Branch of the Young Hickory Club.

A large and enthusiastic meeting of our adopted citizens held in the Grand Jury room, on Tuesday evening last, for the purpose of forming a branch of the Young Hickory Club. The meeting was organized by calling Mr. JOHN GRAHAM, President, and Messrs. [illegible] Vice Presidents, and W. Thornton, Secretary. On motion it was

Resolved, That a committee of five be appointed by the President, to draft a constitution for the Club; the chair appointed Messrs. Thornton, Scuffle, Gabel, Sullivan and Kornbach. During the absence of the committee Mr. [illegible] ably addressed the meeting, on the principles of the candidate, and eloquently proved the wisdom and patriotism of the Democratic faith, and showed conclusively that it would be no better than political treason for adopted citizens to support Gen. Scott, the friend and father of Native Americanism.

The committee reported the following constitution which was unanimously adopted:

We the undersigned, naturalized citizens of the City of Erie and County, deeply and cordially cherish the great principles of Democracy, and the liberal policy pursued by that party towards those who seek an asylum from the tyranny and oppression of other countries, believing that the maintenance and support of these cherished principles and liberal policy towards adopted citizens, are calculated to promote the peace, and enhance the prosperity of our adopted country, whose lasting fame, undimmed glory and unexampled prosperity we have deeply at heart. We therefore do agree to form ourselves into an association or club under the following constitution:

1 Resolved 1st — This Club shall be known by the name and style of the Young Hickory Club. The objects of the association declared to be the promotion of democratic principles and to secure more efficiency to our endeavors to aid in the election of those tried statesmen and patriots, and true representatives of Democracy, Pierce and King.

2 The officers of this association shall consist of a President, four Vice Presidents, two Secretaries and a Treasurer, and a committee of correspondence to consist of five members.

3 It shall be the duty of the committee of correspondence to communicate during the campaign with individuals and associations having similar objects in view, and to obtain and circulate political information and documents.

4 There shall be a committee of six in each ward of the City, appointed by the President, upon naturalization, whose duty it shall be to see that other persons do not have been naturalized, but who are entitled to full papers, do fully comply with the law, so as to give them to vote.

5 There shall be a committee of five in each ward at election, appointed by the President, whose duty it shall be to take the requisite means to insure a full vote, and to get every voter to the polls on the day of Election.

6 The officers of this Club or a majority of them shall form an active committee to take charge of, and direct the ordinary affairs of the Club and to give direction to the Secretaries to call meetings when deemed necessary.

Pledge.—We the subscribers do hereby pledge ourselves to abide by the constitution, and to use all honorable means to promote the objects therein specified.

JOHN GRAHAM, President.

Andrew Gabel, John Sullivan, Conrad Shaller, E. G. Sullivan, } Vice Presidents.

P. Scuffle, W. Thornton, } Secretaries.

Wm. Blount, Treasurer.

Wm. Thornton addressed the meeting on the importance of the united effort to maintain our glorious country, which dispenses with a liberal hand its blessings and will seek freedom, and safety under its protection, he remarked strongly, but justly, on the faithlessness and inconsistency of the whigs.

Resolved, That the Club meet again two weeks from this evening in the Court House: adopted.

Signed by the Officers.

☞ The Buffalo *Republic* says the Missouri *Republican* affirms, with much apparent confidence, that the whigs of Pennsylvania are aroused. How it made the discovery at such a distance, we know not; but it would seem, from the announcement, that the Key Stone whigs have been snoozing or boozing, and were just shaking themselves loose from the arms of old Sniver, or because disembodied by abstinence from Monongahela.—Perhaps they will be able to effect in this State, by giving themselves the trouble of a temporary return to consciousness, we opine they may as well relapse and forget the farmer's of life, till the ides of November shall have passed. It will save them much useless anxiety and trouble.

Fresh Bullet Whistle Chasse.—We learn from the Venango *Spectator* that at a Democratic meeting held in Franklin last week, Robert S. McCormick, Esq., the Deputy Attorney General of that County, and Deputy U. S. Marshal—one of the most influential and active whigs in Venango County—came out flat footed for Pierce and King. Mr. McCormick stated that he had always been a whig—an active, working whig. That he had stumped the County for Taylor, and had always done his duty as a faithful Whig. But he had lived to see his error. He had become acquainted with the corruption of the Whig party—was disgusted with its vacillations on important measures, and openly proclaimed his intention to enrol himself under the Democratic flag and banner to secure the election of Pierce and King. Mr. McCormick upon this occasion made one of his greatest speeches, and was gladly welcomed in the Democratic ranks.

