Chickens get out of Shells

...ge an egg out of a nest on ...h a hen has had her full time, ...efully holding it to the ear; turn...ng it around you will find the exact spot which the little fellow is picking on the inside of the shell; this he will do until the inside shell is perforated, and then the shell is forced outward as a small scale, leaving a hole. Now, if you will take one of the eggs in this condition from under the hen, remove it to the house or other suitable place, put it in a box or nest, keeping it warm and moist, as near the temperature of the hen as possible, (which may be done by laying it between two bottles of warm water upon some cotton or wool), and lay the glass over the box or nest, then you can sit or stand as is most convenient, and witness the true modus operandi. Now watch the little fellow work his way into the world, and you will be amused and instructed as I have often been. After he has got his opening he commences a nibbling motion with the point of the upper bill on the outside of the shell, always working to the right (if you have the large end of the egg from you and the hole upward) until he has worked his way almost around, say within one-half of an inch in a perfect circle; he then forces the cap or hat end of the shell off, and then has a chance to straighten his neck, thereby loosening his legs somewhat, and so, by their help, forcing the body from the shell.—*American Farm Journal.*

Mature Woman For Wives.

Youth and beauty are always sure of a hearing; but some writer comes out with a few words of admiration for maturer charms, in the following language:

The man who meets and loves the woman of twenty-five is truly fortunate in meeting and loving her. At that age she seldom deceives. She may not have—she is not likely to have then—her first sentimental experience, but such an experience at such an age is more than sentimental, and rarely ever fleeting. She looks at the youths she imagined she was enamored with at sixteen or eighteen, or often at twenty-one, and they are more than indifferent or repellent to her—they are ridiculous; and she, as she then was, is ridiculous to herself. She cannot but be grateful to her destiny that her sympathies and affections have been reserved for a worthier object and a higher end. At twenty-five, if ever, a woman knows and estimates herself. She is less liable to emotional or mental mistakes. She is far surer of her future, because her fate is to a certain extent, in her own hands.—Not only is she more lovier and more loveable, broader and stronger than she has been, but her wedded happiness and power of endurance are in a manner guaranteed.

When possible to avoid, one should never use new soft soap. We will give an old friend's method to increase the quantity and add to the effect of any old soap that may be left until this season: For every six galons of soap, bring to a boil three gallons of water in which dissolve one half pound of borax and one-half pound sal soda. Stir it thoroughly into the soap. If too thick, more hot water can be added. The soap must be at least two or three months old before being treated in this way.

Save the Leaves.

Forest leaves are excellent to mix with hot bed material, and, where practicable, should be saved for this purpose. They do not heat so rapidly as stable manure, and in this have an advantage as tempering its violence, making its last longer and maintaining a more regular heat. They are excellent materials to put round cold frames to protect hardy plants. A board is put up the height of the frame boards and about a foot or more from them and the leaves filled in between. If the plants are somewhat tender the bottom of the frame may be filled in a few feet with the leaves much heat is thrown off during the decomposition of the leaves, which though not enough to keep out a severe frost, yet modifies somewhat the temperature. These leaves after they have been two or three years decaying, make admirable stuff for potting and flowers in general.

We find this in a magazine. It is easy to try it, and if it is what it claims to be, anybody with an aching tooth will thank us for printing it: "The worst toothache, or neuralgia coming from the teeth, may be speedily ended by application of a small bit of clean cotton saturated in a strong solution of ammonia to the defective tooth. Sometimes the sufferer is prompted to momentary nervous laughter by the application; but the pain has disappeared."

BE BE...

Be B... !

Nature sets the example to be Beautiful; every enlightened man and woman recognizes this as a Divine command, and adorns his or herself with noble thoughts and clothes of the latest styles; and those Merchants who offer offer the best assortment, at the LOWEST PRICES, are benefactors, for they add to the charm of life.

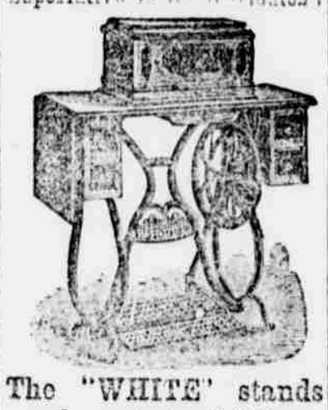
Superlative in its Attributes!



