Contrast Between a Monarchy and a Republic.

The arrival of the President's Message in London, has called forth the following observation from a Democratic journal, the *People's Paper*, edited by Ernest Jones. The contrast between the English Monarchy and the American Republic must strike with force the most superficial reader:

"Here we have an old monarchy with a German Royal family, costing one million pounds per annum:—a national debt of 800 million pounds sterling, costing 28 millions per annum, and entailed by that German royal family, through German wars, for German interests; a hereditary landed aristocracy, drawing a rental of 100 millions yearly, from the people: a State Church, robbing the same people of 11 millions more every year; a poor rate equal to the revenue, and a pauper population equal to the inhabitants of some convenient kingdoms—and debt, royal extravagances, pauperism, poor-rates, taxation, and land rental increasing constantly. This is what we have here.

On the other side of the Atlantic, there is a young republic, with a native President, who costs only £5,000 per annum: a national debt of only 7 million pounds, which might be paid off in one year, without the revenue of the country feeling any material drain; an income so large, that the Executive seeks to reduce it by 10 million dollars: no hereditary aristocracy drawing the life blood from the people's veins; no State Church 'spoiling' the people, as the Israhtes were told to spoil the Egyptians, we are informed, but for a far less excusable motive: no paupers and no poor rates worth mentioning: no foreign interests predominant in legislation: no war undertaken for the interests of an alien descended family: no decay, no decline, no threatened ruin: but, on the contrary, prosperity, wealth, economy, happiness and contentment. That is what they have there.

Why is this difference? Because in the one country there is a franchise restricted to one-seventh of the population, one half of which seventh returns seven-tenths of the representation; combined with that useless, mischievous and ridiculous institution called a monarchy." Because in that country there is Universal Suffrage, and a republic. That is the difference between the two institutions as shown in their results. Could there be a more striking statement on the relative value of the two?

President Pierce's last message just given to the world presents a picture of prosperity and good government—such as no other country in the world can show."

Gambling in London.

The Court of Queen's Bench, in London, was recently the scene of an extraordinary trial, in which some startling disclosures were made. The action was brought to recover the sum of two thousand pounds, which the plaintiff alleged was due to him upon a bill of exchange—the bill was drawn by the defendant in gambling house; and the defence was, that the bill was not at a game of hazzard. John Saltbottom, the defendant, having been called, testified as follows:

I am a partner in the firm of "Saltbottom & Co., cotton manufacturers at Manchester. In 1846 or 1847, I came to London. At first I had an allowance from my father. I was twenty-seven or twenty-eight years of age. I assisted my father in his business at Manchester as a general merchant, and had an allowance of £300 a year. I came to London on a visit, and after a few weeks I met the acquaintance of James Atkins. I was taken to his house by, I believe, a person named Hammond. Atkins kept a gambling house in Albemarle street, called the "Berkeley." I went there in the evening. The game of hazzard was going on. Atkins was acting as the banking partner, and was sitting at the table near the bank. There were two bankers, called croupiers. Atkins was seated at a small table in the corner of the room. He was taking the general management of the house. They almost always played with counters. The croupiers gave out the counters—they gave money for them. The croupiers asked Atkins if they were to give the counters, and, if he consented, they gave counters in exchange for IO U's.

On the first occasion I lost £8,000. (Sensation.) I think it was in 1847. I think that was the first night, but I might have been there once or twice before. I went there two or three times a year. I think this was in 1847. I made a visit to London in the following year, and on these visits I went to the "Berkeley." At this time I was in business, and I was managing on almost every occasion. I went there, down to 1852 or 1853. In all I played for five or four months. I lost from £25,000 to £26,000.

Another witness testified that he had three were frequently used at gambling tables; also, what he called "code despatches." These latter are in front of the table, at the rate of about fifty to one. A dead match has two sides—double fours, double fives and double sixes.

The plaintiff was the principal witness called to prove his own, and proved to the satisfaction of the jury that, when the bill was indorsed to him, he had no notice that it was given for money, lost at play. The jury found for the plaintiff.

ELECTION RIOTS IN CANADA.—The Canadian papers have been swift to denounce the recent disgraceful election riots in several places in the United States. It seems, however, that they are not altogether guiltless in Canada in this matter. At Hamilton, a few days since, a municipal election took place, of which the *Banner* of that city says:

"The scene witnessed at the nomination in St. Andrew's ward was the most motley and disorderly we ever had the misfortune of seeing. No person could get a hearing save Messrs. Langan, Brown and Devany. Our most respectable citizens were groaned and hooted at by a deafish ferocity, by a congregation specially picked for that purpose. From the results it will be seen that very few votes were polled in St. Andrew's ward, during the entirety the polling place was beseiged by an organized gang of ruffians; whose menacing attitude intimidated many an honest elector from the exercise of his franchise.

