THURSDAY MORNING, NOV. 3, 1859.

MARTYRS AND FANATICS.—Speaking of "Old Brown's" pluck, the N. Y. Commercial says: "But there is this difference between the martyr for a true and living faith and the fanatic. The one can hold fast to his convictions and faith under neglect and ridicule as well as under persecution and torture. The other quails, droops, dies under neglect and ridicule, while he can glory in persecution and brave the gallows. And the effect of his example is great in either case. If he dies like a martyr, his death is the seed from which may rise a frightful crop of fanaticism. If he is removed from the public gaze and dies a natural death in his own bed, the reverse is the case. Fanaticism lives upon opposition, publicity and excitement. It droops and dies in solitude and peace."

THERE is said to exist a confederation of outlaws having their headquarters in New York city, who originally came from Poland and Germany, and travel to all portions of the United States. By day time they operate as shoplifters and pickpockets, and by night as burglars. Their booty is distributed at convenience among the pawnbrokers, junk dealers, and brokers, who are of the same affiliations and are in the practice of acting as receivers.

LUTHER PRESTON, late postmaster at Fillmore, Minnesota, was sentenced, last week, by the United States District Court, to fifteen years' imprisonment, for robbing the mails. The discovery of his villany resulted from robbing the mail of a letter containing two $1000 drafts forwarded by a party in Troy, N. Y., in May last, to Wm. S. Judd, of Fairbault, Minnesota.

W. W. BRADSHAW, Esq.: Dear Sir—I beg leave to inform you that the Cooking Stove I bought of you for my own family use, as well as those got by my mother and one of our frame-makers, are all and more than you represented them to be. For baking and roasting, we all agree that we never saw their equal, and as for economy in fuel, less than ½ used in other stoves of the same size does the baking and roasting to perfection. You may refer any one to us that has any doubt about the stove. Yours truly, J. J. DUVE. Pittsburgh, Oct. 20, '59.] of A. Lyons & Co., 108 Wood st. There are plenty more of the same sort at the Iron City Stove and Tin warehouse of W. W. BRADSHAW, No. 24 Wood street, oc22 first door below the sign of the golden gun.

CAUTION.—We hereby caution all persons not to purchase any Cooking Stove or Stoves with hollow centres or hollow cross-pieces on, except those made by us, as we are the exclusive owners of the patent for making Hollow Centres or the Hollow Crosspiece, and we shall prosecute all persons who infringe on our patent, to the full extent of the law. FOR SALE, The Star Nail Works, IN IRONTON, LAWRENCE COUNTY, OHIO.

IN consequence of the decease of two of the stockholders, the STAR NAIL WORKS are now offered for sale at a great bargain. These Nail Works are situated in the Iron Region, in the Southern part of Ohio, about 30 miles above Portsmouth, and 140 miles above Cincinnati. The main building is 350 feet in length, by 116 ft. in width, substantially built, and contains new and improved machinery, consisting of 3 steam engines, 39 nail machines, a machine for making nail kegs; also 10 boiling furnaces and 3 heating furnaces, together with the necessary rolls, and has a capacity to manufacture 250 kegs of nails every 12 hours. In addition to above, and to be sold with the Nail Works, 50 acres of Coal Lands, 6 miles distant by railroad, and delivering coal at the mills at a cost not exceeding one dollar per ton; and has peculiar advantages for shipping nails to various points at all seasons, as the Ohio river at this point and below is seldom obstructed. The location is regarded as the best in the country for supplies of pig iron and coal, as there are 10 blast furnaces within 30 miles, 9 of which bring their iron direct to town by the Iron Railroad; and the surrounding hills abound with coal and fire clay of easy access. Any further description is deemed unnecessary, as purchasers will desire to examine for themselves.

If not sold previously, the above property will be offered at public sale on THURSDAY, the 24th day of November, 1859. PETERS, JAMES & CO., Or, JOHN PETERS.
IRONTON, Ohio, Oct. 6, 1859. oc16:dtd

NEW AGRICULTURAL SETTLEMENT. TO ALL WANTING FARMS,
A Rare opportunity in a delightful and healthy climate, twenty-five miles south-east of Philadelphia, on the Camden and Atlantic R. R., New Jersey.

An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of from $15 to $20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET, as the reader may perceive from its location, is the BEST IN THE UNION. Produce bringing double the price than in locations away from the city, and more than double the price in the West. It is known that the earliest and best fruit and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near the old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy open winters, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Bricks from the brick yard opened in the place. Every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing.—This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia; and to all settlers who improve, the Railroad Company gives a Free Ticket for six months, and a half-price Ticket for three years.

THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business could be carried on in this place and market to good advantage, also cotton business, and manufactories of Agricultural Implements or Foundries for casting small articles. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, (we do not sell small ones, as it would effect the improvement of the place) can be had at from $100 and upwards.

The Hammonton Farmer, a monthly literary and agricultural sheet, containing full information of Hammonton can be obtained at 25 cents per annum.

Title indisputable—warrantee deeds given, clear of all incumbrance when money is paid. Route to the land: leave Vine street wharf, Philadelphia for Hammonton by Railroad, at 7½ A. M., or 4½ P. M. Fare 90 cents. When there, inquire for Mr. BYRNES. Boarding conveniences on hand. Parties had better stop with Mr. Byrnes, a principal, until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to LANDIS & BYRNES, Hammonton P. O., Atlantic county, New Jersey, or S. B. COUGHLIN, 202 South Fifth street, Philadelphia. Maps and information cheerfully furnished. jn14:6d6m

THE HAMMONTON FARMER—A newspaper devoted to Literature and Agriculture, also setting forth full accounts of the new settlement of Hammonton, in New Jersey, can be subscribed for at only 25 cents per annum.

Inclose postage stamps for the amount. Address to Editor of the Farmer, Hammonton P. O., Atlantic Co., New Jersey. Those wishing cheap land, of the best quality, in one of the healthiest and most delightful climates in the Union, and where crops are never cut down by frosts, the terrible scourge of the north, see advertisement of Hammonton Lands. jn14:6d6m

FARM LANDS FOR SALE 25 MILES from Philadelphia by Railroad, in the State of New Jersey. Soil among the best for Agricultural purposes being a good loam soil, with a clay bottom. The land is a large tract, divided into small farms, and hundreds from all parts of the country are now settling and building. The crops produced are large and can be seen growing. The climate is delightful, and secure from frosts. Terms from $15 to $20 per acre, payable within four years by instalments. To visit the place—Leave Vine Street Wharf at Philadelphia at 7½ A. M. by Railroad for Hammonton, or address R. J. Byrnes, by letter, Hammonton Post Office, Atlantic county, New Jersey. See full advertisement in another column. jn14:6d6m

EYE AND EAR DISPENSARY.
Office 95 Main St., (21 door up stairs,) Buffalo, N. Y.

ESTABLISHED BY THE CELEBRATED DR. JOHNSON, late of London, England. A great discovery in the science of medicines, being a certain and speedy cure for restoring the sight and removing all diseases peculiar to the eye. This is universally acknowledged the only safe and sure remedy now known. It has been used with great success by the most skillful physicians in Europe and America.

Patients in any part of the country can treat themselves successfully at a moderate expence, thereby avoiding the danger and expence of falling into the hands of unskillful physicians. This medicine (sufficient to cure) will be sent by mail or Express, with all necessary directions on receipt of Ten Dollars.

Dr. Johnson's Certain and Infallible Cure for Deafness and Singing Noises in the Ears, Nervous Head and Mind Complaints,

Affording instant relief to sufferers who have been troubled with deafness for many years. After using this remedy a few days the patient is suddenly and almost miraculously enabled to hear ordinary toned conversation, in the course of a few weeks the most obstinate case of deafness is effectually cured.

Patients too numerous to mention have been restored to perfect hearing and forever rescued from the snares of the numerous dangerous unqualified pretenders of the present day. Hospital and private testimonials and certificates from the most eminent physicians and surgeons in England, in whose presence deaf persons have been tried, and many hundreds of private patients cured can be seen or referred to. A case of this medicine (enough to effect a cure) will be forwarded to any part of the country for Fifteen Dollars. Address DR. JOHNSON, Drawer 104, j14:dawlyT Post Office, 95 Main st., Buffalo, N. POPULAR ESSAY ON THE DISEASES INCIDENT TO TRADES AND OCCUPATIONS.

It is our purpose to write, as briefly as possible, concerning the diseases and disorders incident to certain occupations, including their causes, symptoms and mode of cure. We shall do this in plain language, and in a straight forward way. Our purpose is twofold—firstly, to give some curious facts not generally known, and, secondly, to bring more forcibly to view the ready relief at hand in RADWAY'S REMEDIES. We frankly avow that the trouble we are taking is a business transaction meant to benefit both the public and ourselves.

The diseases springing from various trades arise either from the very nature of the occupations, from the materials handled or used, or from both causes. Scarcely any of these pursuits are necessarily unhealthy, but men will be as imprudent in their business as in their pleasure, and suffer for their neglect of precaution.

Let us look first at those who suffer from poisonous materials.

