and State institutions, if they are to be preserved at all. Do not further verify the old maxim of 'Whom God intends to destroy he first makes mad.' That the cordial co operation of the supporters of Breckinridge, Douglas and Bell might have prevented the triumph of Black Republicanism, and may hereafter render its triumph transient and inocuous, no observing man can doubt. Why, then, not labor to bring them together instead of thrusting them further apart? Is the new-fangled dogma on which the Charleston Convention split, or any theoretical claim to the right of secession, of more importance than the preservation of the Union, the Constitution, the peace, the happiness, the prosperity and the glory of the country, hitherto unequalled by those of any other people on the face of the earth? or shall Black Republicanism at the North and secessionism in the South be allowed to cut asunder our bond of union and divide us into hostile States, occasionally drenching our now joyous fields in the blood of their cultivators? Any man who thinks this Union can be peaceably broken up, or, if it could, that peace could always be maintained between the fragments, shuts his eyes to the events of our own age and is deaf to the lessons of history.

$1 per annum in advance---$1 50 at end of six months---$2 at end of year.

Papers sent out of the County must be paid for in advance.

☞ The subscription of those out of this county to whom this paragraph comes marked, has expired, and unless renewed will be discontinued.

We have also set a limit in Mifflin county, beyond which we intend no man in future shall owe us for subscription. Those receiving the paper with this paragraph marked, will therefore know that they have come under our rule, and if payment is not made within one month thereafter we shall discontinue all such.

Abraham Lincoln
PRESIDENT
by the will of the People,

And the Republican Party, according to Webster's Dictionary, the

Democratic Party!

The returns, per telegraph, sum up as follows; we give them without vouching for their authenticity:

FOR LINCOLN:

	Majorities.	Electoral Votes.
Pennsylvania,	7,000	27
New York,	65,000	35
Illinois,	25,000	11
Indiana,	30,000	13
Ohio,	40,000	23
Maine,	8,000	8
New Hampshire,	5,000	5
Massachusetts,	75,000	13
Connecticut,	7,000	6
Rhode Island,	3,000	4
Vermont,	30,000	5
		150

Necessary to a choice, 153.

To the above may be added Iowa, Wisconsin, Michigan, and Minnesota.

Our returns in this State are rather meager, politicians being apparently more concerned in others than our own. The following are reported majorities for Lincoln:

Erie,	4000
Allegheny,	9800
Huntingdon,	1500
Westmoreland,	100
Mifflin,	400
Lancaster,	7500
Dauphin,	1,800
Centre,	700
Philadelphia,	7,700
Franklin,	1,100
Susquehanna,	2000
Carbon,	150
Lycoming,	600
Lebanon,	1,600
Snyder,	650
Schuylkill,	1,500
Berks,	67
Union,	1000
Luzerne,	500
Chester,	3000
Delaware,	1,200
Blair,	1,300

These returns do not state whether the majorities are only over the Reading ticket, or over that and the Douglas combined.

New Jersey has probably gone fusion.

Delaware gives Breckinridge a majority of 1000.

Maryland is in doubt between Breckinridge and Bell.

Virginia is believed to have gone for Bell.

Missouri has probably been carried for Douglas.

New York city gives the fusion ticket 27,500 majority.

Baltimore city gives Breckinridge 2000.

Kentucky and Tennessee are claimed for Bell.

North Carolina probably Breckenridge, as also Georgia, Alabama, Mississippi and Florida.

South Carolina has gone for Old Nick.

Michigan is reported to have given Lincoln 25,000 majority.

The Presidential Vote of 1856.

There are many inquiries in regard to the Presidential vote of 1856. At this juncture the subject is certainly one of interest, and in order that our readers may be properly advised on the subject, we give the following table:

	Fremont.	Buchanan.	Fillmore.
Alabama,	—	46,739	28,602
Arkansas,	—	21,910	10,787
California,	20,691	53,203	36,115

Total,	1,341,264	1,838,169	874,534

Buchanan's majority over Fremont was 486,905, but the vote of Fremont and Fillmore united was 376,629 over that of Buchanan, so that the latter is a minority President by over three hundred thousand on the popular vote.

The writer of this article has an abundant opportunity to learn the true state of feeling among our Southern brethren, and we say in all candor and honesty, we believe that *the men who vote for Abraham Lincoln will (in the event of his election,) have blood to answer in less than one year from this date.*—*Lewistown Democrat.*

Among all the political trash published in the so-called democratic newspapers during the present campaign, we believe the above is one of the most atrocious, as showing to what length northern men with southern principles will go in sustaining a band of disunion traitors at the south whose whole aim and object seem to be the dismemberment of this country. According to the Democrat's reasoning, if Yancy, Wise, Rhett and other disunionists raise the standard of rebellion and treason, and blood is shed in the attempt to put down these traitors, those who voted for Abraham Lincoln will have to answer for it! Comment on such an absurdity is useless; but we say this to the writer—it had better been left unwritten and unpublished, for it may yet rise in judgement against him in an hour which will surely come, when the American people will execrate every man connected with the present foul scheme to dissolve the Union, and consign their names down to that lower depth which has only been reached by one man, Benedict Arnold.