ABUSE OF THE PARDONING POWER.—A few of the black-republican journals of New York appear to be heartily ashamed of the wanton and shameless abuse of the pardoning power by their late governor, Myron H. Clark. The New York Times says:

"We have before announced, as an item of news, that one of the men whom Gov. Clark pardoned out of the State prison had committed an assault with a slung shot upon a man who was reported to be considered in danger. The man has since died, and the coroner's jury have rendered a verdict that he came to his death by blows inflicted by three men, one of whom was Bernard Rooney. This is the man who had served at least than two years of the ten to which he was sentenced for a rape, when Gov. Clark let him out of the State prison, just before going out of office himself. We shall, we fear, soon hear of other acts of violence from some of the other felons whom the governor in his ill-advised clemency set at liberty."

A GOOD SENTIMENT.—The President elect was unable to attend the celebration of the battle of New Orleans by the Tammany Society of New York, but sent the following toast:

"The friends of the Union North—the friends of the Union everywhere: They have fought a good fight, they have kept the national faith, and they have won for themselves an imperishable meed of glory."

SOMETHING OF AN INCOME.—It is estimated that one of the rich men of New York has now a "regular income" of $8,000 a day; or about $2,900,000 a year. Out of this he can probably manage with economy, to "lay aside against a rainy day" the respectable sum of a million a year. Add to this another million by the rapid appreciation of his real estate, and we have an annual increase of wealth for this individual, amounting to two millions of dollars. Wm. B. Astor is that gentleman.

THE INTERNAL MACHINE.—The N. Y. Journal of Commerce, reaffirms its statement of the invention of a wonderful machine for annihilating armies, ships, &c. It says:

We do not at hearts to give particulars, but so much as this we will say, viz: that there is such a machine as was alluded to (by a correspondent) in our paper, and further, that we have seen testimonials, bearing signatures of some of the most distinguished military and naval officers of this country and Europe, certifying to its terribly destructive power. We did not publish the statement until we had asked and obtained an interview with the writer, and ascertained that there was no humbug about the matter. Of course, we did not undertake to say that the very sanguine anticipations of the inventor (a Yankee, now in Europe) and his agents as to the success of the invention, both pecuniarily and otherwise, will be realized; or that they will not be. Time will settle that point.

THE POPULAR VOTE FOR PRESIDENT.—Since California has been received we are enabled to give the official vote of the Union for President, thus:

James Buchanan,	1,860,125
John C. Fremont,	1,338,671
Millard Fillmore,	192,946
Buchanan over Fremont,	522,454
" " Fillmore,	967,179

☞ It appears that the coin extracted from the mines of Pennsylvania the last year has been equal to the sum of forty millions of dollars, which is well up to the yield of the gold mines of California.

Every Reader

WILL please notice the advertisement of Mr. Sears' Pictorial Family Bible, and send for the printed catalogue of all our illustrated works.

To the uninitiated in the great art of selling books, we would say, that we present a scheme for money making, far better than all the gold mines of California and Australia.

Any person wishing to embark in the enterprise, will risk little by sending to the publisher $25, for which he will receive sample copies of the various works, (at wholesale prices,) carefully boxed, insured, and directed, affording a very liberal percentage to the agent for his trouble. With those he will soon be able to ascertain the most saleable, and order accordingly. Address, post paid, ROBERT SEARS,

Prospectus for 1857.

The Saturday Evening Post.

Established August 4th, 1821.

THE publishers of this old and firmly established paper take pleasure in calling the attention of the public to their programme for the coming year. Surfeited with politics, the claims of literature will be more than ever appreciated by the reading world. We have therefore already made arrangements with the following brilliant list of writers:

William Howitt (of England,) Alice Cary, T. S. Arthur, Mrs. Southworth, Augustine Duganne, Mrs. M. A. Denison, the author of "Zillah," &c.

We design commencing, in the first number in January next, the following original Novelet:

Tallengetta, or the Squatter's Home.

By William Howitt, author of "Rural Life in England," "Homes of the Poets," &c.

This is a story of Australian Life, Mr. Howitt having visited Australia expressly with the object of acquainting himself with the novel and romantic aspects under which nature and society present themselves in that singular region.

The following Novelets will then be given, though probably not in the exact order here mentioned:

The Story of a Country Girl.

By Alice Cary. An original Novelet, written expressly for the Post.

The Withered Heart.

An original Novelet, written expressly for the Post, by T. S. Arthur.

Lighthouse Island.

An original Novelet, by the author of "My Confession," "Zillah, or the Child Medium," &c., &c.

The Raid of Burgundy.

A tale of the Swiss Cantons. An original Novelet, by Augustine Duganne, author of "The Lost of the Wilness," &c.

We have also the promise of a short and condensed

Novelet, by Mrs. Southworth,

to run through about six or eight numbers of the Post.

In addition to the above list of contributions, we design continuing the usual amount of Foreign Letters, Original Sketches, Choice Selections from all sources, Agricultural Articles, General News, Humorous Anecdotes, view of the Produce and Stock Markets, the Philadelphia Retail Markets, Bank Note List, Editorials, &c., our object being to give a complete record, as far as our limits will admit, of the Great World.

ENGRAVINGS.—In the way of Engravings, we generally present two weekly—one of an instructive, and the other of a humorous character.

The postage on the Post to any part of the United States, paid quarterly or yearly in advance, at the office where it is printed, is only 26 cents a year.
