## Laws Relating to Newspaper Subscriptions and Arrearages.

The following is the law relating to newspapers and subscribers.

1. Subscribers who do not give express notice to the contrary, are considered wishing to continue their subscription.
2. If subscribers order the discontinuance of their periodicals, the publishers may continue to send them until all arrearages are paid.
3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are held responsible until they have settled their bills, and ordered them discontinued.
4. If subscribers move to other places without informing the publishers, and the papers are sent to the former direction, they are held responsible.
5. The Courts have decided that "refusing to take periodicals from the office, or removing and leaving them uncalled for, is *prima facie* evidence of intentional fraud.
6. Any person who receives a newspaper and makes use of it, whether he has ordered it or not, is held in law to be a subscriber.
7. If subscribers pay in advance, they are bound to give notice to the publisher, at the end of their time, if they do not wish to continue taking it; otherwise the publisher is authorized to send it on, and the subscriber will be responsible until an express notice, with payment of all arrears, is sent to the publisher.

Gen. D. S. Elliott, of Everett, was in town, for a few minutes, on Saturday evening, on his return from the inspection of troops at Altoona, and he reported a fine display of the "bum-a-laddies." During the past few weeks he has inspected troops at Williamsport, Harrisburg and Altoona, and speaks in flattering terms of the N. G. of P.

Ladies, now is the time to buy your patterns of Spring styles at the JOURNAL store.—We are selling large numbers daily. The Domestic Patterns are universally admitted to be the best in the market. H. G. Fisher, esq., has gone up to Waterside this week, to put in two or three days enticing the speckled beauties from the splendid brooks in that neighborhood. How we would like to spend a few days over there with the friends of our boyhood, but there appears to be no rest for those who, from week to week, cater to the mental demands of the community.

That game of chequers, between Fisher, of Huntingdon, and Bunnell, of Lewistown, seems to hang fire. A couple of weeks ago the *Gazette* accepted the challenge for Mr. B., but up to this time nothing more has been heard from Mifflin. Mr. Fisher is ready, willing and anxious to meet Mr. Bunnell upon the terms proposed in his challenge, and he does not feel like dieting himself much longer in anticipation of that big feed.

A gang of half-grown rowdies entered the yards and gardens of several of our citizens, on two or three nights last week, and broke and destroyed some highly prized shrubbery. Instead of the parfumes of shrubs greeting their olfactories, they deserve imprisonment or, what would be still better, a public castigation. We do hope these vandals will be caught in their unlawful acts and made to suffer the severest penalty of the law.

A very ugly run off took place in the Diamond on Friday last. Mr. George F. Gage was driving a spirited animal, the property of Richard Langdon, esq., in a sulky, when she became frightened, and dashed about the Diamond several times, throwing Mr. Gage out and freeing herself from restraint. After several turns she dashed up Fifth street and out Church at a very wicked pace. She become entangled eventually and fell down doing very little damage. Mr. Gage was not badly hurt.

The Harrisburg *Telegraph* says, "we learn from an exchange that on Wednesday evening a conference of the General Passenger Agents of the four great lines—the Pennsylvania, the Baltimore & Ohio, the New York Central, and Erie railroads—was held in one of the parlors of the Continental Hotel, Philadelphia, lasting from 7:30 o'clock until a late hour. The matters discussed were scrupulously guarded against publication, but it is understood that some definite decision was reached favorable to the further reduction of the passenger tariffs to accommodate the Centennial travel."

We call attention to a new schedule of rates, for special local advertisements, in this issue. For FIFTY CENTS, *cash*, a want, to let, lost found, &c., &c., not exceeding five lines, will be inserted *one* time in the JOURNAL, *Globe* and *Monitor*, and for THIRTY CENTS for each and every insertion thereafter. Thus a combined circulation of at least 4,000 will be given to a five line advertisement in the three papers for FIFTY CENTS for the first insertion and THIRTY CENTS for each subsequent insertion. In the history of newspapers, in Huntingdon county, no such advantages have been offered previous to this offer. tf.

