# Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from generation to generation, until it is met by a kindred taint, when its fearful work begins. Scrofula is the only disease which defies medical skill. It baffles the skill of the ablest physicians, and defies all the boasted powers of the materia medica. Thousands who have suffered from its effects, have sought in vain for a remedy among the catalogue of nostrums which are thrust upon the public. Many of these have been extolled as infallible cures for scrofula, but how sadly have their promises been broken! Many victims have fondly hoped that the Sarsaparilla of Dr. Townsend would prove an exception to the general rule of imposition, but they have been sadly disappointed. Hundreds who have taken his Sarsaparilla for scrofula, have written to us that it did them no good. Such testimony we can easily obtain, but we do not think it necessary to publish it. We do not wish to deceive the sick and suffering, by publishing the mere hope of a few individuals, when we can prove by the testimony of hundreds, that our Sarsaparilla does possess the power to cure the most aggravated forms of scrofula, when all other medicines have failed to do good. We do not say that our Sarsaparilla will cure all cases of scrofula, for we know it will not; but we do say that there are more cures of scrofula on record, which have been made by Dr. Townsend's Sarsaparilla, than by any other medicine. We do not publish the names of our patients, because we do not think it necessary to do so in order to obtain a hearing from the sick and suffering. We only publish a few of our cures, that our neighbors and friends may know that our Sarsaparilla is not a humbug, but that it does possess the power to cure the most aggravated forms of scrofula, when all other medicines have failed to do good. We do not say that our Sarsaparilla will cure all cases of scrofula, for we know it will not; but we do say that there are more cures of scrofula on record, which have been made by Dr. Townsend's Sarsaparilla, than by any other medicine. We do not publish the names of our patients, because we do not think it necessary to do so in order to obtain a hearing from the sick and suffering. We only publish a few of our cures, that our neighbors and friends may know that our Sarsaparilla is not a humbug, but that it does possess the power to cure the most aggravated forms of scrofula, when all other medicines have failed to do good.
