At Home.—Cols. Taylor and Quay, the Senator and Representative from this county, returned to their homes in this place on Wednesday evening of last week.

Good Templars in New Brighton.—On last Friday night a Good Templar's Lodge was organized in New Brighton, by the Rev. J. A. Davidson, the State lecturer. The organization starts out with over one hundred charter members.

Wash Co. Med. Society.—We see by the Washington *Reporter* that the physicians of that county intend holding a meeting at their Court House, on the 20th of this month, for the purpose of again organizing the Wash. Co. Medical Society.

Foxes Caught.—On Saturday last Mr. D. O. C. Patterson of Patterson township, this county, made a raid on the foxes of his locality, and captured six of them. The "scalps" of a portion of them were brought to the county seat, and the bounty for them duly received. Three of the six foxes were given to the neighbors for "pets."

Temperance.—On Thursday evening of last week Rev. J. A. Davidson delivered a lecture in the Court House of this place to a very respectable audience. After the lecture was over, a Good Templar's lodge was organized, and fifty-four or fifty-five persons connected themselves with it as members. Rev. D. also organized a lodge in Rochester, composed of about the same number of persons.—A similar organization will be undertaken in Freedom the present week, under the supervision of David Woodruff, Esq., of Bridgewater.

Amaranth Lodge.—The Good Templar's organization of Rochester is officered as follows:

James Moerberger, W. C. T., Tillie Gray, W. V. T., Wm. Carter, W. S., M. P. I. Reno, W. T., Lillie Otto, W. S. G., A. Izenour, W. G. S., Harry French, W. F. S., Ella Richardson, R. H. S., Amanda Leslie, L. H. S., Rev. L. Payne, W. Chapman, Rufus Rosenstecl, P. W. C. T.

"Aramanth Lodge," the name of the organization, meets on Monday evening of each week, and begins its work with cheering prospects of success.

The New Council.—The new Town Council appears to be in earnest in the way of needed improvements. Among other progressive steps taken, we note those of planting shade trees, and the preventing of swine, horses, colts, &c., &c., from running at large on our commons. If the ordinance is strictly enforced, and it should be to the very letter, the opening of garden and yard gates, and the plowing of the public grounds by hogs, is "played out" in Beaver. Persons, therefore, who contemplated planting these "rooted" spots in potatoes, need not now provide themselves with seed for that purpose. They will please bear this in mind.

The Public School Grounds.—Who has charge of the Public School house and its grounds in the Borough of Beaver? If we knew, we would call their attention to the fact that the gates leading to the building are in a miserable condition, and the shade trees on the ground surrounding it, are being destroyed as rapidly as "can be expected."—The gates should be repaired at once, the shade trees protected with boxes, and some thirty or fifty additional trees planted in the lot this spring. A few dollars invested in this way now would add greatly to the value and beauty of the property in a few years hence.

A Preachers' Association for Bridgewater and vicinity has just been organized to meet every Tuesday, at 2 o'clock P. M., in the Bridgewater Church. The order of exercises embraces for first Tuesday of each month, reports of the spiritual condition of each church and a free interchange of opinion with reference to promoting spirituality; for second Tuesday, sketches and expositions; for third Tuesday a theological topic selected for discussion; and for fourth Tuesday, general discussion and conversation on miscellaneous subjects. All traveling and local preachers of the Methodist Church are entitled to membership, and are invited to attend.—*Pitts. Christian Advocate.*

Fires.—The neighborhood of Zelienople has of late been visited with quite a number of fires, and it is supposed by the citizens of that vicinity that it is the work of incendiaries. On last Saturday night a stable belonging to Mr. Jacob Cheany was burned to the ground, and a valuable horse, cow and calf were consumed with it. On Sabbath evening the barn belonging to the Orphan's Home (Passavant's) was consumed by fire, together with the hay and straw in it. The horses, cows, harness and tools were saved by the exertions of the citizens and the boys in the Home. On Monday night another stable, belonging, we believe, to Mr. Armors, was burned to the ground. Two hogs were consumed with this building. Quite an excitement prevails in that vicinity in consequence of these conflagrations, and active measures are on foot to bring the wretches to justice who originated them.

