GRAIN BIN AND BUCKET ELEVATOR SYSTEMS

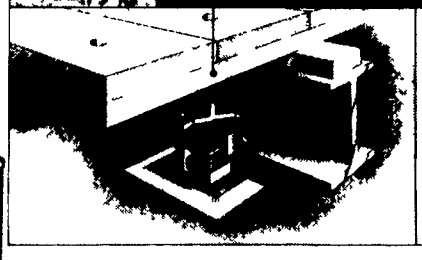
Grain drying quality

Shivvers automatic continuous flow grain drying systems eliminate the overdrying often caused by slow stirring devices. The Shivvers' secret is the tapered sweep auger which rotates around the drying bin, removing even layers of dried grain, assuring the removal of uniformly dried grain For a better way to dry grain, see your Shivvers dealer

The Shivvers Challenge Will Make You A Believer

SHIVVERS

On-Farm Scales Can Pay for Themselves in 2 Years



Heart of the system is a steel Weigh-Bar It translates weight on the scale to an easy to read digital indicator It's simple, all electronic and practically maintenance free in all kinds of weather

Make a modest investment in a Weigh-Tronix electronic Farm Platform Scale, and you can weigh grain with 1% accuracy right on your farm Know how much grain comes out of your fields How much goes into storage How much is headed for the elevator And the amount each person is getting when you divide grain with your tenants, family members, or partners

Save time and fuel by eliminating unnecessary trips to the local elevator And end costly guesswork by keeping precise records of every grain movement on or from your farm

Weigh-Tronix Farm Platform Scales are available for dealer or do-it-yourself installation They come with concrete or wood decks up to 80 feet long with capacities to 100,000 pounds You can take an investment tax credit and depreciate the system over five years

Call your Weigh-Tronix dealer today for a quotation on what it would cost to put a scale in your operation You'll be surprised at how affordable it is

WEIGH-TRONIX®

Stop by and say hello at our display at the PA FARM SHOW. We will be in the Dairy Barn.
