Wit and Humor.

Artemus Ward, Jr., on the Presidency.

Perchaps you think I've bin an' gone an' forgot to recollock you? Those is not the case. I havent bin dablin in Ile Stocks, or Gole Stocks, or enny other stocks, either.—Not a Dab. The best rasin I kin give fer not dabblin in 'em, is because I have no Dabblers—which meen greenbax.

For sum time parst I've been lyin' low, keepin me top eye peeled, and waitin for sumthin to turn up—which larst remark was maid by me ole frend, Mr. Mick Cawber, a Irishman. Sumthin are turnin up.

I desire 2 clame your attention a few short periods on the subjeck ov the Presidency fer the years beginnin March 4, Anny Dominee, 1865, '66, '67, '68, incloosively. It air the one grate queschun what now cawses the Nation's Buzzim to flutter like the throbins ov a defunct mutton's narrative—as it were.

Noomeris candydates is bein talkd about, and rit about, and lied about. You carn't Rub that out. I air no pollytishun. I don't belong to them family. I had a step-uncle or Sumthin onct, which was a pollytishun; but he went and died afore he was 21. I don't arsk ary a offis orf enny indoolgent publick, 2. I don't spose the indoolgent publick wood bestow ary a offis onto me ef I did arsk it. I don't keer. As long as the subscriber can weeld a pen or a squill, he meens to say his say—the 'pinions of Copperheads an other traitors to the contrary, nevertheless, notwithstanding, inasmuch, howsomever, etsettery. I'll bet my 3 dollers and 22 cents on that. An I don't inten to diverge from the truth enny. But I air now divergin from the subjeck.

In speakin ov the merits and demerits, capabilities and decapabilities, ov the different candydates wich has been named for the Presidential Posish, I shill reserv the best till larst. Arfter the 'lection, the larst shall be fust, as Mr. Shakspere sez, (The undersind's posted up in William.)

Euny chap wot possesses the most obtoose intelleck cannot fale to perceiv that a muchlier portion of the Rebs' Nuthern frens air in favor of Mister Geo. B. Littlemacklellan fer the next Cheef Magistrait. I make no dowt his frens think he wood make a sweet Pres. Accordin to thare idee ov things, he wood—2 sweet. They think J. Davis makes a Tip-top Pres. As President, George woodn't irritate his Suthrin brethren much. Skurcely. But I don't bleev fer enny length ove moments that Mack wood make the best Pres. the world ever saw. On the contrary, I think he wood make the wust—tho' it would be putty difficult to make a wuster than J. Buchanan.

Here allow me to digress a few. The other day I recevd a letter from me frend Stwaggles. He says whare he lives the Copperheds dont du nuthin but stay to hum and help J. Davis; and they say ef the Cops was in offis, things wood be cheaper, henz they woodn't be so dear. Wal, they had a 'lection, and sum Cops was 'lected. But things didn't git cheaper. It was vicey versey. Stwaggles said his washwoman warnted to advance the price ov his washin. But as he hadn't meny close his bill wasn't hefty. I rit back an tole Stwaggles, in a surcustic way, to help 'lect Littlemack, an times wood be so hard he woodn't hav *eny* harness to wash or wear, which wood make his wash bill *very lite*. I bet you.

As I remarkt bef, Geo. B. woodn't do for a Union Pres. He has his faults. Ef he was nominated fer a Grave Digger, or a boss in a Iron Oar quarries, I wouldn't say Neigh. As a digger, he's large. I mite say he's immense. As Cheef Magistrait ov the U. S. he'd be shaky. Rather. Afore he had occupied the cheer long, he'd have Washington dug up an located at Hoboken, N. J.—Maybe he'd send mittens to the bare handed shivilry, afore they battled with the mudsils ov the North. Praps I am rather heavy on George. Onct I endorst him. I called him Pennsylvany's Son. I didn't stop to enkwire ef he was Abolishionist, Copperhedishionist, Greelyishionist, or J. G. Bennetishionist, Gooist or Jentilist, so he wood skrush the Rebs as he promist to do—push 'em to the wall as he sed he'd do. But that happy dream is Ore, as the poick so gushinly warbles. When George had command ov the Potomick Army, he used to make stratergetic moymints toards Richmond an immejitly find hisself in Washington. Now ef he makes a stratergetic moyment toards Washington he will find hisself—sum other place.

2 to 1 on it.

I don't think Clement Vallandigham wood make a sootable Pres. fer the North. Not much. Clem has his little faults, 2. He's a forrener. He's suntinn else likewisely. I won't say what, but the fust letter sounds like Trator. An that's wot ails him. He was elected to remain in Canady a few years. The few years is not up. Clem wood soot the Nuthern and Southren Rebs to a T, but ary a man wot has a hunk of patrism in his buzzim as big as a Copperhed's sole, wood prefer he continood being a Forriner.

Perhaps Mr. Toul Booryguard wood fill the Peas-at-any-price party. I air free to confess that Toul wood fill the Presidential cheer with as much advantage to the North as enny other copperhed, but he's not the pippin or squinch ov the undersind's eye. Hardly. He has his faulta. Like them fust namd, he sympathizes with the South.

There ar other candidates named by the Peas Party. Shoodn't wonder ef they hav a hankerin arter J. Bukanan agin. When J. B. was President he mixt things sooperbly.—Ef it hadn't been for Jeems an his festive party, we coodn't now bost of a war; we coodn't bost ov payin 75 cents a lb. fer butter, an other things in perportion; we coodn't bost—we coodn't—we—*we doodn't bost*. Cood we? But Jeems woodn't be elected. I larn he run fer constable lately, an was defeated.

Perchans the N. Y. Peas men will bring out Mister Emma Webb for the posish. She might make a luvly Pres in 1 cents, but not in another. She luvs the shivalry not tu wisely, but tu well. She has other faults. She don't ware the rite kind of Close. E. Webb is out of her spear. Her spear is in the Sonny South. Fer the benefit ov those readers wich hasn't herd ov Emma, I will stait that she air a femail who makes Stump specches occasionally fer Jeff. Davis. I bet ef she ever get a husband he'll have to fly round.

