MISCELLANEOUS ITEMS.

—Charles Kean is better.

—The Australians have engaged a tragedian by the year for $30,000.

—Lotta's real name is Charlotte Crabtree, and she is a native of California.

—Carlotta believes she was poisoned with *tolouche* in Mexico.

—Mrs. General Stonewall Jackson is in New York.

—Chief Justice Chase has returned to Washington from Saratoga.

—Henry Stevens, a distinguished citizen of Vermont, is dead at the age of 75.

—Bierstadt's "Domes of the Yo-Semite" is on exhibition in Boston.

—Mr. Byron is writing a three-act original drama for Mr. Toole.

—Mr. Charles Kean is at Taunton, and improves in health.

—Mrs. Sarah A. Ripley, a well-known literary lady of Massachusetts, is dead at the age of seventy-four.

—Norfolk has a rumor that General Schofield is to be ordered West to take charge of the Indian campaign.

—S. P. Chase, who six years ago was not worth $10,000, is now taxed on an income of $700,000 per year.

—Ann S. Stephens, who has been a constant attendant at the Surratt trial, proposes to weave a novel of its details.

—Queen Victoria has nominated the Prince of Wales to be a Knight of the Most Ancient Order of the Thistle.

—The University of North Carolina is going to lose its President, Governor Swain; and Professor of Chemistry, Colonel W. J. Martin.

—Hon. A. N. G. Totten, for many years Judge of the Supreme Court of Tennessee, and one of the most eminent lawyers of that State, died last week.

—Gustave Doré is scarcely thirty years old, but he has made designs for over fifty thousand wood engravings, which have been published.

—E. D. Harding, the champion runner of the United States, is to run De Kelso on the Newmarket Track, of Aurelia, Canada East, September 15, a three mile race, for a stake of $1000 a side in gold.

—The wounds received by Assistant Secretary F. W. Seward, by the running away of a span of horses and the upsetting of a carriage, are not of a serious character. He will probably be well in a few days.

—The daughter of M. Jules Favre, the distinguished French statesman, was recently married to M. de Saavedra de Ruy Gomez, an artist, and formerly private Secretary to the late Emperor Maximilian.

—A Kansas paper utters a wholesome truth in an editorial, by saying the broad fields of Missouri and Kansas have "a soil more certain in its yield of wealth than the mountains of Montana are of gold."

—Two of the handsomest American ladies in Paris are Mrs. Ronalds and Mrs. Foote, *née* Jerome—two of the most beautiful, Miss Fannie Jerome and Miss Roosevelt, whose golden hair is the admiration of the Parisian ladies.

—As many as fifty thousand tons of soap used in silk manufacture were formerly allowed to pass off to waste in the Rhone. Most of this is now recovered by the aid of sulphuret of carbon, and is used again in manufacture.

—"Baby Bates," the "Kentucky Giant," who was in Cleveland, Ohio, for several days, exciting the astonishment of all beholders whenever he appeared upon the streets, has gone to Quincy, Illinois. He is nearly eight feet in height.

—Yesterday five hundred sacks of oats were shipped from this city to St. Louis. They were purchased in Chicago for this market, were brought here, and now the market is so high in St. Louis that their owner can ship them to that point and dispose of them at a profit. Such a shipment was never made before.—*St. Paul (Minn.) Press, July 28.*

—The Paris critics are loud in their praises of Mr. Sothern. Theophile Gautier, who acknowledges that he knows no English, says he almost understood and thoroughly appreciated the actor. The critic of the *Constitutionnel*, beating about for terms to describe Mr. Sothern's loss of faculty, is highly complimentary, and says he passes from "vegetative imbecility" to "ruminative idiotcy."

—The large number of awards given in the American section of the International Exhibition has been attracting considerable attention to it within the last few days. Out of 524 exhibitors, 262 have received awards. Of these there were 4 grand prizes, 10 decorations, 17 gold medals, over 60 silver medals, and the rest bronze and honorable mentions. The excellence of some of the American wines has occasioned some surprise.