☞ Gaming in Lima.—A thief was arrested in New Orleans on the 15th, charged with picking $800 from the pocket of a citizen of that city. He gave his name as Gardner Gilpin.

☞ The New York Herald announces that the Cuban expedition scheme is moving forward, and that it has the favor some of the most talented and richest men in the country, and a number of the heaviest steamboat owners. It says "no man will or can dispute the strength and impact of the secret organization."

☞ Fabricators in Ohio.—A correspondent of the New York *Herald*, writing from the Western Reserve, thus sums up the political aspect in Ohio. He says: "Both of the two great parties will move heaven and earth to achieve success. Every political nerve will be strained to its utmost tension; no effort, honest or dishonest, will remain unmade." The vote, must, of course, be large. From careful estimates, I think Pierce will get 155,000, Scott 137,000 and Hale 42,000. No well grounded estimate, can, at present, make different figures than the above. This, it will be seen, leaves the whigs in a great minority, while the Democrats lack many thousands of a majority, but the attitude of the free-soilers gives them the control of the State. The whig prospects of the State look dark and gloomy."

☞ Now the simple fact is that there *is a religious test* in the New Hampshire constitution, and by that *test* none but persons of the Protestant religion are allowed to hold the offices of Governor, Senator, and representative; and this is a fact whether it is in the copy in the Observer office or not.—*Advertiser*

The above is from the *Commercial*, a paper that calls us "stupid" and "impudent" for asserting that there is no "religious test" in the constitution of New Hampshire excluding Catholics from office. Where the "stupidity" and "impudence"—I say, where the *falsehood* rests—let the following extract from the whig *Gazette* tell; says the *Gazette*:

"We have examined a copy of the New Hampshire Constitution, and are free to say that we could find nothing which seemed to contemplate in a direct and positive way the exclusion of Catholics from civil office."

Now, either the *Gazette* tells a falsehood or the *Commercial* does. When is it? We say it is the latter, and defy it to produce any article, word, or sentence from that instrument sustaining its assertion. Will it do it?

☞ Here is a nut for the *Rough Notes* to crack. The *Pennsylvanian* is informed that a company is now being organized to embark very largely in the manufacture of railroad iron, at Johnstown, Cambria county, Pa. We are much gratified at this evidence of the increasing prosperity of this great interest in our good old Commonwealth, and trust this company may be well rewarded for their enterprise. What say our whig friends to this evidence of ruin?

☞ Courage whigs, courage!—You are sure to have one State for Scott. "The Star that never sets," Vermont, has recently held an election, and has gone whig, as usual. There's comfort for you—now thank us!

☞ Signs.—It is said that "all signs fail in dry weather," but we think this is not so, for the political signs are most cheering this summer, and the weather has been extremely dry.

☞ Among the speeches at the great Tammany Hall meeting in New York on the 2d, was one by Hon. John L. Dawson, of this state. Mr. D., is a rising man—one that at no distant day will occupy a much more prominent position before the country than now. We are gratified to see that he has been re-nominated by the Democracy of his district; and more, that there is every prospect of his triumphant election.

☞ Consistency.—The Whigs are abusing General Pierce because the London *Times* happened to speak favorably of his abilities. At the same time they parade with great glee a letter from the Duke of Wellington, praising Gen Scott! So, according to the mode of reasoning adopted by the Whigs, there must be two "British candidates" in the field!

☞ Among the Speakers at the great Democratic meeting at Reading, on the 4th, was Honorable C. J. Faulkner, of Va., a Whig member of Congress. He goes for Pierce and King with a will, and made a most effective speech on the occasion.

☞ Hundreds of our citizens complain of debility and languor of the system; derangement of the liver and stomach, want of appetite, &c., they are frequently the result of close application and a thousand other causes we cannot here name: but we would say to all so afflicted, do as we have done—get a bottle or two of Dr. Hoofland's German Bitters, prepared by Dr. Jackson, and our word for it, you will be cured. We recommend this medicine, knowing from experience that it is much superior to the generality of patent medicines. We would say to our readers, purchase none unless prepared by Dr. C. M. Jackson, Philadelphia. 2m1

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP ASTHMA and CONSUMPTION

This invaluable remedy for all diseases of the throat and lungs, has attained a celebrity from its remarkable cures, never equalled by any other medicine before. Other Preparations have shown themselves *palliatives*, and sometimes effected notable cures, but none has ever so fully won the confidence of every community where it is known. After years of trial in every climate, the results have indisputably shown it to possess a mastery over this dangerous class of diseases, which could not fail to distract the attention of Physicians, Patients, and the public at large.

