Our *Special* column is decidedly interesting in a local point of view, and profitable reading to outsiders who want to save money.

The Missionary collections in the Central Pennsylvania M. E. Conference, last year, were $18,600.39.

The Huntingdon Presbytery will meet at Bell's Mills, Blair county, on Tuesday next, the 11th day of April.

How many of readers are in favor of planting trees by way of recognising the Centennial year? Next month is the time.

The guarantee that Wanamaker & Brown give is not a mere nominal thing, but a signed contract protecting those who buy at 6th and Market streets, Philadelphia.

The Board of Bishops of the Methodist Church recommend Friday, April 28th, as a day of fasting and special prayer to God for His blessing on the General Conference, to assemble at Baltimore in May next.

The Altoona Opera House was sold by Sheriff Bobb, a few days ago, for $21,000. It was purchased by R. Bruce Petriken, Esq., of Huntingdon, for a Mr. Watson, who held a mortgage against it for over $20,000. It originally cost about $48,000.

H. F. Naugle and Robt. A. Mitchell, two of Clearfield's most respected citizens, leave this week, with their families, for Wood county, Ohio, where they intend to reside in the future. We trust that prosperity and plenty will ever abound with them at their new home in the Buckeye State.

The trial of Henry Anderson, night-watchman at Hawes' Cement Mill, near Johnstown, who was indicted for manslaughter, for shooting and killing young Kirby, on account of which we published shortly after it occurred, took place in the Cambria County Court last week, and a verdict of "Not guilty" was rendered by the jury.

NEW CLOTHES ON.—That new municipality, hereafter to be known as the borough of Newburg, it will be observed by referring to our fourth page, has put on its legal robes and proclaim the ordinances by which public affairs are to be regulated in that village. Our friends will soon learn, if they are not aware of that fact already, that it is far easier to pass ordinances than to enforce them.

At the late session of the Central Pa. Conference, the following persons were elected delegates to the General Conference to be held at Baltimore, in May next:
Clerical—David S. Monroe, N. S. Buckingham, Thomas Mitchell, B. B. Hamlin, F. B. Biddle; Alternates, T. M. Reese and Dr. Holmes.
Lay—H. B. Mosser, of New Cumberland, and M. W. Jackson, of Berwick; Alternates, Hon. Eli Slifer, of Union county, and Jonathan Boynton, of Clearfield.

COMPREHENSIVE CONFERENCE COLLECTIONS—The report of the Treasurer of the M. E. Central Pa. Conference Missionary Society, shows that the collections during the past year for that purpose were:

Williamsport district	$ 3,166 56
Danville "	5,548 80
Harrisburg "	4,669 18
Altoona "	3,607 01
Juniata "	2,878 34
Total	$19,869 89

The Danville district has increased its collections over last year $247.95. The decrease in the other districts is $747.70. The average per member in the whole Conference is 55 cents.

We understand that considerable complaint is being made about the removal of the Postoffice from Rumbarger, the citizens of that village being now obliged to travel a distance of about a mile to get their mail. The office was formerly in the village, but is now at the store of Mr. John DuBois, which is said to be at least one mile from the business-centre of the place. That is the way the wonderful Jewell who runs the Postoffice Department of this, the "best Government under the sun," does things. The petition for the removal does not contain the name of one resident of Rumbarger, but was gotten up by the few who live in the vicinity of DuBois' store.

ANOTHER SPAR RAFT.—Philip Dotts, Esq., of Beccaria township, informs us that he has a raft of spars lying in Little Clearfield creek, at David Cathcart's, in Knox township, which beats the one belonging to Mr. Harter, at Cherry Tree, mentioned in these columns two weeks ago. The largest stick in Mr. Dotts' raft is ninety-two feet in length, forty-four inches in diameter twelve feet from the butt, and thirty inches at the top. Five other sticks measure thirty-five inches in diameter at the butt, and are from ninety to ninety-five feet in length. The average diameter of the entire raft, of twenty sticks, is thirty-three inches at the butt. This beats all the spars that we have ever heard of. And now, who can beat Mr. Dotts' raft?

AN AWFUL ACCIDENT—*Four Men Killed!*—Last Friday morning, Sandy Ridge was the scene of the most disastrous calamity that has ever occurred on the Tyrone & Clearfield Railroad. While a train of twenty-six coal cars was being moved up the mountain by three engines—one ahead and two pushing—the front pusher, engine No. 91, exploded, killing the engineer, James Campbell, instantly, and fatally scalding the fireman, Harvey Waters, who died the next day. Waters was badly scalded about five years ago by an accident, which occurred near this place. At the time of the explosion, John Shannon and Wm. Miller, two trakemen, were sitting on one of the cars eating their breakfast, when a portion of the engine fell upon them and killed them instantly. The explosion caused the rear end of the boiler to blow out, and raising the huge engine up in the air, it was carried forward over one hundred feet, when it fell upon the two unfortunate brakemen, killing them and demolishing the car they were in. The deceased all have families at or near Tyrone, where they resided.

ENNOBLING THE INNOCENT.—The following is a copy of a lithograph letter, which, emanating from Philadelphia parties, calling themselves Hayes, Arlington & Brother, has been sent to the address of young girls in all parts of the State:

Nice ——— ———!