Thare is other specimens ov the Peas party sumthin mite be set about; but I sbare. Shood that party ever run fowl of a Judas Ischariot No. 2, they will seiz onto him like a Grim Nigger onto a Ded Deth, as the sayin is, and nominate him fer President. Judas C. was a Cop, I wager.

The Union party air also namin thar candydates. John Charles Fremont is hinted at. In fact, he is hinted at too extensively. John is a hunky boy, but he has a couple of faults. The fust is, his time has not cum; the 2d, he woodn't be elected. This larst fault is what ails me. I think your humble servint cood run for President without gettin elected, as easy as the nex man, or enny other man.—Those hotheaded chaps all over the country who air usin John's name had better refrane. They shood take B. Franklin Scott's advice, and put "money in thar purs." Ef they persist in clingin to J. C. they will help to elect a Secesh Pres, an then thar won't be nary money to put in thar purs. But I think John is a sensible, morril, uprite chap, thert I opine he won't leav his name be used for those purpis. I must see John an advise him personilly. He must bide his time.

Secretary Chase has also bin pusht forrard. Salmon wood make a Calooshus President, thars no 3 ways about it. But he has his falts. One is, he won't accept. Another, he makes a good Secretary. Them's not the worst falts he can have. Not enny. As Secky has declined the nominashe warnted to be thrust onto him by sum persons, I say Bully fer him! The Cops besline Salmon fer circoolatin greenbax. They but one objection to him in those particular—wich is, he dont circoolate enuff ov 'em in the immejite vicinity of A. W. Jr.'s pockit. Ef the bogus demos don't think theys luvely, let 'em emigrate to the Suthrin Confederacy, and locate amongst thar frens, whar shinplasters air as plenty as Bishop Polkberries, and about as wuthless. In the South the Union men wants to cum North, and the Rebs won't let 'em. In the North the Union men want the Cops Rebs to go South, and they won't go. This shows that we air the more magnimonuser ov the 2.

But to the Presidency.

Gen. Butler—or, in the classick terms ov all Nuthern and Suthren traitors, "Beest Butler,"—is highly spoken ov in connection with the nex Presidency. I must confess that "Beest Butler" is a animile that I hugely admire. Ef he was in the Presidential cheer now, insted of the shivalry stirring up the animile with a long stick, the animile wood stir up the shivilry with a long stick.—He's doin it now. Rather. Ef it wasn't for a ole frend ov mine, I wood indorse Benjamin. But B. F. air very well suited in his present locashe, an the cuss who calls him *Beast Butler* is fit fer treason, startyjims and spiles. He wood swop orf his granmother fer a yaller dog.

Gen. Grant air another hunky youth.—Thare cood be worse men than Ulysses brot forrard. But he has his little falt. As a President he might be hunk, but as a Genril he's hunkier. That's his little falt.

William Seward is in the ring slsoly. But I don't think I cood carst me ballot for William. I fear he's a little waverish on the "Irrepressible Conflict" queschun.

Larstly, there is another man named for the nex Presidency.

An he's goin to get it, 2.

Praps you've herd ov him. His fust name is Mr. Honest Old Abe Linkon. That's his larst name 2. A. L. is the cheef among 43 thousan, an the 1 altogether luvly. As a Pres. I air bound to admit that he's Gorjeus. Others think so too. He's bin runnin the mashene 2 years with traitors, copperheads, an other filthy vermin puttin on the Brakes. But they failed to stalld him. He's brain her thru all O K. skrushin Slavery, Secesshun, an a goodly portion ov the Confederacy under its wheel, like the Juggernot stile.

Give us Linkon or give us—Old Abe. We air not particularly. Either will do. The Dutchmen will vote for Abe, becaws Liberty, Lincoln, Lager Beer an Limburger cheese begins with a L. The Irish will vote fer him, becaws Peraties and Irish Whiskey don't begin with a L.

The Cops wont vote fer him, becaws Liberty, Love-ov-country, Lick-the-Rebs, and Linkon begins with a L. They will vote fer Geo. B., becaws Mizzy, Murder, Misygenation, and McClellan begins with a M. 3 troo, I bet.

My pen is pale, my ink is wuss,
An ef the Copperheads don't like wot I've rote in this letter, why I don't keer a speckled cuss!

Thine only, A. Ward, Jr.

PHILADELPHIA.

THE NEW STYLE PATENT DOUBLE TUBE PIPE.

One of the most valuable of all recent inventions for the luxury and interest of those who use Tobacco, is the above named Pipe.

It differs from the old style in having two Tubes throughout the stem. Instead of one, whereby the smoke is kept entirely separate from the saliva and nicotine. The effect is really charming. The pure odor of the Tobacco is preserved, thus rendering the smoke far more delicious, and the Pipe never becomes offensive.

This Pipe is rapidly superseding the old style of Pipes, and monopolizing the favor of all smokers, because it is in reality far better and cheaper than others.

FOR SALE BY DEALERS generally in this city, and at manufacturers' rates by the undersigned, Agent for the Tobacco Pipe Company. R. S. HARRIS, No. 600 CHESTNUT St., 2d floor.

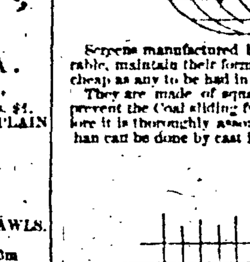
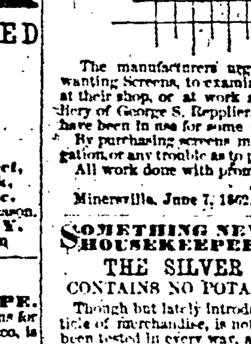
TO COAL OPERATORS.

GREAT IMPROVEMENT IN COAL SCREENS. The undersigned are now prepared to manufacture, at their shops in Minersville, all kinds of SCREENS for screening Coal, of the improved manufacture, patented to Jonas Laubenstein, 4th February, 1862.



Screens manufactured by this process, are more durable, maintain their form better, and are furnished as cheap as any to be had in the County.

