MUSICAL INSTRUCTION
AND CO-RELATED ARTS

COMBS
CONSERVATORY of MUSIC
Thirty-eighth Year

A Residential and Day School of International Reputation with unparalleled facilities for the attaining of a complete musical education in all branches from elementary to the highest artistic standard.

THE study of music should form an integral part of every one's education. It is possible to go through life without a knowledge of music. It is also possible to go through life without a knowledge of literature, science and art, but who can estimate the tremendous loss to one who lacks such knowledge? True success in life means the true development of every faculty.

Parents who fail to encourage their sons and daughters to become accomplished are not only depriving them of much of the joy and pleasure of life, but are seriously limiting their opportunities for a successful life.

MUSIC AS A PROFESSION

For those interested in music as a profession we have prepared a booklet entitled, "Opportunity," which contains valuable information concerning the financial returns from the various phases of musical activity. It describes in detail the opportunities for remunerative employment opened to those engaged in music as a profession. Interesting facts are set forth showing the relative earnings of professional musicians as compared with incomes from other professions. This booklet will be mailed free upon request.

A School of Individual Instruction