The "WHITE" stands acknowledged King of all Sewing Machines.

Important and Cautionary Notice to all intending purchasers of sewing Machines.

Office WHITE SEWING MACHINE Co.
CLEVELAND, O, May 27, 1880.

We particularly call your attention to the fact that we stamp a number in plain, distinct figures on the back shuttle-race stile of each machine and keep a record of such numbers. When sold, a WARRANTY FOR FIVE YEARS is given to the purchaser. This warrant bears the name of the agent who purchased the machine from us, as also the date of purchase and a number corresponding to the slide number. The warrant is signed by us, and has the OFFICIAL SEAL of our company stamped upon it. All other warrants in our name are spurious, and parties finding the slide NUMBERS MUTILATED OR DEFACED, and no warranty to correspond with the above description, may know at once that sooner or later the owner will be involved in trouble, with no one to fall back upon.

The genuine "White" is to-day the most popular machine upon the market, the cheapest, all taken for wear or sale. A larger number of the "White" have been made and sold since they were placed upon the market, than any other make in the same length of time since sewing machines were invented. Their lightness, speed, space, beauty, quietness, durability, and price combine to make them the machine that every family desires to own, and thoroughly satisfied when once they possess the "White."

THE REGULAR AUTHORIZED DEALER FOR Snyder and adjoining counties, is C. C. SEEBOLD Middleburg Pa., and we advise intending purchasers to patronize none other, and thereby get the genuine "White"

Call and compare my goods with those of other dealers before purchasing. Look for the Big Sign, on Pine Street, East of Eckert's store

Respectfully,
July 10,'79.tf. LEVI RELLER, Selinsgrove, Pa.

Rupture

DR. J. A. SHERMAN—AND THE ONLY DR. SHERMAN known to the public for the past 35 years or more for his successful method of treating Rupture without the annoyance and injury trusses inflict, may now be consulted weekly at his New York and Boston offices. Dr. Sherman is the discoverer of the only known cure for Rupture by local external treatment.

No man is safe who has a Rupture, no matter how insignificant he may consider it, for every man who has died from it once flattered himself that it was but a trifling ailment; and every man who now suffers from it and the injury of trusses, to such an extent that life has no enjoyments, once regarded it as unworthy special attention. It is not a stand-still affliction; it is steadily progressive, even unto death, and he is wise who takes the necessary steps to be effectually relieved of it before the day of suffering and gloom comes upon him.

Patients from abroad can receive treatment and leave for home same day. During treatment any kind of active exercise or labor can be performed without interfering with the treatment and with safety from the danger of strangulated Rupture. HIS BOOK ON RUPTURE gives the most reliable points from distinguished professional gentlemen, clergymen, and merchants of his successful practice and popularity throughout this country and the West Indies. The afflicted should read it and inform themselves.

It is illustrated with photographic likenesses of extremely bad cases before and after cure, and mailed to those who send 10 cents. In consequence of the great demand for Dr. Sherman's personal services, he will, till further notice, divide his time between his New York and Boston offices as follows: Saturday, Monday and Tuesday he may be consulted at his New York office and Wednesday, Thursday, and Friday, at his Boston office, each week. Remember, in writing or calling, the address is

DR. J. A. SHERMAN

251 Broadway, Cor. Murry Street, N. Y., and 43 Milk Street, Boston.

Beware of certain confidence men and impostors who represent themselves as Dr. Sherman.

MANHOOD.

How Lost How Restored

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of SPERMATORRHŒA or Seminal Weakness, Involuntary Seminal Losses, IMPOTENCY, Mentle and Physical Incapacity, Impediments to Marriage, etc.; also, CONSUMPTION, EPILEPSY and fits, induced by self-indulgence or sexual extravagance, &c.

The celebrated author, in this admirable Essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and RADICALLY.

This Lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, post-paid, on receipt of six cents or two postage stamps.