They are made of square iron, in such shape as to prevent the Coal sliding from one size to the other before it is thoroughly assorted, thus preparing it better than can be done by cast iron or wire screens.



The manufacturers urgently request all Operators wanting Screens, to examine those new patent Screens at their shop, or at work at the Mammoth Vein Colliery of George S. Repplier, near St. Clair, where they have been in use for some time.

By purchasing screens made under this Patent, litigation, or any trouble as to patent rights will be avoided.

All work done with promptness and dispatch.

J. & L. LAUBENSTEIN.

Minersville, June 7, 1862. 23-tf.

SOMETHING NEW AND GOOD FOR HOUSEKEEPERS.

THE SILVER PEARL SOAP,

CONTAINS NO POTASH, SALT OR ROSIN.

Though but lately introduced to the public as an article of merchandise, is not a new invention. It has been tested in every way, and always has proved itself to be an invaluable soap for family use.

It is not claimed that it will wash clothes without labor, but will make the labor of washing much less than with the use of any other soap; will do about one-fourth further, and WILL NOT INJURE THE MOST DELICATE ARTICLE.

It is not claimed that it will make an old coat or dress equal to new in every respect, but it will remove grease or dirt from woolen goods thoroughly. The brightest combinations of colors in woolen delaines or cashmeres may be cleansed by using this soap with warm water. Rub the stuff to be washed, in a lather made with the soap and warm water; rinse with warm water, and iron while wet. Delaine which fades when washed with ordinary soap, retains its brilliancy and beauty when washed with Silver Pearl.

It is not claimed that a single touch will remove dirt from paint that has been encrusted for months or years, but will soften such a coating, and render its removal easy. When the parlor paint is to be cleaned without removing the carpets, it is only necessary to take a saucer of the soap, and with a moist sponge rub first upon the soap and then upon the soiled places, when the dirt will vanish without the use of water, or the risk of spoiling the carpets with slop-suds.

It is not claimed that it will restore old furniture so that an experienced dealer would think it new, but a single application of the Silver Pearl Soap will take off spots entirely, and a few drops of linseed oil, carefully rubbed in, will make ornaments of many unsightly bureaus, chairs and tables.

In short, it is not claimed that it will perform impossibilities, but it can be relied upon as a PURE SOAP, made of the best materials, without POTASH, SALT OR ROSIN, and one that can be used without fear of injury except to dirt.

The extremely low figure at which the Silver Pearl Soap is sold is an additional inducement to housekeepers to purchase it, and once used it will always afterward be an indispensable treasure.

This soap is put up neatly, in tin cans, 1 lb. at 15 cents, 5 lbs. at 45 cents, 10 lbs. at 75 cents, 20 lbs. at $1 30. The 1 lb. cans are intended more as samples than for general use. The 10 and 20 lb. cans will be found the most economical size, costing only 6 to 7 cents per pound.

Directions accompany each package.

Sold wholesale and retail by B. BANNAN, Sole agent for the Manufacturers, in Schuylkill Co.

Merchants supplied wholesale, at manufacturers' City prices. March 5, '64.

THE GREAT

AMERICAN TEA COMPANY

51 Vesey street, New York,

Since its organization, has created a new era in the history of

Selling TEAS in this Country.

ALL our Teas are selected by a Professional Tea-taster, expressly and exclusively for us, and we never charge over Two Cents (02 cents) per pound above cost for original packages.

We have but One Price to every one for each quality, and that price is always marked on each sample package at our store in plain figures.

We issue a Monthly Price List of our Teas, which will be sent free to all who order it—we advise every Tea Seller to see it. It comprises a full assortment selected for every locality in the States, Provinces, South America and the West Indies. In this list each kind is divided into Four Classes or qualities, namely: Cargo, High Cargo, Fine, Finest; that every one may understand from description and the prices annexed that the Company are determined to undersell the whole tea trade.

We guarantee to sell all our Teas in original packages at not over Two Cents per pound above cost, believing this to be attractive to the many who have heretofore been paying Enormous Profits.

Our business is largely done on orders, which we always execute as well and promptly as though the buyer came himself giving true weights and tares, and always guaranteeing everything; our responsibility enabling us to do all we promise. Every dealer can order his teas direct from the Company, and parties doing business within Five Hundred (500) miles of New York, can return Tea bought of us if they are not cheaper than they can buy elsewhere, and the purchaser is dissatisfied with his bargain, within fourteen days (14), and have the money refunded to them. Those who are over Five Hundred miles can have thirty days (30), and the same privileges extended to them.

Besides these advantages the Company will pay All Expenses, both ways, if the Teas are returned.

GREAT AMERICAN TEA COMPANY, IMPORTERS AND JOBBERS, 51 Vesey St., New York.

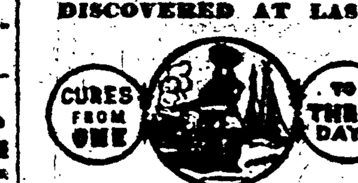
EARLY CABBAGE PLANTS for sale at GREENWOOD NURSERY, [illegible]

MEDICINAL.

Glad News for the Unfortunate!

THE LONG SOUGHT FOR

DISCOVERED AT LAST.



CHEROKEE REMEDY

AND

CHEROKEE INJECTION!

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose being from one to two teaspoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhea, Gleet, Fluor Albus or Whites. Its effects are healing, soothing, and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack Injections.

By the use of the Cherokee Remedy and Cherokee Injection—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free to any address, a full treatise.

Price, Cherokee Remedy, $2 per bottle, or three bottles for $5.

Price, Cherokee Injection, $2 per bottle, or three bottles for $5.

Send by express to any address on receipt of price.

Sold by all druggists everywhere.

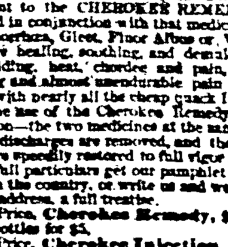
COMPOUNDED FROM



CHEROKEE CURE!

