Know-Nothings Really "Ignoring" the Constitution.

The Richmond Enquirer gives an amusing account of an amusing scene which lately transpired in the Kentucky legislature. The Enquirer says:

"In the senate the committee on federal relations recently reported a series of resolutions, which the Hon. John P. Martin, of Floyd, moved to amend by adding the following:

"'*Resolved*, That no religious test shall be required as a qualification for any office or place of trust,' &c.

"Copying the very language of the constitution of the United States. Upon the vote being taken, Mr. Martin called for the yeas and nays. The amendment was voted down by a party vote, and one prominent member, bitter in his antagonism to everything emanating from a Democrat, declared he voted against it because it was 'ungrammatical and uncouth in expression.' One can well imagine the scene when Mr. Martin announced that the know-nothing senate of Kentucky *had voted down the Constitution of the United States*, and informed the pedantic member that he was not responsible for any error in construction or uncouthness of expression, and proving his innocence by reading the exact clause from the constitution!

"So much for the know-nothings' knowledge of the very instrument of which they have constituted themselves the especial guardians!"

☞ The New York *Herald* announces that steps are being taken to collect moneys due government from various defaulters who have heretofore been unpunished. When Mr. Guthrie was made Secretary of the Treasury, there was the sum of $132,521,704 69 due the Department. This seems incredible. A portion of the sum stated had been due for 20 years.—The *Herald* says:

"These old defaulters availed themselves of the act of 1841, and went through the Bankrupt Court, surrendering the whole of their property. This surrender has been impliedly construed by the Secretaries of the Treasury, subsequent to 1841, as a compromise which released the defaulters from further prosecution by the government. Mr. Guthrie has taken a different view. According to law, no statute of limitations or statute of bankruptcy can be pleaded against the government. The Treasury Department was expressly relieved from the operation of the law of 1841; at least this is the doctrine set up by the law officers of the administration, and approved by Secretary Guthrie. On the strength of it Mr. Guthrie has directed legal proceedings to be instituted against all the old defaulters, and the case is now under consideration by Judge Betts.

"At the same time efforts were made to recover the balances due by defaulters subsequent to 1841. So vigorously was the matter prosecuted, that up to the present time nearly thirty millions of dollars have been settled, leaving one hundred millions yet due the Government. The circumstances, and the whole proceedings, reflect credit on Secretary Guthrie.

Not Known.—It is yet unknown whether Mr. Fillmore will accept the Know Nothing nomination for President. He is now travelling in Europe, and at last accounts was in Rome, where it is said the Pope is making a "lion" of him.—The Dayton Empire, in speaking of this says:

Suppose the Pope, as he has made a lion of Mr. Fillmore, should secretly make him a Catholic, and send him home to receive the votes of the Hindoos for the Presidency, and make fools of them! Better take him right off the track and nominate Tom Ford.—There is safety in Tom Ford. We defy the Pope or the devil to make a *lion* of him; and as for making him a Catholic, that's impossible. You can never make any kind of a Christian of him.

Political Judges.—The Judiciary Committee of the Senate, yesterday, reported favorably upon Mr. Buckalew's bill to prevent the interference of Judges in partizan politics. It makes the penalty for taking part in political meetings, or acting as committee men, a fine of $500 for the first offence, and for the second it subjects the party to impeachment, and to removal from office. Some day since, when the bill was introduced, a Senator asked if it was intended to apply to a Judge of a particular district, (alluding to a certain Judge who is a great partizan, and addicted to mingling among noisy politicians.) Mr. Buckalew disclaimed any intention to apply it to any particular case; it was a general bill which applied to all Judges. He said that it was right that a Judge should abstain from participating in the proceedings of political meetings. There was nothing in the bill to debar the Judges from the full enjoyment of the right of suffrage, and all other rights, except taking part in political meetings and haranguing the people on the stump. He thought a law of this kind would prove highly salutary.

The Speaker (Mr. Platt) advocated the bill, and said that one Judge had not unfrequently held Court in the day time in the county of Susquehanna, and at night come down from the bench and addressed the people on the exciting political questions of the day. The effect of this was to create political prejudices, and interfere with the course of justice. He was for prohibiting the public participation of Judges in political assemblies.—*Phila. Argus.*

Four Children Murdered by their Mother.—Syracuse, March 24.—A woman named Ward residing near Bridgeport, Madison county, yesterday murdered her four children by cutting their throats with an axe. She then made an unsuccessful attempt to cut her own throat. The cause of the act is said to be the neglect and brutality of her husband.

The former being very large and conveniently arranged, would be admirably adapted for a Boarding House, or a pleasant & comfortable private residence. The out buildings are convenient and in good repair.

The lots are covered with excellent fruit trees and choice shrubbery.

The owners are nonresidents of our Borough, and are very desirous that the property should be disposed of.

The terms therefore will be made advantageous to purchasers. Enquire of
