The Huntingdon Journal.

Farm and Household.

Wheat Growing in Nebraska.

This State is now attracting considerable attention as one of the best fields for settlement in the Union. In climate and soil it meets the conditions required for the successful cultivation of all the productions of the temperate zone, and also some of the sub-tropical.

It is not often that corn and wheat thrive equally well in any country; but as it is in Nebraska, corn is the first staple crop, of course; but so soon as the farmer is well settled upon the land, he puts in wheat.—The wheat of Nebraska is in good favor; and in St. Louis and Chicago makes its price average several cents per bushel more than the wheat of the neighboring States can command. In bread making qualities the wheat of Nebraska only ranks second to that of California, with which it does not come into competition.

The agricultural triumphs which have been achieved in Nebraska are the work of little more than ten yeurs, and, as the country is settled, and the position of the farmer becomes easier, wheat ranks higher among the crops of the country. In 1860, when the population was 28,000, the wheat crop amounted to 147,867 bushels, or about 5¼ bushels per head; and in 1870, when the population was 222,000, the the wheat crop was 1,125,086 bushels, or a little under 17½ bushels per head.

The population of 1873 can only be estimated, and therefore it is best not given; but the wheat crop of thot year, (which was an unfavorable agricultural year,) amounted to 3,000,000 bushels. The record is therefore still one of advancement for the young State; and it is to be remembered that stock raising, fruit culture, corn growing, and all other agricultural work advances equally with wheat raising. Nebraska is therefore a promising State for the settler; and the more especially since it has good markets both east and west and south.

When to Cut Clover.

Some experiments upon the nutritive value of clover hay, are reported by Wagoner, a German. In a field of red clover three contiguous parcels of equal size were measured off. From one the clover was cut, May 22, just before the beginning of the blossom; from the second, June 13, in the full blossom; and from the third, July 1, toward the end of the blossom. The amounts of hay obtained were 85,114 and 128 pounds respectively. The hay was analyzed, and its nutritive value thus estimated. It appeared that the amounts of nitrogenous substances were about the same in all, and that the older hay contained also much larger percentage of crude fibre, and that its ingredients were so much less digestible, that its nutritive value was less than that of the smaller but younger crop. The author recommends, therefore, that clover be cut either when in full blossom, or even before the the beginning of the blossom.

About Tools.

I wish to give a few hints to my brother farmers about tools. Many a one when taking up a hatchet or axe that he is not used to, and after striking the first blow, fails to hit within three or four inches of where he aims, says, well that ax is worthless, and when examined it is found that the edge and handle are a long way out of line. The trouble is, the eye is not parallel with the edge, which, of course, is the fault of the maker. Such should not be purchased. A good plan when buying is to take a piece of wood that will go through the eye, then it is easy to see when the eye and edge are on a line, and those not straight should be rejected. A few articles sent back to the manufacturer, and the fault would soon be corrected. The same may be said of many other tools which farmers have to use. A word to the wise.
—*Cor. Farm Journal.*

Kalsomining.

Eight pounds of whiting and one quarter of a pound of white glue make the right proportions. Soak the glue one night in cold water, and in the morning heat it till perfectly dissolved. Mix the whiting with hot water, stir the two thoroughly together, and have the wash of the consistence of thick cream. Apply warm with a kalsomine brush, brushing it well in and finishing as you go on. If warm skim milk is used instead of whiting, the glue may be omitted. Before the wash is applied all crevices and holes should be stopped with plaster of paris mixed with water. If it is desirable to tint the walls, colors may be procured at any paint store and stirred into the kalsomine wash.

MILK FOR CHILDREN.—Dr. Gardener suggests that young children should be fed on the milk of a farrow cow, since it has not been deprived of its essential ingredients to nourish the year's calf. If any one questions the effect of double attempt at nutrition, let him compare the milk in ordinary use with that of a farrow cow. The latter is small in quantity, thick, redundant in cream of a very high flavor. This is the milk destined to strengthen the bones and invigorate the body.