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution: such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficulty of Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the Direful complaints caused by departing from the path of nature.

This medicine is a simple vegetable extract, and one on which all can rely, as it has been used in our practice for many years, and with thousands treated, it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn case.

To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed!

For full particulars, get a Circular from any Drug Store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise in pamphlet form.

Price, $2 per bottle, or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty Street, New York.

DR. WISHART'S

PINE TREE

TAR CORDIAL

IS THE VITAL PRINCIPLE of THE PINE TREE.

Obtained by a peculiar process in the distillation of the tar, by which its highest medicinal properties are retained.

It is the medicine that cures when all others have failed.

Have you a Cough? Have you Sore Throat? Have you any of the premonitory symptoms of that most fatal disease, Consumption?

Those who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatality of disease which sweeps to the grave at least one-sixth of Death's victims.

What are its Symptoms?

It usually begins with a short, dry cough, which soon becomes habitual, but for some time nothing is raised except a frothy mucus. The breathing is somewhat difficult, and upon slight exercise much hurried. A sense of tightness and oppression at the chest is often felt. As the disease advances the patient becomes thin in flesh, is afflicted with loss of appetite, great langour, indolence, and dejection of spirits; and may continue in this state for a considerable length of time, that it is very readily affected by slight exposure or fatigue. If these occur, the cough becomes more troublesome, and is attended with expectoration, which is most copious and free early in the morning. It is sometimes streaked with blood. At this stage night-sweats usually set in, and in some cases a profuse bleeding of the lungs may also occur. Pain in some part of the chest is felt, and often a difficulty of lying upon one or the other side, without severe fits of coughing or a sense of fullness or suffocation, is experienced. The pulse becomes full, hard, and frequent, the hectic flush tinges the cheeks, and the dire malady is fast hastening to its close.

You now ask, "Is there a cure?"

Consumption has been and can be cured by the use of my Tar Cordial, even in apparently hopeless cases.—This assertion I make with the ability to present the most complete evidence of the truth. Space will not admit of my giving the contents of the many thousands of testimonials to its value, which I have been and am receiving from men and women of unquestionable worth and reputation. I have had a number of these certificates printed in circular form, which I will send you free on application. Whether you now determine to try the medicine or not, send for the circular. After years of study and experiment, I offer this medicine, believing it to be the best remedy for all pulmonary and bronchial diseases. If you cannot be benefitted by the use of the Tar Cordial, I believe you are beyond all earthly aid. Yet if there are better curate agents, I earnestly advise their use. The best remedies, the best care, are needed by those afflicted with this disease. Because I believe this to be the best, I ask you to try it.

Many, not only of the people, but physicians of every school and practice, are daily asking me, "What is the principle or cause of your success in the treatment of Pulmonary Consumption?" My answer is this:

The Invigoration of the digestive organs—the strengthening of the debilitated system—the purification and enrichment of the blood, must expel from the system the corruption which Scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving pain, subduing inflammation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with Nature's constant recuperative tendency and the patient is saved, if he has not too long delayed a resort to the means of cure.

The Pine Tree Tar Cordial will cure Coughs, Sore Throat and Breast, Bronchitis, Asthma, Croup, Whooping Cough, Diptheria, and is also an excellent remedy for diseases of the kidneys, and female complaints.

BEWARE OF COUNTERFEITS!

The genuine has the name of the proprietor and a pine tree blown in the bottle. All others are spurious imitations.

Price Fifty Cents and One Dollar per Bottle.—Prepared only by the proprietor.

MEDICINAL.

A CARD TO THE LADIES.

Dr. DUPONCO'S GOLDEN PILLS, for Females.

Infallible in correcting, regulating and removing all obstructions, from whatever cause, and always successful as a preventive.

These pills have been used by the Doctors for many years, both in France and America, with unparalleled success in every case; and he is urged by many thousand ladies who used them to make the Pills public for the alleviation of those suffering from any irregularities whatever, as well as to prevent an increase of family, where health will not permit it. Females peculiarly situated, or those supposing themselves so, are cautioned against using these Pills while in that condition, as the proprietor assumes no responsibility after the admonition, although their mildness would prevent any mischief to health; otherwise, the Pills are recommended. Full and explicit directions accompany each box. Price, One Dollar. Sold wholesale and retail by Jno. G. Brown & Son, Druggists, Sole Agent, Centre Street, Pottsville, Pa.

Ladies, by sending them $1, to the "Pottsville Post Office," can have the Pills sent to any part of the country (confidentially), and "free of postage," by mail. Sold also by R. H. Lewis, St. Clair; J. Keller Dreher, Minersville; Dr. Fry, Tamaqua; and S. S. Stevens, Reading; and by one Druggist in every town and village in the State. IMPORTANT TO FEMALES

PROCLAMATION!

TO THE LADIES!

BOTH MARRIED AND SINGLE.

The Oldest Regulator for Females.

Dr. Cheeseman's Female Pills

Will immediately relieve, without pain, all disturbances of the periodic discharge, whether arising from relaxation or suppression. They act like a charm in removing the pains that accompany difficult or immoderate menstruation, and are the only safe and reliable remedy for Flushes, Sick Headache, Pains in the Loins, Back and Sides, Palpitation of the Heart, Nervous Tremors, Hysterics, Spasms, Broken Sleep, and other unpleasant and dangerous effects of an unnatural condition of the sexual functions. In the worst case of Fluor Albus or Whites, they effect a speedy cure.

Dr. Cheeseman's Female Pills

have been used OVER A QUARTER OF A CENTURY. They are offered as the only safe means of renewing interrupted menstruation, but ladies must bear in mind that there is one condition of the female system in which the Pills cannot be taken without producing a PECULIAR RESULT. The condition referred to is PREGNANCY—the result, MISCARRIAGE. Such is the irresistible tendency of the medicine to restore the sexual functions to a normal condition, that even the reproductive power of nature cannot resist it. THEY CANNOT DO HARM in any other way.