☞ We commend to our readers the letter of Amos Kendall, the confidential friend of Gen. Jackson and one of his Cabinet officers, who in his old age has deemed it his duty to rebuke the disunionists, whom he deservedly holds up as the same clan who attempted nullification in 1833. He also gives a lucid exposition of the rights of States to secede, as is now claimed by Southern fanatics, and shows that any such attempt will be treason.

FROM EUROPE.

We have news from Europe by the Adriatic to the 25th ult. Garibaldi had entered Capua, and Lamoriciere was to return to France. There was a statement that the ambassadors of Prussia, Spain and Portugal were about to leave Turin. Victor Emmanuel was to enter Naples on the 28th of October. The Pope had assured the French Minister that he had no intention of abandoning Rome. It was semi-officially stated in Paris that Napolean would preserve the policy of non-intervention in Italy. The Emperor of Austria was lightening the burdens of his Hungarian subjects, and had made important concessions to the people of that country. Representation was accorded to all classes, and the system of personal service to landlords abolished. The charter had been favorably received, the Hungarian Diet was to be convened, and the Emperor crowned King of Hungary.

An abstract of the advices of the Persia, two days and a half later than those furnished by the Adriatic, have been received from Cape Race, which point was passed by the Persia on Saturday. Italian affairs were unchanged. The much-dreaded conference of the sovereigns at Warsaw had adjourned. There were many rumors of an unreliable character in circulation relative to its deliberations and their effect on European affairs, but none of them were worthy of credence. It was said that the principle of a European Congress had been agreed upon. There was also a statement that Austria had invoked the meditation of France for the peaceable solution of the Italian question.

Long Walks to an Ecclesiastical Meeting.—The Dubuque Herald says that some of the ministers who have arrived at Dubuque to attend the Methodist Conference, made the journey on foot, some as far as *one hundred and fifty miles!*

AFFECTION AMONG ANIMALS.—During a walk recently on one of the ridges in this neighborhood—we shall not say where, for if we did there would be at least a dozen men and boys with guns and dogs after the animals in a few hours after the appearance of our paper—our old dog, who has still a habit of nosing up game, attracted our attention towards a laurel bush, and a moment after a partridge flew one way and a rabbit ran another, the two having nestled together in a clump of leaves. Bob White no doubt had lost his mate, perhaps the rabbit the same, and thus the two found solace in each others company. May they long live to enjoy their friendship.

RISE IN THE RIVER.—The Juniata commenced rising on Saturday evening, and quite unexpectedly had reached a high stage on Sunday morning, covering the towpath below town and flooding most of the gardens back of Elizabeth street. The team of a boat, in attempting to come up to town, missed the tow path and with the driver plunged into the canal, but were all got out in safety on the berm side. The Lewistown mill property sustained considerable damage by the flood, most of the repairs made during the summer, to replace injuries sustained by the high water last spring, having been destroyed. Notwithstanding the day, quite a number were engaged in securing driftwood, which for a time came down the river in large quantities.

MIFFLIN COUNTY.—The reported returns from this county are as follows:

As far as returned there were 22 straight Douglas votes in the East Ward, 12 in West Ward, 5 in Granville, and 5 in Derry.

11 Bell votes in East Ward, 9 in West Ward, 2 in Granville, 4 in Derry, 5 in Brown, and 1 in Union.

THE LATEST RETURNS.—Another new and complete stock of Winter Dress Goods for Ladies and Gents just received from the Eastern cities by B. K. Elroved, agt. He extends an invitation to all purchasers after examining all other stocks in Lewistown, to call and see the difference in *styles and prices.* Goods will be sold for cash or country produce. Call all and see.

John Kennedy & Co. have made arrangements with the Carbon Oil Works to sell their superior Carbon or Coal Oil, and will constantly have on hand a large stock, to supply the trade. The oil is entirely free from offensive odor and smoke, will burn 50 per cent. longer than all the Cry-tal or Diamond Oils offered, is warranted to give satisfaction, and will be sold at the lowest Philadelphia price.—Give it a trial and you will not be disappointed.

Centre County.

A child of R. H. Crosthwaite, who resides near Bellefonte, came near being drowned by falling into a cistern that had been left open by some person connected with the premises. The child was rescued from its perilous situation by the aid of a long pole.

The youngest child of Col. W. W. Brown one day last week escaped from the house, and was making its way across Allegheny street, Bellefonte, when it was run over by some countryman, who was driving a blind horse attached to a buggy. The wheel of the vehicle passed over the right side of the child's face, doing its jaws and neck considerable injury and then passed on to its left shoulder, breaking its collar bone in three places. Though in a critical condition at first, hopes are now entertained for its recovery.

