of $2,000 on Goods of Mr. Hildebrand, in East Berlin, was in the Home Company, New York,—instead of New Haven. The latter Company had $2,000 on the building.

NEW PATENTS.—JACOB H. B. KELLER of Chambersburg has received a patent for an improvement in cultivators; and JOHN E. ANDERSON of Boiling Springs, for an improvement in grain cleaners.

DIVIDENDS.—The First National Bank has made a semi-annual dividend of 4½ per cent.; the Gettysburg National Bank has made a dividend of 6 per cent.; and the York & Gettysburg turnpike company 1 per cent.

SALES.—JOHN HOUCK has sold a brick dwelling on High street, near the Jail, for $1,200, to Mrs. ELIZA M. MILLER.

DAVID F. BRITLER has purchased the PETER ORNDORFF farm, in Mountjoy township, for $2,750.

The property of Rachel Steinour in Butler township, nearly 6 acres, recently advertised, has been purchased by William Crumbine, for $825 cash.

CHANGE.—The pleasant balmy weather of October was broken up by a regular old fashioned north easter, on Saturday last, which left the mountains to the north and west of us white with snow, the sudden transition to a cold, chilly temperature being by no means pleasant. November opens stormily.

MEETING AT FAIRFIELD, Oct. 29th. President—Capt. Peter Dick.

Vice Presidents—Joseph Bigham, Louis Wertz, Joseph Musselman, Daniel King, Capt. A. H. McCreary, Wm. Izor, Andrew T. McGlaughlin, John McKesson.

Secretaries—A. Ross Hunter, J. H. Moore, Peter Kready, Peter Harbaugh.

Addressed by D. Wills, Esq., and Lieut. Wm. R. Eyster.

DEATH FROM LOCKJAW.—Our obituary columns to-day record the death of Miss Margaret Marshall, daughter of Thomas A. Marshall, deceased, of Hamiltonban township, aged 14 years. About two weeks ago she trod on a nail, which passed through the sole of the shoe into the foot. The wound, after several days of attention, seemed to have healed; but a few days ago she experienced some unusual uneasiness in her foot, which proved to be the premonitory symptoms of lockjaw, of which she died on Monday last.

INCREASE IN THE VALUE OF REAL ESTATE.—We are pleased to learn that the proposed connection of the Emmitsburg Branch with the Western Maryland Rail Road at the Dunkard Church, on Rocky Ridge, has visibly augmented the value of real estate in that vicinity. Mr John W. Miller and other enterprising citizens of that neighborhood contemplate making some improvements which will add to the convenience and wealth of that growing section of the county.—*Frederick Republican.*

A GOOD SUGGESTION.—In another column will be found a communication from one of our oldest and most prominent citizens, suggesting a change in the nomenclature of our streets, by adopting the names of prominent soldiers who distinguished themselves in the battle of Gettysburg. The suggestion is a good one, and we should like to see it promptly adopted by the town authorities. The reason for naming streets after the leading cities and towns around us has long since ceased in the construction of Railroad, the opening of new roads, the growth of new towns, &c., and the proposed change would not only give us more euphonious names, but be a graceful tribute to the dead and living heroes of the Republic.

RAILROAD MEETING.—The meeting of Bondholders of the Gettysburg Railroad at the Court-house on Friday last, called by Mr. Swope, the Mortgage Trustee, to consider the propriety of foreclosing the Mortgage and selling the road, was not numerously attended, some two dozen persons being present. Hon. S. R. RUSSELL was called to the chair, and Dr. E. G. FAHNESTOCK appointed Secretary. A resolution was adopted recommending the foreclosure of the Mortgage, and a Committee appointed to arrange with the Bondholders some plan by which the interests of the latter may be protected. Several plans have been suggested—one for the Bondholders to unite in the purchase of the road, or at least to bid it up to a reasonable figure—and the other, to secure a decree of sale under which it may be optional for each bondholder to take his pro-rata share of the purchase money, or to leave his bond in the new company at its representative value.

SYNODICAL.—The German Reformed Synod met in Hagerstown last week adjourning on the 29th ult. One hundred and seventy delegates were present. Rev. Dr. Gerhart was inaugurated Professor of Didactic and Practical Theology in Mercersburg Seminary. The most exciting topic before the Synod was the case of Rev. Dr. Bomberger, who was hostile to Dr. Gerhart, had strongly denounced the circumstances under which his election had taken place, and charged the Synod having control of the Seminary, as being the "liturgical wing" of the church, and as "becoming so churchly as to cease to be Reformed." Synod required Dr. B. to retract these statements under penalty of being denied a seat in the body, whereupon he filed the following, which was accepted as satisfactory:

"I retract the publication of the words or language which are deemed objectionable by this Synod, and regret that they should have become the occasion of offence."

SECURE THE LEAVES.—An agricultural exchange says: The woods are now full of leaves. Indeed they appear to be more abundant than ever, but farmers do not value them as highly as we think they should. For barnyards especially they are profitable to haul in. They are obtainable too when there is little pressing work on hand. Gathered up in heaps they can be readily loaded in carts and wagons with close shelving by either a cloth some two or three yards square or with a wooden rake and the arm. Hogs are very fond of them for litter, so are cows; and for compost they are excellent. As out stock is now usually fed to cattle, and rye straw commands a high price in the market, there is nothing left for the purpose of littering except wheat straw. Hence forest leaves should be held in higher estimation than they formerly did.

It is a good rule to rather thresh this month or early in December, as they are ready for market
