Call for the State Convention.

The democratic state convention to nominate a candidate for judge of the supreme court, a candidate for state treasurer, and the transaction of such other business as may be brought before it, will meet at Allentown, on Wednesday, August 31st, at 12 o'clock, noon. The representation in the convention will consist of representative delegates, one for each 1,000 democratic votes cast for governor at the last gubernatorial election, or for a fraction of 1,000 such votes amounting to 500 or more in the respective representative districts, provided that each representative district shall have at least one delegate.

DALLAS SANDERS, Chairman.
WM. F. DANNEHOWER, Secretary.

NEAL Dow will stump the state of New York this fall in the interest of the third party.

THE latest in Centre county politics is the candidacy of Tate, who runs on the "so-called" labor ticket for sheriff.

THE prohibitionists meet in state convention at Harrisburg yesterday to put a cold water ticket in the field. Charles S. Wolt of Union county is mentioned as one of the candidates for judge of the supreme court, but Charles don't trust his chances and declines.

UNION county's democracy set up the following ticket last Monday: Register and Recorder—J. B. Taylor, of Mifflinburg; Treasurer—F. O. Whitman, of Lewisburg; Commissioner—Michael Slear, of Union township; Auditor—G. W. Young, of Vicksburg.

NEXT comes the Democratic State Convention at Allentown on the 30th instant, and we don't think there will be quite so much machine work as prevailed at the late Republican convention. The only thing that can reasonably be counted on beforehand is the hearty endorsement of Cleveland's administration by Pennsylvania's democracy and strong expressions in favor of his presidential candidacy in 1888.

THE tabular statement of the actual loss of revenues which the several counties in this state must suffer through the failure of the new revenue bill, and which appears elsewhere, gives the voters a clear idea how much harm Republican intriguers can actually do to the taxpayers of Pennsylvania. It is an item every voter should read for his own satisfaction and for future guidance. Centre county appears in the column of losers with $7000.

THE Tory Cabinet of England is putting full pressure upon Ireland under the new coercion act and the matter of personal or social freedom is out of the question with these tyrants of the nineteenth century. The following proclamation which has lately been issued is evidently to show poor Ireland that she is to be trodden under foot in a merciless manner and that she is further from home rule than ever:

SPECIAL PROCLAMATION.—Whereas, we are satisfied that there exists in Ireland an association known by the name of the Irish National League and that the said association in parts of Ireland promotes and excites to acts of violence and intimidation and interferes with the administration of the law, now we, the Lord Lieutenant, General Governor of Ireland, by and with the advice of the Privy Council, by virtue of section 6 of the Criminal Law and Procedure, Ireland act, 1887, and of every power and authority in this behalf, to do this, our special proclamation, declare from the date hereof the said associaton known as the Irish National League to be dangerous.

This proclamation shall be promulgated by the same being published in the Dublin *Gazette* and by a printed copy thereof being posted at every police station or barracks and every place in which divisional police courts or petty sessions are held respectively in Ireland. Given at the Council Chamber, Dublin Castle, this 19th day of August, 1887. God save the Queen!

LONDONBERRY.

GEO. W. BARLETT, the new governor of California, who was elected by the democrats last November, had a paralytic stroke on Monday night and is very low. In case of his death his successor will be Lieut. Gov. Waterman, who is a Republican. What a pity for Bartlett and California.

WEDNESDAY of last week was the day for the Republican state convention in Harrisburg and the affair came off very quietly and in the old regulation style. There was a conspicuous absence of enthusiasm and it is said that careful observers noticed a uniform desire to get through with the job as quick as possible. General Adjutant Daniel H. Hastings, of Bellefonte, was made chairman of the convention, and in a lengthy address which had for its subject democratic corruption, Cleveland's poor administration and a general condemnation of anything and everything that has the democratic cast, displayed considerable talent at oratory. This introduction having been disposed of the convention proceeded with its regular business, the nomination of candidates for state treasurer and judge of the supreme court and the adoption of a platform. Senator Thompson nominated Capt. Wm. B. Hart, of Dauphin, as a candidate for the state treasurership, and as there were no other names proposed, the nomination was made unanimous. Ex-Gen. Auditor Niles then nominated Hon. Henry W. Williams, of Tioga county, for judge of the supreme court, with two other candidates to make the thing more interesting. Williams received 148, and Mitchell 56 votes. Williams' nomination was made unanimous and the ticket of the bosses was solid. The platform which was then presented to the convention says that the republican party again declares itself in favor of submitting the prohibition amendment to the vote of the people, and also recommends the amendment which does away with the poll tax. It favors a high tariff, increased pensions for the veterans of the late war, so as to get rid of the surplus in the treasury, and fully endorses the action of the last legislature in regard to the new revenue laws and high license bill. It praises the present state administration and condemns the democratic national administration, and winds up with a resolution to pledge the full support of the republican party in Pennsylvania to James G. Blaine for president in 1888.

