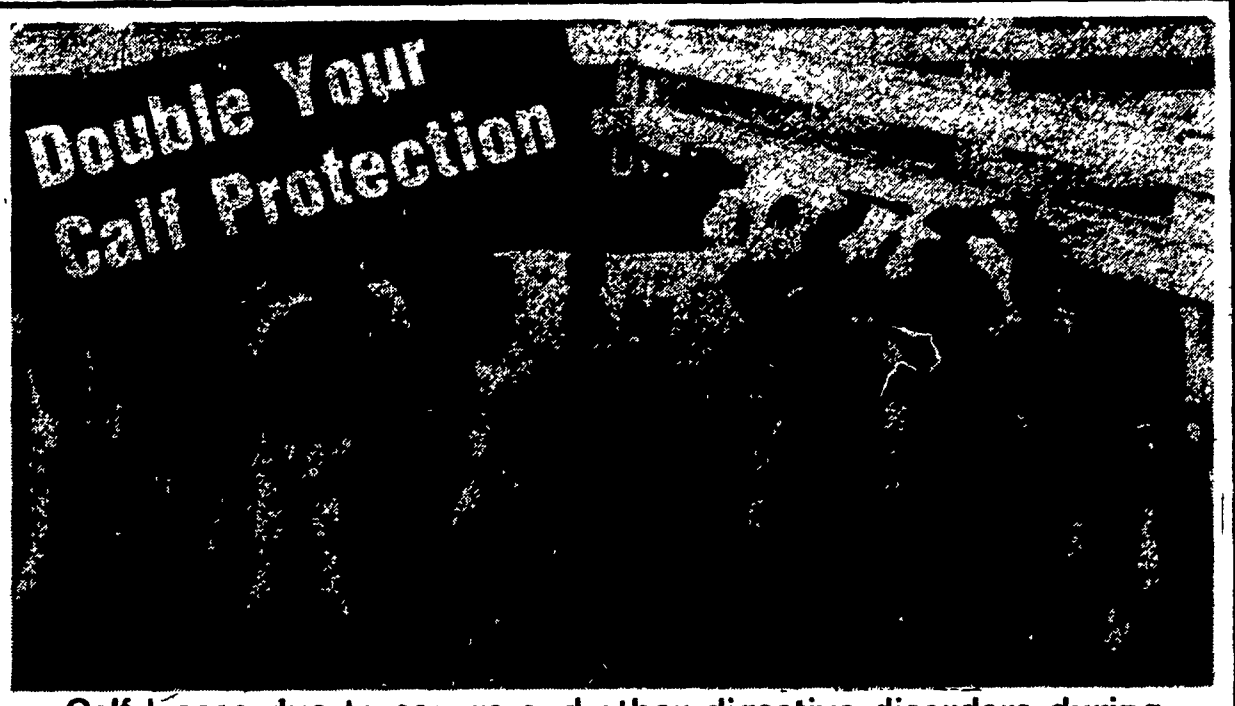
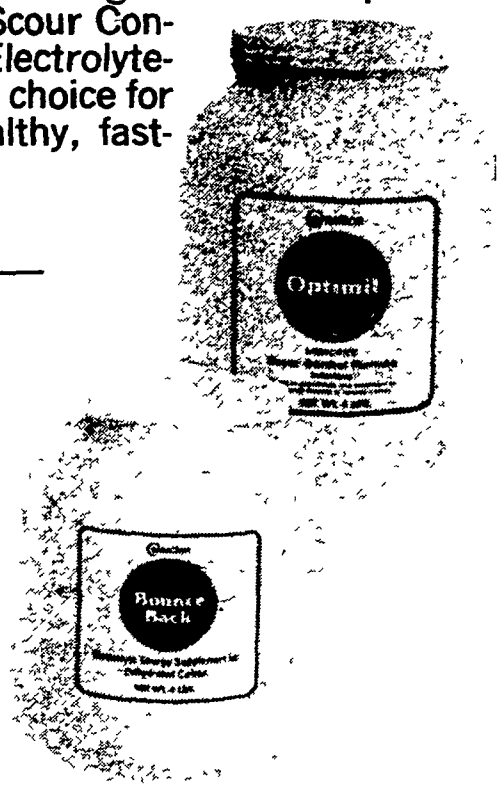
Your dairy program depends on a constant supply of healthy replacement heifers for the milking string.



Carnation® FEEDS
The Animal World

Calf losses due to scours and other digestive disorders during the first four weeks of life, can upset even the best planned herd replacement program. Successful calf rearing and disease prevention go hand in hand. **OPTIMIL®** Scour Control Formula and **BOUNCE-BACK** Electrolyte-Energy Supplement are the dairyman's choice for maintaining a constant source of healthy, fast-gaining heifers.



Bounce Back™

Electrolyte Energy Supplement
Dehydration as a result of scours is a major problem among dairy calves. When calves begin to droop, feed **BOUNCE-BACK.**
BOUNCE-BACK helps dehydrated calves retain essential body fluids and helps them back on the road to good health.
BOUNCE-BACK is available in a 4 lb. jar.

Optimil®

Scour Control Formula
Carnation's high potency medicated supplement for the control and treatment of infectious enteritis (scours) in calves.
OPTIMIL contains two active drugs, Neomycin Sulfate and Oxytetracycline along with high levels of vitamins and electrolytes.
OPTIMIL is available in an 8 oz. pack, and 4 lb. jar and 15 lb. pail.
