A Mechanic.

How seldom is it seen that honest labor receives the merit to which it justly entitled; and how often is the avocation of the workingman derided and alluded to in contemptuous terms! How few of those whose fortune has happened to throw them in the lap of luxury and wealth, seem to appreciate the position held in society by the sons and daughters of toil! Yet so it is, that many of our most influential and substantial families owe their places in the community to the labor-stained hands and sweated brows of those in the employ of their progenitors.

We have been led to this philosophizing by one of the merest accidents in the world. In passing through the streets a day or two since, between six and seven o'clock in the evening, we noticed one who bore upon his person the marks of labor, apparently wending his way homeward to his evening repast. His countenance seemed to express, in its smiling contour, a happy anticipation of the warm reception with which he would be greeted by the loved ones who were awaiting him at home. Notwithstanding the dust which soiled his face and clothing, he presented a noble, hearty appearance, and every feature was stamped with the indelible seal of manhood.

Two young ladies preceded us, and we were near enough to overhear their conversation. One of them remarked "here comes a fine looking fellow!" The other, with a toss of the head and a scornful curl of her pretty lips, replied: "Poh! He's only a mechanic."

"Only a mechanic!" we mentally reiterated; and yet what a mine of genius may be wrapped in the mantle of that man's mind! A fire may be burning within his soul that might create an unquenchable conflagration if applied to the world of science! Who knows what depth of thought may be contained in the heart of him to whom this remark referred? Who can tell but that in his nature—in that apparently rough exterior—there may not be a something purer than the richest gem of India?

Only a mechanic. Aye. And so was Franklin—who brought the lived lightning into stern obedience to his will. And so was Morse—who reduced the fire of Jove to such a toy that a child might play with it. And so was Fulton—the result of whose labor has almost annihilated time and space. Hugh Miller too—and we might go on to enumerate thousands—all mechanics, and devoted to the interests and welfare of the human race...

Then why hold the mechanic up to the scorn of the world. His hand is seen and felt in all the affairs connected with this terrestial sphere—in war and peace, in art and science, in fact in everything that is or can be of use and benefit to mankind.—*Buffalo Gazette.*

American Wonders.

The greatest cataract in the world is the Falls of Niagara, where the water from the great Upper Lakes forms a river three-quarters of a mile in width, and then being suddenly contracted, plunges over the rocks in two columns to the depth of 170 feet each.

The greatest cave in the world is the Mammoth Cave, in Kentucky, where any one can make a voyage on the waters of a subterranean river, and catch fish without eyes.

The greatest river in the world is the Mississippi, 4,100 miles in length.

The largest Valley in the world is the Valley of the Mississppi. It contains 500,100 square miles, and is one of the most fertile and profitable regions of the globe.

The largest lake in the world is Lake Superior, which is truly an inland sea, being 430 miles long, and 1,000 feet deep.

The greatest natural bridge in the world is the Natural Bridge over Cedar Creek, in Virginia. It extends across a chasm 80 feet in width and 260 feet in depth, at the bottom of which the creek flows.

The greatest mass of iron in the world is the Iron Mountain of Missouri. It is 350 feet high and two miles in circuit.

The largest aqueduct in the world is the Croton Aqueduct in New York. Its length is forty miles and a half, and it cost twelve and a half millions of dollars.

The largest deposits of anthracite coal in the world, are in Pennsylvania; the mines of which supply the market with millions of tons annually, and appear to be inexhaustible.

"Some Scare."

Little Minnie found out an ingenious way of getting into bed in a hurry, which she thus explained to her mother: "Mamma, do you know how I get to bed quick?" "No," was the reply. "Well," said she, in great glee, "I step one foot over the crib, then I say 'rats,' and scare myself right in."

MISCELLANEOUS.

FIRST NATIONAL

DENTAL OFFICE,

LOCUST STREET, ABOVE SECOND, COLUMBIA, PENN'A.

DR. J. G. CAMP,

Graduate of the Pennsylvania College of Dental Surgery, and until recently a member of the Dental firm of "Screven & Camp," Philadelphia, has removed to, and opened an office in Columbia, where he is ready to attend to patients in need of Dental operations, whether mechanical, operative or therapeutical. Special care given to restore diseased gums to their normal condition. Decayed teeth filled with Gold, Amalgam, &c., &c. Artificial Teeth adapted to any desired base with "plumpers" to fill out the cheeks, (a most desirable addenda.) A well assorted and extensive quantity of Artificial Teeth constantly on hand. Teeth extracted with all the ease and dispatch that modern science in her indefatigable efforts has yet been able to develop. All the valuable Anæsthetics of the age will be constantly at hand, such as Chloroform, Ether, Nar-cole (spray and) Protoxide of Nitrogen, familiarly known as "Laughing Gas," a Chemical compound of the two gaseous elements, Nitrogen and Oxygen, hence designated in accordance with the usual nomenclature and notation Protoxide of Nitrogen, with the symbol NO. Its effects upon the human system vary in proportion to the quantity administered, and the particular susceptibilities of individual organisms, passing from a gentle acceleration of all the functions of the body to a high degree of physical excitement and mental exhilaration amounting in the extreme to an intensely pleasurable delirium or ecstacy, buoyancy of spirits, acceleration of imagination, and a dreamy or mental conceptions. The patients, like the Pilgrims in "Bunyan's Dream," seem to have wandered to the "Enchanted Mountains," one step farther, and they see the "Celestial City," and whilst they involuntarily gaze with open mouth at its bronzed gates and golden cupolas, we remove the offending member of the dental organization.