Married, on the 11th ult., Daniel Stover and Mrs. Lucy Ann Smith, all of Buffalo Run. On the 18th ult., William L. Kreps to Miss Christiana Benner, all of Ferguson township. On the 25th ult., J. S. Barnhart, Jr. Editor of the Democratic Watchman, to Miss Mardie G. Durst of Penns valley.

Married, on the 11th, D. D. Stone, of New York, and Bell Patterson, of Peru Mills, Juniata county.

On the 18th, Severius Cummings McFarland and Miss Leah Jane Kinser, both of Fayette township.

On the 25th, Christian G. Shelly, of Delaware township, and Miss Sarah Benner, of Snyder county.

On the 23d, John D. Milliken to Miss Clara J. Burchfield.

On the 24th, Col. John P. Quick, of Delaware township, to Miss Mary Willison, of Pittsfield, Massachusetts.

On the 28th, John Etka and Miss Euphemia Ann Shively, both of Mifflintown.

Died, on the 24th, in Patterson, Maggie Groninger, aged 2 years and 7 months, and on the 26th, David Groninger, aged 3 years, 11 months and 3 days.

On the 17th, at Petersburg, Huntingdon county, Maquilla Burr Shumaker, of Tuscarora Academy, aged 5 years, 7 months and 8 days.

Huntingdon County.

Wm. H. Armstrong, Engineer of the passenger train that killed two men and wounded a third, in Huntingdon, on the night of the 27th September, and for whose arrest a warrant was issued, voluntarily surreadered himself on Tuesday of last week. He gave bail in the sum of two thousand dollars for his appearance at the next Quarter Sessions, and was discharged.

On the 25th, Wm. B. Culp to Miss Emma Brisbin, both of Alexandria.

Godey's Lady's Book.—The December number is already upon our table, filled with beautiful plates and interesting reading matter. The new volume commences with January, and we should like to forward at least a dozen names for the Book. Persons desiring it will leave their names with $2 at the Gazette office. The plates alone are worth more than is asked for the whole Book.

The Ladies' Home Magazine for November surpasses, in richness and interest, all previous numbers. It denotes prosperity, and most certainly deserves it. T. S. Arthur and Virginia F. Townsend could get up an attractive book themselves without the assistance of their able corps of contributors. Price $2 per annum, or still less by calling at the Gazette office.

Card and Circular Printing.

We have now in operation a card press and are prepared to print Cards, Circulars, Bill Heads, back Envelopes, &c. in any quantity.

STARTLING BUT TRUE!

Make Way for the New Philosophy.—It is the weakness of small minds to reject new systems, simply because they are startling. They forget that apples had been dropping to the earth for 6,000 consecutive years under the noses of philosophers as well as fools, before Newton deduced the theory of gravitation from the fall of a pippin. Is there anything irrational, then, in supposing that Thomas Holloway, a man of deep research and strong practical intellect, may have discovered and applied successfully the natural antidotes to a large proportion of human diseases? Let it be remembered that for many years this indefatigable student, shrouded in the fumes of his laboratory, was engaged in pharmaceutical experiments, all directed to the great object which he claims to have attained. Nature is a strict custodian of her mysteries, and only discloses them when enforced by indomitable energy and perseverance. While the disciples of old and effete medical theories were following the beaten track of routine, he struck out a new path, and founded a new system of treatment. What has been the issue? Ask the world for nearly half its inhabitants have endorsed his remedies. Besides the name that authenticates his Pills and Ointment, it may be said that the broad seal of public approval is affixed to them, and that the certificate of their infallibility bears upon its face every written language in existence. Simple facts are the only admissable testimony in a matter which involves health and life—and the facts that go to establish the curative properties of these preparations are overwhelming. Of the suffrom dyspepsia, liver complaint, debility, scrofula and almost everp species of febrile, cutaneous and glandular disorder—"a multitude that no man can number" have cordially approved them. Surely, those who have recovered under the operation of the medicines, are the most competent judges of their virtues, and we acquiesce without hesitation in their decision.—*Leeds "Mercury."*

Holloway's Pills—Unnecessary Torture.

Palpitation of the Heart.—The bleeding, blistering, salivating and torturing method of the modern treatment of disease tends to the destruction rather than the preservation of human life. Physicians have a certain routine prescribed for their *modus operandi* from which there is no departure; the laws of the Medes and Persians were not more immutable than the dicta of this Draconian Code that confines men to peculiar doctrines on penalty of excision. Untrammeled by particular rules, Holloway's system on the contrary is based on the simple laws of nature. Palpitation is often the effect of indigestion, disorders of the stomach or nervous affections. By their action on the stomach and nerves the Pills remove the cause and effect a radical cure.