"Our agent has been through your city this month, sent specially by us to gather the names of suitable young ladies, to whom we propose to give employment for at least four months during the coming Summer. We, of course, want comely and respectable-looking people, and your name is on our agent's report. We have been selected by the Centennial Committee to engage for them at least two hundred young ladies for the purpose of attending to the flower-stands, act as cashiers in the several refreshment departments, sell tickets for the grand elevator, take charge of newsstands, sell pictures, guide-books, &c., attend to ice-water fountains, and many other light and respectable situations. Besides paying you well, say from $8 to $15 per week, including your meals, you will have a fine opportunity of seeing the Grand Centennial Exhibition every day. You will, therefore, see the necessity of replying early, as we want to engage every body we want by the middle of April, and have them thoroughly drilled and posted by the time the Exhibition opens. We have decided to select young ladies from out of town, because the neighboring cities should be benefited as well as Philadelphia. Of course, your parents will object to your leaving home. If so, tell them, let best for you to say nothing about this until you are here, and then write to them. However, you can do as you please about that. We would like to have you here by the 15th of April. Answer immediately, when we will send you a letter of instructions how to come to Philadelphia, how to see us, and how to proceed. Your wages will be decided on after you come, and paid to you in advance for the first four weeks, commencing the day after you get here."

The ultimate object of these false promises needs no explanation, and it is to be hoped that both parents and children will be on their guard.

Another mode of catching the unwary is set forth in the following advertisement, now being published in the daily papers:

WANTED—50 ENERGETIC MEN—To attend stands at an improved novelty at the Centennial, for which liberal wages are offered. Address with particulars and reference, enclosing 20 cents for correspondence with reference, &c., ——— ——, Brokers, No. — Bowery, New York.

We hope that none of the readers of the REPUBLICAN are verdant enough to be caught by such this rehearse as these. We warn all to beware of sharpers and pick pockets during the progress of the great Exhibition.

STEAM TANNERY BURNED.—The large steam tannery at Philipsburg, operated by Messrs. White & Son, was destroyed by fire on Wednesday night of last week, the 29th ult. This establishment was built in 1870, and was leased by Messrs. W. S. White & Son, who were burned out at Osceola in May last. Their loss is estimated at $38,000, upon which there is an insurance of $24,000. The loss of the owners, Messrs. Munson, Holt & Co., is set down at $45,000; covered by an insurance of $24,000. The destruction of this industrial establishment throws over a score of men out of employment. How the fire originated, no one seems to know. When discovered by the watchman, the engine house was in full blaze, so that he was unable to reach the whistle and give the necessary alarm for help. He was either asleep, or not attending to his business. The Philipsburg *Journal*, in alluding to the disaster, says: "The tannery was built by Messrs. Munson, Holt, White & Co. in 1870, and was one of the largest in Central Pennsylvania, having a capacity of 30,000 sides per year, and consisted of a main building 45x210, a leach house 25x130, and a rolling house about 20x50. It contained one hundred vats, ten large leaches, two bark mills, and was fitted throughout with the most approved arrangements and mechanism known to the business, and was erected at a cost of $45,000, for buildings and machinery alone. White & Son own all the bark, 1,600 cords, worth $10,000, all of which was saved, and had 3,400 sides of leather in the loft, every side of which was burned. Of 800 rolled (finished) sides ready for shipping, only about 100 were saved. There were 13,000 sides in the vats and pools, which will be damaged to a greater or less extent. The liquor did not escape from the vats, and the sides will not be damaged so much by the heat—except a few near the top of the vats—as by the arrest of the process of tanning and the staining of them by removal to some other tannery to be finished. A new bark mill had been put in on the day of the fire. Two cars loaded with bark, which were on the track between the leach house and the loft, could not be reached and were burned."

SUPERVISORS, LOOK HERE!—We call the attention of Supervisors, and the public generally, to the 53d and 54th sections of the act of Assembly, approved the 13th day of June, 1836, (Purdon's Digest, vol. 2, page 1,279) which reads as follows:

"The Supervisors of every township shall cause posts to be erected at the intersection of all public roads within their respective townships (where trees are not convenient) with boards firmly fixed thereon, and index-hands pointing to the direction of such roads; on which boards shall be inscribed, in legible, legible characters, the name of the town, village, or place, to which such roads may lead, and the distance thereto computed in miles.

"If any Supervisor shall, after ten days personal notice, neglect or refuse to put up or keep in complete repair, index-boards as aforesaid, such Supervisor shall, for every such offence, forfeit and pay a sum not exceeding ten dollars."

It is well known that this duty is greatly neglected by Supervisors. We know that at many of our cross-roads in this county, no guide-boards are to be seen. In some of the townships, this duty is almost wholly neglected to the great annoyance of strangers and the traveling community. If the above sections of the law were fully carried out, much time and annoyance would be obviated by both travelers and resident citizens.

SUDDEN DEATH.—David Shadle, of Buffalo Run, Centre county, says the Bellefonte *Republican*, of last week, was found dead in his stable last Friday morning. He had eaten his breakfast apparently as well as usual, and went to the barn to feed his cows. As he did not return, his son Joseph went out to see what detained him and found him dead as above described. He was a man about 65 years of age, and had been an industrious, hard-working man all his life. Wherever he has worked it has always been said of him that he would perform as faithful a day's work as any man in the county. He never slighted anything. When such a faithful, honest worker is taken out of any community it is a real loss; not only to the friends and relatives who love him, but to the community in which he has lived and labored. About two months ago his wife died.

W. H. Swartz, local editor of the Hollidaysburg *Standard*, was taken to the Insane Asylum at Harrisburg, a few days since, for treatment. His derangement is the result of a recent severe illness. It is hoped that it is but temporary, and that his reason will be speedily restored.
