Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the use of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores, cleanse it when you find it is obstructed and sluggish in the veins, cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well, but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

THE LIVER INVIGORATOR!

PREPARED BY DR. SANFORD.

Compounded entirely from GUMS,

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public; it acts as a *Cathartic*, easier, milder, and more effectual than any other medicine known. It is not alone a *Cathartic*, but a *Liver* remedy, acting first on the *Liver* to eject its morbid matter then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics*. It strengthens the system at the same time that it purges it, and when taken daily in moderate doses will strengthen and build it up with unusual rapidity.

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed and enjoyed. The *stomach* depends entirely upon the healthy action of the *Liver* for the proper performance of its function, when the stomach is at fault, sickness in consequence follows, the whole system becomes deranged, and some organ, or other, of the body, becomes affected. The Liver is the great source of more than one-half of the ills that flesh is heir to. Let the liver be properly regulated, and all will be well with the system; but when it ceases to secrete the healthy bile, and allows it to remain in the blood, it is then that it becomes the source of more misery than any other organ of the body. Nearly all the diseases to which the human family are subject, originate in a disordered state of the Liver. Let the Liver be properly regulated, and all morbid or bad matter will be thrown off by the various emunctories of the system, such as the Liver, Lungs, Skin, Bowels, Kidneys, &c., &c. Nature will then throw off disease, and health will follow as a matter of course.

Bilious attacks are often prevented by the occasional use of a dose or two of the Liver Invigorator. One dose taken when the symptoms first appear, will prevent the attack, when it would cost the sufferer days of pain and misery to get rid of it without it. Many persons who are subject to bilious attacks, know that they can't take calomel, it salivates them, and makes them worse than the disease they have. The Liver Invigorator is entirely free from mercury or any other injurious substance, and may be taken by the most delicate female or child with perfect safety. It will relieve the most sensitive stomach, and not cause a single symptom to be felt that would indicate the slight effect of any medicine being taken. It will cure Costiveness, Dyspepsia, Jaundice, Biliousness, Fever and Ague, Fever and Ague, Bilious Fever, Bilious Diarrhœa, Bilious Colic, Bilious Cholera, Nausea, Sick Headache, Loss of Appetite, Coated Tongue, Pain in the Side, Back, Loins and Joints, Nervous Headache, Nervous Irritability, Nervous Debility, Nervous Prostration, Nervous Diseases of all kinds, Costiveness, Piles, Dysentery, Diarrhœa, Cholera and Cholera Morbus, Dropsy, by exciting the action of the absorbent system, Fever and Ague, Fever and Ague, Chills and Fever, Intermittent Fever, Remittent Fever, Congestive Fever, Typhoid Fever, Typhus Fever, Yellow Fever, Scarlet Fever, Bilious Fever, Inflammatory Fever, Brain Fever, Fever of all kinds, Erysipelas, Eruptions of the Skin, Eruptions of the Face, Pimples on the Face, Blotches, Boils, Tumors, Salt Rheum, Scald Head, Ringworm, Nettle Rash, Itch, Scaly Eruptions, Tetter, Scurvy, Mercurial Disease, Syphilis, Syphilitic Affections, Mercurial Rheumatism, Inflammation of the Bowels, Inflammation of the Liver, Inflammation of the Stomach, Inflammation of the Kidneys, Inflammation of the Urinary Organs, Inflammation of the Lungs, Inflammation of the Chest, Inflammation of the Eyes, Inflammation of the Ears, Inflammation of the Joints, Inflammation of the Testicles, Inflammation of the Bladder, Inflammation of the Rectum, Inflammation of the Womb, Inflammation of the Vagina, Inflammation of the Prostrate Gland, Inflammation of the Urethra, Inflammation of the Skin, Inflammation of the Muscles, Inflammation of the Joints, Inflammation of the Bones, Inflammation of the Spinal Marrow, Inflammation of the Brain, Inflammation of the Membranes of the Brain, Inflammation of the Heart, Inflammation of the Pericardium, Inflammation of the Membranes of the Heart, Inflammation of the Membranes of the Lungs, Inflammation of the Membranes of the Stomach, Inflammation of the Membranes of the Bowels, Inflammation of the Membranes of the Kidneys, Inflammation of the Membranes of the Urinary Organs, Inflammation of the Membranes of the Womb, Inflammation of the Membranes of the Vagina, Inflammation of the Membranes of the Prostrate Gland, Inflammation of the Membranes of the Urethra, Inflammation of the Membranes of the Testicles, Inflammation of the Membranes of the Eyes, Inflammation of the Membranes of the Ears, Inflammation of the Membranes of the Joints, Inflammation of the Membranes of the Bones, Inflammation of the Membranes of the Spinal Marrow, Inflammation of the Membranes of the Muscles, Inflammation of the Membranes of the Skin, Inflammation of the Membranes of the Chest, Inflammation of the Membranes of the Testicles, Inflammation of the Membranes of the Bladder, Inflammation of the Membranes of the Rectum