Reduced by Dyspepsia to a mere Skeleton.

Cured by Boerhave's Holland Bitters.—Mr. A. Matchet, a trader, probably as well known as any man in Western Pennsylvania, states as follows:—I met with a farmer in Armstrong county who was reduced by dyspepsia to a mere skeleton. I persuaded him to buy a bottle of Boerhave's Holland Bitters, believing it would cure him. Meeting him some months after, what was my astonishment at finding him a hale, hearty man; he told me he now weighed 200 pounds, and that this wonderful change had been produced by Boerhave's Holland Bitters, to which he attributed solely his restoration.'

Coughs and Colds! Coughs and Colds!

Seasonable Advice.—Let no one neglect a cough or slight cold. Thousands, doing so, have had one cold added to another, until the mucous membrane, lining the air passages, has become excessively irritated, and even permanently thickened, and soon chronic cough, chronic pneumonia, and consumption successively gallop along. The best time to cure all this is when it begins. If you are so fortunate as to possess a case of Humphrey's Specific Homeopathic Remedies, and if you do not, you ought to at once take a Cough Pill, and then two or three pills per day, with care as to recent exposure, will bring you all right in a day or two.

If your cold has got further along, then more care and more patience is necessary for a cure, though it lies in the same direction. Our advice is to keep the feet warm, the head cool, and take Humphrey's Homeopathic Cough Pills.

Price, 25 cents per box, with directions. Six boxes, $1.

N. B.—A full set of Humphreys' Homeopathic Specifics, with Book of Directions, and twenty different Remedies, in large vials, Morocco case, $5; ditto in plain case, $4; case of fifteen boxes, and Book, $2. Single boxes, 25 cents and 50 cents.

These Remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address

Novelty in the Art World.
Photography on Porcelain.

Secured by letters patent in the United States, England, France, and Belgium.

The American Photographic Company,

No. 781 Broadway, New York,

having secured their novel and ingenious invention by American and European patents, are fully prepared to execute all orders for

Miniature Likenesses of Persons on China,

presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a water-color drawing, and a hitherto unattained quality of durability, by being rendered as imperishable as the natural properties of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of Photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity—Portraits can be reproduced with faultless accuracy, and delicacy of delineation, upon Porcelain wares of any description and dimension used as articles of luxury or household utility, such as

Urns, Vases, Breakfast Cups, Toilet Articles, &c.;

thereby securing faithful portraits and furnishing a unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the Fine arts desirous of having Portraits on Porcelain, the company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they sell at cost prices.

As the American Company are the owners of the patent right, and consequently the only persons authorized to use the process, they have determined, in order

To afford people in every section of the Union an opportunity to possess Portraits on China, to make the following proposition to

Residents in the Country who are unable to visit personally the Atelier and Galleries in New York.

Persons sending a photograph, ambrotype, or daguerreotype to the office of the company in New York, accompanied by five dollars, will receive in return by express, free of other charge,

A richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerreotype and ten dollars, they will secure in like manner,

A handsome French Vase or Toilet Article, with the portrait reproduced by the patented process. By sending a pair of daguerreotypes and fifteen dollars, they will receive in return

A pair of rich Sevres Vases,

with the portraits executed equal to miniature paintings; and, in like manner, portraits can be reproduced on porcelain wares or Vases of every quality or finish, ranging in price from twenty to one hundred dollars the pair.

N. B.—be particular in writing the address, town, county and State distinctly.

Cairo, Illinois, July 29th, 1860.

Messrs. John Wilcox & Co.:

Your "Impectine," or "Persian Fever Charm," has done wonders. I was wholly despondent and wretched when I applied it, and in five hours the chills were removed and no fever has ensued. It is the simplest cure imaginable, and a wonder of nature and art. I would not be without this "Impectine" a single hour. By constantly wearing it I seem to be "ague proof."

Yours Very Truly,
E. M. STOUT.

Mobile, Alabama, July 23d, 1860.

GENTLEMEN:

I have been snatched from the grave by the application of your "Infectine," or "Persian Fever Charm." For several years I have suffered every season from fever and ague. Last spring my life was threatened, but your remedy has destroyed the disease, and I am rapidly gaining an appetite and strength.

Respectfully, Yours,

TAKE NOTICE.

THE Coal Oil we now offer to the public is the same that has been selling at $1.00 to $1.25 by other parties, who as soon as they found we had agency for the same oil, thought it best to make arrangements to try and undersell us; but we assure our friends and the public that our oil is as good, if not superior to some that has been sold, as any one can see by a fair and impartial trial. We are prepared to sell as low as the lowest and warrant our oil to be what it is represented. We also have the Portland oil, a very superior article, low to the trade. Carbon Oil at 80 cts. per gallon—a liberal discount to the trade.

JOHN KENNEDY & Co.