Coppersmiths, Brass Founders, Braziers, and Pinmakers, from their manipulation of copper and its compounds, take into their system either the impalpable dust of its oxides or salts, or their fumes. The result is a copper disease, whose symptoms may vary more or less in violence, sometimes creeping slowly along until the system is utterly destroyed, or else opening an avenue to more apparent diseases. The victim to the copper disease notices, perhaps, on rising in the morning, a slightly acrid taste in the mouth, a slight constriction of the throat, the tongue dry and parched, and, sometimes, sickness at the stomach. He thinks he has caught cold, and, probably, takes some advertised expectorant which leaves him worse than before. At times there comes an attack of colic. If dysentery is at all epidemic he is very liable to be attacked, and his termina and tenesmus as the doctors call them, namely, his pain in the bowels and disposition to stool, are exceedingly violent. Often a thirst which he cannot account for, or a distended abdomen, or black stools, slightly streaked with blood, or an indefinable anxiety, is the commencing symptom, and is scarcely noticed. Cramps sometimes make their appearance in the limbs and stomach, either alone or accompanied by some of the symptoms previously enumerated. A headache at the close of work, or during the day, is quite common. A preventive of these would be the use of a respirator, which checks the passage to the lungs or stomach of the dust or vapor, and gloves, to keep it from the pores of the skin. A generous diet should be used, the bowels kept open by moderate doses of RADWAY'S REGULATING PILLS; a dose should be taken in the morning and evening of RADWAY'S READY RELIEF, and the use of RADWAY'S RENOVATING RESOLVENT persevered in until the system is rid of the poison.

Type-Founders, Pewterers, Painters, Plumbers and Glaziers, and Workers in Manufactories or Shot-Towers,

are exposed to the lead disease. This, like the copper disease, may produce a series of insidious but scarcely noticed symptoms, ending sometimes in paralysis, or, more especially with painters and white lead makers, in what is generally called painter's colic. These all, at times, will notice in their mouth, more particularly at rising, a sugary and slightly astringent taste, constriction of the windpipe, pain and uneasiness in the region of the stomach, and occasionally nausea, followed sometimes by vomiting.

Coach Painters,

or those who use much vermillion, will have a tendency to diarrhœa; for, unlike copper, this shows its effects more in the small intestines; and the bladder and urinary passages will be seriously affected, sometimes merely producing painful urination, and at others, bloody or high-colored urine. The REGULATING PILL and the RESOLVENT must be mainly relied on, and the parties should never go to work on an empty stomach. For the more painful symptoms, the READY RELIEF will be necessary, and will by no means belie its name. It should be used internally and externally. In painter's colic, the REGULATING PILLS should be used to produce a free evacuation, and afterward more moderately, to keep up regular action; and from the very start, the READY RELIEF given in full doses, in flaxseed or slippery-elm tea, or gum-water. The diet should be light, chiefly beef tea (not beef soup) or chicken broth, from which the fat has been skimmed. In paralysis, the persistent use of the REGULATING PILLS, with the READY RELIEF, well and steadily rubbed into the affected limb or part for at least fifteen minutes, three times per day, and a generous, but digestible diet, will effect a cure. In all external applications the palm of the hand is the best thing to rub with, and a female hand, from its softness, should be preferred.

Dyers and Calico Printers

are liable to several severe symptoms. Those who use muriate of tin sometimes perceive its effects in their systems. They observe an austere taste in their mouth, which is apt to turn into a well-defined metallic one, together with nausea, especially after rising from a meal. Their pulse is more small and hard, and beats more frequently than natural. One very common symptom is a frequency of stool, not diarrhœa, for during some months this may be unattended by pain, and the consistency of the evacuations be normal. Twitching of the face and extremities is less common, but a more dangerous symptom; for unless promptly met, it may be followed by a paralysis of the parts attacked. The treatment in this is the same as in the copper disease, viz: RADWAY'S READY RELIEF, REGULATING PILLS and RESOLVENT.

Tinsmiths

are sometimes affected in a manner similar to dyers, but in a less degree. Their attacks are rare. If peculiarly susceptible, they may take the lead poison from the solder, but we never knew but one case of that kind. The acrid fumes of charcoal, in this and similar trades, sometimes produce inflammation of the bladder, which may be effectually combated by the RELIEF and REGULATING PILLS.