Dr. Cheeseman's Female Pills

are the only Medicine that MARRIED AND SINGLE LADIES have relied upon for many years, or can rely upon now. BEWARE OF IMITATIONS! These Pills form the Finest Preparation ever put forward, with IMMEDIATE and PERSISTENT SUCCESS. DON'T BE DECEIVED. Take this advertisement to your Druggist, and tell him that you want the BEST and most RELIABLE FEMALE MEDICINE IN THE WORLD, which is comprised in

Dr. Cheeseman's Female Pills!!

They have received, and are now receiving, the sanction of the most eminent Physicians in America.

Explicit Directions with each box—the price, One Dollar per Box, containing from 50 to 60 Pills.

Pills sent by mail, promptly, by remitting the price to the Proprietors, or any authorized Agent, in current funds.

SOLD BY DRUGGISTS GENERALLY.

HUTCHINGS & HILLYER, Proprietors, 81 Cedar street, New York.

Sold in Pottsville by JOHN G. BROWN & SON; in Minersville by JACOB S. LAWRENCE; in Tamaqua by E. J. FRY and N. P. FOWLER, and in St. Clair by all Druggists. [Feb '64.—6-1y.

To the Ladies of America!

Lyon's Periodical Drops,
Lyon's Periodical Drops,
The Great Female Remedy!
The Great Female Remedy!

LYON'S PERIODICAL DROPS cure all complaints incident to the sex, and remove all obstructions of nature, from whatever cause, producing health, vigor and strength.

LYON'S PERIODICAL DROPS are better than all Pills, Powders and Nostrums; being a fluid preparation, their action is direct and positive, and it needs nothing but good common sense to see and understand the reason why they cure all ills to which the female system is subjected, with dispatch and a degree of certainty which nothing but a scientifically compounded fluid preparation could reach; they are, to the most obstinate cases,

Reliable, and sure to do Good!
Reliable, and sure to do Good!
And cannot do Harm,
And cannot do Harm.

To the most delicate constitutions.

LYON'S PERIODICAL DROPS will certainly produce the regular return of nature, if taken a day or two before the expected period, and it is a maxim in the profession, that prevention is better than cure.

LYON'S PERIODICAL DROPS have been used by over twenty-five thousand ladies, within the past six months, and the testimony of all is, "It surely cures."

CAUTION! CAUTION!!!

Bear in mind that I guarantee my Drops to cure Suppression of the Menses, from whatever cause, though care should be taken to ascertain if Pregnancy be the cause, as these Drops would be sure to produce miscarriage, if taken whilst in that situation, and all such are notified against using them, as I wish it distinctly understood that I do not hold myself responsible when used under such circumstances.

TO MARRIED LADIES

They are peculiarly adapted, as they bring the monthly period with such perfect regularity.

I could furnish any quantity of testimonials of its efficacy from my own patients, but the practice of parading bought and fictitious ones before the public is so prevalent, I do not deem it advisable.

BE WISE IN TIME.
BE WISE IN TIME.
BE WISE IN TIME.

Let not disease destroy your constitution—Try a bottle of my PERIODICAL DROPS, and you will be satisfied that I am no imposter. Tell your afflicted friend what restored the bloom of health to your cheeks, and thereby confer a favor more valuable than gold. For painful or scanty menstruation it is just the thing. I have now in my mind an instance of a lady who had been suffering from painful Menstruation for two or three years, confining her to her room each time. She had applied to several eminent physicians, without relief, when one bottle of my Drops entirely cured her.

ONE BOTTLE CURES
ONE BOTTLE CURES
ONE BOTTLE CURES
ONE BOTTLE CURES

In almost every case

It is impossible to enjoy the bloom of health and vivacity of spirits, unless the Menses are regular as to the time, the quantity, and quality. When they are obstructed, nature makes her efforts to obtain for it some other outlet, and unless these efforts of nature are assisted, the patient usually experiences despondency, Nervousness, and finally, CONSUMPTION assumes its sway, and prematurely terminates a miserable life. Do not suffer from these irregularities when an investment of one dollar in Lyon's Periodical Drops will regulate and restore nature to its healthy course; and

DO NOT BE IMPOSED UPON!
DO NOT BE IMPOSED UPON!

by those who have other preparations, which they desire to palm off upon the strength of the popularity of my Drops. But when the Druggist you apply to has not got them, either make him buy them for you, or else enclose One Dollar to the nearest general wholesale agent, who will return you a bottle by return Express.

See that the name of Jno. L. Lyon is written upon the directions which are wrapped around each bottle.—None others are genuine. Therefore, beware of counterfeits. They are for sale by every druggist in city and country, at one dollar ($1) per bottle. If you wish relief take no other. Dr. JNO. L. LYON.

Pottsville, April 30, '64. 18-ts

ORPHANS' COURT SALE.

Pursuant to an order of the Orphans' Court of the County of Schuylkill, in the Commonwealth of Pennsylvania, the subscriber, Administrator of the estate of Jacob Hammer, late of the Borough of Orwigsburg, in the County of Schuylkill, deceased, will expose to sale by public vendue, on

Saturday, the twenty-eighth day of May next,

at 10 o'clock in the forenoon, at the Public House of Jesse Drumheller, in the Borough of Pottsville, in the County of Schuylkill aforesaid, all those certain 2½ lots of ground, situate in the said Borough of Orwigsburg, bounded in front by Mifflin Street, on the east by lot of Peter Kunkel, deceased, northwardly by a ten feet alley, and westwardly by property late of John Bannan, containing ten perches in width, and eleven perches in depth;—appurtenances; a one-story log house.

Also, the one-half of a certain tract of land in Branch Township, Schuylkill County, formerly N. Allen's, bounded by lands of the New York and Schuylkill Coal Co., lands now or late of Michael Hallenbach and Moses Jacques, containing 107 acres, more or less.

Also, all that certain half part of a tract of land in Barry Township, county aforesaid, containing 33 acres, more or less, it being part of a tract surveyed and patented to John Shoener, Jr.

Also, a certain tract of land, situate in the township and county aforesaid, adjoining lands late of Michael Bolig, Isaac Yarnall, and others, containing 35 acres, more or less.

