Pudder & Ford,
MANUFACTURERS AND DEALERS IN
MANCHESTER MINERAL PAINT,
ALLEGHENY, CITY PA.
NEW YORK, December 15, 1851.
I have analysed a sample of MANCHESTER MINERAL PAINT, for PUDDER & FORD, and find it to contain the following:

Silica	67,21
Alumina	5,34
Per Oxide of Iron	18,41
Lime	68
Magnesia	24
Oxide of Manganese	12
Water and Loss	8,00
	100,00

The Powdered Sample, contained in the box, which I suppose was the one you desired also to have analysed, I find to differ from any average of the lumps powdered, and mixed together. This last yields as follows:

Per Oxide of Iron	58,50
Silica and Alumina	33,00
Lime	68
Magnesia	16
Water and Loss	7,96
	100,40

This difference I presume arises from the mineral not being uniform, some portions containing more Iron than others. The analysis shows the article to be well suited for a durable paint. I find that by calcining the powder by a pretty high heat, the color is much improved, or at least converted into a fine red.

JOSEPH LIPPINCOTT ... WM. C. BARR.
LIPPINCOTT & BARR,
(LATE J. S. STRICKLER & CO.,)
MANUFACTURERS OF PHOENIX FIRE PROOF SAFES, Second Street, between Wood and Smithfield—On Tuesday afternoon, July 25, 1843, the undersigned were called upon by Messrs. Lippencott & Barr, to witness an honest and fair test of one of their Phoenix Safes. The furnace being prepared, the Safe was placed inside thereof with Books, papers and some money; when the door of the Safe was closed and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red hot, and continued till half past 5 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof.

Ladies Sewing Birds.
THESE useful articles are introduced to the public by the inventor, and especially recommended to the notice of the Ladies, for whose particular use they are intended.
Something of the kind has ever been needed, to hold or fasten their needle-work while engaged in sewing. Many a fair form is ruined and "made round-shouldered" by their position, while at work, as well as health impaired, by sitting in such an unhealthy posture. Improvements are constantly being introduced to lessen the labor of men, but little or nothing has been done to alleviate the burden of the other sex; this article, however, will greatly relieve, while it will facilitate their work. The Sewing Birds have been used by many ladies in New England, and has met with universal approbation.
They may be had of the subscriber, by wholesale or retail, in every variety of style, and the small price at which they are offered must recommend them to general use.

Fayette Springs now Open.
THIS highly attractive and fashionable WATERING PLACE has been leased, together with the "FAYETTE SPRINGS HOTEL," adjacent thereto, by the proprietor of the "Farmington Hotel," on the National Road, who has secured the best cooks and the best supplies of every kind, with a determination to please all his visitors. A new building, with forty Rooms, has recently been added to the establishment.
These SPRINGS are surrounded by the most delightful and Romantic Mountain Scenery, in a cool climate, with pure air and pure water. The curative and purifying properties of these waters have been fully established, by the fact that they have never failed to cure the worst cases of Scrofula, the most inveterate Sores, and other diseases of the blood.
STAGES AND HACKS will arrive at and leave the steamboats at Brownsville daily, whence visitors will pass, in a drive of four or five hours, to the Springs, over an excellent McAdamised Road, about half the distance through one of the richest and most delightful agricultural regions in the country to Uniontown, and then eight miles further, over the Laurel Mountain, presenting from its slopes and summit, splendid views of the great western valley, with all its rich, variegated and beautiful scenery.
In short, it is confidently believed, that there is no watering place in the country presenting stronger attractions to those seeking HEALTH AND PLEASURE, than the "Fayette Springs," and the undersigned is very certain they can no where find a greater disposition to please, on more accommodating terms.