Paper Stainers and Taxidermists

occasionally suffer some most distressing symptoms—the former from the showy greens they use, and the latter from their constant handling of arsenic or the corrosive chloride of mercury. A fetid breath is not uncommon, with a rather austere taste at times, considerable increase of saliva, or constriction of the lower part of the throat, which seems to extend into the breast, frequent hiccough, sometimes a fainting sensation, which comes and goes very suddenly, very black and offensive stools, or high colored urine. These are some of the symptoms, which may occur separately or together. It is a curious fact that some people engaged at these occupations grow quite plump, and apparently enjoy the best of health, having especially a fresh and clear complexion. If, however, they go into any other employment, or refrain from work for some weeks, they are very apt to be visited with many or all of the above symptoms. In either case, the RESOLVENT should be used, along with the REGULATING PILLS, the RELIEF being resorted to in order to remove immediate pain or distress.

Electrotypers, Glass-Stainers, and Card-Enamelers, Manufacturers of Chemicals, Gold and Silver Platers and Refiners,

are liable to many of the above symptoms. Electrotypers are especially liable to derangement of the bladder.

Printers and Type-Founders,

from the constant handling of type-metal, contract the effects of antimony. This is shown by the temporary paralysis of the fingers and hands, copious stools, cold night sweats, loss of strength, tenderness of stomach, bowels and throat, sometimes, though drinking nothing but water, they feel a confused, semi-intoxicated sensation in the head. The treatment here is gentle purging with RADWAY'S REGULATING PILLS, aided with the READY RELIEF as a drink. When the disease has become chronic, the RENOVATING RESOLVENT must be used as an adjuvant to the RELIEF and PILLS.

Masons and Bricklayers' Assistants, and more especially Limeburners and Whitewashers,

are constantly liable to vomiting, pains in limbs, or temporary palsy, which latter sometimes becomes permanent. A bath [illegible] drinks, and the use of the READY RELIEF, will remove most of these symptoms, the RESOLVENT being also necessary where palsy supervenes. Sometimes costiveness follows, demanding the use of the REGULATING PILLS. The particles of lime in the eyes are very apt to produce conjunctivitis, which will yield to an eye-wash made of sassafras pith and water, into which the READY RELIEF is put, in the proportion of six drops to every two table-spoonfuls, increased gradually to ten drops. A dose or two of the REGULATING PILLS will materially assist in subduing the inflammation.

Powder-Makers

are subject to heart-throbbing and heart-disease, with looseness of bowels; and both these and

The Makers of Loco Foco Matches

are liable to a very troublesome skin-disease, developing itself on the scalp, and sometimes in little patches on the back of the thumbs or fore-fingers, or, at the lower extremity of the spine, attended with itching, and scaling of the cuticle. In the former cases the REGULATING PILLS will be found sufficient, conjoined with the RELIEF; in the latter, the RESOLVENT internally, with the RELIEF applied externally, diluted at first, but gradually increased to its full extent. The REGULATING PILLS may be advantageously used, if indicated by the state of the stomach and bowels.

The effect of the alkaline contact is sometimes shown on

Soap-Boilers,

in colic, convulsions and diarrhœa. The RELIEF will remove these. Lemonade should be used occasionally as a drink, and oranges or any ripe fruit slightly acid will be found to be a pleasant as well as a valuable adjuvant. Buttermilk answers a good purpose in these cases.

Bleachers and others exposed to Chlorine or other fumes of acids,

are apt to be attacked by pains in throat, stomach or bowels, excessive thirst, and tenderness of abdomen. If the exposure is long continued at one time, there comes an acid taste in the mouth, which leaves after the free air is inhaled; but this only occurs from sheer neglect. The symptoms named first give way to the READY RELIEF. The addition of a slight dose of calcined magnesia will aid the action of the Relief, but it is not absolutely necessary. The makers of loco-foco will do its work well without it. The makers of matches are sometimes troubled with the above symptoms, caused by the phosphorus which enters into the composition of the tips. A chronic inflammation of the glottis and tonsils is sometimes the result of this, coming on so slowly, and, extending to the wind pipe, and air-tubes of the lungs, called by doctors the bronchia. When this commences it may be soon checked by a gargle made up of equal proportions of the READY RELIEF and water.

We will next examine the cases of those who are affected by disease from irritating substances applied to the lungs and air passages mechanically, with which, indeed, some of those mentioned previously might be classed.

Carpet and other Weavers, Charcoal Dealers, Boiler Makers, Whitesmiths, Locksmiths, Machinists, Furriers and Fur Dealers, Glass Cutters and Drillers, Mattress Makers, Tea Packers, Cutlers, File Makers, Lapidaries, Sculptors, Stone-Cutters, Slaters, Carpet-Beaters, Grinders and Polishers, Street-Sweepers and Wool Pullers,

are subject particularly to bronchial affections and consumption, arising from the floating particles of irritating matter disengaged during the process in which they are engaged, and entering the air-passages. In all such cases RADWAY'S READY RELIEF, applied externally over the throat and chest, and the RENOVATING RESOLVENT, taken internally, will speedily effect a cure, and remove all traces of incipient consumption.

