## School Directors and Teachers.

SCHOOL BOOKS, Papers, and School Apparatus. We have everything necessary to a Complete outfit for School Teachers, and can furnish the same at such rates as to defy competition. To be convinced that we do sell cheap, you need but give us a call. We have a very large quantity of Sanders' and Towers' *Series of Readers on hand*. We can sell either as low as they can be purchased, having made special arrangements with the publishers. Also a large quantity of Stoddard's series of Arithmetics, the most popular books of the kind now in use. We are also agents for Pelton's Outline Maps, which we can sell wholesale or retail at publishers' rates. Orders from a distance promptly attended to. By bearing this in mind freight might often be saved. Pelton's Maps are on the progressive principle. They are time-saving—time is *money*, so they must be *money*-saving. The method of teaching from these maps is teaching by the eye, based upon the law of intellect, that the objects of sight more readily become the objects of conception and memory than those of the other senses; and the more distinct they are seen, the more lively is the conception and the more lasting the *impression on the mind. None but those who have used them can fully appreciate their usefulness.*

SANDERS' ELOCUTIONARY CHART, used at the Normal School—a valuable appendage to the School Room—*also* to be had at wholesale and retail rates.

HOLBROOK'S SCHOOL APPARATUS, another of the improvements in School Furniture. For particulars concerning the same call on or address the undersigned for a circular.
