ARRIVAL OF THE ATLANTIC.

One Week later from Europe.

The steamship Atlantic arrived at New York, Saturday morning, at half past 8 o'clock. She brings the following war news:

The leading events in connection with the war are the quartering of detachments of French and English troops in Sevastopol and the fact that the allied armies of operation threaten the Russian army, both from Eupatoria and Baider. The French cavalry, under Gen. d'Allonville, defeated the Russians near Eupatoria on the 29th.—Russian loss, 50 killed and 105 prisoners; French, 6 killed and 27 wounded. A tough campaign is expected, as the Russians are making tremendous preparations, and the Emperor himself is at Odessa. The fleet has sailed from Sebastopol on a secret expedition, it is supposed either to Nicolaieff or Odessa. Kars still held out, according to last accounts, though the provisions were nearly exhausted. It was expected, however, that the snow would compel the Russians soon to retire. In France the government has interferred to regulate the price of butcher's meat. Corn has reached its maximum price.

The chief item in the English news is the rise in the rate of interest from 5 to 5½ per cent. which took place on the 4th. A good deal of commercial uneasiness has resulted. The revenue returns of the United Kingdom show an increase in the year of nearly eight and a half millions sterling, chiefly caused by the additional income tax. The Board of Trade returns for August show an increase in the value of importations as compared with same month in 1854 of £107,759.

The War---Position, Movements, and Prospects of the Armies in the Crimea.

The last official despatches report the South side of Sebastopol to be occupied by detachments of French and English troops who have had distinct quarters of the town assigned to them.

The Russians concentrated their forces in the Northern forts, and were occasionally firing upon the town, to which the Allies replied, from the two forts which remained intact, (Nicholas and Quarantine,) and from the ruins of other forts. Prince Gortschakoff, in his reports, describes the firing of the Allies as heavy.

Preparations were making by the British and French engineers, by the sinking of immense mines, to destroy the splendid docks, arsenals and shipbuilding yards of Sebastopol and turn upside the place as a naval stronghold. Though there is no official information on the subject, the Allied generals, for obvious reasons, being silent as to their future operations, there are various presentations of a vigorous campaign in the open field.

Prince Gortschakoff on the 23d ult. reported that 25,000 men had been landed at Eupatoria, and that on the 26th this force was increased to 33,000 men. He has since reported that "imposing masses" of the Allied troops continue to threaten the left wing of the Russian army from the valley of Baider, whilst a force amounting to between 30,000 and 40,000 threaten the right wing of the Russians from Eupatoria.

It is uncertain, and will remain so for some little time, which of these threatened attacks is the real one, but there is quite enough in Prince Gortschakoff's despatches to show that he considers himself seriously threatened in front and on both flanks. Another significant fact is that the English land transport corps are in full activity; that the field batteries of the artillery are in marching order; the large numbers of the French cavalry have embarked for Eupatoria, and by the telegraphic accounts from Vienna, it is stated that the allied fleets had left Sebastopol on some secret expedition.

The *Times'* correspondent, writing on the 21st, is not at all sanguine that the Russians will be forced to abandon their position on the approach of winter.

The correspondent of the Daily News takes a different view. He says:

"The belief gains ground that the Russians are preparing to evacuate the north side of the harbor of Sebastopol. The extensive earthworks which have been lately constructed, and others in course of construction, are regarded as simply intended to cover their retreat and protect the rear guard of the Russian army. Carts have come in empty from the direction of the Mackenzie heights, and have gone away laden, it is supposed, with provisions.

"These arrangements are supposed to indicate an intention to retire. It is still understood that a combined movement is to take place against the enemy's position on the Mackenzie heights. A direct attack from Bakshi-Serai is spoken of, the approach from the South being made by a route which is kept a secret, and which will have the effect of avoiding the enemy's fortified intrenchments."

Le Nord, of Brussels, takes a hopeful view of Russian affairs in the Crimea. A writer in that journal says:

"The situation is not entirely to our disadvantage, and the honor of our arms has been in no way compromised. Our men will no longer be obliged to offer themselves up as a holocaust, but will now be able to defend themselves in a close fight, and sell their lives at a high cost."

The same paper states that out of the 10,000 seamen who had undertaken with their officers, the defence of Sebastopol only a fourth survive, and some six or seven officers.

In order which Prince Gortschakoff has addressed to his soldiers, the Prince admits a loss of from 500 to 1000 men per day, during the last 30 days of the siege. To continue to defend the south side, he says, would have been to expose the troops to be uselessly murdered. He concludes by saying:—"It is not Sebastopol we have left in the enemy's hands, but burning ruins that we have set fire to ourselves. Sebastopol enchained us to its walls; with its fall we acquire freedom of action and a new war commences."

Salt River.

