SOYBEAN ROASTING
ON YOUR FARM
DON'T WASTE IT - ROAST IT

Moldy or Musty Corn
Have it restored to usable condition by roasting.
Barley and Wheat
Roasted For Drying
And Better Digestibility

Make higher profits from all grains. Roasting improves TDN, destroys molds, retards toxins and removes moisture.

CUSTOM GRAIN ROASTING DONE IN PA AND SURROUNDING STATES OR OWN YOUR OWN ROAST-A-MATIC GRAIN ROASTER.

Proven Dependable Gutter Cleaning

Patz gives you strength plus reliable long-term performance.

Heavy-duty link (left) and extra-heavy duty link (right) for extra-long chains

Examine the Patz features that provide dependability. Choice of two link sizes to match your needs Progression forging builds extra strength into hook-and-eye link contact points Final heat treating increases hardness, strength and wear resistance Patz links withstand corrosion for long chain life

Select 2" steel angle flites for solid manure or 4-inch high flites for slurry manure Flites are welded to Patz links, and steel wear shoes on the flites protect gutter and chain

Four-tooth drive sprocket drives every link... not every other one or every third one but, **every** link Each sprocket tooth drives each link behind the hook, the link's thickest and strongest point The 4-tooth drive sprocket reduces stress on the drive unit

Three drive unit sizes match your gutter length, allow expansion The 2, 3, 5 and 10 HP capacitor electric motors match one of three drive units for your requirements You get versatility and flexibility

V-belt and roller chain reducers start easily Corner wheel top-and-bottom flanges guide chain around the corner Examine the many Patz gutter cleaner features that add up to increased reliability
