FRIDAY MORNING, JAN. 18.

Speech of Senator Irish.

I desire to express, at the outset of the very little I have to say, the satisfaction with which I have listened to much that has transpired in the course of this debate. I wish particularly to declare my hearty approbation of the eloquent sentiments which fell from the Senator from Bradford, (Mr. Landon,) this morning. The style and language is not only clear and forcible, but the argument is able, thorough and profound throughout. The moral tone of the speech is not less refreshing and admirable. Sir, it warms the heart with generous emotion, to meet, amid the tortuous windings of politicians, an occasional exhibition of such high moral purpose, and unswerving devotion to principle. While I am on this subject, permit me to call attention to another feature of this discourse, which I also desire to commend. It is frank—it is manly—it is free from all cant and hypocrisy. The Senator does not wish to mislead or deceive the South, as to our position, or as to our real feelings and intentions. They sir, are, so far as relates to the majority of this Senate and the party they represent—pretty fully expressed in the Chicago platform. It would be idle, even were we so disposed, to disclaim them. The South is not to be cheated or deceived by empty professions and plausible resolves. They know by instinct where we naturally and necessarily stand. That the extension of slavery is not in our creed. That the recommendation of our present Governor, to permit or tolerate the Southern, or any other system, of human slavery in Pennsylvania, is not to be thought of. The expression of the people at the polls in November last, was their deliberate verdict. It is not to be disclaimed or resisted, but maintained and enforced in the usual prescribed and constitutional manner. Does any one imagine that Lincoln is to sneak into the Presidential chair behind the screen and shadow of false pretexts and dissembling expressions on the part of his friends? This is not the way to dispel apprehension, and restore confidence. His position has been fully and clearly defined—that of his party is before the world. There is, in my opinion, nothing to be added, and nothing to be taken away from it at this time. I think we should be careful about doing anything that looks towards shifting our position during the present critical state of affairs.

When the resolutions offered by the Senator from Philadelphia, a few days since, were presented, I understood them, however, not as a challenge to partisan strife, but as intended to furnish a common ground, upon which we all might meet, and utter a united and unanimous expression of the prevailing feeling upon the course and attitude of the seceding States. Although I doubt the propriety of any expression by way of resolution at this time; although I incline to the opinion that when we speak on this subject it should be through the medium of acts and measures, rather than by resolution; although I consider the resolutions wanting in tone, tame in expression, unequal to the exigency, and short of the expectations of the people—I had concluded, for the sake of presenting to the country a united front upon this question, to cast my vote in favor of most, and with one amendment, all the resolutions of the Senator from Philadelphia. I had hoped to find this the disposition of the entire Senate, but the proceedings of yesterday and to-day have shaken the expectation. We have since been presented with two entire sets of resolutions, breathing a different spirit and demanding different treatment. We are now beset with all manner of propositions to compromise, conciliate, renounce our principles, surrender our rights, and forsake our standard—to do anything rather than assume and maintain the calm, resolute, loyal position which the necessity of the times and the plain dictates of reason and duty require. I need not enumerate the sweeping concessions proposed in the resolutions proposed by the Senator from Huntingdon and the Senator from York. I believe they look towards conceding pretty much all the startling demands which are made by Toombs, Yancy, Wigfall and the rest, as the pretended condition of their submitting to the authority of the Federal Government. I need not say that I have but one answer for all such propositions. As often as the opportunity may be presented, I shall uniformly record myself against them.

It seems to me strange that there should exist, at this time, any difference of opinion among us respecting the wild and guilty schemes, plots and exploits of the conspirators at the South. I should be at loss to account for the zealous labors of the conciliators and compromisers were it not that they seem to be infatuated with an idea that they are doing something to save the Union.

Why, sir, the Union has been wrecked by just such tinkering as this. If, twenty years ago, the North had stood squarely and firmly up, and said to the slave power—"stand where you are—not another inch"—instead of the dark and threatening troubles in which we are now involved, our skies would have been clear to day.