This river, says Bayard Taylor, when it debouches into the Ohio River, is not more than 50 or 60 yards in breadth but very deep. It is never fordable, even in the dryest season, and being navigable for fourteen miles above, has not been bridged at this point. We descended its steep and difficult banks, embarked our carriage upon a flat ferry-boat, and were conveyed across. The view looking up the river was very beautiful. Tall sycamores clothed the banks, dropping their boughs almost to the water, and forming a vista of foliage through which the stream curved out of sight between two wooded hills. I long to be rowed up it. While on the spot I took occasion to enquire the derivation of the slang political phrase, 'Rowed up Salt River,' and succeeded in discovering it. Formerly there were extensive salt works on the river, a short distance from its mouth. The laborers employed in them were a set of athletic, belligerent fellows, who soon became noted far and wide for their achievements in the pugilistic line. Hence it became a common thing among the boatmen on the Ohio, when one of their number was refractory, to say to him, "We'll row you up Salt River," where, of course, the bully salt-man would have the handling of him. By a natural figure of speech, the expression was applied to political candidates, first, I believe, in the Presidential campaign of 1840.

George Sturges,

SOLE Manufacturer of the Improved **Spiral spring Matresses, No. 92** Walnut St. Philadelphia.

FIVE SILVER MEDALS awarded, viz.
Two by the American Institute, New York, Oct. 1851
do Franklin Institute, Philadelphia, Nov. 1851
One at the Maryland Institute, Baltimore, Nov. 1852

The peculiar improvement in the construction of this Matress is, that all the *clumsy and heavy wooden frame work* is entirely dispensed with, and its place supplied by a lighter and much more durable frame, the springs are all connected by harness leather hinges, securely riveted, rendering it impossible for a single spring to fall down or get out of place, and making a Bed so elastic that any part may be raised or bent up, and is thus admirably suited to the wants of the sick or asthmatic who may require a sitting posture, having the luxurious softness of the best Feather Bed with the lightness and facility of handling of the common Hair Mattress.

These improved Spring Beds are *invariably* made of the best materials, and will last many years without repairs.

Persons having Hair Matresses, can have them altered into Spring Beds.

These Beds are well adapted for Hotels, berths of Ships, Steamboats and Hospitals.

Spring Seats for Chairs, Carriages or Church Pews and Hair and Husk Matresses made to order.—Also an extensive assortment of highly ornamented (in enamel) and plain finished

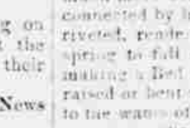
SALAMANDER SAFES!



Evans & Watson, No. 26 South Fourth St., Philadelphia.

Great Fire at Chestnut & Fifth Sts., Friday morning, Dec. 15th, 1854—EVANS & WATSON'S SALAMANDER SAFES TRIUMPHANT, as they always are when put to the test:

"PHILADELPHIA, Dec. 15, 1854.
Messrs. Evans & Watson No. 29 South Fourth St

Gentlemen—We take much pleasure in recommending your Salamander Safes to Merchants and others in want of a secure means of preserving their books, papers &c. from fire, as the one we purchased from you about seven months since has preserved our books, papers and cash in as good a condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth streets. The above safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out. The Safe was then removed and opened in the presence of at least 1000 persons, who witnessed the good condition of its contents. Will you please have the Safe and Locks repaired, as we intend to put it in use again, having perfect confidence in its fire-proof qualities.

Yours, respectfully,
LACEY & PHILLIPS."

Evans & Watson take pleasure in referring to the following, among the many hundreds who have their Safes in use: U. S. Mint, Philada.; Farmers' & Mechanics' Bank, Philada.; Samuel Allen, Esq., High Sheriff, Philada.; John N. Henderson, City Controller; Caleb Cope & Co., No. 183 Market St.; Richard Norris & Son, Locomotive builders, Philada.; Bancroft & Sellers, Machinists, corner 16th and James Sts.; Franklin Fire Insurance Co., Philada.; Pennsylvania Railroad Co., Philada.; Lacey & Phillips, corner 5th and Minor Sts.; Sharpless & Bro., No. 32 South Second St.; James, Kent & Santee, No. 147 North Third St.; W. H. Horstman & Sons, No. 51 North Third St.; Smith, Williams & Co., No. 87 Market St.; I. & B. Orne, No. 185 Chestnut St.