### A Widely Applicable Remedy.

Few remedies are applicable to such a wide range of disorders as Hostetter's Stomach Bitters, and this not because it has special properties adapted to the cure of each—such a pretense would be manifestly absurd,—but on account of its wonderfully improving effect upon the general tone of the system, and its alterative action upon the organs of nutrition, secretion and discharge. Besides its well-known properties as a remedy for intermittent and remittent fevers, dyspepsia, constipation, torpidity of the liver, general debility, urinary and uterine difficulties, it invariably proves to be highly serviceable in overcoming anœmia, hypochondria, rheumatism, insomnia, and many other disorders and disabilities originating in poverty or impurity of the blood, nervous weaknes or over-excitement, or an imperfect performance of the physical functions. AN IMPORTANT MATTER—*Something for Township Auditors to Think About.*—The question is often asked us by township officials "How must we publish the annual statements of our receipts and expenditures?" the same question is being discussed in the newspapers of every county in the state, the newspaper publishers generally finding the law to be in favor of a publication of statements in at least two public journals. The following which we find in the Butler *Herald*, of a recent date, is a review of the subject by the editor of that paper, the well-known Jacob Ziegler, and the opinions therein expressed are undoubtedly correct. And we therefore ask for it the careful study of every township officer in Huntingdon county.

The law plainly requires the auditors of the several boroughs and townships, to publish a statement of their accounts respectively at the close of each fiscal year, which is in June.—We so stated in the *Herald*, but there were persons, and some lawyers who had not given the subject a minute's attention, who did not believe the law required any publication other than a written statement posted up in the borough or township. A case was tried in Washington county, involving a neglect of the auditors to publish in the papers, and after a thorough examination the court decided against the auditors any fined them twenty dollars each. In Allegheny county a like case was tried and with a like result. It was then clear to us that publication in the papers was necessary. The reasons why persons thought publication by written or printed statements put up in the borough or township was a sufficient compliance with the law, was because the act of 1874 so stated it, but the provision to the act says as follows:

"Nothing in this act shall be construed to interfere with the present law which requires annual statements of the receipts and expenditures of the borough councils, road commissioners, supervisors, overseers of the poor and school directors to be advertised in the respective localities."

From this it is clear that the written or printed statements to be put up in the borough and townships is a publication in *addition* to the publication in the papers, for where it not so the act itself would be practically of no effect.

On the 20th day of April, 1874, the Governor approved an act the 6th section of which required the corporate authorities of every municipality or district to annually in the month of January, prepare and publish in at least two newspapers of said municipality or of the county in which the same is situate, a statement showing in detail the actual indebtedness the amount of the floating debt thereof, the valuation of the taxable property therein, the assets of the corporation with the character and nature thereof. The penalty for neglect to publish such statement is a fine of one thousand dollars.

It must be observed, however, that this law has only reference to such municipalities or districts as have an actual indebtedness, a funded or floating debt. The object of the law too is plain. It is to bring to the knowledge of all, at least once a year, the actual financial condition of the municipality or district, as well for the benefit of the tax-payer as for the creditor or creditors.

On the 12th day of April, 1875, the Governor approved an act which was supplementary to the act of 10th of April, 1874, declaring that the statement to be published in at least two newspapers must be at the end of the fiscal year and not in the month of January as required by said act of 20th April, 1874.

The new constitution requires the borough and township officers to be elected annually in February. The law passed in pursuance of that constitutional provision requires such officers elected in February, to be sworn into office on the first Monday in April, consequently the fiscal year ends at that time and all the annual statements have to be made and published as soon as possible thereafter, except school accounts which must be published in June. Let us therefore sum up the whole question.

First: The auditors are required in each borough and township, to settle the annual accounts thereof, and publish the same not only in newspapers, but also by written or printed statements put up in the most public places in the respective boroughs and townships, as soon after the close of the fiscal year, which is on the first Monday of April, as possible.

Second: If the borough or township is in debt, has a funded or floating debt this must be included in the statement together with the valuation of property, &c., and published in at least two papers, and embraced in the written or printed statement also.

We have been at a good deal of trouble in making the necessary examination in this case, and we present the result to our readers. It is necessary that the Auditors of the respective boroughs and townships should go to work at once and settle the accounts as they are in duty bound to do, and have them published as the law directs. When the borough or township has no indebtedness, neglect to publish, incurs a fine of twenty dollars, but if the borough or township is in debt, the neglect incurs a fine of one thousand dollars.—We advise those who read this article to cut it out of the paper and preserve it, so that it may at any time be had for reference.

