A lot of blank School orders on hand and for sale at this office.

No Humbug—Mr. Humphrey's advertisement. Read it, and prevent premature deaths.

Elsewhere will be found the catalogue of Mr. Irvin's sale of household furniture and goods at the late residence of Mr. Swoope.

Marble Yard.—An advertisement in this issue bears witness that Mr. Moore, has opened a marble yard at Luthersburg, where he is ready to fill all orders entrusted to him.

Resigned.—We observe by a correspondence in the *Journal*, that Rev. S. H. Lizzie, Rector of St. Paul's Church at Philipsburg, for two years past, has resigned, with a view of removing to a new field of labor.

Not having room and wishing to settle the carpet business, I will sell the balance of my stock at cost. Persons in need of carpets should make a note of this. Wm. Reed,
Market street, Clearfield, Pa.†

A Large Calf.—We are informed that Mr. Christopher Stafford, of Lawrence township, killed a calf the other day, 19 months old, that weighed, when dressed, 476 lbs. and the hide weighing 56—making 532 lbs. Considering the age, this is some calf.

Bought and Sold.—We learn that Judge Foley has purchased the late residence of Mr. Swoope, on Market street, for $6,000. Having sold his up town residence to Mr. J. P. Irvin, he designs moving to the former in a few days. We are pleased to see the Judge and his interesting family get into such comfortable quarters.

Church Dedication.—We are requested to state that the M. E. Church erected on Karthaus hill, in said township, will be dedicated on the 25th day of December (Christmas) next. Several eminent divines will be present on the occasion. A cordial invitation is extended to the public to come forward and assist in the good work.

The Fright is Over.—The denizens of Powelliton, have been nearly frightened to death for several months past, at a huge Panther (in their imagination,) which had been prowling around among the black diamonds of that village. The pesky animal has been captured, and proves to be a "Thomas"-cat which had taken to the woods to live and hunt his provision.

Farm for Sale.—The advertisement of Mr. Joseph L. Neff, of Burnside, appears in this issue. He offers one of the best arranged farms for sale in the county. Circumstances over which he has no control compel him to offer it for sale. If any of our readers wish a property of this kind, they can find none better or more desirably located.

About the 10th or 15th of December I will open a fine line of goods suitable for the Holidays. Wm. Reed.

Thanksgiving.—This day was very inappropriately celebrated by the great majority of our people. The excessive pride and disrespect for "those in authority" which has invaded society, seems to be sending everything preditionward. Governor Palmer, of Illinois, concluded his Thanksgiving proclamation with this quotation—"When thou makest a feast, call the poor, the lame, the maimed and the blind, and thou shalt be blest." We wonder how many received the blessing in question.

At Work.—Jacob A. Faust and Robert Mitchell, Esqs., Jury Commissioners elect, presented their certificates of election, and were duly qualified on Friday last, and are now engaged in putting the names of 300 jurors in the wheel for 1871, that being the number fixed by the Court. These gentlemen will no doubt make a judicious selection of jurors. Some of their fellow-citizens will no doubt complain because they will be drawn as jurors, while others will become indignant because they are not drawn as such.

The jury wheel reveals the fact that names placed in the wheel six years ago are there still, although thirty odd drawings have taken place within that time.

Lumbermen, Look Here!—Mr. Amos Kennard, of Clearfield, has invented and obtained a patent for what is called the Clearfield Excelsior Canthook. The advantages claimed by the proprietor for this invention over ordinary hooks is, that it "will not wear out or break, being constructed with one solid iron band from clip to point." The hook is made of the best material, and the point being screwed into the handle, can be taken out, sharpened, and re-placed without injury to any part. The major portion of those who have seen this hook pronounce it just what the logging portion of our lumbermen want, and so great is the demand already that Messrs. K. & Co., have made arrangements to have them more extensively manufactured than can be done by hand. See advertisement elsewhere in the Republican.

The Lecture Season.—The Lecture of Du Chaillu, the celebrated African Explorer, in the Court House, on Wednesday evening, was pretty well attended, and as the maiden efforts of the Society proved a success in everything, except financially, which however does not seem to discourage the members, as we understand an effort is being made to engage several prominent lecturers, who will be announced as soon as the proper arrangements can be effected. This is right. The poorest lecture ever delivered is of far more value to any member of society than a mess of oysters, or the guzzling of 50 cents worth of whiskey, or the puffing and squirting of that amount of tobacco. Feed and feast your minds more, and your stomachs less, and you will find yourselves better off mentally, physically and financially.