Several years of active experience in the administration of Anæsthetics, and a regular attendance at the Anatomical Schools and Hospital Clinics, have rendered Dr. Camp one of the *adepts* in the Dental Profession.

Extreme Cases are earnestly solicited.

Persons coming from a distance will be allowed a reasonable deduction to defray expenses, &c. Board, rent, &c., being less here than in Philadelphia, he is enabled to offer inducements greater than could possibly be given there.

No charge for consultation. Office hours from 8 A. M., to 5 P. M.

[Chartered with Ample Powers.]

LEBANON VALLEY COLLEGE!

The second Collegiate year will commence ON MONDAY, AUGUST 19, 1867.

This Institution has been Chartered by the Legislatures of the State with full Collegiate powers, and the following courses of Study, in which it is proposed to graduate Students, have been adopted, viz:

An Elementary Course for Teachers, (B. E.)
A Scientific Course, (B. S.)
A Ladies' Course, (M. A.)
A Classical Course, (A. B.)
A Biblical Course, (B. B. S.)

The School is intended to supply a great public want, and instruction is given in all branches of a common, a liberal, or an ornamental education. There is a primary or model school connected with the institution, and also a Commercial Course, so that Students of any grade will be received and will be put into suitable Classes. With superior accommodations, first-class teachers, a location not excelled by any in accessibility and healthfulness, and in the general morals of the community, we offer to parents and guardians a pleasant home, where their children and wards will be properly cared for and will be subjected to the best training.

EXPENSES:

For Boarding, Washing, Light Fuel, and Tuition, with furnished room, for Fall Term of 18 weeks..... $88.50
Instrumental Music..... 18.00
Double-Entry Book-Keeping, (in classes).. 15.00
Painting and Fancy Work, at usual rates.

HIGHEST PREMIUM

ELASTIC STITCH

AND

LOCK STITCH

SEWING MACHINES,

495 BROADWAY, NEW YORK.

730 CHESTNUT STREET, PHILADELPHIA. Jan. 5, '67.

GREAT IMPROVEMENTS

IN SEWING MACHINES.

EMPIRE SHUTTLE MACHINE.

PATENTED FEBRUARY 17TH, 1860.

Salesroom, No. 921 Chestnut St., Philadelphia.

This MACHINE is constructed on a new principal of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be SIMPLICITY and PERFECTION COMBINED.

The following are the principal objections urged against Sewing Machines:

1. Excessive fatigue to the operator.
2. Liability to get out of order.
3. Expense, trouble, and loss of time in repairing.
4. Incapacity to sew every description of material.
5. Disagreeable noise while in operation.

The Empire Sewing Machine is Exempt from all these OBJECTIONS.

It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither RIP nor RAVEL and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook Muslin, with cotton, linen or silk thread, from the coarsest to the finest number.

IT HEMS, FELLS, BINDS, BRAIDS, TUCKS, QUILTS, PLAITS, GATHERS.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is

EMPHATICALLY A NOISELESS MACHINE.

All varieties of CABINET MACHINES *from $60 upwards.*

☞Particular attention is called to our new and improved Manufacturing Machine, for Tailoring, Shoe-fitting, Coach Trimming, &c. Its advantages are simplicity, durability, rapidity, ease and adaptation to all branches of manufacturing. It makes perfect work on all material. It is especially desirable in sewing Patent Leather, and is very still. It short it is the most perfect manufacturing machine in the market.

N. B.—Every Machine warranted.

EMPIRE SEWING MACHINE COMPANY,
921 Chestnut Street, Philadelphia.

☞Agents wanted. Jan. 16,'67-1y

THE HOWE MACHINE CO.'S

SEWING MACHINES,

699 BROADWAY, NEW YORK.

FOR FAMILIES AND MANUFACTURERS.

The Howe

LOCKSTITCH,

THESE WORLD-RENOWNED SEWING MACHINES

Were awarded the highest premium at the World's Fair in London, and six first premiums at the New York State Fair of 1866, and are celebrated for doing the best work, using a much smaller number of the same thread than any other machine, and by the introduction of the most improved machinery, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Manufactory at Bridgeport, Conn., under the immediate supervision of the President of the Company,

ELIAS HOWE, JR.,

the original inventor of the Sewing Machine.

They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, Dress Makers, Tailors, Manufacturers of Shirts, Collars, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Boots, Shoes, Harness, Saddles, Linen Goods, Umbrellas, Tarpaulins, etc., etc., and work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed.

The Stitch invented by MR. HOWE, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.
