Johnson's Patent Hog Trough.

THE subscribers having purchased the right to manufacture and sell this invention in Lancaster county, desire to introduce it to general use. It is a cast iron trough with a shifting top, of sufficient capacity to hold the feed of one hog. It is constructed that the animal cannot get its feet into it, and must take its feed without the usual scrambling and splashing. By the arrangement of the top the hog is prevented from feeding until the trough is filled; when the top can be shifted at will. The trough will be found a great convenience in feeding, and must, when known, become popular. The troughs are for sale at the shops in Second street below Union, Columbia, Pa.

LIFE INSURANCE.

WE are told that he who neglects to provide for his household is worse than the heathen." There is no doubt of it. When in health the provident man will provide for his charge and while that health is in full vigor his prudence should prepare for solace in the dark day, for the hour when the *sympathy* of friends is as sounding brass. This can be done by Life Insurance. Every man owes this duty to his family. The uncertainty of life is a constant lesson which teaches the fact that he who to-day walks in the pride of manhood, may fall to-morrow, and the plans by which riches and honors were to have been brought to the loved ones, vanish as the morning mists. Let every man in health insure to his family the comfort of knowing that should he be called from them the wolf may be kept from the door.

The United States Life Insurance & Trust Co. effect this end. For pamphlets, terms and general information on the subject, refer to
