SATURDAY, FEBRUARY 28, 1891.

Bona Fide Circulation Larger than that of any Weekly Newspaper in the County.

WITH OUR last issue we cut from our subscription lists the names of thirteen individuals who have proven to be just so many genuine dead beats. We keep their names for future reference.

COUNCIL must talk about
Market house,
Hose house,
Park improvement,
Better pavements,
Electric lights.

THE EXTENT to which trusts presume in their repacious greed to secure control of private enterprise is elucidated quite clearly in the case of the Whisky Trust, a Western excrescence, whose secretary is now under bonds awaiting trial for conniving to destroy the property of a Chicago concern refusing to co-operate with the Trust. The law wants to come down quite emphatically on such fellows. They are as bad, if not worse than anarchists!

THE people want to agitate
Two wards,
Establishment of industries,
New depots,
Electric lights.

THE BODY of William Tecumseh Sherman was laid at rest with his kindred in Calvary Cemetary, St. Louis, Saturday, just where the walk of the Holy Rosary and the way of Bethany come together. The pageant, the final service, the grave were all in harmony. General Sherman's desire that his obsequies should be of a millitary character were obeyed to the letter.

SECRET SOCIETY GOSSIPS

A camp of the Sons of Veterans is being organized in Bethlehem. On the charter list already there are 40 names.

At Thursday's meeting of Lehigh Council Jr., O. U. A. M., five new members were initiated into the mysteries of the order, which now number between 175 and 185.

A State Convention of the Commanderies of the Patriotic Order Sons of America is in session in the Elk's Hall at Reading, John P. Mast, State Commander, called the body to order. Fifty delegates are in session from different parts of the State. A constitution, rules and regulations will be adopted, and the organization of a State Commandery independent of the National Camp effected.

Adam was the first Odd Fellow, and he remained so till one Eve came to be Adams' Express Company. Before this he must have had a lonely time of it—had to be N. G., and all the other offices, but never lacked a quorum or got into a wrangle. He never sighed for "a lodge in some vast wilderness," for he wanted the whole business for himself. He had to surrender, though, when Eve was Able to present him with a Cain, and since then many new members have been added to the Order.

NOW PROGRESS.

We briefly called attention in our late issue to the fact that the new Burgess and also the new Council had been elected on the improvement platform. We hope they won't overlook the matter. We are, in fact, we have entered an era when the future of the town entirely depends upon the enterprise, push and business sagacity of the gentlemen who rule the interests of our municipality. If they prove to be liberal in their views and enterprising in their efforts, Lehighton will amount to something, if they prove the reverse we can expect to continue on in the old rut that has been the means of stigmatizing our town as slow and pokey. We believe things will change, and with that belief offer the following program at this time to the consideration of the Councilmanic body:

Electric lights,
Hose house,
Market house,
Better pavements,
New ordinances.

RAILROAD GOSSIP

—The railroad boys had a rest this week owing to the non-shipment of coal.

—To make this department more entertaining we solicit the railroad boys to hand us any item of importance coming to their notice.

A number of Lehigh Valley passenger cars are daily sent to Sayre, Pa., to be repainted. They are taken thither on the through freight trains at night.

—According to latest statistics the whole number of men employed by the 2,750 railroad companies in the United States, number some where in the neighborhood of 704,753.

The Baldwin Locomotive Works have just completed four locomotives, which are believed to be the heaviest ever built. They are for the St. Clair Tunnel Company, and will be used in the tunnel under the St. Clair River.

The new pattern of passenger cars recently adopted by the Lehigh Valley Railroad will doubtless be appreciated by the traveling public. They are remarkably handsome and equipped with all the modern appointments, affording a seating capacity for seventy-two persons.

The Central Railroad of New Jersey has ordered 15 new passenger and freight engines from the Baldwin Manufacturing Company, to be delivered within a few weeks. The engines are necessary on account of the increase of spring shipment of goods, which compels the company to increase its motive power.

The Maryland Central Railroad Company is endeavoring to close an agreement with the Lehigh Valley Company to meet the latter at Tremont, eleven miles west of Pottsville, perfecting a short and southern outlet from the coal fields through Lebanon, Lancaster and York counties.

The agents and messengers of the United States Express Company have been notified that on and after March 1, 1891, all employes will be obliged to give security for the faithful performance through the company's own security company, which has been organized under the name and title of the "United States Express Bond Company."

A Rare Opportunity.

Rishel, the photographer, will take you sitting for a photograph FREE OF CHARGE if you desire to have the picture enlarged and leave the order with him. This is an usual opportunity and you should take advantage of it.

ANNUAL STATEMENT OF THE RECEIPTS AND EXPENDITURES OF CARBON COUNTY FOR THE YEAR ENDING DECEMBER 31st 1890.

GEORGE DOLAN, Treasurer.