We have temporized, yielded, submitted and surrendered, until we have led the banded enemies of the government to imagine, that we have no spirit which can be insulted, no principle we will not surrender, no courage which they need regard, no manhood which they need respect. And now, sir, what possible good is to be accomplished by new overtures and fresh concessions? It is out of the question to bring back peace or restore confidence to the country by such a course, were we even willing to adopt it. Concessions now, only incite contempt and stimulate rebellion. You may write conciliation all over the State House, you may shout compromise until the designs of the conspirators are consummated, you may belittle the State by craven professions, and degrade her character by servile expressions and idle resolves, but you cannot, by such childish shams, arrest the wild whirl of revolution. We have been pushed to the wall—we cannot recede another inch.

I urge no hasty or inconsiderate proceeding, I recommend no rash or doubtful step. You may fold your arms and see the Union perish if you like. It is not for me to define how long we shall wait or how far we shall go. I am urging no leap in the dark, but simply protesting against the adoption of degrading resolves which can only complicate our difficulties and prolong our troubles.

For myself, I should prefer, when we do speak, that we should come squarely up to the question. I do not consider it simply as "a nigger question," as it has been termed by many. It is no more a nigger question than the Revolutionary war was a tea question. The question is whether this grand experiment of Republican self-government is to be a failure, of the beneficent dispenser of justice, liberty and happiness, as its founder designed. It is a question which may be presented in many forms. It comes to us now in the shape of a query whether a constitutional majority of the people, having elected a President to carry out, according to the forms of the Constitution, the policy prescribed by them as best calculated to promote the national welfare, the people will tolerate a defeated and rebellious faction in defying the authority of the government.

Shall the government work go right on under the direction of the incoming Administration, according to the forms of the Constitution, or shall it fall to pieces at the touch of lawless violence?

These are the questions. There ought to be but one response. There should be no embarrassment or hesitation in indicating where we stand. For one, I have no difficulty; my answer is always ready. I shall record my vote against the resolution of the Senator from Huntingdon, as well as against those offered by the Senator from York.

I am also as fully prepared to vote in favor of the resolution offered by the Senator from Philadelphia, although I consider them, as I have before stated, inadequate and imperfect in many respects.

SPALDING'S PREPARED GLUE

Spalding's Prepared Glue!

Spalding's Prepared Glue!

SAVE THE PIECES!

ECONOMY! DISPATCH!

"A STITCH IN TIME SAVES NINE."

As accidents will happen, even in well-regulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Toys, Crockery, etc.

Spalding's Prepared Glue

meets all such emergencies, and no household can afford to be without it. It is always ready, and up to the sticking point. There is no longer a necessity for limping chairs, splintered veneers, headless dolls, and broken cradles. It is just the article for cone, shell, and other ornamental work, so popular with ladies of refinement and taste.

This admirable preparation is used cold, being chemically held in solution, and possessing all the valuable qualities of the best cabinet-makers' Glue. It may be used in the place of ordinary mucilage, being vastly more adhesive.

"USEFUL IN EVERY HOUSE."

N. B.—A Brush accompanies each bottle.

Price, 25 Cents.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DOLLAR SAVINGS BANK
No. 65 Fourth Street.
CHARTERED IN 1855.

OPEN DAILY FROM 9 TO 2 O'CLOCK, also on Wednesday and Saturday evenings, from May first to November first, from 7 to 9 o'clock; and from November first to May first, from 6 to 8 o'clock.

Deposits received of all sums not less than one Dollar and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually, in June and December, since the Bank was organized, at the rate of six per cent. a year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year without troubling the depositor to call or even to present his pass book. At this rate, money will double in less than 12 years, making in the aggregate EIGHT AND ONE HALF PER CENT A YEAR.

Books containing the Charter, By-Laws, Rules and Regulations furnished gratis, on application at the office.

Miscellaneous.

THE

ONLY DISCOVERY

WORTHY OF ANY CONFIDENCE FOR

RESTORING

The Bald and Gray.

Many, since the Great Discovery of Prof. WOOD, have attempted not only to imitate his Restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to his invincible sway. Read the following:

BATH, Maine, April 18th, 1859.

PROF. O. J. WOOD & CO.: Gents—The letter I wrote you in 1858, concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The inquiries are: first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft, thrifty and better colored, the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when the whiskers are used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt, been loosely imitated but been used not only without any good effect but to absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove the fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful; I gave it to my friends and thereby induced them to try it, many were skeptical until after trial and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many, I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty, as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who inquire of me of my unshaken opinion of its valuable results. I remain, dear sir, yours,

A C RAYMOND.