Hatters.

were formerly included in the same position, but the advent of silk hats has greatly diminished this tendency. A respirator is very necessary as a preventive, and, indeed, as an aid to cure. A silk handkerchief, loosely tied over the mouth and nostrils, when directly exposed, is as good as anything. A generous diet, vigorous out-door exercise, and the use of the READY RELIEF and RESOLVENT will soon restore the system to health.

Farmers, Hostlers, Grooms, and all who Handle Hay

are liable to the distressing, though rarely fatal, complaint, asthma. The fumes of shellac produce the same disease, and hence hatters, and especially those who make sealing wax, are subject to it. Asthmatic people are proverbially long-lived, yet the complaint is by no means agreeable. The READY RELIEF will mitigate or remove the paroxysms of the disease, and the RENOVATING RESOLVENT, taken according to directions, will effect a cure.

Bakers.

from the action of the acid of fermentation on the skin of their hands, and the almost constant exclusion of air from the pores by the flour, are subject to a troublesome itch. For this the RENOVATING RESOLVENT is a sure remedy, but the RELIEF, diluted as a wash, will aid in effecting the desired end sooner.

Occupations wherein sudden mental emotions or protracted mental labor forms a part, are not only productive of brain disease, but of a gradual ramollissement, or softening of the substance of the brain, whose approach may be told by neuralgia, either just below the eye or above the eyebrow. Asthma and costiveness, the latter the parent of piles, fistula and similar troublesome complaints, are often the result. Hence it is that

Lawyers, Authors, Editors, Teachers, Merchants and Clergymen.

are effected so much with neuralgia and costiveness. The treatment in these cases is RADWAY'S READY RELIEF—internally and externally—the pain immediately ceases after its application. RADWAY'S REGULATING PILLS will, in a few hours, restore regularity to the bowels and liver. In certain cases of neuralgia and other nervous affections, the RESOLVENT is requisite.

Exposure to heat characterizes some occupations, thus,

Iron-Founders, Furnace-Tenders, Cooks, and Kitchen Maids

are liable to asthma, costiveness, rheumatism, and inflammation of the spleen and liver. Enlargement of the liver is very common among all persons exposed to intense heat. Hence it is that liver complaints are so common in tropical climates. It need scarcely be said that the liver is a controlling organ, and that its derangement involves all the connecting viscera. The derangement of the viscus may be combated successfully by the proper use of the RELIEF and REGULATING PILLS, which in the spleen disease act with speedy, good effect. For rheumatism, if acute, the READY RELIEF, applied both externally and internally, is generally found sufficient, though chronic cases, or such as may be combined with a scrofulous habit, will not yield without the RENOVATING RESOLVENT, which utterly roots out the disease, and restores the system to its normal state.

Stevedores, Longshoremen, Porters, Quarrymen, and all Persons who lift Great Weights.

are exposed to attacks of pleurisy. The RELIEF will break the violence of this, and with the REGULATING PILLS effect a cure.

Boatmen, Dock Hands, Ditchers, Dock-Builders, Seafaring Men, Raftsmen, Physicians, Stage-Drivers, Truckmen,

and all exposed to sudden changes of weather, are liable to liver complaint and rheumatic affections, but more especially to spleen disease.

Seamen,

through long abstinence from vegetable diet, are subject to scurvy. The use of RADWAY'S REGULATING PILLS and RENOVATING RESOLVENT is a sure antidote for this distemper. In all cases of ship-fever, cholera, or yellow-fever, RADWAY'S READY RELIEF and REGULATING PILLS are positive preventives if taken before the attacks, and certain curatives if used after.

Stage-Drivers

are liable to suffer from diabetes, for which the REGULATING PILLS and RESOLVENT should be used.

Physicians,

who are frequently much exposed, should never be without the READY RELIEF, especially in visiting patients sick with contagious diseases. The head, hands and face thoroughly washed with it, and a full dose of it taken internally just previous to the visit, will effectually prevent contagion. The power of the RELIEF in the matter of contagious diseases is really wonderful. It is a sure preventive to Small-Pox, and in a well-known disease among cattle, known as Black-Tongue, depending, no doubt, upon some contagious virus, yields so readily to this remedy, that

Drovers and Cattle-Dealers,

through the South and West, look upon it as a sovereign and infallible remedy in all such cases. Hence, too,

Boatmen, Planters, or Farmers Residing in Low or occasionally Overflowed Grounds,

will find the RELIEF a protection against Fever and Ague, and other malarious diseases.