Also, all that certain lot of ground in Morris' Addition to Pottsville containing along Centre street, about 21 feet, and in depth about 122 feet;—appurtenances: a frame stable.

Also, all that certain lot of ground in Patterson and Swift's Addition to Port Carbon, in the county aforesaid, marked with No. 6, containing in front on Coal street, 61 feet, and extending in depth 134 feet, with the appurtenances, consisting of a 1½ and a 2-story frame house and frame stable.

Also, a certain tract of land in Upper Mahantongo Township, county aforesaid, adjoining lands late of William Witman, deceased, and lands applied for by John Shoener, Jr., containing 55 acres, more or less.

Also, the undivided half of a certain tract of land in Schuylkill township and county, bounded by lands of William Audenried, Daniel Focht and Lewis Audenried, containing 12 acres and 43 perches; the appurtenances consisting of a one-story log house.

Also, all that certain water lot, in the town of Port Carbon, County of Schuylkill, beginning at a stake at a corner on Railroad; thence, running north 71 degrees east, along said railroad, 21 feet 5 inches to a stake; thence, north 6 degrees west, 120 feet, more or less, to the east side of the Schuylkill River, to a stake; thence, down along the river, south 66 degrees west, 23 feet to a stake; thence, south 7 degrees east, 120 feet, more or less, to the place of beginning.

Also, all that certain lot of ground, in Norwegian Addition to Pottsville, county aforesaid, containing in front, on Sanderson street, 30 feet, and extending back 140 feet, being the southeasterly portion of lot No. 3,—with the appurtenances, consisting of a double two-story frame house, with stone basement.

Also, all that certain lot of ground in Norwegian addition to Pottsville, Schuylkill County, marked No. 179, beginning at corner of lot No. 178; thence by it north 11 degrees and 35 minutes west, 230 feet to a 30 feet wide street; thence along it south 79 degrees and 25 minutes west, 66 feet; thence by lot No. 180 south 11 degrees 35 minutes east, 33 feet to Railroad street; thence along it north 78 degrees and 25 minutes east, 66 feet to the place of beginning.

Also, all that certain lot or piece of ground in the Borough of Port Carbon, county aforesaid, beginning at a corner lot marked No. 6, in Patterson and Swift's addition to Port Carbon; thence north 52½ degrees east, 61 feet more or less to a corner lot No. 7; thence north 37½ degrees west, to the first street; thence along said first street south 81 degrees west, 62 feet more or less to a point on said street in line with the line dividing the lots No. 5 and 6; thence south 37½ degrees east, to the place of beginning, being the lot of ground intervening between the rear of the said lot No. 6 and said first street.

Also, the one full half part of all those eight certain lots of ground, situate in the Town of Tremont, county aforesaid, marked in the plan of said town with Nos. 10, 11, 172, 181, 224, 191, 83, 173, excepting and reserving all the mineral coal, iron ore, and other minerals, with the right to dig and mine and carry away the same.

Also, all the right, title and interest of the said Jacob Hammer, dec'd, to the full one-fourth part of all that certain Forge, Saw Mill, Dwelling houses and tract of land, in East Brunswick Township, county aforesaid, bounded by lands of Jonathan Yost, widow Kepner, Jonas Buck, John and Henry Sassaman, Jonathan Jones, John Heiser and others, containing in the whole about 460 acres more or less, upon which the town of Ringgold is situated.

Also, the one full and equal fourth part of all that certain piece of land in East Brunswick Township aforesaid, bounded by land of now or late Rickert Focht, Shoener & Co., lands of Henry Sassaman, lands late of Samuel K. Kessamer and lands of Daniel Nestor, containing in the whole 9 acres and 46 perches strict measure.

Also, all that certain Steam Mill and Landing and lot of ground in the town of Port Carbon, in the said county of Schuylkill, bounded as follows: Beginning at the north-east corner now or late of Thomas Sillyman's lot on the river Schuylkill, distant 16 feet from the present wharf line, thence by said Thomas Sillyman's lot south 31 degrees east, 115 feet to a post; thence north 64 degrees east, 121 feet 9 inches to a post on the line now or late of Francis S. Hubley's lot; thence by said lot north 7 degrees west, 104 feet 4 inches to the corner of Maria S. Hubley's lot on the river Schuylkill, and distant 10 feet from the present wharf log; thence down the river Schuylkill south 67 degrees west, 181 feet to the place of beginning, excepting out of the same the coal right, sold by John Pott dec'd to Thomas Ridgway and others.

Also, all that certain tract of land, in Tremont Township, in the county aforesaid, containing one-third of one-fourth of 113 acres, 120 perches, being the same land which was sold by William Bickel, Treasurer, and by his deed of the 10th of August, 1858 conveyed to Jacob Hammer, as late the estate of "Moose and Strong." W. P. Filbert.

Also, all that certain tannery and tract of land, in the Borough of Orwigsburg, in the county aforesaid, bounded by lands of John Shoener, Jr., Thomas Hay, Margaret Graeff, George Follmer, and others containing 15 acres, more or less, with the appurtenances, consisting of a two-story frame shop, a log bark-house, with a double grinding bark-mill, a 1½-story brick house, a two-story log house, weather-boarded with two-story brick kitchen attached, and a frame barn, including a first-rate orchard, with a spring of never-failing water.

Late the estate of said deceased. Terms and conditions made known at the time and place of sale, by

HENRY HAMMER, Adm'r.

By order of the Orphans' Court, A. Dorrmann, Clerk.

AT PRIVATE SALE.

