MORE NEW GOODS At the Ready Pay Store.

THE subscribers beg leave to advise the public, that they are now receiving an entirely new stock of Goods for the Summer and Fall Trade, embracing nearly every article called for at a country Store; which were bought at the present low prices in New York, for cash, and will be sold astonishingly cheap. Grateful for the very liberal patronage heretofore extended to our establishment, we solicit a continuance of the same, and as much increase as possible. We claim to have in a measure revolutionized trade in this community, by compelling a great reduction in prices and (in *some cases*) a diminution of exorbitant profits; and we trust that a grateful public will duly appreciate and reward our effort. Our stock of Goods is now large, and every way suitable for the trade—more extensive, in fact, than usually kept in this place. Those wishing to purchase will do well to call and see us.

Notwithstanding the present high price of Iron and the consequent advance of castings, I am enabled to sell stoves at old prices, and many kinds at about two thirds of the price that they have been sold for in this vicinity, for instance, Clinton Air Tight, Elevated oven, with trimmings of the best quality at $24. Threshing Machines.

THE undersigned desire to call the attention of the Public to the article of Threshing Machines, manufactured by the well known establishment of *Wheeler, Melick & Co.*, Albany, New York.

These Machines have been so long in use in this county, and so universally approved, that we feel any effort at recommendation would be vain. Suffice it to say, that all the improvements suggested by experience and approved by test, have been adopted by the Manufacturers in their Machines for the trade of 1854. Besides this, all Machines sold by us are warranted to give good satisfaction, or they may be returned after a fair trial.

Prices.

Combined Thresher and Winnower, alone, 125

The attention of Farmers is particularly invited to those One Horse Machines. No Farmer can invest his money to better advantage than in the purchase of one of those Machines.