—Use Darbys Prophylactic Fluid. Will keep the atmosphere pure and will remove all bad odors from any source.

Will destroy all Disease Germs, infection from all Fevers, and all Contagious Diseases.

The eminent physician, J. Marion Sims, M. D., New York, says; "I am convinced that Prof. Darbys Prophylactic Fluid is a most valuable disinfectant."

Knights of the Golden Eagle.

Three Castles of this flourishing Order are now being organized in Centre county. The Grand Castle officers are in correspondence with F. P. Blair, of Bellefonte, Reilly Pratt, J. L. Rich, J. T. Barton, Howard, E. Holdzworth and Henry Kephart, of Fleming, W. J. Meyers, of Pine Grove Mills, with this object in view.

The order is now in successful operation in twenty-two States. Since January 1st, 1884, its growth has been unprecedented in the history of kindred organizations.

During that period the Order was introduced into seventeen States, 276 Castles were instituted and the membership increased over 24,000.

The present membership of the entire Order is over 28,000, divided among 306 Castles, as follows: Pennsylvania, 196 Castles; Maryland, 13 Castles; Massachusetts, 13 Castles; New Jersey, 28 Castles; Delaware, 11 Castles; New York, 11 Castles; Ohio, 7 Castles; Georgia, 3 Castles; West Virginia, 3 Castles; District of Columbia, 4 Castles; Missouri, 3 Castles; Michigan 2 Castles; Nebraska, 2 Castles; California, Iowa, Connecticut, Indiana, Colorado, Illinois, Virginia, Alabama and Louisana one each.

The features of the Knights of the Golden Eagle are beneficial, social and military.

The Order was founded in Baltimore, Md., February 6th, 1873; introduced into this state October 1st, 1875. The Grand Castle of Pennsylvania was instituted April 27, 1876. The Supreme Castle was organized January 22, 1876.

During 1886, the increase in membership in Pennsylvania was 8721, and from January 1, 1887, to June 30, the increase was 4591. The membership in this state is 22,890.

It is optional with the members as to whether they participate in the military features.

The regalia of the Order consists of a badge worn upon the left breast.

Each person on becoming a member must pay not less than three dollars, which entitles him to receive the three degrees. The age of the members is from twenty years upwards.

The charter fee is thirty dollars. Castles can be instituted to work either in English or German language.

The fifteen officers of all the Castles instituted previous to the next session of the Grand Castle (April 1888) will be entitled to received the Past Chief's Degree at the close of the first term.

The railroad expenses of the Grand Castle officers in attending the institution of a Castle are defrayed by the Grand Castle.

Any further information will be given on receipt of a postal card to Grand Master of Records J. D. Barnes, S. E. Cor. Marshall and Green Streets, Philadelphia, Pa.

—John have you seen that woman lately?

John, in astonishment: What woman? That woman picking Grapes for Speer's Wine. Just see her in another column and read about it, the wines are found by chemists to be absolutely pure and equal to the best in the World The Board of Health in Large Cities and leading Hospitals have adopted their use where wines are needed.

What was Lost to the Several Counties by the Failure of the Revenue Bill.

The following estimates of the amounts which would have been paid into the treasuries of the several counties of the state if the republican president of the senate had not forgotten to sign his name to the revenue bill, were prepared by Auditor-General Norris during the pendency of that bill:

WASHINGTON LETTER.

(From our regular correspondent.)

WASHINGTON, Aug. 22, 1887.

Civil Service Commissioner Edgerton's reply to the strictures of Mr. Geo. Wm. Curtis, on the civil service system is all that the true friends of reform have a right to expect, showing, as it does that President Cleveland and the Democratic party have redeemed their pledges in that regard, at least to the full letter of the civil-service act. It is frankly admitted that more Democrats than Republicans are appointed because Republican politicians have fostered the false idea that members of that party had no chance, thus, deterring many from an examination, while on the other hand, Democrats had nothing to discourage their aspirations. Mr. Edgerton asserts most positively that the politicial opinion of the candidates for places are not known in any case, and that all the names of those who pass an examination are rated in the order of merit on the list of eligibles. The Democrats who have criticised the Administration for failing to "turn the rascals out," fast enough, should certainly find some comfort in studying the returns of decapitations as made by the Post Office Department for the past three years, which, as Horace Greely would say, will be "mighty interesting reading." During the last fiscal year 3,048 officers were established: discontinued 1,500: appointments on resignations and ommissions expired, 5,863; appointments on removals and suspensions, 2,564; appointments on change of names and sites, 482; appointments on deaths of postmasters, 589; total number of appointments of postmasters of all grades during the year, 13,079; for the years 1885 and 1886, 22,747 and 9,547 respectively making a total of 46,373 for the three years of Democratic Administration, which I think is a pretty fair showing from a purely partisan standpoint. Your correspondent believes that the boys in the trenches should fill the offices