So the statements, not of obscure individuals and from far distant places, but of men who are known and respected throughout the country.

The widely celebrated Surgeon, Dort Valentine Mott, of New York City, says:

"It gives me pleasure to certify the value and efficacy of Ayer's Cherry Pectoral, which I consider peculiarly adapted to cure diseases of the throat and lungs."

Dr. Pekkins, the venerable President of the Vermont Medical College, one of the eminently learned physicians of this country, writes, the Cherry Pectoral is extensively used in this section, where it has shown a distinguishable evidence of its happy effects upon pulmonary diseases.

The Rev. Jas. D. Cochrane, a distinguished Clergyman of the English Church,

writes to the proprietor from Montreal, that "she has been cured of a severe cough and affection, by Cherry Pectoral." His letter at full length, may be found in our circular, to be had of the Agent, and is worth the attention of asthmatic patients.

This letter is from the well known druggist at Hillsdale, Michigan, one of the largest dealers in the State; and the case is from his own observation.

Hillsdale, Mich., Dec. 10, 1849.

Dear Sir: Immediately on receipt of your Cherry Pectoral, I carried a bottle to an acquaintance of mine who was thought to be near his end with quick consumption. He was then unable to rise from his bed, and was extremely feeble. His friends believed he must soon die, unless relief could be obtained for him, and I induced them to give your excellent medicine a trial. I immediately left town for three weeks, and you may judge of my surprise on my return, to meet him in the street on my way home from the cars, and find he had entirely recovered. Four weeks from the day he commenced taking your medicine, he was at work at his arduous trade of a blacksmith.

There are other cases within my knowledge, where the Cherry Pectoral has been singularly successful, but none so marked as this. Very truly yours,

G. WUNDERWOOD.

Hear the Patient.

Dr J. C. Ayer, Lowell—Dear Sir. Feeling under obligations to you for the restoration of my health, I send you a report of my case, which you are at liberty to publish for the benefit of others. Last autumn I took a bad cold, accompanied by a severe cough and in the use of many medicines without obtaining relief. I was obliged to give up business, frequently raised blood, and could get no sleep at night. A friend gave me a bottle of your Cherry Pectoral, the use of which I immediately commenced according to directions. I have just purchased the fifth bottle, and am nearly recovered. I now sleep well, my cough has ceased, and all by the use of your valuable medicine.

E. S. STORE, A. M.
Principal Mt Hope Seminary.

Hanover, Ohio, April 3, 1850.

Dear Sir: I wish I could tell all that suffer with a cough, what your Cherry Pectoral has done for me. It does seem that they might be benefitted by the information. I had a lung fever which left my lungs weak and inflamed. Being very feeble and unable to gain strength at all, my friends thought I must soon sink into consumption. I had no appetite, and a dreadful cough was fast wearing me away. I began to take your beautiful medicine, by the advice of a clergyman, who had seen its effects before. It eased my cough at first, and gave me rest at night. In less than a fortnight I could eat well, and my cough had ceased to be troublesome, my appetite returned, and my food nourished me, which soon restored my strength. Now after five weeks, I am well and strong, with no other help than your Cherry Pectoral. Yours with respect

JULIA DEAN.

I hereby certify that the above statement of my wife is in conformity with my own views of her case and her cure by Ayer's Cherry Pectoral. JOSEPH DEAN.

The above named Joseph Dean and Julia, his wife, are personally known to me, and implicit confidence may be placed in their statement.

PETROLEUM,

Sould in the Foot and Ankle Cured.

MR. KIER:—I am desirous of making known to the public the great efficacy of your PETROLEUM in my own case, which was a severe scald of the foot and ankle; upon removing the stocking, the skin peeled off with it, and left nothing but the bare surface. I expected to be laid up all winter from the effects of this scald, but we applied the Petroleum freely, by means of a flannel cloth saturated with it; at first the application was painful, but in a very short time the pain abated. I had no pain in one hour afterwards. In five days from the application of the Petroleum, I was able to go to work. I take pleasure in stating these facts for the benefit of other sufferers, and am desirous that they should be made public. I would also state, that I find immediate relief by the use of the Petroleum in burns, from which I am a frequent sufferer owing to my business about the engine.—I would recommend it as the most prompt and certain remedy for burns I have ever known.