—The quaint old wooden fronted house near the palace of the Bishop of Hereford, where "Nell Gwynne" was born and lived, has been entirely swept away. Every visitor to Hereford used to call to see it, but it has proved obnoxious to an ecclesiastical dignitary, and has been, in consequence, entirely demolished. The house was pretty, filled in with quaint old wooden piles, and in King Charles' time, facing as it did a pleasant bank sloping down to the river, it must have been a charming home.

HARDWARE.—It is very strange that although you may procure tenpenny nails in the pound, no ironmonger ever thinks of supplying you with incense tacks.—*Pun.*

HEALTH OF NAPOLEON.—The Paris correspondent of the British Medical *Journal* writes: —"During the last week there has been a good deal of uneasiness at court concerning the relapse of the Emperor into the painful symptoms with which he was last year affected. The attack of renal colic, which the *Moniteur* officially described as lumbago and headache, has left behind further symptoms, which have induced the Emperor's physicians to counsel as early a close as state reasons will allow of the court festivities, in order that he may have the benefit of treatment by mineral waters. Meantime he is forbidden horse exercise and the pleasures of the table."

A HINT TO BOSS WAITERS.—Those delightful poets who are forever wishing themselves either daisies or birds have a fine opening now. The Melbourne *Age* says that fruit is so plentiful in that locality this year that "people are on the lookout for pigs to eat up the quantities of peaches, apricots, plums, etc., which will not pay for the gathering for table." The song writers will feel at home in Australia, which it will be remembered is now overrun with thistles, imported by an enthusiastic Scot. Shall the bulbul be silent when the rose is near? Where there is plenty of *Carduus benedictus* shall the nightingale of British song be mute? Forbid it, heaven—and the music-publishing trade!

"I would I were a pig
In far Australia!
To eat plum, peach, and fig,
And apricot all day!"

There! there's a start for them.—*Pun.*

CITY INTELLIGENCE.

[FOR ADDITIONAL LOCAL ITEMS SEE OUTSIDE PAGES.]

SUDDEN FATALITY.—George A. Spangler, aged fifty-five years, residing in Fawn street, above Oxford, was taken suddenly ill yesterday afternoon in a saloon, at Sixth and Arch streets. Medical aid was immediately summoned, after which he was placed in a cab, for the purpose of having him taken to the hospital. While being conveyed thither he expired. The body was then removed to the Coroner's office, where an inquest was held, the jury rendering a verdict in accordance with the circumstances of the case. The deceased was employed for a long time by a clothing house in Market street in writing advertisements.

DANGEROUS COUNTERFEIT.—In the counterfeit of the $100 National Bank plate, the mark by which the public have heretofore distinguished them from the genuine, viz., the imperfection in the letter T in the words "Maintain it," on the lower right-hand corner, is having been without the cross, being simply an I, has been corrected by the counterfeiters. It now has the cross-piece, but rather longingly put in. The face of Jefferson on the back (one of the figures at the table) is very poor. Otherwise a very dangerous counterfeit. Persons not acquainted with the plate had better refuse all.

FIRE.—The alarm of fire last night about quarter-past 10 o'clock was caused by the burning of some shavings and light material in the Franklin Planing Mill and Box Manufactory, corner of Girard avenue and Vienna street. The fire was caused from the heating of a journal. The flames were discovered by Charles H. Day, the private watchman, and were extinguished before much damage had been done.

ARRIVED SAFELY.—The brig Nellie Clifford, Captain Littlefield, which sailed from Philadelphia in the latter part of June, for Cathaicn, and was reported to have been seen on the 3d ultimo, off Barnegat, sunk, has arrived safely at her port of destination, after a passage of twenty-one days.

SPECIAL DETECTIVE.—Mr. Joseph C. Fuller, formerly Lieutenant commanding First Police District of this city, has been appointed special detective on the Camden and Atlantic Railroad. He was appointed by the Governor of New Jersey on the 25th of last month, having previously been appointed to his position by the President of the Camden and Atlantic Railroad.