☞ A large assortment of the above Safes always on hand (warranted to stand at least 10 per cent. more fire than any Herring's Safe now in use). EVANS & WATSON also manufacture and keep for sale, Iron Shutters, Iron Doors and Iron Sash, for making fire-proof Vaults for Banks, stores, public and private buildings; Seal and Letter Copying Presses; Patent Slate Lined Refrigerators, &c. Please give us a call, at No. 26 South FOURTH St., Philadelphia. [April 6, '55—573y1

HERRING'S

Patent Champion Fire-Proof SAFES, with HALL's Patent Powder-Proof Locks, which were awarded separate Medals at the World's Fair, London, 1851, and also at the World's Fair, New York, 1853 and 1854. The subscribers are the sole manufacturers and proprietors in this State of the above unequalled Safes and Locks. The reputation of the genuine "Herring's Safe" is world wide, and for the last thirteen years the mercantile community have witnessed and borne testimony to their NEVER FAILING fire proof qualities. More than 12,000 of these Safes have been actually sold, and over TWO HUNDRED have passed triumphantly through accidental fires. The public are assured that all Safes manufactured by the subscribers are not only guaranteed to be fully equal, but in many respects even superior to those which have been so severely tried by fire. Few will forget their services in the burning of the "Tribune establishment," New York, and at the Great Fire in Strawberry street, at the large fire last July, opposite the Girard House; and still more recently in the Fire at Fifth and Chesnut Sts., in this city, in which these Safes came forth the acknowledged CHAMPION, when many other securities failed. Helmbold's Genuine Preparations.

HELMBOLD'S Highly Concentrated **Compound Fluid Extract of BUCHU,** for Diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weakness, and all diseases of the Sexual Organs, whether in Male or Female, from whatever cause they may have originated and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods too well calculated to deceive the young and those not acquainted with their tricks. You can not be too careful in the selection of a remedy in these cases.

The Fluid Extract of Buchu has been pronounced by eminent physicians the Greatest Remedy ever known. It is a medicine perfectly pleasant in its taste and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease; and, unlike other remedies, it does not dry up the disease in the blood. Constitutional Debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this Infallible Remedy. And as a medicine which must benefit every body, from the simply delicate to the confined and despairing invalid, no equal is to be found, acting both as a Cure and Preventive.

Helmbold's Highly Concentrated Compound **Fluid Extract Sarsaparilla,**

For purifying the Blood, removing all diseases arising from excess of Mercury, exposure and imprudence in life, chronic constitutional disease, arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all Scaly Eruptions of the Skin.

This article is now prescribed by some of the most distinguished Physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary Syphilis, Mercurial and Scrofulous diseases have entirely recovered in the incurable wards of our Public Institutions which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the glands were destroyed and the bones already affected.

NOTICE.—Letters from responsible Physicians of several Medical Colleges, and certificates of cures from patients will be found accompanying both Preparations.

PRICES.—Fluid Extract of Buchu, $1 per bottle, or 6 bottles for $5. Fluid Extract of Sarsaparilla, $1 per bottle, or 6 bottles for $5, equal in strength to one gallon Syrup of Sarsaparilla.

Prepared and Sold by H. T. HELMBOLD, Chemist, 263 Chestnut St., near the Girard House, Philadelphia.

To be had of CHRIST & CALDWELL, Lewisburg, and of Druggists and Dealers everywhere.

Eleventh Year—Splendid Engravings and Prizes.

THE Eleventh Annual Volume of this useful publication commences on the 17th day of September.

The "Scientific American" is an Illustrated Periodical, devoted chiefly to the promulgation of information relating to the various Mechanic and Chemic Arts, Industrial Manufactures, Agriculture, Patents, Inventions, Engineering, Millwork, and all interests which the light of Practical science is calculated to advance.

Reports of United States Patents granted are published every week, including Official copies of all Patent Claims, together with news and information upon thousands of other subjects.

The Contributors to the Scientific American are among the most eminent scientific and practical men of the times. The Editorial department is universally acknowledged to be conducted with great ability, and to be distinguished not only for its excellence and truthfulness of its discussions, but for the fearlessness with which error is combated and false theories are exploded.

Mechanics, Inventors, Engineers, Chemists, Manufacturers, Agriculturists, and People in every Profession in life, will find the Scientific American to be of great value in their respective callings. Its counsels and suggestions will save them Hundreds of Dollars annually, besides affording them a continual source of knowledge, the experience of which is beyond pecuniary estimate.

The Scientific American is published once a week; every number containing eight quarto pages, forming annually a complete and splendid volume illustrated with several hundred original Engravings.

☞ Specimen copies sent gratis.

TERMS—Single subscriptions $2 a year, or $1 for six months. Five copies for six months $4; for a year $8.

Lightning Rods.

AFTER many years' close investigation and numerous experiments, the Patentee takes pleasure in informing the public that he has arrived at the true principle of protecting families, dwellings and property from the destructive influence of LIGHTNING. The calamities that every City, Town, Village and Country falls victim to annually, thro' the gross negligence of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

ARMITAGE'S

Patent Magnetic Lightning Rods,

and in this alone. This Rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Wallor and many others that have examined them, recommend and speak of them in the highest terms of approbation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advantage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of a stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

Vine St. 3 doors above 12th, Philadelphia,

where all persons are respectfully invited to call and examine for themselves. For sale Wholesale or Retail by THO'S ARMITAGE.

