The Daily Morning Post.

PITTSBURGH, November 7th, 1848.

☞ The Merchant's and Manufacturers' Bank has this day declared a dividend of four per cent. on the Capital Stock, out of the profits for the last six months.
nov9 W. H. DENNY, Cashier.

☞ A cough should never be neglected. It may appear trifling and unworthy the attention at first; but it will not remain stationary long: it may progress slow at first, and its augmentation may be scarcely perceptible; yet when it once seizes the lungs, all the other parts of the body will be sympathetically affected, and a confirmed Consumption and premature death will be the inevitable result. A little care would save many a life, and be timely use of a proper remedy might have arrested many a consumption. But many persons have an invincible repugnance to taking any medicine, and rather than use the means towards arresting a disease, simply because the remedy is not be a pleasant one, would suffer and languish for a long time, before they would resort to the aid of medicine.

B. A. Fahnestock's Cough Balsam has a great advantage in this respect over many other Cough preparations, as its pleasant taste permits it to be used without inconvenience. But its value as a Balsam consists in the speediness of its cure. We have known some of the most desperate coughs, some of which had been running on for a considerable length of time, yield almost immediately to its power.

☞ Since the invention of Clickener's Sugar-coated Vegetable Purgative Pills, the mystery which formerly hung over disease has been entirely dispelled. The cure of those complaints which originate in impurities of the blood, derangement of the organs of digestion, or obstructions of the insensible perspiration, has now become an every-day affair, and people do not mind being sick, if it is only for the pleasure of getting well again. This is owing entirely to the peculiarly agreeable flavor of the Clickener Sugar-coated Vegetable Pills, and the pleasantness, as well as certainty of their operation; the former being a natural consequence of the coating of sugar, and the latter being attributable to their entire freedom from griping or nausea. Besides, it costs nothing for trying the experiment, as the inventor pledges himself to refund the money in case they do not afford the necessary relief. What stronger inducements can the public desire? They are constantly trying other remedies with a certainty of losing their money in a case of failure, and thousands of dollars are annually expended to no effect. Then do not hesitate to try the Clickener Sugar-coated Pills. The chances are two to one in your favor.