THOSE who are in want of fine steel-plate engravings with which to decorate their parlors and drawing rooms, should by all means examine the handsome specimens, some seven or eight in number, which are given to those who purchase stock in aid of the Riverside Institute. These pictures are classed as one, two, three, four, and five-dollar engravings. The stock is sold at one dollar per share, a single share securing the one-dollar engraving, two shares the two-dollar engraving, and so on. Each engraving, at retail, could not be purchased for less than 50 per cent. more than it really costs those who purchase stock. In addition to this, each share of stock guarantees one present in the great distribution to come off hereafter. One of these presents is worth as high $40,000, another $20,000, a third $10,000, and so on, footing up an aggregate of $500,000 worth of presents, which will be distributed among the stockholders, each share held securing one present, as there are to be no blanks whatever. The engravings are on exhibition at the principal office, No. 1225 Chestnut street.

GAS LIGHT FOR THE COUNTRY.—Ferris & Co.'s Automatic Gas Machine has now been perfected, and it seems impossible to add any improvement to them. They now furnish from tanks, to hold the material, which are placed outside the house, and the risks from fire are less than from any other method of lighting known, so much so that the first-class insurance companies not only insure houses where they are used, at the lowest rates, but insure the gas machines also, from the fact that the material used is not explosive, and that nothing but the most gross carelessness can cause an accident. Their business is steadily increasing as the merits of the Automatic Gas Machines become known, and the best recommendation they can have is that of the large number of them put up in the States of Pennsylvania, New Jersey, and Delaware. They have to hear of the first one that has not given entire satisfaction. Those wishing a cheap and beautiful light, would do well to call at their office, No. 105 South Fourth street, to see the machine in practical operation, or send for a pamphlet and information in regard to them.

A MISERABLE LIFE IS LED BY THE DYSPEPTIC, for his complaint not only prostrates the body, but produces a gloomy state of mind and an irritable disposition. While many articles are recommended as curatives of this disease, none have met with the success which has attended the use of DR. JAYNE'S ALTERATIVE, in connection with JAYNE'S SANATIVE PILLS. The Alterative purifies the blood, gives strength to the digestive organs, and imparts a healthy tone to the system; the Sanative Pills change the vitiated secretions of the stomach and liver, and stimulate these organs to healthy action. By the combined action of these remedies, many radical cures have been effected, and they are therefore confidently offered to the afflicted. Prepared only at No. 242 Chestnut street.

HOLLOWAY'S PILLS.—Derangement of the Stomach and Bowels. As the stomach by the agency of the gastric juices assimilates digested food into elementary blood, we cannot be too careful of preserving it in a healthy and vigorous condition. Holloway's Pills are powerfully corrective and detergent; they strengthen the digestive organs, and by their curative properties cleanse and purify the ingested food in its process of conversion to blood. In all disorders of the bowels and viscera, their sanative qualities are unequalled.

Sold by all Druggists.

SPERR'S PORT GRAPE WINE.—For persons of sickly and debilitated constitutions, it is especially recommended as a valuable tonic and invigorator. As a dinner wine it is pleasant and agreeable, and its exhilarating effects considerably assist digestion. For general family use, it cannot be excelled by the finest imported Port for taste, flavor, or juicy richness, while it is devoid of the deleterious and intoxicating qualities which uniformly characterize foreign wines.—*Independent.*

Our druggists have it.

THE REMOVAL OF SHERIDAN AND OTHERS!—Speaking of removals, our attention is called to the extensive removals of clothing from the counters of Charles Stokes & Co.'s Ready-made Clothing House, under the Continental, to the possession of large numbers of the public, and with this peculiarity, that the removals are satisfactory to all parties concerned.

GROVER & BAKER'S

PROPOSALS.

IMPROVEMENT OF THE DES MOINES RAPIDS OF THE MISSISSIPPI RIVER.
U. S. ENGINEER'S OFFICE,
DAVENPORT, Iowa, July 24, 1867.

Sealed proposals, in duplicate, will be received at this office until 12 M., WEDNESDAY, September 4, 1867, for excavating the prism and constructing the embankment wall of the Canal for the improvement of the navigation of the Mississippi river at the Des Moines Rapids.