Orders promptly attended to. Terms cash.

These rods have been purchased and successfully used by the following individuals, companies and corporations, whose names are cheerfully submitted:

In and near Philadelphia—A. & S. Roberts, George Santzinger, Judge Bouvier, Judge Conrad, J. Melford, John Hemes, C. S. Carey, J. Bonner, G. Oakley, Conrad Ingersol, the Blockley Almshouse, Anderson & Brothers, Rev. J. J. Grant, John Notman, Thos. Grover, Bate & Aborn, A. Rosenberg, H. Simmons, Thos. Sant & Co., Mr. Fleming, J. F. Oler, J. W. Watson, C. Humphreys, J. Rogers & Co., J. Nyman, B. Eaton, J. Greenshire, G. Pepper, Mr. Sharpless, Mr. Martin, S. Burkley, J. Brinkley, Mr. Davison, Dr. Paul, B. H. Powers & Co., J. Winepenny, H. Miller, the Red Bank Hotel, the U. S. Arsenal, the Spring Garden Commissioners' Hall.

In the State of New Jersey—George Crispin, Judge M'Call, Judge Dayton, John Notman, Dr. H. M'Murtie, Benj. Roberts, Mr. J. Downing.

IN UNION COUNTY.

RECOMMENDATIONS.

Franklin, Aug 13, 1847.

I have this day carefully inspected a conductor or Lightning Rod, with vane and index, erected by Mr. Thomas Armitage, on Bellevue House, Gloucester, and have no hesitation in saying that it is not only the best I have ever seen, but that it is the only one I have yet examined that is constructed on strictly scientific principles. It is with much pleasure that I recommend its conduction in the attention of owners of buildings.

H. McMURTRIE

I am well satisfied that the Magnetic Lightning Rod manufactured by Mr. Thomas Armitage, of Philadelphia is the best that has ever been made. I have spent several years in the study of the laws of electricity and magnetism, and have no hesitation in saying, that these Rods are constructed upon the only true principle of safety. The electric shock is received and dispersed by the magnet at the top of the rod, and it would be impossible, according to the laws of attraction and repulsion, for a building to be injured by a stroke of lightning, when protected by one of these rods. I have been acquainted with Mr. Armitage for several years, and before he commenced the manufacture of these rods I examined the principle on which they are constructed, and felt confident that their adoption would be attended with complete success. The increasing demand for these rods and the extensive sales in all parts of the country, is ample confirmation of their utility and superiority. TRACY E. WALLER, M. D.
Rising Sun, Philad Co., April 20, 1852.

☞ S. C. WILT and SAMUEL HOOVER, *Hartleton, Union Co. Pa.* are Agents for Union and adjoining Counties, and will furnish the Rods on the same terms and in the same manner as the Proprietor.

NEW LIVERY AND EXCHANGE STABLE.

The subscriber would respectfully inform the citizens of Lewisburg and the traveling community generally, that he has opened a new Livery and Exchange Stable on FOURTH street half a square South of Market, and has provided a good lot of Horses, with entirely new good and fashionable Carriages, Buggies, Sleighs &c. where all wishing anything in his line may be accommodated on the shortest notice and most reasonable terms. He will pay every attention to the wants of his customers and hopes by so doing to merit and receive a liberal share of public patronage. WILLIAM MOORE.
Lewisburg Dec 30, 1854

Dr. M. H. Dersham,

HAVING permanently located in Lewisburg, Pa.—(Office at the lower end of Market street, nearly opposite to Peters' Hotel)—would respectfully announce to the citizens of the town and vicinity, that he is prepared to answer promptly all calls in his profession. He has devoted much time and special attention to all diseases; and by the success which has attended his practice in other places, he expects a good share of the public patronage.

Special attention will also be given to all Chronic diseases, such as Female Complaints of every form and variety, Liver Complaint, Piles, Dyspepsia, Rheumatism, Scrofula, Dropsy, Ague, Bronchitis, Sore Eyes, Nervous or Sick Headache, Neuralgia, St. Vitus' Dance, Fits, Consumption, Asthma, Ulcers, Cancers, Tetter, Scald Head, Phlegmasia Dolens or milk leg, Fistula, Palsy, Cataract, Deafness, Hare-lip, White Swelling, Debility, Tumors, Corns, &c. &c. In almost every Chronic case, a complete cure will be effected if the directions are followed. No pay is required until a cure is performed. Charges will invariably be as customary.—Lewisburg, April 12, 1855 6m

NOTE.—Dr. M. has studied the Old and the New system of Medicine, and will practice the New or American Eclectic system. This system comprises the Old or regular Allopathic system, except Calomel. Bleeding is seldom used. It contains the Botanic system, and everything valuable from every other system or source whatsoever. It is American in its character, always progressing and improving.
