HOT AIR FURNACE!

☞ We call attention to the Littlefield Furnace with entire confidence that it is the best Warm Air Furnace ever invented, and radically overcomes the faults and objections existing in other Furnaces; and we feel sure that a careful examination of its superior merits in connection with the candid and unbiased statement of those who have had this Furnace in use during the past several winters, will convince all that what we say is true.

We respectfully refer to the following among the many well known citizens who have this Furnace in use: Capt. J. S. RICHARDS, W. S. BROWN, Esq., ISAAC MOORHEAD, Esq.

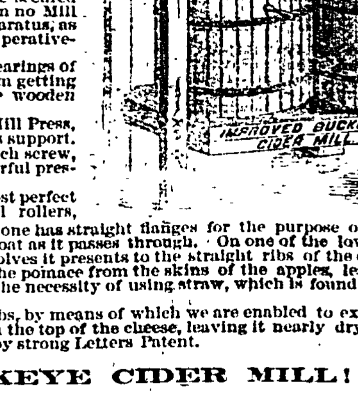
Improved Portable Buckeye

Cider Mill and Press!



The points of superiority possessed by this Mill over all others, are as follows:

1. The Adjustable Throat, adapting the Mill to the various sizes and conditions of fruit.
2. The Adjustable Grinding Rollers for the same purpose. These two features are secured to us by Letters Patent. Without them no Mill can possibly be a perfect grinding apparatus, as the different conditions of the fruit imperatively demand this adjustability.
3. A neat metallic box to hold the bearings of the gearing, preventing the same from getting out of order, from the swelling of the wooden sides and ends.
4. The strong compact frame for Mill Press, with well proportioned bearings for its support.
5. A strong iron beam, with a two inch screw, enables us to give the pomace a powerful pressure.
6. The Grinding Apparatus is the most perfect in use, consisting of three horizontal rollers, one above and two below; the upper one has straight flanges for the purpose of breaking the fruit against the adjustable rubber throat as it passes through. On one of the lower rollers the ribs are oblique or spiral, and as it revolves it presents to the straight ribs of the other a continuous cutting edge, enabling us to cut the pomace from the skins of the apples, leaving them in such size as to obviate, in most cases, the necessity of using straw, which is found to be deleterious to the quality of the cider.
7. The Strainer Board, under the tubs, by means of which we are enabled to express the cider as completely from the bottom as from the top of the cheese, leaving it nearly dry in all parts. This valuable feature is secured to us by strong Letters Patent.

THE BUCKEYE CIDER MILL!

Is undoubtedly the best yet invented. Call and see it. An inspection of the above named articles is solicited. They are the leading ones in the market, and can be obtained in Erie only of

The firm will be known as C. Englehart & Co., and the business will be carried on as heretofore at No. 19 West Park, Erie, Pa.

C. ENGLEHART.

Something New.

Buy Silver Tipped Shoes for your children. A majority of the children wear holes in the toes of their shoes in a very few days; then the shoes are soon worthless, and a new pair must be bought. The only way to prevent this great waste of money is to buy shoes protected by silver tips. They never wear out at the toe, and make a pair of shoes last three times as long as without Tips. Leather Caps have been worn to some extent, but they have proved worthless. Silver Tips have a neat and substantial appearance, and do away entirely with the disagreeable sight of dirty stockings and protruding toes. We have constantly on hand the only assortment of Silver Tipped Shoes to be found in the city, including fine Sewed shoes, Balmorals, Youths' Boots, &c., which we offer, together with a large and fashionable assortment of Ladies' and Gents' Fine and Heavy goods, at the lowest cash prices.

No. 5.

SIMILIA SIMILIBUS CURANTUR.

HUMPHREYS'

HOMŒOPATHIC SPECIFICS,

HAVE PROVED, FROM THE MOST AMPLE experience, an entire success; Simple—Prompt—Efficient, and Reliable. They are the only Medicines perfectly adapted to popular use—so simple that mistakes cannot be made in using them; so harmless as to be free from danger, and so efficient as to be always reliable. They have raised the highest commendation from all, and will always render satisfaction.