Printers and Miners,

the former from standing so long at the case, and the latter from their cramped position in the mines, aided, no doubt, by the dampness, have more or less troublesome affections of the joints occasionally. These will always yield to the RELIEF and REGULATING PILLS, unless suffered to run too long, when the RESOLVENT may be required.

Butchers

occasionally have life or limb endangered by a scratch or cut from a knife which has been used in dressing or opening an animal too long killed. Swelling of the part, itching and enlargement of the neighboring glands (kernels) follow. The wound should be washed, and a bread poultice (not bread and milk), moistened with some drops of READY RELIEF, employed. The swelling should be bathed with the RELIEF, and the REGULATING PILLS used until the violence of the symptoms has abated. It may as well be mentioned here, that the making of a really good poultice is little understood. Stale bread should be rubbed into a fine crumb and placed in a soup-plate or large saucer, over which water, while boiling, must be poured. A similar plate or saucer is now to be placed over this, the two grasped firmly and held up sideways, so that the water will drain out. The wet crumb is now to be rubbed into a pasty consistence with a spoon, placed on a rag at once, and applied to the part as warm as the patient will bear. As soon as it begins to harden around the edges a fresh one should be substituted, and thus a continual fermentation be kept up. That is the true poultice, which may be medicated by the RELIEF, or otherwise, if required.

Basket-Makers, Boot and Shoe Makers, and Tailors,

from their sedentary habits, are subject to piles, anemia, tympanites, costiveness, hypochondriasis, diabetes, St. Vitus' dance, dropsy of chest, general debility, and, if the habit of the body tend that way, to apoplexy; or if not, to consumption and lung disease. The treatment of these under our system is summary and effectual. For hypochondria, the READY RELIEF and PILLS; for dropsy and St. Vitus' dance, the REGULATING PILLS and RESOLVENT; and for anemia, all three of the remedies. The treatment of the other affections have been already indicated.

The complaints of females engaged at various occupations are somewhat different from males, in consequence of their peculiarity of organization. It is true that those who lead a sedentary life, or are occupied in pursuits which require them to stand or lean over their labor, are subject to similar diseases with those of the opposite sex in like occupation. Thus,

Feather-Dressers, Milliners, Paper-Folders, Paper-Box Makers, Match-Dippers, Seamstresses, and the like,

are liable to costiveness, piles, and general debility. But what they have most to dread is the derangement of those secretions which nature has wisely given them for their health and comfort. They are particularly liable to hysteria, obstructed, painful, or irregular menstruation, whites, kidney weakness, nervous debility, swimming of the head, inflammation of the ovaries, and womb disease, for all of which the RELIEF and REGULATING PILLS are confidently prescribed; or subject to chlorosis, to be removed by the use of the RESOLVENT, in addition to the other two remedies named.

Perhaps of all female occupations, that of

The Factory Girl

is liable to the most distressing symptoms, more especially when the ventilation of the work-room is not perfect. Standing positions, monotonous employment, and floating particles continually drawn into the air passages, all combine to weaken, depress and destroy. Yet by prudence, care and the use of Radway's Remedies, even the factory girl may bid defiance to death and the doctors—otherwise a very formidable partnership to fight.

For the present we draw our remarks to a close. But it does not follow that all occupations should be abandoned wherein people are subjected to acid-fumes, poisonous materials, irritating vapors or particles, intense heat, changes of weather, exposure, and the debilitating effects of stationary or constrained positions. With ordinary prudence, out-door exercise, and the use, when indicated by symptoms, of Radway's celebrated remedies, their lives may not only be saved, but their systems fortified, and their comfort insured. RADWAY'S READY RELIEF and REGULATING PILLS will be found all-sufficient to prevent or cure, except in chronic cases, or those in which the system has been prostrated; and even there, RADWAY'S RENOVATING RESOLVENT will speedily remove all obstacles to the kindly influence of nature, and thus restore the system to perfect health.

In truth, if the Ready Relief be kept constantly on hand, and used at the outset of every attack according to directions, it alone will be found enough to avert or combat all the deleterious effects we have named, and may be considered the great shield of those who otherwise would be overcome by disease and death.

It is not so many years since Radway's Remedies have been introduced; for the birth of that perfection of chemical and pathological science upon which they are based is itself comparatively new. The principles of their action are as old as humanity itself, but it remained for modern science to develop and apply them. How successfully this has been done, the overwhelming popularity and universal sale of Radway's Remedies show. The sovereign power of these blessings to the sick and suffering is indisputable; they are in themselves the entire vegetable materia medica; and they are rapidly superseding all the inert or poisonous drugs whose use and abuse has done so much to bring "Death into the world, and all our woe."