CLEANING STOVES.—Stove lustre when mixed with turpentine and applied in the usual manner, is blacker, more glossy, and more durable than when mixed with any other liquid. The turpentine prevents rust, and when put on an old rusty stove will make it look as good as new.

FURNITURE POLISH.—Make a mixture of three parts linseed oil and one part spirits of turpentine. It not only covers the disfigured surface, but restores wood in its original color, and leaves a lustre upon its surface. Put on with a woolen cloth and when dry rub with woolen.

DISH FOR THE SICK.—To one teacup of cream take four rolled or grated crackers, one teaspoonful of white sugar, the white of one egg beaten to a froth, with a teaspoonful of jelly of any kind.

Miscellaneous.

TREASURER'S SALE OF UNSEATED LAND IN HUNTINGDON COUNTY.

WHEREAS by an act of the General Assembly of the Commonwealth of Pennsylvania, entitled, *An act to amend an act directing the mode of selling unseated lands for taxes and other purposes*, passed 13th of March 1815, and the other acts upon the subject, the Treasurer's of the several counties within this Commonwealth are directed to commence on the second Monday of June, in the year 1816, and at the expiration of every two years thereafter, and adjourn from day to day, if it be necessary to do so and make public sale of the whole or any part of such tract of unseated land, situated in the proper county, as will pay the arrearages of the taxes which shall have then remained due or unpaid for the space of one year before, together with all costs necessarially occuring by reason of such delinquency, &c. Therefore, I, T. W. MONTGOMERY, Treasurer of the county of Huntingdon, do hereby give notice that upon the following tracts of unseated land, situate as herein after described, the several sums stated are the arrearages of taxes respectively, due and unpaid for one year, and that in pursuance of the direction of the aforesaid Act of Assembly, I shall on MONDAY, THE 8TH DAY OF JUNE NEXT, at the Court House, in the borough of Huntingdon, commence the public sale of the whole or any part of such tracts of unseated land, upon which all or any part of the taxes herein specified shall then be due; and continue such adjournment until all the tracts upon which the taxes shall remain due and unpaid, shall be sold.

T. W. MONTGOMERY,
Treasurer of Huntingdon county.

TREASURER'S Office, April 8, 1874.

The amount of taxes due and unpaid on the following named tracts of unseated land up to and including the year 1872.

Travellers' Guide.

PHILADELPHIA & READING RAILROAD.

WINTER ARRANGEMENT.

NOVEMBER 10, 1873.

Trains leave Harrisburg, as follows:

For New York, at 5.30, 8.10 a. m. and 2.00 p. m.
For Philadelphia, at 5.30, 8.10 a. m. 2.00 and 4.05 p. m.
For Reading, at 5.30, 8.10 a m. 2.00, 4.05 and 7.40 p. m.
For Pottsville, at 5.30, 8.10 a. m. and 4.05 p. m. and via Schuylkill and Susquehanna Branch at 3.00 p. m.
For Allentown, at 5.30, 8.10 a. m. 2.00 and 7.40 p. m.
The 5.30 a. m. and 2.00 p. m. trains have through cars for New York.
The 8.10 a. m. and 2.00 p. m. trains have through cars for Philadelphia.

SUNDAYS:

For New York, at 5.30 a. m.
For Allentown and Way Stations at 5.30 a. m.
For Reading, Philadelphia and Way Stations at 2.00 p. m.

Trains for Harrisburg, leave as follows:

Leave New York, at 9.00 a. m. 12.40 and 5 30 p. m.
Leave Philadelphia, at 9.15 a. m. 3.30 and 7.15 p. m.
Leave Reading, at 4.15, 7.40, 11.20 a. m. 1.50 6.00 and 10.15 p. m.
Leave Pottsville, at 6.00, 9.10 a. m. and 4 35 p. m. and via Schuylkill and Susquehanna Branch at 8.05 a. m.
Leave Allentown, at 2.10 a. m. 12.25, 4.35 and 8.55 p. m.
The 2.10 a. m. train from Allentown and the 4.15 a. m. train from Reading do not run on Mondays.

