Eclectic Magazine.

ECLECTIC MAGAZINE OF LITERATURE, SCIENCE AND ART.

NEW VOLUME BEGINS JAN. 1869,

BEING THE TWENTY-SIXTH YEAR OF THE EXISTENCE OF THE WORK.

WHY IS THE ECLECTIC MAGAZINE THE BEST?

Because it selects from the whole field of Foreign Periodical Literature, including translations from the French and German, thus giving it a wider field than can possibly be attained by any other publication.

Because the articles which appear in its pages are in general written by the very ablest literati in Europe, and contain the very latest discoveries and speculations concerning the subjects treated of.

Because it is the only magazine in the United States which gives a monthly summary of review of every branch of science throughout the world.

Because whoever reads our pages for a year will find himself thoroughly conversant with the progress made in Astronomy, Geology, and the other Physical Sciences during that time.

Because its scientific articles come directly from the pens of such men as the Astronomer Royal, Richard Proctor, B. A., F. R. A. S., Prof. Huxley, Baron Von Humboldt, Baltour Stewart, and others equally eminent.

Because each number is embellished with a fine steel engraving, either portrait or historical; and the twelve engravings during the year are worth the subscription.

Every clergyman should have it; every literary man should have it; every library should have it; every one who would have the latest and ablest information on the world in which he lives should subscribe. Nothing else will give a family equivalent to it in intellectual culture and a knowledge of the intellectual progress of the age.

Volumes commence in January and July. Subscriptions can commence with any number.

Terms $5 per year; Single Copies, 45 cents; Two Copies, $9; Five Copies, $20.

Miscellaneous.

A FEAST FOR THE READING WORLD.

THE LARGEST, THE CHEAPEST, AND THE BEST,

THE NEW YORK MERCURY FOR 1869.

The Thirty-first volume of this popular weekly will commence with the New Year, and the proprietors propose to make it the most brilliant, varied, entertaining budget of current literature that has ever been presented to the American public in the form of a Family Newspaper. Better original stories than are to be found in any of the magazines will grace its columns; and, already in advance of all competition in its class in size and amount of reading matter, it is intended that it shall eclipse them all in every department of literature intended in the programme of a first-rate Household journal.

The leading feature of the new volume will be a powerful story by

MISS M. E. BRADDON,

author of "Oscar Bertrand," "Nobody's Daughter," "The Outcasts," "Three Times Dead," etc., etc., and one of the most popular novelists of the day, entitled,

THE FACTORY GIRL;

OR,

THE BLOSSOM AND THE BLIGHT,

—the scenes of which are infinitely more graphic and striking than those of any story of the sensational street dramas which now flood possession of the stage.

The "Factory Girl" will be almost immediately followed by a new story of surpassing interest from the pen of J. D. Smith, Esq. author of "Midnight," "Stanford Hall," "Guy Monte," etc., written for the NEW YORK MERCURY.

All the existing specialities of the NEW YORK MERCURY will be retained, and new departments added from time to time during the progress of the year. It is of a size and form long ago adopted this time-honored weekly as its favorite sheet, to keep that the head of its class by a long-standing for the very best literary matter (suitable for such a paper, procurable in either side of the Atlantic. The contents will be domestic, Novelettes, Critical Sketches, numerous Poems, Fancy Tales, articles on American Sports and Pastimes, and a variety of digested matter interesting in Theatrical and other popular Amusements and Recreations, will figure in the contents of THE NEW YORK MERCURY for the coming year. Through the department appropriated to the yourself authoresses of America, hundreds of lady-writers, now famous, first made the acquaintance of the public.

This channel of communication between young ladies of talent and genius and the reading world will continue open to the former; and such of their productions as are calculated to do them credit and give them prestige will be published with such critical comments as they seem to call for.

The object of the Proprietors of THE NEW YORK MERCURY is to render it the best family-newspaper in the United States; and if paying the highest premium for the best literary talent will secure it a result, it will certainly be attained.

THE NEW YORK MERCURY will be thirty-six columns sterling original matter, will continue to be issued at Eight Cents a copy, and sold by all Newsmen and Periodical Dealers in America.

To mail subscribers, our terms for 1869 will be:

Cash in advance:—Single copies, $2 50 a year; three copies, $7; six copies $13; nine copies; $20. Five party who sends us $20 for a club of nine copies will receive an additional copy, free. $3 months' subscription received.
