BEAL'S
LATE POWEL'S EMBROCATION
For all diseases incident to Horses, Cattle, Human Flesh, requiring the use of an external application.
THIS new Compound prepared by a practical Chemist, having a full knowledge of all medical virtues of each ingredient that enters into its composition, is warranted to exceed anything of the kind ever yet offered to the public as an external application for the diseases for which it is recommended. We are satisfied it will work its own road into the confidence of all who use it, and those who try it once will never be without it, and therefore we rest its experience as the best test of its usefulness. It is pronounced by Farriers, and all who have used it, to be the best application ever used. Embrocation has been put up for over years, and it is only through the increasing demand and urgent request of my friends and the Public that I send it forth as the grand remedial agent for the various diseases to which the noble and useful animal, the horse, is subject.
Many remedies have been offered to the Public under different forms, some of them are injurious others at best of little use, and are wholly improper to answer the purposes for which they are recommended.
A judicious and really useful composition, free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing and pretended Farriers. These wishes are at length fully gratified, by Beale) being prevailed upon to allow this valuable Embrocation (which has proved so efficacious to the various diseases) to be prepared and brought out to the public.
This Embrocation was extensively used in the Government during the war.
For sale by Hartswick & Irwin, Clearfield; Joseph R. Irwin, Curwensville. Daniel Gulander, Luthersburg.