Another Highway Robbery.—A citizen of this place while at Osceola, on Saturday, met a young man named Hood, who stated that he had been robbed on the public highway in broad daylight, by three men, who assailed him, searched his pockets and relieved him of $75 in money. He stated that the robbery was perpetrated on a road leading from Williamsburg to Altoona, in a narrow pass known as Kettle. The robbers attacked him and one presented a pistol at his head while the other two searched him and despoiled him of his money. His description of the men corresponds with that of the robbers who maltreated and robbed Mr. Shoop of this place of $400 two weeks ago, and it is possible that they were the same.—*Philipsburg Journal.*

Sudden Death—We learn by the Punxsutawney *Philadelphian*, that on Monday last, the 21st, a daughter of Mrs. Weaver, of Troutville, aged about seven years, while playing with some little girls at the school house in that place, was noticed to fall down. Some of her larger companions observing that there was something wrong, picked the little one up to carry her to a house near by, but before reaching it she expired in their arms.

Pittsburg Female College.—The institution whose name heads this item is so widely and favorably known that it is almost superfluous to call attention to it. As many are preparing, however, to send their daughters to school during the winter, and as the selection of a suitable school is one of the most difficult and important questions challenging the attention of parents, we take this opportunity to direct their attention to the Pittsburg Female College. It has almost everything to recommend it. While it has the many advantages offered by citizens only, its admirable location gives it the quiet and retirement of a country village. The buildings are models of good taste, and are fitted up in good style, and with special reference to the comfort of the pupils. Better even than its excellent accommodations, are the ample arrangements for the education of the pupils. No one department is sacrificed to another. The large number of teachers employed—twenty-three—enables the trustees not only to have full departments in the literary course, but special departments for all the ornamental branches. As an illustration we may state the fact that there are four teachers who devote their entire time to Music. Added to all this the charges are not intended to dazzle dunces, and make them believe that the school is good because they pay treble rates, but such as commend themselves to right thinking men. All who have daughters to educate are most earnestly urged to call and make themselves acquainted with the facilities and advantages afforded. The winter term will open December 12th. Send to Rev. I. C. Pershing, D. D., Pittsburg, Pa., for a catalogue.—*Pittsburg Chronicle.*

Wiltberger's Flavoring Extracts are warranted equal to any made. They are prepared from the fruits, and will be found much better than many of the Extracts that are sold. Ask your Grocer or Druggist for Wiltberger's Extracts. BARLOW'S INDIGO BLUE is, without doubt, the best article in the market for blueing clothes. It will color more water than four times the same weight of indigo, and much more than any other wash blue in the market. The only genuine is that put up at ALFRED WILTBERGER'S DRUG STORE, No. 253 North Second Street, Philadelphia. The labels have both Wiltberger's and Barlow's name on them, all others are counterfeit. For sale by most Grocers and Druggists. WILTBERGER'S INDELIBLE INK will be found on trial to be a superior article. Always on hand, and for sale at reasonable prices, Pure Ground Spices, Genuine Medicines, Chamois Skins, Sponges, Tapioca, Pearl, Sago, and all articles in the drug line, at

Helmbold's Column.

THE KIDNEYS!

The Kidneys are two in number situated in the upper part of the loins, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. This frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR RHEUMATISM.

Pain occurring in the loins is indicative of the above diseases they occur to persons disposed to acid stomach and chalky concretions.

THE GRAVEL.

The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROPSY.

Dropsy is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.

Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase in color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise by which the watery or calcareous depositions, and all unnatural enlargements, as well as pain and inflamation, are reduced, and it is taken by men, women and children. Directions for use and diet accompany.

Philadelphia, Pa., Feb. 25, 1867.

H. T. Helmbold, Druggist:

Dear Sir—I have been suffering, for upward of twenty years, with gravel, bladder and kidney affections, during which time I have used various medical preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubeba, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the articles, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use to such affections.

Stumps! Stumps!!

The undersigned has purchased the right of Clearfield county for Enoch Farnsworth's Stump Extractor, patented June 7th, 1870.—This is decidedly the most convenient, most durable, and best machine of the day. Wet weather will not affect it, the working part being all of iron. The machine is easily set up, and will work any place that can be plowed. We will sell machines at a small profit on cost, and will try to make it to the advantage of farmers to buy them. We solicit orders from those wanting machines.