AARON'S RUN, Ky., Nov. 30, 1858.

PROF. O. J. WOOD: Dear Sir—I would certainly be doing you a great injustice not to make known to the world, the wonderful as well as the unexpected result I have experienced from using one bottle of your Hair Restorative. After using every kind of Restoratives extant, but without success, and finding my head nearly destitute of hair I was finally induced to try a bottle of your Hair Restorative. Now, candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to all who may feel the necessity of it. Respectfully yours, REV S. ALLEN BROCK.

P. S. This testimonial of my approbation for your valuable medicine (as you are aware of) is unsolicited; but if you think it worthy a place among the rest, insert if you wish—if not, destroy, and say nothing.

Yours, &c., REV S. A. B.

The Restorative is put up in bottles of three sizes, viz: large, medium and small; the small holds half a pint and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible.—Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills; price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

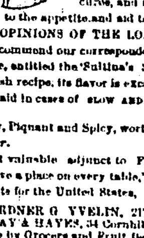
Soyer's Sultana Sauce,

FOR HOT AND COLD DISHES OF ALL KINDS.



This most delicious and appetising Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known house of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite Sauce in England, and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid to digestion.

OPINIONS OF THE LONDON PRESS.

"We recommend our correspondent to try Mons. Soyer's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe, its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet*

"Savory, Piquant and Spicy, worthy the genius of Soyer."—*Observer.*

"A most valuable adjunct to Fish, Flesh and Fowl, and should have a place on every table."—*Atlas.*

BLOOD FOOD

The attention of Invalids, Physicians, Clergymen, Scientific Men, and the Public generally, is respectfully solicited to the merits of this chemical preparation, containing **Iron, Sulphur and Phosphorus**, and which is identical in its composition with the *Hematic Globule, or red blood*. In all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance—which evinces a deficiency of the red globules—accompanies a diseased organism. Preparations of **Iron** have been given for the purpose of supplying the red globules, but we contend that **Iron** alone, **Sulphur** alone, or **Phosphorus** alone, will not meet the deficiency in every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the **Blood Food**, and its discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The **Blood Food** will be found a specific in all **Chronic Diseases** of the **Throat** or **Lungs**, such as *Asthma, Bronchitis, Coughs, &c.* Public speakers and Singers will find it of great utility in clearing and strengthening the vocal organs. In *Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c.*, its efficacy is marked and instantaneous. In no class of diseases however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as *Suppressed or Difficult Menstruation, Green Sickness, Whites, &c.*, especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the **Blood Food** to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through over use, either of the mind or body, and we deem it our duty to say that in all cases of *Weakness and Emaciation*, and in all diseases of the *Kidneys* or *Bladder*, this preparation has a claim upon the attention of sufferers which cannot be over estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the

BLOOD FOOD

to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or officinal, in point of usefulness. Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free when desired. We forward the **Blood Food** to any part of the United States or Canadas, upon receipt of price—$1 per bottle, $5 for six bottles. Be careful in all cases to take none but that having our fac-simile signature upon the wrapper. None other is genuine. Prepared only by

P.—For Piles, Blind or Bleeding, Internal or External.
O.—For Sore, Weak, or Inflamed Eyes and Eyelids; Failing, Weak, or Blurred Sight.
C.—For Catarrh, of long standing or recent, either with obstruction or profuse discharge.
W. C.—For Whooping Cough, abating its violence and shortening its course.

In all acute diseases, such as Fevers, Inflammations, Diarrhea, Dysentery, Croup, Rheumatism, and such eruptive diseases as Scarlet Fever, Measles, and Erysipelas, the advantage of giving the proper remedies promptly is obvious, and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the disease shortened, and rendered less dangerous.

Coughs and Colds, which are of such frequent occurrence, and which so often lay the foundation of diseased lungs, bronchitis and consumption, may all be at once cured by the Fever and Cough Pills.

In all chronic diseases, such as Dyspepsia, Weak Stomach, Constipation, Liver Complaints, Piles, Female Debility, and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Salt Rheum, and other old eruptions, the case has specifics whose proper application will afford a cure in almost every instance. Often the cure of a single chronic difficulty, such as Dyspepsia, Piles or Catarrh, Headache or Female Weakness, has more than paid for the case ten times over.