The price of Radway's Remedies places them within the reach of every human being—the Ready relief is sold for 25 cents, 50 cents and $1 per bottle; Radway's Pills, 25 cents per box; Resolvent, $1 a bottle. RADWAY & CO., oc4:3aw3mT Physicians and Chemists, 23 John st., N. Y.

DR. R. A. WILSON'S Tonic, Cathartic and Anti-Dyspeptic PILLS.

WILSON'S PILLS have had a mere local existence for over twenty years, unsupported by advertising of any kind, and held as double the price of what they are now sold at, yet with all these disadvantages, wherever used they have in no instance failed to render the utmost satisfaction in performing all the requirements of a valuable family medicine, and as such are recommended by some of the most worthy and reputable citizens of the land. Hear for instance what Col. William Hopkins, of Washington, Pa., says:

From Col. Wm. Hopkins, late Canal Commissioner of the State.

WASHINGTON, January 8, 1858.

DOCTOR R. A. WILSON, PITTSBURGH, PA.—I have been using your Anti-Dyspeptic Pills, when occasion required, for many years, and can truthfully say that I have never found any medicine equal to them in relieving me from affections of the stomach and heart, they have never failed to relieve me from headache, and have always left my system in better condition than they found it. I most confidently commend your pills as a safe and highly valuable medicine. Yours, respectfully, WM. HOPKINS.

Hear Dr. Keyser.

MESSRS. B. L. FAHNESTOCK & Co.—I have had considerable experience in the use of the extraordinary Pill compounded by Dr. R. Adams Wilson, of which you are now the proprietors, and have often felt their benign influence in my own case for nervous headache, arising from a disordered condition of the stomach. I have likewise prescribed them for others, in cases of hemicrania and other forms of headache depending on a deranged and irritable condition of the stomach and digestive organs, for which they seem peculiarly adapted, being entirely free from any griping tendency. I regard them as a very valuable Pill, and one that purges, without at all debilitating. Yours, truly, GEO. H. KEYSER.

Prepared and sold by B. L. FAHNESTOCK & CO., Wholesale Druggists, and Proprietors of B. L. FAHNESTOCK'S VERMIFUGE, No. 60, corner Wood and Fourth streets, Pittsburgh, Pa. Sold at retail by druggists everywhere. au16:6md&wT

McLEAN'S STRENGTHENING Cordial AND BLOOD PURIFIER.

Before Taking. — After Taking.

THE greatest Remedy in the world. This cordial is distilled from a berry known only to myself, and chemically combined with some of the most valuable medicinal roots, herbs and barks known to the mind of man, viz: Black Root, Black Root, Wild Cherry Bark, Yellow Dock, Dandelion, Sarsaparilla, Elder Flowers, with others, producing the most infallible remedy for the restoration of health ever known. It is nature's own remedy, curing diseases by natural laws. When taken, its influence is felt coursing through every vein of the body, purifying and accelerating the circulation of the blood. It neutralizes any bilious matter in the stomach, and strengthens the whole organization.

McLEAN'S STRENGTHENING CORDIAL Will effectually cure Liver Complaint, Dyspepsia, Jaundice, Chronic or Nervous Debility, Diseases of the Kidneys, and all Diseases arising from a Disordered Liver or Stomach, Dyspepsia,

Heartburn, Inward Piles, Acidity or Sickness of the Stomach, Fullness of Blood to the Head, Dull Pain or Swimming in the Head, Palpitation of the Heart, Dullness or Weight in the Stomach, Sour Eructations, Choking or Suffocating Feeling when lying down, Dryness or Yellowness of the Skin and Eyes, Night Sweats, Inward Fevers, Pain in the small of the Back, Chest or Side, Sudden Flushes of Heat, Depression of Spirits, Frightful Dreams, Languor, Despondency or any Nervous Disease, Sores or Blotches on the Skin, and Fever and Ague (or Chills and Fever.) It will also cure diseases of the Bladder and Womb, such as Seminal Weakness, Incontinence of Urine, Strangury, Inflammation or Weakness of the Womb or Bladder, Whites, etc.

THERE IS NO MISTAKE ABOUT IT.

This Cordial will never fail to cure any of the above diseases, if taken as per directions on each bottle, in German, English and French.

OVER A MILLION BOTTLES Have been sold during the last six months, and in no instance has it failed in giving entire satisfaction. Who, then will suffer from weakness or debility, when McLean's Strengthening Cordial will cure you?

TO THE LADIES:

Do you wish to be healthy and strong? Then go at once and get some of McLean's Cordial. It will strengthen and invigorate your whole system, causing a healthy and pure circulation of blood to flow through every vein, and the rich, rosy bloom of health to mount to your cheek again. Every bottle is warranted to give satisfaction.

