PURE SODA WATER.

A JET of pure and sparkling Soda Water, flowing from the only fountain in Columbia, capable of generating Carbonic Acid Gas from the pure Bi-carbonate of Soda, and flavored with the following delicious Syrups: Sherbet, Vanilla, Raspberry, Ginger, Strawberry, Orange, Currant, Hawtha, &c., &c.

The water drawn from our Soda Fountain, being more highly charged with gas than is customary for Mineral Waters, and at all times nearly as cold as the ice itself, is inferior to none, either in this or any other place. Especial care will be taken to make it the most delightful and healthy drink, during the warm Summer months, ever introduced into our town.

EXTRACT

OF THE ORMIS JEWEL PLANT,

FOR removing Tan, Freckles, Pimples, beautifying the complexion, giving the skin a healthy appearance, and for cleansing the teeth.

The jewel plant has long been known by the United States Pharmacopœia, as a medicine for both internal and external diseases, but it is only within a year or two that it has been discovered to possess such qualities as recommended for above. It is a delightful extract, and highly scented by its own ingredients, and no lady should be without it as a toilet, particularly during the Summer season, when we are more liable to be tanned and sun-burnt than in any other. Purchase a bottle and try it. Manufactured and for sale, by

Twenty Good Reasons why Ketchum's Combined Reaper & Mower,

FOR 1857, is the most complete Machine in use, and the one best adapted to the wants of the farmer.

FIRST.—Being made wholly of Iron, it is more durable than any other

SECOND.—It is so simple that any person can readily manage it.

THIRD.—It is so strongly and well-built, that it cannot readily get out of repair.

FOURTH.—It is neat and compact, occupying less space than any other.

FIFTH.—The frame is so evenly balanced that there is no weight on the horse's neck.

SIXTH.—There is little or no side draft.

SEVENTH.—It will cut Heavy and Light Grass equally well.

EIGHTH.—It cuts wet grass as well as dry.

NINTH.—The new Cutter Bar Wheel acts like a charm, lessening the draft at least one-fourth in mowing.

TENTH.—Two horses will work it with ease in any kind of grass or grain.

ELEVENTH.—It is the only machine with the cutter-bar directly opposite the shaft of the driving wheel.

TWELFTH.—The open cutting blade effectually prevents Clogging.

THIRTEENTH.—It is changed in a few minutes from a Mower to a Reaper.

FOURTEENTH.—It is the only machine with a Rear and Side Delivery for grain.

FIFTEENTH.—It is the only machine which gives the Raker entire control of the grain, both before and after it reaches the platform.

SIXTEENTH.—The adjustable spring seat, and the new Reaping Shoe, are admirable improvements.

SEVENTEENTH.—Seven years of severe practical trial, with more than 12,000 machines, has proven its decided superiority. Like wine, it grows better with age.

EIGHTEENTH.—All the improvements for 1857 (and there are a good many) have been practically and thoroughly tested.

NINETEENTH.—Every part of the machine is made by master workmen, and in the most substantial manner.

TWENTIETH.—Ketchum's Combined Reaper and Mower is warranted to cut all kinds of grass and grain as well as can be done with a scythe or cradle.

In a word, it is just the machine which the farmer can buy without any risk, because ample experience has proven that it is reliable in all its parts.

Farmers, send in your orders early, as the sales for this season thus far have been more than double that of last year.

Machines may be seen and procured at G. D. SPRECHER & BRO.'S Hardware Store, or of ALEX R. SPANGLER, Agt., Michael's hotel, Lancaster; or from the following agents: Levi HABERSTICK, Washington; JACOB DYER, Elizabethtown; SAMUEL KOHR, Mt. Joy; BURKHER & SMITH, N. Holland.

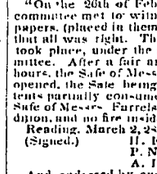
HERRING'S SAFE!



THE ACKNOWLEDGED CHAMPION.

The recent trials at Reading have endorsed the country of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the Only Safe that will not burn. Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 26th of February all the members of the committee met to witness the Safes and books and papers, (placed in them,) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."

Reading, March 2, 1857.

(Signed.) H. F. FELIX, P. N. COLEMAN, A. H. PEACOCK } Committee.

And endorsed by over 50 of the best men of Reading.

The above Safes can be inspected at 31 Walnut Street, where the public can satisfy themselves of the great superiority of the "Herring's Patent Champion," over the defeated and *used up* inside Iron Door Salamander."

FARRELS & HERRING,

Only makers in this State of Herring's Patent Champion Safes

The attempt made by other parties to bolster up the reputation of a Safe which *has failed* so signally in *accidental fires* in Philadelphia, (Ransted Place) by taking one out of an agent's store, (H A. Lantz,) made *double thickness*, (different from those they sell) to "burn up" one of Herring's, (half as thick) has met with its true reward. Herring's Safe *could not be burnt*, proving conclusively that the only reliable Safe now made is "*Herring's*," of which over 15,000 are now in actual use, and more than 200 have been tried by fire *without a single loss*.