Summoned as a Witness.—Mr. Robt. Cooper of this place, was summoned on last Thursday to be in Washington, D. C., on the Monday following as a witness in the pending Surratt assassination trial. Mr. Cooper had been a witness in the trial of the other conspirators in the summer of 1865. We incidentally learn that his knowledge of the circumstances connected with the murder of the President are about as follows: On the night of the tragedy his regiment lay in the vicinity of Washington, and together with a comrade he spent the evening in the city. On learning that the President was at the theater that evening, the two stationed themselves near the theater building for the purpose of seeing him as he passed from the room to his carriage.—While there they saw and heard a man going to a particular spot convenient to the theater and calling out the time of night. He repeated these calls twice within ten minutes. This person was afterwards shown to be Spangler, who was tried in 1865, and is now at the Dry Tortugas. And the circumstance went far to show that the conspiracy was deeply arranged, and that the conspirators, both within and without the building were acting by signals in concert with each other. Mr. Cooper testified to this before, and on being taken to the "Old Capital," where Spangler was confined, indentified him as the person seen outside of the theater building on the night the President's life was taken. To testify to this now, we suppose, is why Mr. C. is called upon to go to Washington the second time.

"Much Obliged."—The *Local* establishment hates the *Argus* just about as much as it can, and yet it unwittingly procures it more patronage than any friend the paper has. To particularize: It has of late been informing its readers that the *Argus* "rats"—that is, charges but fair and moderate rates for advertisements, &c., and they cannot but infer from this that it, (the *Local*,) "skins" every advertiser that is stupid enough to patronize it. The result is: we are crowded with new, home advertisements; while the *Local's* columns are almost as destitute of these as the establishment is of good standing, or the Great Sahara is of vegetable productions!

We live in Beaver county, and we intend doing so for some time to come. We are in the printing business here, and we purpose continuing in it for an indefinite period in the future. Having had, and having now such intentions, our charges have been, and will continue to be, moderate and fair for what we do for the people among whom we live, and with whom we intend doing business; and if the *Local*, whose editors are not *bona fide* citizens of the county, but are merely staying here, see proper to charge immoderate rates and have an anxiety to "skin" those who are they may do so, and they shall not "bully" us into being a party to their ungrateful and unprincipled conduct. In the future, then, we shall charge just what we please for advertising, and the *Local* can "follow suit" if it sees proper to do so.

Attempted Burglary.—A burglary was attempted at the house of Mr. J. Martin, living at the village of Williamsburg, two miles east of Washington, Washington county, on the National Road. About 10 o'clock at night a noise of somebody trying to open the doors of the house, was heard, and the disturber being asked who he was, by one of the inmates, answered only that he wanted in. Upon being refused admittance, he left, but the family, becoming frightened, persuaded a young man to stay with them the remainder of the night. A while after, two persons attempted to gain admittance into the house in two different doors, at the same time. The young man fired through one of the doors at one of them, without any effect, save that of scaring them away from the house. They were not disturbed again during the night. It is supposed the reason of this nocturnal visit was because of the receival of some money by the family some days before.

Sheep Killed by Dogs.—The Agricultural Department at Washington, publishes a report each month of the year. In the report for March the subject of sheep-killing by dogs, and a way to prevent it, takes up quite a space in the report. The number of sheep killed by dogs in 539 counties of the United States in 1866 is given as 130,427. No reports from any but these counties have been received; and if their returns are indicative of the actual extent of the injury—and they are evidently lower than the reality, because based upon partial and imperfect local returns—the loss to the country yearly is not less than half a million sheep. Estimating the value of each sheep at $4 per head, and the loss on account of sheep being killed by dogs amounts to two millions of dollars annually. In view of this fact would it not be well for our legislators everywhere to investigate the subject of laying such a tax on dogs as would relieve the country of all such as were not known to be "good and honest," and whose owners would pay the tax and take particular care of those left.

Borough Improvements.—Quite a degree of activity prevails just now in the surrounding villages, and in this borough, in the way of local improvements. New houses are being built, others are being repaired, and still others are undergoing the process of painting.—All together these improvements make things look prosperous and cheerful. Among the new dwellings now being erected in the borough we may mention those of Messrs. Hereford, Heideger, Atkins, Rutan, Meyers, Fry, and the Cemetery Association, who are all putting up comfortable, and some of them commodious residences. The Messrs. Anshutz, at the lower end of town, have recently erected a fine business building, which is at present occupied as a tinware and harness shop.

Southern Relief.—During the past week a subscription was started in this place for the relief of the said-to-be starving people of the lately rebellious States. The urgency of the appeal for assistance allowed the subscription paper to be here but a couple of days. Yet during that time the sum of $107.50 was contributed and paid. Mr. Moses Scott had charge of the contributions, and forwarded the money to Pittsburgh, from which place it will be sent South.

Re-arrested.—Henry Paulson, an inmate of the county jail made his escape from it a couple of months ago. At the time of his leaving he had served out nearly his full time. His whereabouts was unknown until on Monday last, when he was re-arrested by Constable Anderson of Rochester and brought back to his old quarters.

To the Friends of the Public School Cause in Beaver County, Pa.