FOR CHILDREN.

We say to parents, if your children are sickly, puny, or afflicted with complaints prevalent among children, give them a small quantity of McLean's Cordial, and it will make them healthy, fat, and robust. Delay not a moment, try it, and you will be convinced.

IT IS DELICIOUS TO TAKE.

CAUTION.—Beware of druggists or dealers who may try to palm upon you some Bitter or Sarsaparilla trash, which they can buy cheap, by saying it is just as good. Avoid such men. Ask for McLean's Strengthening Cordial, and take nothing else. It is the only remedy that will purify the blood thoroughly, and at the same time strengthen the system.

One tablespoonful taken every morning fasting, is a certain preventive for Cholera, Chills and Fever, Yellow Fever, or any prevalent disease. It is put up in large bottles. Price only $1 per bottle, or 6 bottles for $5.

THE PERUVIAN SYRUP, OR PROTECTED Solution of Protoxide of Iron COMBINED.

THIS PREPARATION DIFFERS FROM all others, being an unchangeable protoxide of Iron, attained by a combination never before known.

For Indigestion, Torpid Liver, Dropsies, Boils, all forms of disease caused by impoverishment of the blood, general debility, and especially the diseases peculiar to females, it has been found eminently efficacious.

Pamphlets, giving a full description of the remedy and the remarkable cures it has effected, may be obtained of the agents.

[Certificate of Dr. Hayes.]

It is well known that the medicinal effect of Protoxide of Iron is lost even by a brief exposure to air, and that to maintain a solution of Protoxide of Iron without further oxidation, has been deemed impossible.

In the Peruvian Syrup, this desirable point has been attained by combination in a way before unknown; and this solution may replace all the pro-carbonates, citrates and tartrates of the Materia Medica.

It is also eminently adapted to take the place of any Protoxide of Iron, which physicians have used in scurvy or scorbutic attacks, and to meet such cases the Syrup should be found in the medicine chest of every ship.

A. A. HAYES, M. D., Assayist to the State of Massachusetts. 16 Boylston street.

A CARD.

The undersigned having experienced the beneficial effects of the "Peruvian Syrup" do not hesitate to recommend it to the attention of the public.

From our own experience, as well as from the testimony of others, whose intelligence and integrity are altogether unquestionable, we have no doubt of its efficacy in cases of Incipient Diseases of the Lungs and Bronchial Passages, Dyspepsia, Liver Complaint, Dropsy, Neuralgia, etc. Indeed its effects would be incredible but from the high character of those who witnessed them, and have volunteered their testimony, as we do ours, to its restorative power.

DR. McRAE,

Having experimented with medicine in the treatment of diseases for years, laying aside all prejudices, has examined in the meantime all the various systems and schools of medicine and have selected such remedies as I can demonstrate to be safe and efficient rejecting all mineral poisons. To remove acute disease is comparatively an easy task; it is the curing of chronic diseases that requires knowledge combined with patience and perseverance tempered with kindness. It is in the latter class of diseases where physicians mostly make their failures. Having given this class of disease my special attention, I profess to be prepared to treat all chronic diseases with positive success. I mean all that are curable cases unless it be conditionally, so that patients may depend upon my declaration. I profess to treat successfully all chronic diseases of the Lungs, Liver Bronchia Neuralgia, Paralysis, Rheumatism, and all derangements of the nervous system. Fistula and Piles successfully treated in from thirty to sixty days without the use of the knife; or much additional pain. I profess to treat with unparalleled success the loathsome disease known by the name of Cancer in all its stages, without the use of the knife or any harsh treatment. If patients will strictly obey my instructions, I will guarantee satisfaction in all cases where no disorganization of the vital organ has taken place. The best of references can be given from citizens of St. Louis, where I have devoted my practice for the last three years. I have now in my office Cancer Tumors weighing from ½ to 2 pounds that I have removed with success, without the use of the knife. For further particulars physicians and others are invited to call and examine for themselves.

DR. McRAE, OCCULIST AND AURIST, Gives special attention to diseases of the Eye and Ear. In this climate where the Eye is subject to so many diseases, which are fatal to the delicate structure, all persons afflicted should attend to the earliest symptoms, avoiding much suffering and probable blindness.

Letters from a distance, containing one stamp, will receive prompt attention. Address Box 1292, D. McREA, M. D., St. Louis, Mo. OFFICE, NO. 25 NORTH FIFTH ST., Between Pine and Chesnut streets, one square from the Court House, St. Louis, Mo. au18.d&wlyF