The subscribers offer for sale on reasonable and easy terms, all that certain tract of farming land, divided into fields of convenient size for farming purposes, well watered, situate in Bern Township, Berks County, seven miles northwest of Reading, on the State Road leading from Reading to Harrisburg, adjoining lands of Bennevills Keber, John C. Hiester, Daniel Fisher and Daniel Billman, and the Tulpehocken Creek, containing 230 acres and 99 perches, more or less, on which is erected a large two-story BRICK MANSION HOUSE, 37 by 37 feet, one-and-a-half-story Brick House, attached to the Mansion, 18 by 36 feet, Stone Tenement House adjoining the buildings, 18 by 36 feet; Spring House, 1½ story, and 17 by 18 feet, with a never-failing spring of water, which supplies all the aforesaid houses with water; large Swiss Barn, 40 by 87 feet, with spring water in the yard; Wagon Shed; Hog Stable, 15 by 20 feet; two Corn-cribs, nearly new. There are 40 acres of Oak Timber, and a very large quantity of excellent limestone near the surface of the ground, and 20 acres of meadow land.

Also, a certain tract of farming land, situate in the township and county aforesaid, divided into fields of convenient size for farming purposes, well watered, lying on the State Road leading from Reading to Harrisburg, within seven miles of Reading, adjoining lands of Levi Reber, by the afore-described farm, and the Tulpehocken Creek, containing 176 acres and 53 perches, 25 acres of which are good meadow land, and 30 acres of which is covered with heavy oak timber.—Limestone in great quantities on the farm, near the surface of the ground, and near the Union Canal landing. The improvements consist of a large two-story STONE MANSION HOUSE, 37 by 34 feet, with pump of water in the yard; also, a good arch in the yard; Swiss Barn, 40 by 88 feet, with water near by; Stone Tenant House, 1½ stories, 27 by 31 feet, with water near the door; Hog Stable, 15 by 25 feet, with pump of water in the building; Swiss Barn, 25 by 31 feet, with water near by. Also, a large STONE MERCHANT and GRIST MILL, 60 by 40 feet, three stories high, on the Tulpehocken Creek, with a water-power of 7½ feet, with the privilege of raising to 9½, considered to be the best water-power on the stream. There are two pairs of French Burrs, and machinery to put in another pair; one pair of Sandstone Choppers, all in excellent repair. The machinery in the Mill is of the best kind, being turned by Parker water-wheels. The Union Canal passes by the Mill, with a landing for loading and unloading grain, &c., from the canal boats into the Mill, by means of rope and pulley. Also, a SAW MILL, adjoining the Mill, turned by Parker's Water-wheels. The Mills are within 60 feet of the Mansion House. The above properties are convenient to churches, stores, schools, and blacksmith shops.

For particulars, apply to either of the undersigned, at the northeast corner of Sixth and Chestnut streets, Reading, Pa.

A. H. GALE & CO., PIANO FORTES, 107 & 113 East 12th Street, near 3d Av., NEW YORK CITY. We invite the attention of Artists and Amateurs to our charming little MONITORS, just introduced—a Piano Forte of exceeding sweetness and power, yet occupying but little more space than a lady's dressing bureau, admirably adapted to small parlors.—Also, to our new scale large 7¼ octave Piano Fortes, whose splendid resonance of tone has called forth the enthusiastic admiration of our first artists. Devoting close and unremitting attention to the nature and construction of this noble instrument we are enabled to offer to our customers the results of scientific experiments, proved by experience; and we claim for our elegant assortment of Piano Fortes the advantages of thirty years' experience. A visit to our new Salesrooms is respectfully solicited.

New York, April 25, '63. 17-1y.

TO CARPENTERS & BUILDERS.

The Schuylkill County

Lumber & Manufacturing Co.

Have on hand at their extensive establishment, on Railroad Street, a great quantity of lumber of every kind and description, which they can supply to Operators, Carpenters and Builders, at lower rates than it can be bought elsewhere. They are also ready to supply, through the means of their extensive business and labor saving machines manufactured articles in their line at a saving of 25 per cent. on former cost.

Their large workshops have been in successful operation for the past year, turning out vast quantities of

Doors, Window Frames,
Sash, Panel Work,
Mouldings, Bed-posts,
Blinds, Banisters,
Shutters,

And all kinds of Framed, Paneled and Turned Work, which they have constantly on hand. They are ready to execute orders at the shortest notice, for any quantity or quality of sawed or manufactured stuff.

Dry and green Hemlock of all kinds, for building purposes. Oak, Maple, Poplar, chair, plank and scantling boards; Cherry, Walnut, Mahogany, &c., for cabinet work; White and Yellow Pine boards for flooring, raw or made to order; White Pine plank, 3, 2½, 2, 1½, 1¼, 1, and ½ inch panel, always ready; also, plank, beams, rails, scantling, posts, shingles, lath, ceiling lath, pallings, &c., &c.

Bills of sawed stuff and everything in their line on hand or to order, at the shortest notice.

Pottsville, March 23, '63 10-

Encourage Home Manufactures.

CHARLES KEHRER,

MANUFACTURER OF

SALAMANDER SAFES,

Second St., Pottsville,

Announces to the business community of this and the adjoining counties, that he manufactures SALAMANDER SAFES of all sizes and kinds, warranted Fire-proof, which, in point of workmanship and finish, will compare with those obtained from any other establishment in the country.—He always keeps safes on hand for sale, and will make them any size, for Banking and other Public Institutions, as cheap, if not cheaper than they can be obtained from abroad.

He refers to Benjamin Haywood, George Bright, Thos. Cooch and A. Henderson, of this Borough, who have his Safes in use. [June 13, '63.—24-tf

PLUMBING AND GAS-FITTING Establishment, Centre St., Pottsville.

The subscriber announces to the public that he has purchased the interest of his late partner, Mr. H. B. Smith, in the Plumbing and Gas-fitting Business, and that he will carry on the business hereafter, on his own account. He respectfully solicits the patronage of the public, which he will endeavor to merit by strict attention to business. He has located himself in Centre street, nearly opposite the American House, where he will be happy to meet all those who desire his services.

He constantly keeps on hand all kinds of Brass Cocks, Water closets, Iron, Copper and Lead Bath Tubs, Porcelain and Copper Wash Basins, Iron and Lead Sinks, Hydrants, Pavement Plugs, Gum and Leather Hose for Pavements, Branch Pipes of all sizes, together with a general assortment of Gas Fixtures, of the most approved kinds, all of which will be sold and put up at the lowest rates. GEO. N. DOWNING.