The great and good work of reclaiming public lands from the grasping and greedy railroad corporations, who have forfeited their chartered rights, still goes on keeping step to the music of reform and the rights of the people. The most important decision of this kind given in years was rendered by the Secretary of the Interior a few days since, revoking the order of his Republican prenecessor, which withdrew from settlement the Pre-emption and Homestead laws, the lands conditionally granted by Congress to the Atlantic and Pacific Railroad Company—amounting to twenty-five or thirty million acres of land, in this case alone; the order applies to several other railroads as well and it is at present impossible to name the vast number of acres added to the public domain. Every honest western settler will now be moved to toss his hat and hands and enthusiastically "hooray" for Lamar, who thus courageously pesforms a great public duty that enshrines his name among the gods of their humble households.

The death of Professor Spencer F. Baird, Secretary of Smithsonian Institution, and Commissioner of Fish and Fisheries, is one of the greatest calamities that cohld befall the world of science. He devoted a long and useful life to scientific researches and literary labors, and his works on Natural History and science, entitle him to rank with Audubon and Agassiz, with both of whom he has been associated in their favorite fields of endeavor. Professor Baird was truly a benefactor of his race, for to him the people of the United States are chiefly indebted for the upbuilding of the Fish Commission, the propagation of fish in all their waters, and the consequent cheapening of that excellent article of food.

The people of the District of Columbia are still groaning under their burden of burden of debt and protesting against their forms of government—given them by the Republicans which is taxation without representation. They are carrying a debt of more than $21,000,000—consuming a million and a quarter annually in interest and sinking fund, and the District of Columbia would have been bankrupt long since, but for the fact that the United States bears half the expenses of the government. One public meeting after another is being held, and if agitation will accomplish anything relief from existing evils may be had of the next Congress.

—Dyspepsia makes the lives of many people miserable, and often leads to self-destruction. We know of no remedy for dyspepsia more successful than Hood's Sarsaparilla. It acts gently, yet surely and efficiently, tones the stomach and other organs, removes the faint feeling, creates a good appetite, cures headache, and refreshes the burdened mind. Give Hood's Sarsaparilla a fair trial. It will do you good.

A Case of Deafness Cured.

Office of Shaw & Baldwin's Wholesale Notion House, Toledo, O., Dec. 11, 1879.

F. J. Cheney & Co., Toledo, O.—Dear Sirs: About three months ago, noticing a letter addressed to you in the *Bee* from Gen. Slevin, in reference to the cure of his son by the use of Hall's Catarrh Cure, we were induced to commence the use of it for our daughter Nellie, now fourteen years old, who has been suffering from catarrh for about eight years, during which time she has been treated by one of the best physicians in the city. We have also tried the use of almost all the known remedies for catarrh, with no more success than temporary relief. Many nights have we laid awake to hold her mouth open to keep her from strangling. Her hearing had also become affected. We were afraid that she would never recover. We have now used six bottles of HALL'S CATARRH CURE and we believe Nellie to be entirely cured. In a few days after commencing the use of it we noticed a decided change for the better, and from that right along she has improved, until now she breathes as easily as any one. She sleeps well and her hearing is perfectly good. We feel that the disease is entirely removed. We write this unsolicited letter, feeling that it is due you, and with the hope that others may be benefitted in a like manner. We can hardly realize that such a change could be effected in so short a time after battling with the disease so long. We are still using the remedy at intervals, as it seems to build up her system. You are at liberty to use this in any manner you see proper. We are yours, truly,

MR. & MRS. S. BALDWIN,

Miscellaneous News.

A Prominent Coal Operator Dead.

POTTSVILLE, Pa., Aug. 19.—Levi Miller, sr., the oldest, wealthiest and most widely known coal operator in this region, died at his home in Pine grove to-day, of Bright's disease, aged 77.

A Village Swept by Fire.