A CURIOUS RING.—The Altoona *Mirror* of last evening contains a startling double-leaded local, which recites that for some time past rumors have been rife in that county, and particularly in the city, concerning the existence of a ring of legal gentlemen whose object and purpose it has been to so manipulate matters at the Sheriff's sales of property that not only are unsuspecting, innocent, *bona-fide* creditors defrauded of their just dues, and their rights set at naught, but the property itself is disposed of in such a manner as to enrich individual members of this band of conspirators. A case was recently brought before an Alderman over there, and, in the course of the hearing, a witness testified that an attorney told him that he (the attorney) was a member of the ring, and that he could, through the operations of that mysterious band, secure said witness's claim against a client's property. On Monday next the matter will come up at the Argument Court of Blair County, and it is intimated that there is a strong chance of several lawyers being retired from practice. A searching investigation should be made, and if it is found that there is any truth in the rumor, then no guilty man should escape.—*Johnstown Tribune.*

HOLLOWAY'S PILLS.—The Quicksands of Existence—*Epilepsy &c.*—Among the many shoals and perils of life on which our frail barks would founder, were it not for the beacons that indicate and warn us of our danger, are Epileptic fits, rush of the blood to the head, apoplexy, &c., for which Holloway's Pills are the safest remedies in existence. Those disorders arise from some one or more derangements of the system. From whatever source, however, they may proceed, Holloway's Pills are the most salutary in effect, as they cool the blood, brace the relaxed nerves, give tone to the digestive organs and energy and vigor to the enfeebled constitution.

Drs. Robert Hunter and W. S. Madden have entered into a partnership in the practice of medicine under the name of Hunter & Madden, the former being located at New Grenada, Fulton county, and the latter at Maddensville, Huntingdon county, at which places either or both may be consulted.

## To the Citizens of Huntingdon County.

The approaching 4th of July being the 100th Anniversary of American Independence, it seems proper that the day should be duly observed by the citizens of the entire county. A Committee of young men, in Huntingdon, have taken the matter in charge and propose having a big jubilee on the 4th. In order to do so they call on all the citizens, boroughs, villages, townships, etc., in the county, to bring delegates to Huntingdon and participate in one of the Grandest Celebrations old Huntingdon ever witnessed.

It is recommended that persons in each borough, township, etc., take steps at as early a date as possible to organize and have as large an attendance as possible from their districts.

## The Iron Trade.

NEW YORK, May 24.

For Scotch pig there is nothing new to be said. The arrivals still run small, and they are mostly taken up on arrival. Sales 250 tons Colness and Eglinton and 300 tons Glengarnock on private terms, the latter supposed partly at $98. For American pig, since recent large sales, which within the fortnight add up over 20,000 tons, a better feeling prevails; these transactions included about 17,000 tons forge, The Thomas company, after selling 3,500 tons during the week at $22 and $20 for Nos. 1 and 2, have put their prices up to $23 and $21 respectively. There are other parcels, however, still offered at $20@$22. In rails there is a little more doing: it is understood 5,000 tons steel sold for western delivery on private terms. Wrought scrap quoted at $28@$30—with 3,000 tons sold at the lower price.

## Philadelphia Cattle Market.

PHILADELPHIA, May 24.

Beef cattle were dull to-day, and prices ruled lower all around. Sales at 4@6½c. Receipts, 3,400 head.

Sheep quiet but steady. Sales at 4@6½c. Receipts, 9,000 head.

Hogs fairly active at an advance. Sales of cornfed at $10.75@11.50. Receipts, 3,376 head.

## The Altar.

McMURTRIE — BUMBAUGH.—On the 10th inst., at the residence of Mr. Smith, Washington street, by Rev. J. R. Akers, Mr. Alexander McMurtrie to Miss Mary Bumbaugh, both of this place.

## The Tomb.

BELL.—At her residence on Allegheny st., in this place, Mrs. Mary P. Bell, relict of the late James M. Bell, Esq., aged 65 years.

Mrs. Mary Page Bell was born at Poughkeepsie, Duchess county, N. Y., on the 12th May, 1811. She was the oldest daughter of Mrs. Mary Swain Ward, who afterwards married John Miller, Esq., of Huntingdon, Pa., to which place Mr. Miller, with his family, removed in the year 1828. On the 20th January, 1829, she was married to James M. Bell, Esq., for many years one of the most prominent and well known lawyers of central Pennsylvania. Mr. Bell remained at Huntingdon, in the practice of his profession, until 1845, when having purchased the land immediately adjoining this borough, he erected the magnificent residence and laid off the grounds of a country seat at the east end of Allegheny street, to which he removed in that year, and continued reside there until his death, which occured on the 4th of June, 1870, when he was seventy years of age. Mrs. Bell, it is seen, survived him almost six years, and on last Friday, the sixty-fifth anniversary of her birthday, her remains were placed in the family vault, long since prepared, and situated upon a distant part of the estate.—*Hollidaysburg Standard.*

EALY.—In Oneida township, on the 9th inst. Nannie C. Ealy, aged 19 yrs, 3 mos. and 2 days.