In order more fully to meet the requirements of our duty to God in advancing the interests of His Kingdom, and of our fellow beings in bringing the lambs of the flock into the fold of our Blessed Savior, we the committee, whose names are attached to this call, being duly appointed for the purpose of making this call, do hereby earnestly invite the pastors of the different churches and congregations throughout the county, also the superintendents and teachers of the Sunday Schools in the county, to meet in convention at the Presbyterian Church in Beaver, at 10 o'clock, on Thursday morning, May 2d, 1867. A committee will meet you upon your arrival at the Church and provide you with quarters during your stay with us. Come, brethern, come, and let us see what we can do for the advancement of the Sunday School cause in Beaver county. Let us try to meet the demand that is upon us in this great and growing interest. In union there is strength.—Again we say come; and bring such statistics as you may have or can get, in respect to No. of scholars in respective schools, in your Bible classes, in your infant classes, No. vols. in your libraries, how many papers are taken and what kind. The committee expect to receive the services of Messrs. Reed, of Pittsburgh, R. G. Pardee, of New York, Rev. Barnitz, of Wheeling, Va., and other earnest Sunday School men, who will give us their experience in county Sunday school movements and associations.

All "Democrats."—Last week we published an article of agreement between one "Dishong and wife of the first part, and James Wilson, (which is the churn pedlar) of the second part," wherein it was provided that he of the second part was to become the "proprietor" of Dishong's wife, "Mary Anne." It was also agreed between the contracting parties that the cow belonging to the Dishong's might be sold for "Mary Anne's" use, provided she was not disposed of to "any of the Hesses."

Since we published the agreement referred to, the Mercer *Dispatch* came to hand, and in it we are told that the editor is acquainted with the Dishong's, as well as with the "churn pedlar," and avers that the whole "caboodle" of them—"Paul, Mary Anne, Wilson, and the cow" are all Democrats, of the regular simon-pure vociferous stripe.

Fatal Accident.—On Wednesday morning the 17th inst., Jas. W. Towsend, formerly a resident of New Brighton, Pa, fell from a train near the Relay House in Maryland, while supposed to be making the attempt to jump off while it was in full motion, and was killed instantly. The back part of his skull was broken, one hand cut off, and other parts of him much bruised and started. His remains were brought to the dwelling of his brother in-law, (Mr. Gantz) of New Brighton, and interred in the Cemetery. The funeral services were conducted by Rev. Mr. Critchlow on Saturday morning the 20th inst. His age was about 35 years. He leaves a wife and four children, besides an aged mother, and a large circle of relations and friends to lament his sad fate.

In reference to a report that the Shenango Mill at New Castle, had started up at the old wages, we are informed by Mr. Reis, one of the proprietors, that the firm have avowed their intention not to employ "Union" Boilers at any rate—that they (Reis, Brown & Berger) have but three furnaces on, with the avowed intention of showing the "Union" that they could get men independent of that organization. The rumor that more furnaces than three were on is untrue. The peculiar complication with the Shenango Mill was that the boilers assumed to dictate how, and whom the furnaces should be given to, and the contest assuming that phase, the price to be paid ceased to be a matter of discussion.—*Pitts. Com.*

Borough Election.—At the election held in the new Borough of St. Clair, in this county, on Saturday last, the following gentlemen were elected:

Burgess—Jonathan Paul.

Town Council—Isaac Hesson, James Reed, Henry Douglass, Wm. Harkins, and Wm. Goll.

Justices of Peace—Jonathan Paul and James Reed.

School Directors—Wm. Harkins, Jacob Brant, Lewis Kolb, Geo. Miller, F. Durr, James Reed.

Constable—Abraham Krepps.

The degree conferred upon Dr. J. C. Levis by a Medical Institution of Philadelphia was that of M. D. The paper from which we received our information omitted giving the degree, and in writing our notice of it, we left that a blank, expecting to see Dr. L. before we went to press and getting the desired information from him. We failed to meet him, and the paper was worked off without the blank being filled up.

Nominated and Rejected.—The President a few days ago nominated William S. Black, the editor of the New Castle *Gazette*, for the Postmastership of that place, in the place of Mr. Emery, the present incumbent. The Senate promptly rejected him; whereupon the *Journal* says it did right. Mr. B. is almost a stranger in New Castle, and a Copperhead of the most venomous stripe.

Attention is directed to the advertisement in this week's paper of Mr. J. B. Rhodes, who has become the owner of the corner Drug Store, in this place. Mr. Rhodes is a sober, active and intelligent young gentleman, who will no doubt keep his store well supplied with the best of drugs, and sell them at reasonable rates to such as favor him with their patronage. Give him a call.

A Lock-up Provided.—By an arrangement with the Sheriff and county commissioners, the new Town Council, have procurred a cell in the county Jail, in which to confine offenders previous to a disposal of them by the Burgess. Persons disposed to be disorderly will please bear this in mind; and their attention is likewise directed to an ordinance of the Town Council published in this week's paper.