The Canal is to be about 7¼ (seven and one-half) miles long, extending from Nashville to Keokuk, Iowa. The width at the water surface inside the canal to be 300 (three hundred) feet in embankment, and 220 (two hundred and fifty) feet in excavation, and in low water to be 5 (five) feet deep. All the material excavated from the prism of the canal to be used in building the embankment. The latter throughout the greater part of the distance will be about 300 (three hundred) feet from the Iowa shore. Where rock excavation occurs, the bottom of the canal will have a slope of 1½ (one and one-half) inches to the mile. The embankment is to be built of earth clay and rock; to be 10 (ten) feet wide on top, including the rip-rap covering; to be 2 (two) feet above high water mark, with slopes of 1½ (one and one-half) base to 1 (one) vertical. The average thickness of the rip-rap protection to be 2½ (two and one-half) feet on the river side, 2 (two) feet on the canal side, and 1 (one) foot on top.

All propositions must state the price at which each and every kind of work specified in the proposal is to be done, and no bid will be considered that is not definite in this respect.

The Government reserves the right to reject any and all bids.

A printed copy of this advertisement must be attached to each proposal.

Each bid must contain a written or printed guarantee signed by two responsible persons.

Blanks for proposals of the form required, with form of guarantee, will be furnished at this office on application.

The price or prices in the contract will be considered as including the expense of furnishing all the materials and performing all the work, according to the plans and specifications exhibited at the letting.

The entire cost of the canal is estimated at $2,068,345 (two million sixty-eight thousand three hundred and forty-five). The amount appropriated by Congress is $700,000 (seven hundred thousand dollars); the contract can only be made to cover this amount.

Fifteen (15) per cent. of the amount of any work done or materials furnished, at the contract price thereof, will be reserved until the whole work which is the subject of contract shall be entirely completed.

Persons desiring further information can obtain the same by calling at this office, where maps, plans, specifications, and form of contract can be consulted.

Proposals must be addressed to the undersigned, and should be endorsed "Proposals for work on the improvement of the Des Moines Rapids."
J. H. WILSON,
Lieut.-Col. 35th Infantry,
7 30 4w Bvt. Major-General U. S. Army.

PROPOSALS FOR CAVALRY HORSES.
DEPUTY QUARTERMASTER-GEN'S OFFICE,
BALTIMORE, Md., July 25, 1867.

Sealed Proposals are invited, and will be received at this office, until MONDAY, at 12 o'clock M., August 5, 1867, for the delivery, in the city of Baltimore, of twenty (20) Cavalry Horses.

The Horses will be subjected to careful inspection before being accepted. They must be sound in all respects, well broken, in full flesh and good condition, from fifteen to sixteen hands high, from five to nine years old, well adapted in every way for cavalry purposes.

The ability of the bidder to fulfil his agreement must be guaranteed by two responsible persons, which guarantee must accompany the proposal.

The Horses must be delivered within fifteen (15) days from the date of acceptance of any proposal.

The Government reserves the right to reject any or all bids.

Payment to be made on completion of contract.

Bids will be endorsed "Proposals for Cavalry Horses," and addressed to the undersigned, Baltimore, Md.
STEWART VAN VLIET,
7 27 7t] Deputy Quartermaster-General U. S. A.

GAS LIGHT
FOR THE COUNTRY.

FERRIS & CO.'S AUTOMATIC GAS MACHINES
FOR PRIVATE RESIDENCES, MILLS, HOTELS, CHURCHES, ETC.,
FURNISHING FROM TEN TO SIX HUNDRED LIGHTS, AS MAY BE REQUIRED.

This machine is guaranteed not to get out of order, and the time to manage it is about five minutes a week.

The simplicity of this apparatus, its entire freedom from danger, the cheapness and quality of the light over all others, have gained for it the favorable opinion of those acquainted with its merits. The names of those having used them for the last three years will be given by calling at our OFFICE.

NO. 105 SOUTH FOURTH STREET,
Where the machines can be seen in operation.