SUNDAYS:

Leave New York at 5.30 p. m.
Leave Philadelphia at 7.15 p. m.
Leave Reading at 4 15, 7.40 a. m. and 10.15 p. m.
Leave Allentown at 2.10 a. m. and 8.55 p. m.

REGULATOR! REGULATOR!
REGULATOR! REGULATOR!
REGULATOR! REGULATOR!

This unrivalled Medicine is warranted not to contain a single particle of Mercury, or any injurious mineral substance, but is

PURELY VEGETABLE.

For FORTY YEARS it has proved its great value in all diseases of the Liver, Bowels and Kidneys. Thousands of the good and great in all parts of the country vouch for its wonderful and peculiar power in purifying the Blood, stiululating the torpid Liver and Bowels, and imparting new Life and Vigor to the whole system. *Simmon's Liver Regulator* is acknowledged to have no equal as a

LIVER MEDICINE.

It contains four medical elements, never united in the same happy propyrtion in any other preparation, viz: a gentle Cathartic, a wonderful Tonic, an unexceptionable Alterative and a certain Corrective of all impurities of the body. Such signal success has attended its use, that it is now regarded as the

GREAT UNFAILING SPECIFIC

for Liver Complaint and prinful offspring thereof, to wit: Dyspepsia, Constipation, Jaundice, Billiious attacks, Sick Headache, Colic, Depression of Spirits, Sour Stomach, Heart Burn, &c., &c.

Regulate the Liver and prevent

CHILLS AND FEVER.

ISAAC LYNDE,
March4-2mos. Marlboro, Stark Co. O.

TO THE CITIZENS OF PENNSYLVANIA.—Your attention is specially invited to the fact that the National Banks are now prepared to receive subscriptions to the capital Stock of the Centennial Board of Finance. The funds realized from this source are to be employed in the erection of the buildings for the International Exhibition, and the expenses connected with the same. It is confidently believed that the Keystone State will be represented by the name of every citizen alive to patriotic commemoration of the one hundredth birth-day by the nation. The shares of stock are offered for $10 each, and subscribers will receive a handsome steel engraved Certificate of Stock, suitable for framing and preservation as a national memorial.

Interest at the rate of six per cent. per annum will be paid on all payments of Centennial Stock from date of payment to January 1, 1876.

Subscribers who are not near a National Bank can remit a check or post-office order to the undersigned.

Pianos.

PATENT

ARION

PIANO

COMBINES MANNER'S FOUR

SIMPLIFYING PATENTS,

THE MOST VALUABLE PATENTS EVER USED IN PIANO-FORTES.

PATENT ARION.

REVERSED
WOODEN
AGRAFFE.
THE
COMPOUND
REST
PLANK.
THE
FULL
IRON
FRAME.
AND THE
SUSTAINING
IRON
BAR.

A FEW REASONS

WHY THE

ARION PIANO

IS SUPERIOR TO ALL OTHERS:

The ARION PIANO-FORTE has greater power than any other Piano-Forte manufactured.

It will Stand in Tune Longer,

and in its mechanical construction it is more perfect, and, therefore, more durable, than any instrument constructed in the usual modern style.

The arrangement of the Agraffe, the manner of stringing, the peculiar form and arrangement of the Iron Frame

SUPERCEDES ALL OTHERS.

The use of a bar (which is a part of the Iron Frame on a line with the heavy steel stringing,) gives

GREAT STRENGTH

where most needed, and in this respect all other pianoes fail.

The construction of the WREST PLANK, into which the tuning Pins are inserted, is such that it is impossible for the pins to come loosened, or the Wrest Plank itself to split, as is too often the case in other Piano-Fortes.

The Extraordinary Evenness

LENGTH AND PURITY OF VIBRATION,

all go to prove what we claim, viz: that the

ARION PIANO-FORTE

Is the Best Instrument Manufactured.
