HOSTETTER'S STOMACH BITTERS.

It is a fact that, at some period every member of the human family is subject to disease or disturbance of the bodily functions, but with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly one which will produce a natural state of things at the least hazard of vital strength and health. For this purpose, Dr Hostetter has introduced to this country a preparation bearing the name, which is not a new medicine, but one which has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c, these Bitters have no equal.

Diarrhea, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters as a preventive of disease and strengthener of the system in general, and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the cause of medical science.

Fever and Ague.—This trying and provoking disease, which fixes its relentless grasp on the body of man, rejoicing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above stated diseases can be contracted, even in unhealthy situations of the country where these Bitters are used. And as they neither create a feverish state of the palate, and render unnecessary a change of diet or interruption of business, but promote sound sleep and rest, the complaint is rooted out in accordance with the proper and permanent cure. For advanced years, who are of unfeebled constitution and debilitated, the Bitters are invaluable as a tonic to strength and vigor, and need only to be appreciated. And to a mother who, nursing these Bitters are in his possession, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, a few bottles of it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart to the nursing mother strength and vigor to the system which should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtues of the bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stomach Bitters, and see that each bottle has the words "Dr J Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

J S LASH'S PATENT

Straw and Fodder Cutter.

Among the many excellent Straw and Fodder Cutters which have recently come into the market, I confidently offer Lash's Patent as embracing points in its construction which render it superior to all others. It was patented the 11th of October, 1859 and so fully have the expectations of the Patentee been realized in its operation, that it has already been adopted by the principal manufacturers in many counties in Pennsylvania who have warmly expressed their preference for it over other machines and have purchased County Rights. The points in which Lash's Patent Straw and Fodder Cutter is claimed to be superior to all others, are first its simplicity, being free from all complicated cog gearing; second, that it cuts on a different principle, cutting down on the knife instead of a cutting bar, thus requiring less power to work it, so much so that it may be operated by almost any farmer's boy; third the power which is gained over other machines by the increase of speed in a heavy fly wheel, thereby greatly relieving the labor of working it; fourth the peculiar construction of the machine so that by simply setting a screw the machine is enabled to cut the straw any desired length from one eighth of an inch upwards. The importance of the last mentioned improvement will be realized when it is remembered that other machines cannot be regulated to cut short or long by change of gearing or knives at considerable trouble and loss of time.

This machine is constructed with rollers for crushing fodder as it passes through, and the crank by which the hand machine is worked is on the right hand side and thus more convenient to the operator.

We would also invite particular attention to the fact that in this machine the stationary knife can be taken out and ground when necessary and replaced in a minute's time by means of set screws thus obviating the difficulty in other machines of by the cutting bar wearing round on a wedge. Note also the fact the rotary knife on my machine has been used four times as long without grinding as any other machine. I agree to saw enough for the farmer. Besides I propose to sell the machines in all places not equal to any now manufactured.

Persons wishing to purchase County Rights for the sale of said machine (purchasers of rights to manufacture Machines) can address the Patentee at Millheim and Rights or Machines will be promptly attended to. Two horse Machines are built for either hand or horse power. Note the small size which cuts equal in quantity any other now in use. No. 2 is a very durable light machine to be worked by one horse.

Prices—Small size $20.00 Large size $30.00 Long Cutter $5.

Applications for machines may be addressed to Jacob Swartz Millheim Centre County Pa. Inquire of the Patentee.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Stomach preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case.

Innoxious in all maladies in which it has been tried it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhea, Dysentery, Incipient Consumption, Scrofulous Diseases, Cholorosis, Liver Complaints, Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In case of GENERAL DEBILITY, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed ridden as to have become forgotten in their own neighborhood, have suddenly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, its operation must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic without being exciting, still overactive, and gently, regularly aperient, even in the most obstinate case of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkable and permanent a remedy for *Pales* upon it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In DYSPEPSIA, innumerable as are its causes a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent *Costiveness*.

In unchecked DIARRHEA, even when advanced to DYSENTERY, confined, exhausting, and apparently malignant the effects have been equally decisive and astonishing.

In local pains, loss of flesh and strength, debilitating cough and remittent hectic which generally indicate incipient Consumption this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this *remedy* and *restorative*, in the cases peculiarly affecting them.

In RHEUMATISM both chronic and inflammatory in the latter however, more decidedly—it has invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative and its progress in the new settlements of the West will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise immediately follows its use.

Put up in neat flat metal boxes containing 50 pills price 50 cents per box, for sale by druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders etc should be addressed to