Hon Jesse Lazear of Waynesburgh Pa., and formerly a Representative in Congress from this District, has removed to the vicinity of Baltimore, where he intends remaining permanently. He was a main spoke in the Democratic wheel while in Greene county, and his removal from that place will be felt "visibly" by his old party friends.

What then?

The M[illegible] held by the Grand Master [illegible] of the United States, in [illegible] April, will be held at the M[illegible] Bridgewater.—The devotional [illegible] be conducted by Rev. Alex. Clark of [illegible]burgh and the Rev. R. T. Taylor of Beaver.

The members of Beaver Lodge 356 are requested to meet at their hall in Bridgewater, at 8 o'clock A. M. Punctual attendance is requested. By order of Com.

JOHN CARTER, Sec'y.

Express Arrangement.—Mr. David D. Johnston, the agent of the "Union Line Express Company," at this place, has made arrangements to receive and deliver goods at the store of Mr. Wm. H. Clark, near the Post office. Persons doing business with the Line will do well to remember this convenience.

Friend and Humanitarian.—Having just opened a commodious shop for the sale of LIQUORS in this place, I embrace this opportunity of informing you that on Saturday next I will commence the business of making DRUNKARDS, PAUPERS and BEGGARS, for the industrious and respectable of the community to support.

I shall deal in *familiar spirits* which will incite men to RIOT, ROBBERY and BLOODSHED, and by so doing diminish the comforts, increase the expense, and endanger the welfare of community.

I will, for a small sum, undertake upon short notice, and with the greatest expedition, to prepare victims for the POOR HOUSE, ASYLUMS, PRISONS and the GALLOWS.

I will furnish an article suited to the taste, which will increase the number of fatal accidents, multiply distressing diseases and render those comparitively harmless, incurable.

I will deal in drugs which shall deprive some of LIFE, many of REASON, most of PROPERTY, and all of PEACE. Which will cause fathers to become FIENDS, wives to become WIDOWS, children to become ORPHANS, and all to be GREAT SUFFERERS.

I will cause the rising generation to grow up in ignorance and prove a nuisance to the nation. I will cause mothers to forget their helpless children, and priceless virtue no longer to remember its value.

I will endeavor to corrupt the ministers of the gospel, defile the purity of the churches, and cause spiritual, temporal and eternal death.

If any should be so impertinent as to ask why I have the audacity to bring such accumulated miseries upon a comparitively happy people, my HONEST reply is, "GREENBACKS."

The spirit trade is lucrative, and some professing temperance men and Christians give it their cheerful countenance. Besides I have a "LICENSE," and if I don't bring these evils upon you some one else will. I will try to be an honor to my calling.

I live in a land of Liberty, and have purchased the right to *demolish the character, destroy the health, shorten the lives, and* RUIN THE SOULS of those who choose to honor me with their patronage.

COME ONE! COME ALL!!

I pledge myself to do all I have herein promised. Those who wish any of the evils above specified brought upon themselves, and their dearest friends are respectfully requested to meet at my "BAR," where I will for a few cents furnish them with the certain means of doing so.

AN HONEST DEALER.

N. B.—And for the annoyance of Christian people, I will agree to keep open house on Sunday.

Having secured the Agency for the

Empire Sewing Machine!

I respectfully solicit an examination of the same by the public.

This Machine is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be simplicity and perfection combined.

In a mechanical point of view, the advantages we claim for the "Empire Machine," are—

1st.—The method of driving the Needle Bar by a compound crank, which produces the same action as heretofore obtained by means of a Cam; but in a more durable and noiseless manner.

2d.—We use a rotating shaft above the table, and thus are enabled to give all the boom required under the arm; without detriment to the durability of Machines; having a bearing directly over the Needle Bar.

3d.—Our Feed Wheel is a friction feed, and so constructed that there is but one joint in transmitting the motion from the rock shaft to the wheel, and unlike all others, cannot be effected by oil or dust.

4th.—The Rock Shaft that works the Feed motion also drives the Shuttle. The bearings of this Shaft and Centres are hardened steel and adjustable, so that we can take up the lost motion at will.

The following are the principal objections urged against Sewing Machines:

1. Excessive fatigue to the operator.
2. Liability to get out of order.
3. Expense, trouble, and loss of time in repairing.
4. Incapacity to sew every description of material.
5. Disagreeable noise while in operation.

The Empire Sewing Machine is Exempt from all these Objections

It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will NEITHER RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook Muslin, with cotton, linen, or silk thread, from the coarsest to the finest number.

IT HEMS, FELLS, BINDS, BRAIDS, TUCKS, QUILTS, PLAITS, and GATHERS.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is

Emphatically a Noiseless Machine