SPRINGFIELD, Ohio, Aug. 21.—The village of Degraff, Logan county, a place of 1,200 inhabitants, was almost entirely destroyed by fire last night. The business portion of the village was nearly wiped out and several residences are reported destroyed. The loss is about $30,000.

Emperor William Very Sick.

BERLIN, Aug. 19.—Emperor William is so ill that it has been arranged that the King of Saxony shall represent him at the Koenigsburg manoeuvres. The official bulletin says the Emperor caught cold during a sudden change in the weather, and that the chief symptoms of his present disposition are occasional rheumatic pains.

Terrible Accident at a Reunion.

ENDEFELD, Ill., Aug. 19.—Two terrible accidents occurred here this morning at the reunion of the Eighty-seventh Illinois veterans. During a sham-battle a cannon was prematurely discharged, blowing off James Crockett's right arm. An instant later a few rods distant, another cannon discharged prematurely and stretched five bleeding victims on the ground. Gales Sullinger had both arms blown off and will probably die. The others injured were Robert Johnson, Irwin Reeder, William Daniels and Emanuel Berty. They are fearfully lacerated and burned but will survive.

A Coffee Pot Would Hold the Baby

MONROE, Ga., Aug. 21.—Three miles from this place is a log house, the home of Dennis and Betsey Broughton. Seven weeks ago a child was born to them which weighed at birth scarcely twopounds. To-day it will tip the beam at scarcely three pounds. The child's full name is Martha Ann Mary Magealen Frances Cleveland Broughton. At the first sight, the little one's features seemed slightly drawn, but form and features are alike perfect. The head is the size of an ordinary apple, the hand not as broad as a man's thumb, and a coffee pot would make a comodious abode for it. The mother says there is nothing the matter with it: "jes' small dat's all."

Indiana's Financial Embarrassment.

INDIANOPLIS, August 20.—The financial embarrassments of Indiana are growing more and more serious. The last dollar in the general fund of the State Treasury was paid out to-day, and there are no resourses that can be drawn upon before next December. In the meantime $200,000 will be needed to pay the current expenses of the State government and public institutions. Treasurer Lemike announces that he will call upon the counties to advance funds, but if they do so it will be voluntary, as the law does not require them to such calls when they owe nothing. One effect of exhaustation of the Treasury will be the suspension of work upon all State institutions, of which several are now in course of erection.

Newspaper Duns.

We presume that some people think newspaper men are persistent duns: let a farmer place himself in a similar position and see if he would not do the same. Suppose that he raises one thousand bushels of corn and his neighbor should come and buy a bushel and the price was only the small sum of one dollar, or less, and the neighbor says: "I will pay you the amount in a few days." As the farmer does not want to be small about the matter he says, "All right." Another comes in the same way until the whole one thousand bushels are trusted to one thousand different persons and not one of the purchasers concerns himself about it for it is a small amount they owe the farmer, and of course that will not help him any. He does not realize that the farmer has frittered away his large crops of corn, and that its value is due a thousand little driblets, and that he is seriously embarrassed in his business because his debtors treat it as a little matter.

A Daring Feat.

NIAGARA FALLS, Aug. 19.—Ten thousand people came here on Monday afternoon to witness Alphonso King, the water walking Frenchman, ride his water bicycle across the river.

At twenty seven minutes to five o'clock King mounted his water bicycle, which turned out to be quite a wonderful machine. All the elements of the land wheel were present, only that the big wheel had water paddles attached to its tire, and was kept on the surface by two torpedo shaped floats of sheet iron. King wore a dress suit and silk hat, his only protection from the waves being rubber leggings.

Superintendent Welch would not allow the start to be made from the reservation dock, so the bicycle was towed to a point on the American bank, directly under the new suspension bridge. King pulled until he struck the down current and then took a diagonal course. The bicycle rolled considerable when the up current was reached and it looked as if he must upset. The floats weathered the treacherous currents and eddies beautifully, and in four and a half minutes the tired Frenchman landed on the Canadian bank. He was greeted by cheers from the bridge and both banks of the river. He was taken into the boat and was found not to have even wet his clothing. King proposes to ride his wheel on New York harbor from the statue of Liberty to the Brooklyn bridge.

A Steamship Destroyed by Fire in Mid Ocean.

NEW YORK, Aug. 19.—The steamer York City, of Baltimore, bound for London, put into Queenstown this morning, and when off the head of Kinsale signalled that the Inman line steamer City of Montreal, which left New York on Saturday, August 6, had been burned at sea, and that the crew and passengers would be landed at the Queenstown wharf from the York City.