Pottsville, April 14, '61 15-tf

The Farmer.

From the American Agriculturist.

WORK FOR THE FARM, BARN, AND STOCK YARD.

At this season work accumulates faster than it can be done, as a general rule, and a week of rain puts every thing back, and then the sun and wind dry the soil and push forward vegetation so that many a farmer gets nervous and half sick, worrying over unavoidable delays. Any man who has two or three teams, and as many as four or five hands, to keep employed, may well spare himself much physical labor while he *plans* for the constant, diligent employment of his men and teams. If every laborer knows exactly what is expected of him, that an account of his time is kept, and that his wasted hours and mistakes count to his discredit, if not to the decrease of his wages, he will be very likely to be a better and more faithful servant. The amount of labor accomplished under a systematic plan, (according to which the work not only of each day but of each man and team is laid out in general a week ahead, as we know to be the case on some farms,) is much greater than when the farmer plans his day's work during the evening beforehand, or perhaps defers it until after sunrise in the morning.

Barn-yards ought to be so drained that the wash may be saved, not by leading it upon some piece of grass, but so that the liquid may be used for wetting the manure heap, or for distribution by means of some sort of watering cask, over grass, grain, or root crops in the field. Strong fences, clean sheds, and tidy tool-houses ought to surround the barn-yard, and every preparation should be made for making and saving manure of the very best condition for use.

Barometer.—This instrument closely watched, taken in connection with accurate observations of the winds, clouds, etc., is a great help to the farmer, in prognosticating changes of weather, and may be relied upon independently of other "signs" to give notice of sudden and violent showers coming after perfectly on pleasant days.

Bones should never be wasted on a farm, or by any one having even a square rod of garden spot. Throw them into heaps with a mixture of horse manure, and sufficient whole mass to ferment.

Broom Corn.—Plant the dwarf varieties if it can be procured.

Buildings.—Decaying matter in contact with timbers or boarding of buildings favors decay to considerable, which continues to progress after the first cause has been removed.

Cabbages.—Sow for main crop Flat Dutch, Drumhead, or Stone Mason, [illegible] soil. The crop pays at 1½ cents per head, as feed for stock; 2 to 5 cents is the market price. An excellent crop, for reclaimed swamp land, newly cleared woodland, or soil rich in vegetable mould.

Carrots.—Sow early, in well prepared soil.

Cattle, Cows, Calves, etc.—Give them pasture a good start before turning stock upon it. The grass makes roots and strengthens so as to endure the drouths of summer and autumn, and a week's feed taken too soon is dearly paid for by short pastures, and likely by many barren spots before September, and drying up the flow of the milk by feeding stock as early as possible, perhaps rye as soon as a good supply can be mown, cut-feed, straw or hay sprinkled with corn meal or oil-cake, or in some other ways. Spare the calves; the high prices of butter, cheese, milk, etc., may tempt many farmers to deacon their calves, to the detriment of the herd and to their sorrow two years hence. Get them as soon as possible accustomed to do without milk, or take only skimmed milk. Calves should have access to a variety of feed; sweet clover, oat and pea straw, are a good variety, and a few oats will be relished as grass starts.

Chimneys.—Burn them out on some rainy day.

Clover.—Good success has been attained where clover has been sown after the ground is thoroughly settled and warm. Many seeds are said to germinate and a [illegible] be obtained.

Cotton.—In congenial latitudes, sow as soon as the ground can be put in order. In the North, sow in protected beds, or under gauze frames; transplant like tobacco when there is no longer danger of frost. If sown early in May, it may be transplanted in 4 or 5 weeks. Soak the seed in brine and roll in ashes and plaster. Occasional watering with liquid manure are desirable at the North to force a rapid growth.

Draining.—Never lose sight of the advantages which thorough draining brings about, and plan all changes and culture with a view to a systematic withdrawal of the water from the subsoil at the earliest opportunity.

Fences.—During this month prepare the ground for line fences, and transplant vigorous hedge plants, such as the Osage Orange, the Thorn Locust, the Buckthorn and Three thorns.

Grain Fields, if backward, may be encouraged by a good dusting with plaster, or by application of Chili saltpetre, or sulphate of ammonia.

When to Plant Corn.—Field corn planted early in May has usually to be replanted once or twice. This makes much unnecessary labor, for that planted some weeks later usually ripens at nearly the same time, if the seed does not rot in the ground, the little yellow blades are frost bitten, and the shriveled ends pine for the hot sun. The plants that survive the chills and rains are not so healthy, or well prepared to take advantage, of the warm weather when it comes, as that planted in the proper season, which in the latitude of most of New England, New York and westward is about the middle of May in almost all seasons; often it is not best to plant before the 1st of June. No fault is more surely remedied than too early planting of corn. If we plant ed, and placed in a warm soil, corn will soon above ground, and a few warm days place it beyond fear of harm from cold, while grubs, wire worms or crows, destroy that planted early in the month, and that with all these for several weeks, survive the dampness and the frosts.

Recipes.

White Mountain Cake.—2 eggs, 1 cup butter, 1 cup of white sugar, ½ cup milk, 2½ cups of flour, 1 teaspoonful cream of tartar, and ½ teaspoonful of saleratus.

Ginger Snaps.—Mix 1 cup of molasses, 1 cup of sugar, ½ cup of butter, ¾ cup water, 1 teaspoonful of soda, and 1 tablespoonful of ginger. Add flour till stiff enough to roll thin; bake in moderate oven.

Three Cent Cake.—Three cups flour, one cup of butter, two cups of sugar, whites of six eggs, one teaspoonful soda, two teaspoonsfuls of cream tartar, half pint of flour; flavor with lemon; two loaves. Very nice.

Sponge Cake.—Take 5 eggs, ½ lb. sugar, and 1 pint of flour. Break the eggs on a large meat plate, stir in the sugar, and with a broad knife beat them until no lump turns up, which will take about half an hour. Next stir in the flour gently, as beating it would make it tough; flavor to taste, and bake in a round tin basin. This makes a nice loaf for family use.