Later a dispatch was received at the maritime exchange stating that 14 lives were lost.

The cause of the fire which destroyed the vessel is of course a matter of speculation at this time, but it is almost a certainty that there was a frightful panic on board the steamer. If the fatality occurred at night, the wonder is that so few lives have been lost. The reason for believing that a frightful panic occurred lies in the fact that the majority of the passengers was composed of ignorant Poles and Hungarians. Several of them were women. There was no cabin passengers. Those in the steerage numbered 113, and in the intermediate cabin 23.

There was a well trained crew on board the vessel, and their undoubted good sea-manship, under the direction of the officers, undoubtedly aided much in keeping the loss of life to the figure it is reported to be.

The destruction of the steamer occurred on the 11th inst., five days after she left New York.

A boat containing six passengers and seven members of the crew is missing. The occupants of this boat are the thirteen persons reported to have perished.

A Brave Young Girl Was Accidentally Shot While Trying to Take a Revolver from Her Father.

Pretty seventeen-year-old Mary Gallagher, of Wrightsville, Camden county, New Jersey, was wounded in the hand last Saturday afternoon by the accidental discharge of a revolver, which she was trying to take away from her father. Mary had just returned from Sunday School, and as she entered the front yard of her home, she heard the voice of her father in violent altercation with a neighbor named David Thorpe. She hurried through the house into the back yard, and there saw her father excitedly brandishing a revolver in neighbor Thorpe's face, and threatening to shoot him.

The young girl begged her angry father to put away the weapon and besought the neighbor to leave the grounds. Both men were too angry to heed her, and, fearing her father would commit murder, she rushed bravely between the two men and, crying "Papa don't shoot," grasped the father's arm and tried to take the pistol from him.

He resisted and in the struggle the weapon discharged and the young girl dropped to the ground with the blood flowing from her wounded hand and her face pale with fright and pain. The startled father was quickly brought to his senses by the sight of his pretty daughter lying on the grass, her white dress stained with blood, and dropping on his knees at her side, he picked up the little wounded hand and in a voice choked with sobs begged his daughter's forgiveness.

The neighbor came to his assistance and the two carried the wounded girl into the house. A physician was summoned, and the wound which was not serious, was dressed. The young girl uttered no complaint, and last night expressed her gratitude that it was no worse. The father is completely overcome with grief, and continually reproaches himself for allowing his temper to bring him so near to crime. Last night the girl was doing well. No arrest was made.

SIMMONS LIVER REGULATOR

FAULTLESS FAMILY MEDICINE

"I have used Simmons Liver Regulator for many years, having made it my only Family Medicine. My mother before me was very partial to it. It is a safe, good and reliable medicine for any disorder of the system, and if used in time is *a great preventive of sickness.* I often recommend it to my friends, and shall continue to do so.

"Rev. James M. Rollins,
"Pastor M. E. Church, So. Fairfield, Va."

TIME AND DOCTORS' BILLS SAVED by *always keeping Simmons Liver Regulator in the house.*

"I have found Simmons Liver Regulator the best family medicine I ever used for anything that may happen, have used it in *Indigestion, Colic, Diarrhœa, Biliousness*, and found it to relieve immediately. After eating a hearty supper, if, on going to bed, I take about a teaspoonful, I never feel the effects of the supper eaten.

Good Appetite,
New Strength.
Quiet Nerves.
Happy Days.
Sweet Sleep.

A POWERFUL TONIC

that the most delicate stomach will bear.

A SPECIFIC FOR MALARIA, RHEUMATISM, NERVOUS PROSTRATION, and all Germ Diseases.

THE MOST SCIENTIFIC AND SUCCESSFUL BLOOD PURIFIER. Superior to quinine. Catarrhal poisoning gave me dyspepsia, and nervous prostration and malaria followed. I got so reduced I had to be carried up and down stairs. Everybody thought I would die. Three months' use of Kaskine gave me new life. I am now perfectly well. I owe my recovery and life itself solely to the use of this great and efficient remedy.—Mrs. E. A. Comstock, 139 East 71st St., N. Y.

"Four years of malaria and dyspepsia greatly reduced my wife's strength and destroyed her health. A trip to Florida and every known remedy could not restore her. I heard of Kaskine, and four months' use broke up the malaria, cured the dyspesia, restored her strength and health, and six months repaired the waste of four years. Chauncy I. Titus, Albany, N. Y.

Letters from the above persons, giving full details, will be sent on application.

Kaskine can be taken without any special medical advice. $1.00 per bottle. Sold by or sent by mail on receipt of price.
